F. B. PEACOCK,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th June 1885.—A competitive examination of candidates for appointment to the Opium Department will be held in January 1886, at which Europeans whose names have been, or may from time to time be, enlisted under the orders of the Lieutenant-Governor as selected candidates for appointments in that Department, will be permitted to present themselves. It will be understood that one-fourth of the appointments in the Opium Department is reserved for "natives of India." These appointments are made by selection, and are not affected by these rules.

2. A certificate of health and physical fitness by a Government medical officer will be required from each candidate, who should also furnish a copy of his baptismal certificate. In the absence of a baptismal certificate, sufficient evidence as to age should be forwarded with the application for admission to the examination. No one whose age on the date of the examination exceeds 25 years will be allowed to appear.

3. Applications for admission to the examination, accompanied by the necessary certificates and a fee of Rs. 10, must be sent, not later than the 1st December next, to the Under-Secretary in the Appointment Department.

...e time and place of examination, and the number of vacancies likely to be filled ... notified three months before the date of examination.

...e examination will be by written questions and answers.

...he subjects of examination will be as follow :—

FIRST DAY.

Morning.

A short essay on some easy every-day subject to be selected by the Examiners and given out at the time of the examination.

Time allowed—2½ hours.

Afternoon.

English History and Literature, and Elementary Indian History. The text-books for this portion of the examination will be Miss Edith Thompson's History of England, being volume II of the Historical Course for Schools, edited by E. A. Freeman, D.C.L., and Part III of Wheeler's Short History of India.

Time allowed—3 hours.

SECOND DAY.

Morning.

Hindustani (Urdú) in the Persian character, including reading at sight, with tolerable fluency, some easy printed book; short translation from English into Hindustani; and conversing intelligibly with a native of India.

Time allowed—2½ hours.

Afternoon.

Geography, Asia (specially India) and Europe.

Time allowed—2½ hours.

THIRD DAY.

Morning.

Arithmetic, including compound proportion, simple interest, and vulgar and decimal fractions.

Algebra to Quadratic Equations, inclusive.

Time allowed—3 hours.

No books of any kind will be allowed at the time of examination.

7. The maximum number of marks for each subject will be as follows :—

English	200
Arithmetic and Algebra	300
Hindustani and Geography (150 for each branch)	300

Passing marks will be one-half of the full number of marks allowed for each subject. Those candidates who obtain the highest aggregate number of marks will receive the appointments which may fall vacant during the year in the order in which they pass the examination.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

NOTIFICATION.

[First Publication.]

NOTIFICATION.

The 27th June 1885.—The following Notice to Mariners is published for genera information.

J. WARR EDGAR,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 38.)

AUSTRALIA—SOUTH COAST.

VICTORIA.

Removal of facilities for the Navigation of Port Philip in case of war.

WITH reference to Notice to Mariners, No. 27, dated the 22nd May 1885, issued from this Department, the Government of India has received further notice from the Hon'ble the Premier of Victoria regarding the probable restriction of the existing facilities for the navigation of Port Philip.

Masters of vessels and others are hereby informed that it may be necessary for the safety of the port and the protection of life and property to, at any moment, remove the facilities now afforded for the safe navigation of Port Philip.

As a warning that such steps have been taken, and that no vessels will be permitted to enter Port Philip Heads between sunset and sunrise, the *Points Lonsdale* and *Queenscliffe* high and low lights will be *extinguished*.

The master or pilot of any vessel entering Port Philip Heads between sunrise and sunset will be informed by the officer stationed at Queenscliffe whether he may proceed through the channel, or whether he must be piloted by a duly licensed pilot specially instructed. Immediately after the foregoing lights have been extinguished, the following action will be taken.

The lights in the South and West Channels will also be extinguished.

BUOYS.

The present system of buoyage in the South, West, and Cole's channels will be either entirely *removed* or *displaced*, rendering the navigation therein dangerous, excepting to duly licensed pilots specially instructed, who alone will be advised of existing dangers, and of the guiding marks which will, from time to time, be established for the purpose of facilitating the safe navigation of such channels during *daylight*.

PILOTAGE.

Vessels are prohibited from entering Port Philip Heads between sunset and sunrise.

No vessels will be permitted to enter Port Philip Heads between sunset and sunrise. The pilot schooner will be withdrawn from the outside station from sunset to sunrise, but provision will be made for cruizing outside and piloting vessels between sunrise and sunset only.

CAUTION—ELECTRIC LIGHTS.

At the present juncture the Defence Department may at any time exhibit one or more electric lights from the vicinities of Queenscliffe and Point Nepean. Such lights will be at least 60 feet below any of the present lights, and must not be taken as guiding lights, as they will be dangerously misleading for navigating purposes, their object being a means of guarding the entrance to Port Philip.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 25th June* 1885.

[First Publication.]

ERRATUM.

The 29th June 1885.—In schedule B appended to the rules made by the Lieutenant-Governor under the Inland Emigration Act, I of 1882, published in Part I of the *Calcutta Gazette* of the 2nd January 1884, page 48, the following correction should be made in the columns "Daily allowance to each emigrant of and above ten years of age" and "Daily allowance to each emigrant between two and ten years of age," viz. against the item "chillies" in the first column named, *for* "$\frac{1}{4}$ chittack" *read* "$\frac{1}{16}$ chittack," and in the second column named, *for* "$\frac{1}{8}$ chittack" *read* "$\frac{1}{32}$ chittack."

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

NOTIFICATION.

ne 1885.—In exercise of the powers conferred upon him by section 19 of est Act (Act VII of 1878), the Lieutenant-Governor hereby declares the below (which, on the 19th June 1883, were notified as proposed reserves) orests with effect from the 1st July 1885 :—

Pergunnah or other sub-division.	Name of forest.	Boundaries.

NOTICE TO MARINERS—(No. 33.)

CEYLON—WEST COAST.

Sunken Rocks between Pantura and Caltura.

THE British Admiralty notifies that the following information, of the existence of certain sunken rocks lying one and half to three miles off shore between Pantura and Caltura, West coast of Ceylon, has been received from the Naval Commander-in-Chief on the East India Station :—

A rock (*Nilkete rock*) with a depth of two fathoms, and on which the wreck of the steam-ship *Justitia* was lying, is situated in latitude 6° 41′ 00″ N., longitude 79° 52′ 50″ E., about 1½ miles from the nearest shore.

A rock, with four fathoms over it, lies W. N. W. from Nilkete rock, distant half a mile. Two small rocks, with depths of three fathoms, lie S. by W. from Nilkete rock, at the distance of about three cables.

A rock (*Kaluwattegala rock*), with a depth of 3½ fathoms, lies about 2½ miles off shore, in latitude 6° 38′ 00″ N., longitude 79° 58′ 15″ E.

A rock (*Veyangala rock*), with 5½ fathoms on it, lies W. N. W. from Kaluwattegala rock, distant about six cables.

NOTE.—Vessels navigating in this locality should use caution and keep outside the 10-fathoms line.

The outer rock off Pantura, shown as one of the Pantura rocks, is named *Gonagala rock*; the rocks in shore of that, are the Pantura rocks.

The bearings are Magnetic.

PERIM ISLAND.

Occulting light on Obstruction point.

THE Bombay Government has given notice that a subsidiary light is now exhibited from a small tower recently erected on Obstruction point to prevent vessels running on the shoal ground which extends on the Eastern side of Perim island.

The light is an *occulting white* light, and will show through an arc of 185° or between the bearings of N. W. by N. ½ N., through West and South, to S. S. E., and will be visible in clear weather from a distance of 14 sea miles.

The *occultation* lasts for *one second*, and the light is visible for *seven seconds*.

The light, which is on an octagonal masonry tower, 30 feet high and of a grey colour, is elevated 110 feet above high water.

The illuminating apparatus is *dioptric* or by lenses of the *fourth order*.

Note.—The light, when seen on a S. S. E. or N. W. by N. ½ N. bearing, is dim.

Position as given :—Latitude 12° 39′ 14″ N., longitude 43° 25′ 25″ E.

The bearings are Magnetic and from seaward.

CALCUTTA SMALL CAUSE COURT.

NOTICE

Regarding Processes and Decrees sent to the Court of Small Causes of Calcutta under Sections 86, 223, and 225 of the Code of Civil Procedure.

IN accordance with an order from the High Court of Judicature in Bengal, dated 17th June 1885, the notice regarding the above matter, dated the 16th July 1884, and published in the *Calcutta Gazette* of the 23rd July 1884, is hereby withdrawn.

By order of the Court,
C. Y. C. BOLST,
Clerk of the Court.

COURT OF SMALL CAUSES OF CALCUTTA,
The 27th June 1885.

EDUCATIONAL NOTICES.

Subordinate Educational Service.

The 22nd June 1885.—Moulvi Abdul Rahim, Deputy Inspector of Schools, Patna, (class IV), is allowed leave of absence for one month, under section 72, chapter V of the Civil Leave Code, with effect from the 4th June 1885.

The 23rd June 1885.—Baboo Harabans Sahay, Sub-Inspector of Schools, Mozufferpore, (class VII), is appointed to be Sub-Inspector of Schools, Patna, *vice* Baboo Ishwari Prasad Chaudhuri, transferred.

Munsni Jamman Ram, Sub-Inspector of Schools, Gya (officiating in class VII), is appointed to be Sub-Inspector of Schools, Shahabad, *vice* Baboo Raghu Nath Sahay, transferred.

The 24th June 1885.—Baboo Dwarka Nath Banerjea, Sub-Inspector of Schools, Dinagepore (class VI), is allowed leave of absence for three months, under sections 128 and 129, chapter X of the Civil Leave Code, in extension of that granted to him under the orders of the 17th March last.

The leave of absence for three months, under section 72, chapter V of the Civil Leave Code, granted to Baboo Dwarka Nath Banerjea, Sub-Inspector of Schools, Dinagepore (class VI), under the orders of the 17th March last, is commuted to leave of absence under sections 128 and 129, chapter X of that Code.

Mr. J. D'Silva, Eighth Assistant, Office of the Director of Public Instruction (class VII), was on leave of absence from the 14th April to the 28th May 1885, both days inclusive, under section 72, chapter V of the Civil Leave Code.

The 25th June 1885.—Mr. H. Collie, Head Assistant to the Director of Public Instruction (class II), is allowed leave of absence for one month, under section 72, chapter V of the Civil Leave Code, with effect from the 3rd June 1885.

Erratum.—In the orders of the 7th June 1885, published in page 600 of the *Calcutta Gazette* of the 17th idem, appointing Munshi Mahammad Jan, Sub-Inspector of Schools, Gya, to officiate in class VII, *vice* Baboo Becharam Ganguli, on deputation, *read* "Jamman Pam" *for* "Mahammad Jan."

CHARLES H. TAWNEY, *Offg. Director of Public Instruction.*

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Second publication.]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 10th June, 1885, and was referred to a Select Committee :—

No. 11 OF 1885.

A Bill to amend the Indian Registration Act, 1877.

WHEREAS it is expedient to amend the Indian Registration Act, 1877, in manner hereinafter appearing; It is hereby enacted as follows :— III of 1877

Short title and commencement.

1. *(1)* This Act may be called the Indian Registration Act, 1885; and

(2) It shall come into force at once.

Amendment of sections 17 and 50 of Act III of 1877. III of 1877

2. *(1)* After clause *(f)* of section 17 of the Indian Registration Act, 1877, the following clause shall be inserted, that is to say :—

"*(ff)* any debenture issued by any such company and not creating, declaring, assigning, limiting or extinguishing any right, title or interest to or in immoveable property except in so far as it entitles the holder to the security afforded by a registered instrument whereby the Company has mortgaged, conveyed or otherwise transferred the whole or part of its immoveable property or any interest therein to trustees upon trust for the benefit of the holders of such debentures, or".

(2) In the second paragraph of section 50 of the same Act, "*(ff)*" shall be inserted between "*(f)*" and "*(g)*".

Amendment of sections 17, 50, 58 and 89 of same Act.

3. *(1)* After clause *(l)* of section 17 of the same Act the following clause shall be added, that is to say :—

"*(m)* orders granting loans under the Agriculturists' Loans Act, 1884, and instruments for securing the repayment of loans made under that Act." XII of 1884.

(2) In the second paragraph of section 50, for the word and letter "and *(l)*" the letters and word "*(l)* and *(m)*" shall be substituted.

(3) In section 58 of the same Act, for the words "or a copy of a certificate under the Land Improvement Act, 1871, sent by the Collector to be registered," or, where the Land Improvement Loans Act, 1883, is in force, for the words "or a copy of an order under the Land Improvement Loans Act, 1883, sent by the Collector to be registered," there shall be substituted the following words, namely :— XXVI of 1871. XIX of 1883. XIX of 1883

"or a copy sent to a registering officer under section 89".

(4) After the second paragraph of section 89 of the same Act the following paragraph shall be inserted, that is to say :—

"Every officer granting a loan under the Agriculturists' Loans Act, 1884, shall send a copy of any instrument whereby immoveable property is mortgaged for the purpose of securing the repayment of the loan, and, if any such property is mortgaged for the same purpose in the order granting the loan, a copy also of that order, to the registering officer within the local limits of whose jurisdiction the whole or any part of the property so mortgaged is situate, and such registering officer shall file the copy or copies, as the case may be, in his Book No. 1." XII of 1884

Amendment of sections 90 and 91 of same Act.

4. *(1)* After clause *(d)* of section 90 of the same Act the following clause shall be inserted, that is to say :—

"*(e)* notices given under section 74, or section 76, of the Bombay Land-revenue Code, 1879, of relinquishment of occupancy by occupants, or of alienated land by holders of such land". Bom. Act V of 1879.

(2) In section 91, for the word and letter "and *(c)*" the letters and word "*(c)* and *(e)*" shall be substituted.

(3) The said Act shall be construed as if the amendments made in it by this section had been made at the time the Act came into force.

STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are three :—

(*1*) to except mortgage-debentures secured by a registered trust-deed from those provisions of the Indian Registration Act, 1877, which either require that such debentures shall be registered, or, where their registration is optional and they are not registered, give precedence over them, as regards the property on which they are secured, to any registered instrument relating to the same property ;

(*2*) to place instruments whereby immoveable property is mortgaged as security for the repayment of loans under the Agriculturists' Loans Act, 1884, on the same footing, in regard to registration, as certificates or orders granting loans, and instruments of collateral security, under the Land Improvement Act, 1871, or, where the Land Improvement Loans Act, 1883, is in force, under that Act ;

(*3*) to exempt from registration notices given under sections 74 and 76 of the Bombay Land-revenue Code, 1879, of relinquishment of occupancy by occupants and of alienated land by holders of such land.

2. As regards the first matter, it was represented to the Government of India in 1884 that the heavy expense and trouble entailed on the issue of mortgage-debentures by the joint operation of the Stamp Act and Registration Act practically prevented their being issued. The stamp-duty payable on such debentures has since been remitted, and it seems to the Government of India that, if the trust-deed by which such debentures are secured is registered, the debentures, provided they do not implicate any property beyond that comprised in the trust-deed, and do no more than give effect to the arrangement made by the trust-deed, may well be exempted from registration.

3. The second amendment proposed calls for no explanation. The third seems to be justified on the ground that there is apart from the Registration Act, a complete official record of the surrenders in question, and that to require in addition that they should be registered under that Act would entail unnecessary trouble and expense on all concerned.

RESOLUTION ON THE REPORT OF THE COMMITTEE APPOINTED TO ENQUIRE INTO THE SYSTEM OF ENGAGING NATIVE SEAMEN IN CALCUTTA.

MUNICIPAL DEPARTMENT.—MARINE

Darjeeling, the 19th June 1885.

RESOLUTION.

READ—

A Report dated 10th July 1884, from Mr. W. H. Grimley, President of the Committee appointed to inquire into the system of engaging native seamen in Calcutta.

The Bengal Chamber of Commerce, when commenting on the provisions of a Bill for the amendment of the Merchant Shipping Act, brought to the notice of the Government the defects in the present system of engaging lascar crews in Calcutta, and suggested several remedial measures, among which was the introduction into Calcutta of the "continuous discharge" system which is in force at Bombay. The Lieutenant-Governor consulted the Board of Revenue and other authorities concerning the Chamber's remarks; but the subject proved to be one of considerable difficulty, and called for special inquiry at the hands of persons specially conversant with it. Accordingly, Sir Rivers Thompson appointed a small Committee in February 1883 to inquire into and report on the subject. Owing, however, to the absence of some of the members and other circumstances, a delay occurred, and the Committee as originally constituted was modified. The final composition of the Committee

RESOLUTION ON THE REPORT OF THE COMMITTEE APPOINTED TO ENQUIRE INTO THE SYSTEM OF ENGAGING NATIVE SEAMEN IN CALCUTTA.

MUNICIPAL DEPARTMENT.—MARINE.

Darjeeling, the 19th June 1885.

RESOLUTION.

READ—

A Report dated 10th July 1884, from Mr. W. H. Grimley, President of the Committee appointed to inquire into the system of engaging native seamen in Calcutta.

The Bengal Chamber of Commerce, when commenting on the provisions of a Bill for the amendment of the Merchant Shipping Act, brought to the notice of the Government the defects in the present system of engaging lascar crews in Calcutta, and suggested several remedial measures, among which was the introduction into Calcutta of the "continuous discharge" system which is in force at Bombay. The Lieutenant-Governor consulted the Board of Revenue and other authorities concerning the Chamber's remarks; but the subject proved to be one of considerable difficulty, and called for special inquiry at the hands of persons specially conversant with it. Accordingly, Sir Rivers Thompson appointed a small Committee in February 1883 to inquire into and report on the subject. Owing, however, to the absence of some of the members and other circumstances, a delay occurred, and the Committee as originally constituted was modified. The final composition of the Committee

was as follows:—Mr. W. H. Grimley, C.S., President, and Mr. H. B. H. Turner, Captain Brebner (the Shipping Master of Calcutta), and Mr. A. D. Larymore, Members. The Committee sat during January and February 1884. They examined a number of witnesses, and also made inquiries of shipping firms, captains, and other persons interested in, and acquainted with, the subject. They have submitted a full and well considered report, and the Lieutenant-Governor thanks them for the care they have bestowed on this question of public interest.

2. Under Act I of 1859, section 4, it is the business of the Shipping Office to superintend and facilitate the engagement and discharge of seamen, and provide means for securing the presence on board at the proper times of the men engaged. In these operations the Shipping Office, with its limited staff, is unable to deal with the crews directly, and calls to its aid certain middlemen who are called licensed shipping brokers. At present these brokers are four in number. They have given security and obtained a license, and as their remuneration they receive 5 per cent. on advances, and eight annas per head for each man engaged or paid by the ship. Each broker has in his employ a number of assistants who are called sircars or runners.

3. The present system of engaging native crews in Calcutta is this. On receiving information of the wants of a ship, the brokers collect a number of serangs and lascars either at the Shipping Office or on board. The serang is first selected and then the crew; but in most cases the selection of the crew is left to the serang. The conditions of the agreement are made known to the crew, and an advance is given to each man by the broker, who is provided with the necessary funds. The payment of the advance at this stage, however, is a mere form, for the broker takes it back, after the articles are signed, in order to keep a hold over the men. His sircars afterwards visit each man at his home, and pay over the advance to the lascar's relatives or the boarding-house keepers who stand security for him. Twenty-four hours before the time fixed for joining the vessel, the sircars go round to the men and take their clothes, &c. to be conveyed on board. If the lascar evinces any disinclination, the broker takes special care to ship him on board, with the aid of the police if necessary. This method prevails in almost all the Shipping Agencies, with the exception of the British India Steam Navigation Company, who have numerous vessels constantly visiting the port, and who employ their own paid ghát serangs to procure the crews. The discharge takes place either at the Shipping Office or on board the vessel, and consists in paying each man his wages and giving him a certificate of discharge. Here, too, the payment is a form, for each man without demur hands over his money to the ship's serang, who subsequently distributes it among the crew according to private arrangements that have been made between them.

4. That serious defects exist in this system is universally acknowledged, the chief of which is that it frequently fails to secure the presence on board at the proper time of the crew engaged. For these defects the Chamber of Commerce hold the brokers responsible, charging them with despotic treatment and yet ineffective control over the lascars, and with corrupt interference with the lascars' wages. The Committee's inquiries, however, do not altogether substantiate these allegations. The lascars come from various parts of India and other countries; they do not live in one place, but are scattered about all over Calcutta and the Suburbs; and there are many avenues to employment open to them both in the port and in the places of business and manufacture in the town. All this tends to weaken the hold which the brokers might otherwise have on the lascars, and while the control exercised by the former is undoubtedly ineffective, it is very unlikely that they are able to treat the lascars in the high-handed way that has been supposed.

5. According to the Committee, the person who exercises undoubted authority over the lascars is the ship's serang. His voice is potential in the selection of the crew, and he is their spokesman at the time of the engagement. As he leads, so they implicitly follow. His influence is attributed to the observance of custom and that feeling of clan[illegible] that characterize all relations in this country, while it is undeniably to the lascars' advantage to stand well with the serang when on board, even at some expense to their pockets. He thus establishes various claims against each lascar, and it is

in order to adjust these that the pay of the whole crew passes into his hands at the time of discharge. This practice is not, it seems, considered a grievance by the lascars, but they accept it as a customary transaction.

6. In fact, it would even appear that the rate of pay which the lascar really receives does not follow the terms of the agreement, but is arranged between him and the serang. Out of the sum so bargained for, the lascar has to meet the claims of the boarding-house keeper, the surety, and the broker's men, besides providing for his family, and it is upon the adequacy of the wages to meet all these demands that his attendance on board or his desertion depends. These bargains and demands constitute a serious burden, and are the cause that the desertion of engaged lascars and the supply of substitutes is a matter of such constant occurrence and complaint. Until the position of the lascar is ameliorated, there appears to be no way of checking the practice of giving substitutes. The only deterrent at present is the fear of prosecution, and this is but a weak one; for the broker cannot prosecute a deserter without authority from the ship's officers or the shipping firm, and the trouble incurred, and the loss of time and money, dissuade all parties from adopting stringent measures as long as a substitute has been supplied. It happens, besides, that the fact of desertion is often concealed by a practice among the serangs of providing substitutes and making them answer to the names of the absentees. This practice also defrauds the Shipping Office of its fees. These remarks, however, fully apply to individual cases of desertion alone, for the Committee have found that the cases of desertion *en masse*, to which reference was made by the Chamber of Commerce, are special, and as a rule occur only in the cases of the British India Steam Navigation and Asiatic Steam Navigation Companies, which have running agreements with their crews for six months, but pay them up their full wages on the return of the vessel to Calcutta, in order to close the vessel's accounts for the voyage. It is scarcely a matter of surprise that the crews having obtained their pay and leave from the ship should sometimes fail to rejoin. Fees have, of course, to be paid in such cases upon the re-engagement of a crew, and gratifications go to all those whose claims the lascar has learnt to recognize. Here, however, it seems to the Lieutenant-Governor that the remedy lies in the hands of the Companies themselves, and if they retain their present procedure, it must be because the advantages more than counterbalance the disadvantages. Excluding all cases of substitution and failures of crews to rejoin, the desertions of individual lascars under advance are estimated not to exceed 7 per cent of the engagements.

7. The evils of the present system therefore lie not so much in the fact that the lascars desert, for their places are almost always filled up by substitutes, as in the fact that, however careful the master may be in the selection of his crew, his arrangements are always liable to be upset by the machinations of the serang, and he has no assurance that the crew he will ultimately get will answer his expectations. To remedy these evils, the Chamber of Commerce have put forward four proposals, namely—

(1) The withdrawal of the brokers' licenses;

(2) The payment of advances, not in cash, but by advance notes payable on the sailing of the vessel with the lascar on board;

(3) The reorganization of the Shipping Office upon the English model; and

(4) The adoption of the Bombay plan of "continuous discharges."

8. The practice in England is that the master requiring a crew goes to the Shipping Office, having previously made an appointment; seamen wanting a vessel go to the same place, and there are always plenty of men available. The master makes his selection, the terms are agreed upon, the fees paid, and the articles signed. An assistant of the Shipping Master, called a "runner," takes down each man's name and address, and at the time of sailing proceeds on board, musters the crew, and provides substitutes for absentees from among men who accompany him for that purpose. After the vessel has sailed, the runner waits upon the owner of the ship and prosecutes the absentees if so desired. It is stated that the certainty of prosecution and conviction is the chief safeguard against desertion.

9. This system does not differ very materially from that obtaining in Calcutta, except that the broker is eliminated. In England seamen's quarters

are generally in the neighhourhood of the shipping, and the men look out for work independently of one another. In Calcutta, however, the circumstances, as already noticed, are quite the reverse. The Committee do not consider that the adoption of this system would secure any improvement, and the Lieutenant-Governor concurs with them. The broker can be made responsible for abuses detected. His elimination would merely distribute the responsibility among a large number of individuals of the class of the present sircars, over whom no effective control could be exercised. The Chamber's first proposal would therefore, it seems, entail either the introduction of the English system (which is their third proposal) or the replacement of the brokers by paid ghât serangs. The English system, as already remarked, is not adapted to the circumstances of Calcutta, and the third proposal is therefore unadvisable. The second of the above alternatives would not suit the needs of the majority of the shipping firms which, unlike Messrs. Mackinnon, Mackenzie and Company, cannot provide constant employment for paid serangs, and would object to be deprived of the services of the licensed brokers; while there would be less ground to expect probity among serangs who are a poorer and less educated class than the licensed brokers. The Committee are not prepared, therefore, to recommend the abolition of the brokers, and this conclusion appears to the Lieutenant-Governor to be a sound one. The second proposal is also rejected by the Committee as impracticable. They point out that the lascar could not get the note cashed except at a heavy discount, and they consider, rightly in the opinion of the Lieutenant-Governor, that he would be unwilling to engage on such terms.

10. The Bombay plan of "continuous discharges" is the last proposal that the Chamber advocates. Its chief features are thus described by the Committee:—

> When a native seaman is engaged, a certificate is filled in with particulars which are carefully ascertained in the Shipping Office of his age, height, and the marks on his person. The reverse of the certificate contains columns for showing the name of the ship, the dates of engagement and discharge, the character of the man as certified in the ship's log, &c. After the man's measure has been taken, and the distinguishing marks on his body ascertained, and these particulars have been noted in the certificate, the licensed shipping broker, who is in attendance, pays the advance, having previously warned the man that the serang has nothing to do with his wages in any way, and that it is not to the serang to whom he will in the future be indebted for a ship, but to his own discharge certificate, which will regulate his promotion or degradation, and any increase or reduction of wages consequent thereon. The man's name is then entered in the ship's articles, with the number of his certificate, and he is now allowed to leave, but not to take away the certificate. This, after being copied in a register, is put into a tin box and forwarded on board and placed under lock and key until the time of discharge comes round.
>
> On the arrival of the vessel at the port of discharge, all the tin boxes containing the certificates are taken to the Shipping Office, together with the official log-book; and a clerk takes each certificate and fills in the particulars on its reverse, of the service, name of ship character, &c., and these entries are signed by the master of the vessel and the Shipping Master. The like entries are made in the office register. The clerk then rolls up and returns the document to its proper case indicated by its number on the lid, and calls each man and hands his discharge to him, after which the man receives his wages in the presence of the Shipping Master and goes about his business.
>
> If any lascar is found to have tampered with his certificate, it is taken from him and kept in the Shipping Office until he confesses, and he is then furnished with a fresh certificate with all the particulars corrected and authenticated, for which he has to pay eight annas, which is the charge made in the first instance. The death of any lascar afloat causes the document to be cancelled by writing across it the fact and the date.
>
> There is space on the reverse of the certificate for many entries of discharge, and when all this is filled up, the seaman can obtain what is called a second issue certificate. The face of this second issue gives an analysis of the characters entered on the first issue. This analysis is entered in a "register of second issues" which is kept up in the Shipping Office.
>
> These certificates, after the possessor has made a few voyages, show the exact worth of a man on board. If they show invariably a good discharge, he is engaged without reference to the serang or any other person, but if there is any falling off in ability or conduct, the offer of reduced wages is the inevitable result.

The system has been in force in Bombay for about nine years, and has proved a complete success. The serang is shipped, and each seaman shows his certificate and is rated accordingly, his promotion and wages depending solely on his merits as recorded on his certificate.

11. This system clearly possesses numerous advantages over that in force at Calcutta. Under it a man with a good discharge can be sure of finding

List of Candidates who have passed the Vernacular Mastership Examination in Bengal in 1885.

	Name of Candidate.	School from which he comes.	Total Marks, 550. Marks gained.
	First Grade—(*High*).

DARJEELING,
The 10th June 1885.

CHARLES H. TAWNEY,
Offg. Director of Public Instruction.

NOTIFICATIONS OF THE BOARD OF REVENUE.

No. 538B.

NOTICE is hereby given that the Seventh Sale of Opium, the provision of 1883-84, will be held at the Government Opium Sale-room, No. 2, Bankshall-street, on Thursday, the 2nd July 1885, at 11 A.M., and will comprise 4,166 chests, viz:—

	Chests.
Opium manufactured at the Patna Factory ...	2,000
Do. do. at the Ghasipore Factory ...	2,166
Total ...	4,166

2. The general conditions of the sale now advertised will be the same as usual. They may be ascertained by reference to the Notification issued on the 24th November 1884, and published in the *Government* and *Exchange Gazettes*, or on personal application at the office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 7th and 17th July 1885 respectively—that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room will be received after 3-30 P.M. of Tuesday, the 7th July 1885, and no Bank of Bengal Receipts in full payment of lots will be accepted after 3-30 P.M. of Friday, the 17th July 1885.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of the opium manufactured at the Patna and Ghazipore Factories will be brought to sale in the present year about the dates specified below. The Board of Revenue, however, reserve to themselves the right of altering these dates should circumstances render it expedient to do so.

DATES.	Manufactured at the Patna Factory, about chests.	Manufactured at the Ghazipore Factory, about chests.	Total, about chests.

BOARD OF REVENUE, L.P., CALCUTTA, *the 30th June* 1885.

The Calcutta Gazette.

WEDNESDAY, JULY 1, 1885.

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

NOTIFICATIONS.—ESTABLISHMENTS.

Simla, the 25th June 1885.

No. 186.—Mr. J. F. K. Hewitt is permitted to resign Her Majesty's Bengal Civil Service, with effect from the 16th July 1885, or such other date on which he may sail from India.

MEDICAL.

The 26th June 1885.

No. 298.—*Appointment.*—Surgeon-Major J. Cleghorn, M.D., Civil Surgeon, Allahabad to act as Surgeon-Superintendent of the Presidency General Hospital, Calcutta, during the absence on leave of Surgeon-Major E. A. Birch, or until further orders.

JUDICIAL.

The 20th June 1885.

No. 896.—Her Majesty has been pleased to appoint Mr. Henry Beverley, of the Bengal Civil Service, to be a Judge of the High Court of Judicature at Fort William in Bengal, with effect from the 8th May 1885.

The 25th June 1885.

No. 921.—The Hon'ble H. S. Cunningham, a Judge of the High Court of Judicature at Fort William in Bengal, has obtained privilege leave for two months, with effect from the 17th July, or from any subsequent date on which he may avail himself of the same.

This cancels Home Department Notifications No. 579 of the 7th ultimo, granting Mr. Justice Cunningham furlough from the 15th June to the 15th September, and No. 581 of the same date, appointing Mr. W. E. Hart, Barrister-at-Law, to officiate as a Judge of the High Court during that period.

A. MACKENZIE,
Secy. to the Govt. of India.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

Bhagulpore, the 2nd June 1885. W. H. D'OYLY, Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate situate in the sub-division of Dinapore in the district of Patna will be put up to sale on the spot (at the estate) at 8 A.M. on the 13th July 1885 corresponding with 16th Assar 1292 Fusli.

The purchaser will be subject to the following conditions of sale—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at ,, 2-4 ,,
Under 7 feet at ,, 2 ,,

The above prices are for ordinary building purposes.

For *Planking, Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

Notice.

UNDER instructions received from the Government of the Straits Settlements, employment is offered for three years certain on a combined Trigonometrical and Cadastral Survey of the three Provinces of Singapore, Malacca, Penang, and Province Wellesley, to one competent European or Eurasian Observer on the salary of ($150) one hundred and fifty dollars per mensem, together with the usual local travelling allowance; also to six Native Assistant Observers at ($75) seventy-five dollars with travelling allowance; and to three Plotters and Computers at the same rate of seventy-five dollars. The rate of exchange is about Rs. 225 to $100. Applications (from qualified men only) will be received by the Surveyor-General of India, Simla, to whom testimonials and specimens of drawing may be forwarded.

G. C. DE PREE, Colonel, s c.,
Surveyor-General of India.

Notice.

APPLICATION will be received up to the 6th proximo by the undersigned for the appointment of Assessor under the Bengal License Act, 1880, for five and half months of the official year 1885-86.

Applicants must be capable of reading the accounts of the Marwari traders, must have a good local knowledge of the town of Calcutta, and must also possess a knowledge of English.

The character of applicants must bear the strictest investigation, and no application will be considered unless accompanied by satisfactory references and certificates.

Salary Rs. 150 per mensem.

R. C. STERNDALE,
Offg. Collector under Act II (B.C.) of 1880, Calcutta.
Calcutta Collectorate, the 15th June 1885.

Chota Nagpur, the 23rd June 1885. (314—1)

Notification.

TO be peremptorily sold, pursuant to a decree and order of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction made in suit No. 219 of 1884 (wherein Sreemutty Hurreemotee Dassee, Gopeenath Paul, and Gopaul Chunder Mullick are the plaintiffs and Sreemutty Nitto Cally Dassee and Omiro Lall Dey are defendants), and dated respectively the twenty-ninth of May one thousand eight hundred and eighty-four and sixteenth of March one thousand eight hundred and eighty-five by the Registrar of the said Court, in his sale-room, at the Court-house, on Saturday, the eighteenth of July one thousand eight hundred and eighty-five, at the hour of twelve o'clock at noon, the following property—

All that upper-roomed brick-built messuage-tenement, or dwelling-house, together with the piece or parcel of land or ground thereunto belonging, and on part whereof the same is erected and built, containing by estimation 6 cottahs, be the same a little more or less, situate at and being No. 21, Brindabun Paul's Lane, in Sham Bazar, in the town of Calcutta, and bounded on the north by the tenanted house of Rajendra Nath Paul; on the south by Brindabun Paul's Lane; on the east by the tenanted house of Nundy Loll Mutty Loll; and on the west by the tenanted land of Koylas Chunder Mitter, the Government revenue of which is exempted from payment, as the same is appertaining to the talook Sootanotee.

The abstract of title and conditions of sale may be seen at the office of the Registrar of the High Court in its Ordinary Original Civil Jurisdiction, or at the office of Messrs. Harriss and Simmons, attorneys for the plaintiffs, No. 6, Hastings Street, on any day before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

Harriss & Co., Plaintiffs' Attorneys.

High Court, Original Side, the 3rd day of June 1885. (323—1)

TO be sold in the Court of the Deputy Commissioner and Sub-Judge of Lohardugga, at noon, on the 16th day of July 1885.

The Hassel Tea Estate, consisting of 40 acres of tea land, and 8 acres on which stood a bungalow, factory, and out-offices. The estate is conveniently situated on the Ranchi and Lohardugga road, a little beyond the limits of the Ranchi Municipality

For further particulars and inspection of title deeds, &c., apply to the undersigned.

W. L SAMUELLS, Dy. Comr., Sub-Judge.

Deputy Commissioner's office, Ranchi, the 11th June 1885. (250—4)

INSOLVENT NOTICES.

P. B. ROBERTS, C.E., *Executive Engineer, Nuddea Rivers Division.*

Berhampore, the 29th June 1885.

The following revised advertisement is published in substitution of that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884 :—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat; the copies for subscribers registered by Messrs. Thacker, Spink & Co., are distributed by that firm; and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows :—

Terms of subscription payable annually in advance.

For the complete series, *including postage*, Rs. 22-8.

	Without postage.	With postage.
For the Calcutta Series ...	Rs. 10 0	Rs. 12 8
,, each of the Madras, Bombay, and Allahabad Series ...	,, 6 0	,, 7 0
,, a part of the Calcutta Series purchased separately (*inclusive of postage in India*)	.....	,, 2 0
,, a part of each of the Madras, Bombay, and Allahabad Series purchased separately (*inclusive of postage in India*) ...	.....	,, 1 0

Persons desiring to subscribe for or purchase the Reports should apply to—

Messrs. Thacker, Spink & Co., Calcutta.
,, Thacker & Co., Bombay.
,, Higginbotham & Co., Madras.
The Government Central Book Depôt, Bombay.
,, Curator of Government Books, North-Western Provinces and Oudh.
,, Superintendent of Government Printing, Bengal.

Orders and subscriptions for 1885 *should be at once remitted.*

Notice.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1*st.*—Bay of Bengal Daily Report giving observations taken at 17 stations on or near the coast of the Bay, with a chart and summary This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by peon in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2*nd.*—Bengal Daily Report containing observations taken at 30 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, *i.e.* from May, 15th, to November, 15th. Price Rs. 2-8 per mensem, including postage.

3*rd.*—A Weekly and Monthly Statement of Meteorological Observations taken at 38 observing stations, and of rainfall recorded at 160 sub-divisional stations, together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report, including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

JOHN ELIOT,

Meteorological Reporter to the Govt. of Bengal.
Meteorological Office, Bengal, the 3rd July 1883.

Notes on Forestry,

BY C. F. AMERY,

Deputy Conservator, Forests, N.-W. Provinces.

employment, and become practically independent of the licensed broker and ghât serang. The loss of the certificate that will inevitably follow desertion, since it is kept on board, must diminish the number of absentees, and the careful record of each lascar's appearance must facilitate his arrest in the event of desertion. An objection was raised that the system was merely the revival of the old plan of register tickets which had proved inoperative both in England and India; but the Committee find from an examination of the history of the registry system that it was done away with solely from reasons connected with its working in the case of European sailors, and without any reference to native seamen; so that the argument that that system had failed in regard to lascars falls to the ground. The Committee recommend that the Bombay system should be tried in Calcutta.

12. The Committee have also made a number of valuable suggestions connected with the introduction and working of the system. They do not recommend that the practice, at the time of engagement, of each man's returning his advance to the broker should be absolutely forbidden; for the broker, being responsible to the ship's agent for the amount advanced, should be allowed to make the best arrangement he can to guard against loss. But they would absolutely discountenance and put down as far as possible the similar transaction that takes place at the time of discharge. The Committee would also insist on prosecutions being instituted in every case except on good cause shown to the satisfaction of the Shipping Master; and in order to obviate the present difficulties and inconveniences, they recommend that the Shipping Master and his Deputy and Assistant should be vested with magisterial powers to dispose of case of desertion summarily, and that the present high fee for arrest be abolished. Lastly, they recommend that the system of licensing boarding houses for native seamen should be re-enforced as a useful auxiliary to the continuous discharge system. After falling into temporary disuse, it was revived in 1880 with the object of checking the practice of giving substitutes; and for that end the keeper of the house was required to keep up a register regarding the native seamen admitted and their movements. The police were directed to inspect these registers, but their supervision, in the absence of materials for testing the registers, could effect no check. Such materials under the continuous discharge system will be found in the Shipping Office, and the Committee recommend that the scrutiny should be made there.

13. The Lieutenant-Governor generally concurs in the Committee's views, and is of opinion that the Bombay system should be introduced at Calcutta. It must, however, be introduced, as the Committee observe, on the voluntary principle. Government cannot make it compulsory by enactment. It must be left to the good sense of the Shipping Companies to make the possession of a "continuous discharge" an indispensable condition of employment; and if they and the masters of vessels set a value on the certificate, the lascars will soon learn to do the same. Success will depend on the co-operation of the Companies. Messrs. Mackinnon, Mackenzie and Company, who now employ their own ghât serangs, would be especially concerned with the change; but all Companies would need to forego the present practice of shipping and discharging crews on board. This practice has its conveniences; but unless it is relinquished and the shipment and discharge are conducted at the Shipping Office, it would be impossible, at the inception of the scheme at least to carry out the details connected with the certificates. Afterwards, when the arrangements are in good working order, it might be possible to renew the concession in the cases of discharges. Sir Rivers Thompson is also willing to adopt the recommendations of the Committee regarding prosecutions, arrests, and the disposal of cases of desertion. Before, however, sanctioning any change, the Lieutenant-Governor would be glad if the Bengal Chamber of Commerce would consider the proposals and favour him with a report as to how far the Shipping Companies are willing to lend their assistance in giving the scheme a fair trial.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE GOVERNMENT CINCHONA PLANTATION IN BENGAL FOR 1884-85, AND THE ANNUAL REPORT OF THE QUINOLOGIST FOR THE SAME YEAR.

MUNICIPAL DEPARTMENT—AGRICULTURE.

Darjeeling, the 19th June 1885.

RESOLUTION.

READ—

The Annual Report of the Government Cinchona Plantation in Bengal for the year 1883-84, and the Annual Report of the Quinologist for the same year.

The addition to the plantation of 174,800 trees of the quinine-yielding cinchonas known as *Calisaya Verde* and *Calisaya Morada* is the most interesting feature in the operations of the year. These trees have been raised from seed supplied in 1882-83 by the Secretary of State, and the varieties are known in Bolivia to produce some of the finest of the yellow bark of commerce. It would be premature to say whether the plants would be equally successful in Sikkim, although their present appearance is healthy. Another satisfactory feature is the extension of the cultivation of the rich variety of yellow bark known as *Ledgeriana*. Of this variety no less than 231,900 trees were planted out, while the hybrid cinchonas were increased by 64,600. Altogether a considerable advance has been made towards the substitution of quinine-producing trees for the sorts yielding the less valuable alkaloids.

2. The total number of trees of all kinds on the plantation at the close of the year was 4,912,111, namely red (*Succirubra*) 3,232,000, yellow (*Calisaya Ledgeriana*) 1,086,118, yellow (*Calisaya Verde* and *Morada*) 183,300, hybrid 385,100, and other kinds 25,593. The crop of the year amounted to 339,201lbs. of dry bark, of which 325,125lbs. were red and 14,076 were yellow. The whole of this crop, with the exception of a small quantity, was as usual made over to the Febrifuge Factory for disposal.

3. The expenditure on the plantation amounted to Rs. 81,726-14-9 against the budget allotment of Rs. 97,805. Of this Rs. 12,480-6 represented the capital expenditure on the new plantation at Rungjung, and the balance (Rs. 69,246-8-9) the working expenses of the old plantations at Rungbee, Mungpoo, and Sittong. The total amount sunk by the Bengal Government on cinchona plantations and factory since 1862 aggregates Rs. 10,84,202, which has been recouped more than twice over by the saving effected by the substitution of cinchona febrifuge for quinine in Government medical institutions.

4. Dr. King again notices the continued failure of the Carthagena bark, which he thinks will never be successfully grown in Sikkim. A quantity of *Remijia* seed, which produces a quinine-yielding bark under the name of *Cuprea*, was obtained from South America, and some 40 seedlings have been raised. The plants do not look altogether healthy, and it is feared that the climate of Sikkim will not suit their growth.

5. The demand for cinchona seeds and seedlings has greatly fallen off in consequence of the low prices that have ruled for bark during the last two years. The surplus seed of the *Calisaya Ledgeriana* was as usual distributed during the year gratuitously among applicants.

6. The cost of manufacture during the year was Rs. 12-5-11 per pound of ordinary febrifuge, and Rs. 18-8-11 per pound of crystalline febrifuge. The rates are higher than those of the previous year, and this is attributed partly to the large expenditure incurred on new fittings for the factory, and partly to the inferior quality of the bark used, as well as to the smaller quantity worked up during the year under review. The issues also fell considerably below those of 1883-84, as will be seen from the following table:—

	1883-84.		1884-85.	
	lbs.	oz.	lbs.	oz.
To Medical Depôt, Calcutta	2,620	0	2,024	8
Ditto, Bombay	1,000	0	500	0
Ditto, Madras	530	0	20	0
To Inspector-General of Civil Hospitals (for district medical officers of Bengal) ...	618	4	571	0
To Inspector-General of Jails (for jails and lock-ups in Bengal)	32	4	61	0
Sold to the public	4,276	0	3,965	8
Given as samples	18	4	10	4
Total ...	9,144	12	7,152	4

The great decline in the issues is chiefly owing to the medical depôts taking 3,656½ pounds less than in the previous year; while the decrease in sales to the public is attributed to the great cheapness of quinine, the price of which during the year has ruled lower than it has done for many years.

7. The revenue derived from the sale of the febrifuge, seed, plants and bark, amounted to Rs. 1,24,225-2 :—

		Rs.	A.	P.
By sale of febrifuge, seed, plants, and bark to the public	...	69,250	6	0
By credits from the Medical Depôt of Calcutta	...	35,516	4	0
Ditto dit'o Bombay	...	8,250	0	0
Ditto ditto Madras	...	480	0	0
Ditto Inspector-General of Civil Hospitals, Bengal	...	9,648	8	0
Ditto Inspector-General of Jails, Bengal	...	1,080	0	0
Total	...	1,24,225	2	0

The operations of the year resulted in a profit of Rs. 37,582-6-8, which is equal to a dividend of about 3½ per cent. on the capital outlay of Rs. 10,84,202-6. It must, however, be borne in mind that these profits do not represent the whole of the gain of the year. The saving effected by the substitution of the febrifuge in Government medical institutions for an equal quantity of quinine which would otherwise have been used amounted to Rs. 20,000.

8. The thanks of the Lieutenant-Governor are again due to Dr. King for his efficient management of the department, and to Mr. Gammie who performed Dr. King's duties for seven months during the absence of the latter on furlough. Mr. Gammie also held charge of the factory throughout the year. The other assistants are well spoken of.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Government of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 27th June 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
	Burdwan Divn.		
1	Burdwan, June 27 '85	3·31	Weather—seasonable. Agricultural operations progressing favourably. Prospects good. Price of rice 12 to 14 seers per rupee.
	Culna ...	3·57	
	Cutwa ...	3·98	
	Raneegunge ...	3·54	
2	Bankoora, „ 27 „	3·17	Weather—cloudy and rainy. Transplanting of *aus* paddy going on briskly all over the district. Seedlings of *amun* paddy not yet ready for being transplanted. Price of rice shows a tendency to rise. Public health good.
	Bishenpur ...	3·84	
3	Beerbhoom, „ 27 „	2·23	Weather—cloudy and showery. Ploughing and sowing of rice crop in progress; prospects favourable. Price of rice slightly higher. Cholera still prevalent.
	Rampore Hat ...	1·97	
4	Midnapore, „ 27 „	1·58	Weather—generally seasonable. Excessive rainfall has stopped cultivation in the Ghatal sub-division, elsewhere much progress is being made. Public health fair.
5	Hooghly, „ 27 „	1·55	Weather—seasonable. All crops are now doing well. Prices easy. Public health good.
	Serampore ...	4·52	
	Jehanabad ...	4 86	
	Howrah, „ 29 „	4·56*	Weather—seasonable. Cultivation of rice land is being pushed on everywhere. Young sugarcane is also reported as doing well. Public health continues good everywhere.

	Bongong ...	2·67	
10	Moorshedabad, „ 27 „	1·01	Weather—seasonable. Prospects of crops now fairly good. Common rice selling at from 12 to 13½ seers per rupee. Public health good.
	Rajshahye Divn.		
11	Dinagepore, June 26 '85	2·66	Weather—light rain nearly every day throughout the week. Reports from all sides continue good. Cholera has almost disappeared. Rice selling at 13 seers per rupee.
12	Rajshahye, „ 27 „	1·45	Weather—cloudy and rainy. Rain has done immense good. Sowing of *aus* and *amun* paddy continues, and standing crops (paddy, *til*, jute, &c.,) promise well. Public health fair.
	Nattore ...	1·65	
13	Rungpore „ 27 ...	4·73	Weather—cloudy with easterly wind. Prospects of crops good. Transplanting of *amun* continues. Price of rice stationary. Cholera has much lessened. Public health continues good.
	Nilphamari ...	2 58	
	Gaibanda ...	2 52	
	Kurigram ...	5.24	
14	Bogra, „ 27 „	0·88	There was a smart earthquake from north to south at 8-15 A.M. on the 25th. Prospects of *aus* good; jute and sugarcane thriving. Sowing of *amun* going on, but more rain is wanted. Public health fair.
15	Pubna, „ 27 „	2·23	Weather—cloudy and rainy; wind easterly. Crops look well. Rivers not high. Public health good.
	Serajgunge ..	1·82	
16	Darjeeling, „ 27 „	7·91	Weather—hot with heavy rain. State and prospects of crops most favourable. A severe earthquake at 8-10 A.M. on 25th instant, and another shock at 6-30 P.M. idem.
17	Julpigoree, „ 27 „	1·81	Weather—very hot for the rains; close steamy weather. A break in the rains during the week, but there has been on the whole plenty of rain, and prospects of all crops good. *Bhadoi* paddy is being reaped, and is a good crop in the Alipur sub-division. A few cases of cholera here and there.

* For week ending 27th instant.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.

Chittagong Div.			
22	Chittagong, June 30 '85	1·31	Weather—hot with passing clouds. Prospects of crops generally good. Sowing of *aus* paddy still continues. Prices variable. Cholera lingers.
23	Noakholly, „ 26 „	4·23	Weather—frequently cloudy and rainy. Prospects of crops good; *aus* plants in ear. A few cases of cholera reported; otherwise public health good.
	Fenny ...	3·51	
24	Tipperah „ 25 „	3·00	Weather—cool with high winds and bright sunshine. A break in the rains coming very opportunely after the incessant downpour of the previous week. The injury done to crops from the rainfall, and a breach in the embankment on the Gumti, has been immense Public health good.
	Brahmanbareah ...	4·43	
	Chandpore ...	5·65	
25	Chittagong Hill Tracts. „ 23 „	3·45	Weather—rainy and cloudy with occasional sunshine. Sowing in *jooms* over. Paddy and cotton doing well. Land being ploughed for late rice crop.
	Hill Tipperah, „ 24 „	6·00	Weather—rainy. *Satya* paddy growing. Prospects of *joom* crops fair. Cases of cholera still occurring in Agartola; otherwise public health good.
	BEHAR.		
Patna Div.			
26	Patna, June 27 '85	1·94	Weather—cloudy with east wind. Rain during the week has been of great benefit to the *bhadoi* sowings, but more is required. A few cases of cholera reported from Behar, otherwise public health good.
	Barh ...	1·07	
	Behar ...	0·60	
27	Gya, „ 27 „	2·02	Weather—rain has been general throughout the district, and the temperature has fallen. The rain has been most useful; ploughing and sowing of *bhadoi* crops and rice are going on, and the people have ample occupation. Public health fair.
28	Shahabad, „ 27 „	3·75	Weather—seasonable. The only crop now on the ground is sugarcane, which is doing well.
	Buxar ...	0·68	
	Sasseram ...	0·82	
	Bhabbhua ...	2·03	
29	Durbhunga, „ 27 „	0·81	Weather east winds prevailing, sky occasionally cloudy. Prospects of standing crops have much improved by the late rain. *Bhadoi* sowing is being pushed on with great activity, but more rain is wanted. Prices continue stationary. Cholera abated in the town; it had appeared in a sporadic form in some localities in the interior.
	Tajpur ...	1·33	
30	Mozufferpore, „ 27 „	0·47	Weather—hot and close with light rain occasionally. The rain that has fallen this month, though it has done good, is not fully sufficient either for *bhadoi* or *aghani* paddy sowings, and more rain is much wanted. Slight fall in prices. Public health generally good.
	Hajipur ...	1·85	
	Sitamarhi ...	0·54	
31	Sarun, „ 27 „	3·37	Weather—cloudy and rainy. Rain, though unequally distributed, has been general throughout the district, and has greatly benefited indigo, sugarcane, and *cheena*; *bhadoi* sowings everywhere going on; more rain wanted for paddy sowings. A few sporadic cases of cholera and small-pox reported; public health otherwise good.
	Sewan ...	1·51	
32	Chumparun „ 27 „	1·25	Weather—cloudy with east wind. Late rain has done much good to standing crops and has also facilitated ploughing and sowing of *bhadoi* and *aghani* crops. Prices stationary. Some cases of fever, small-pox and cholera reported from the interior Public health fair.
Bhagulpore Div.			
33	Monghyr, June 27 '85	2·08	Weather—more or less high east winds, sky overcast. Rain has been of much benefit; sowing proceeding. Cholera reported from some parts of the district. Prices steady.
	Begusarai ..	0·69	
	Jamui ...	0·63	
34	Bhagulpore, „ 27 „	0·61	Ploughing and sowing of *bhadoi* crops going on briskly. More rain much wanted; the fall has been below the average. Prices stationary. Public health good.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, d drizzling rain, t thunder, p passing temporary showers.

for the past ten years. The variations are *negative* when the mean for the week is less than the corresponding normal mean, and *positive* when greater.

The number denoting cloud amount represents the part of the sky covered, the whole sky being denoted by 10. Under the head "District" observations for the period in question during the past 12 years. The means of the "district" are the numerical averages of the rainfall return received one on which at least an hundredth of an inch fell.

Statement of Rainfall in Bengal for the week ending Friday (6 p.m.), the 26th June 1885.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, *the 30th June* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 26TH OF JUNE 1885.

In the summary for the previous week, it was reported that a small cyclonic storm which had previously formed over the Sunderbuns had travelled in a westerly direction, and on Friday, the 19th, its centre was to the west of Midnapore. It then moved in a south-westerly direction, and on the following day the storm was to the west of Orissa, probably near Sumbulpore, but the indications at the Bengal stations appeared to show that it was becoming more feeble. On the Sunday, however, the barometric depression became more marked, and it began to move again in a northerly direction, passing apparently through the western part of Chutia Nagpore, and reaching the North-West Provinces, where it finally filled up and disappeared near Allahabad. In its progress it of course brought considerable amounts of rain to the districts through which it passed, and with its advance a fairly strong monsoon blew over the Province, and brought up good rain to all districts. The movement or path of this storm has been altogether most unusual.

On Thursday, the 25th instant, another small barometric depression or cyclonic storm commenced to form at the head of the Bay. It was formed probably a little further south than the previous storm, but it was certainly at no great distance from the Sunderbuns. It developed slightly and advanced in a westerly direction, and on Friday morning its centre was to the south of Saugor Island. The barometric depression was considerable, and at 2 P M. on this day a pressure of 29·369″ was recorded at Saugor Island, a pressure which is rarely recorded in Bengal, unless it is accompanied by a somewhat severe storm. The storm was, however, a small one, and only gave rise to moderate winds at the land stations, though probably at sea near the centre of the storm, winds were strong and the sea high. This storm reached the Balasore coast probably during Friday night, and then advanced in a north-westerly direction.

During the existence of the first storm in Orissa and South-West Bengal, there was a natural tendency of the monsoon current to set towards the western districts of the Province. Again, during the formation of the second storm, the indraught towards it caused a very rapid diminution in the strength of the monsoon current blowing over the land, and particularly of the current which should have set towards East and North Bengal. It will thus be seen that during the week, conditions were not favourable for heavy rainfall over East and North Bengal, or perhaps it would be more correct to say over the eastern and northern districts generally, but that conditions were moderately favourable for the occurrence of good general rain over the western districts, and particularly over the south-western districts. That rain has thus been general in these districts is shown by the fact that in Chutia Nagpur the average number of rainy days at all stations was no less than 6·5, and in South-West Bengal the average number of rainy days at all stations has been 5·7. The western districts generally have received rain on an average of from 4 to 5 days, while the northern and eastern districts only received rain on 4 days.

Pressure, as may be expected, has been below the normal throughout the week, and those stations which have been most directly under the influence of the cyclonic storms noted above have shown the greatest defects. The average defect for the week at Saugor Island has been no less than 0·143,″ at Calcutta it has been 0·131,″ while in North Behar and East Bengal it has been about 0·05″. The average defect over the whole Province has been 0·086″, against an average defect of 0·036″ during the previous week.

With the very frequent rain showers which have occurred during the week in nearly all districts, temperature has been low, and at all stations, except, Durbhunga and Dacca, it has been below the normal. The average defect from the normal has been about 1·5°, but the greatest defects have been in South Behar and Chutia Nagpur, where at Gya it has been 3·8° and at Hazaribagh 4·5°.

As has been previously stated, rainfall has been general and frequent in all the western and southern districts, while in the eastern and northern districts the falls have been comparatively much less frequent and lighter. Chutia Nagpur has received a most abundant rainfall, and practically all stations in this district received rain on every day in the week. The average fall in Chutia Nagpur for the week has been 6·06 inches against a normal average of 2·15 inches, or no less than 282 per cent of the normal. South-West Bengal received rain on an average between 5 and 6 days during the week, and the average amount reported was 2·61 inches against the normal fall of 2·68 inches, which is 97 per cent. of the normal. South Behar has received rain on from 4 to 5 days, and the average amount recorded has been 1·91 inches against the normal 2·24 inches, which represents 76 per cent. of the normal. Orissa has received rain on 4 days and the amounts have averaged about 2·17 inches against the normal 2·27 inches, which represents 95 per cent. of the normal. East Bengal has received rain on about 4 to 5 days and the average fall has been about 2·38 inches against the normal of 4·38 inches, and has thus received only 54 per cent of the normal. North Behar has only had rain on 3·3 days and has averaged 1·25 inches against the normal 2·54 inches, which is only 50 per cent. of the normal, and finally North Bengal on 4·1 rainy days received only 2·22 inches of rain against the normal 5·40 inches, and thus only received 41 per cent. of the normal. From the fact that in certain cases the number of rainy days during the week has been above the normal, while the actual rainfall has been below it, it would tend to show that the rain showers have been lighter than usual, and that the monsoon which has been blowing over the land has been rather below its normal strength.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 26th of June 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st month.		Since 15th May 1885.	
			Of highest of each day.	Of lowest of each day.	Of mean for each day.		Average.	Normal average.	Variation.	Average number in week.	Normal average number in week.	Variation.	Average.	Normal average.	Average.	Normal average.

The mean temperature of the seven days	°	81·5
The extreme variation of temperature		14·2
The maximum temperature		92·0
The mean relative humidity	%	94
The total fall of rain from 21st to 27th June 1885	Ins.	4·48

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

Meteorological Office, India; *Calcutta, the 29th June* 1885.

Alexander Pedler, *For Meteorological Reporter to the Govt. of India.*

MEMORANDA.

THE returns received from the principal Municipalities in Bengal, for the week ending 13th June 1885, disclose the following results:—

1. During the week in question births and deaths were recorded in the proportions, respectively, of 23·5 and 32·2 per 1,000 of population, as opposed to 19·6 and 31·7 per 1,000, respectively, during the preceding week ending 6th June, indicating improvement in the registration of both events, particularly of births.

2. These events were registered at the highest rates in the following Municipalities:—

Births.

	Ratio per mille.
Bhagulpore	44·3
Durbhanga	38·5
Tipperah	38·5
Chittagong	37·6
Gya	36·2
Howrah	31·5

Deaths.

	Ratio per mille.
Durbhunga	114·1
Bhagulpore	48·0
Gya	47·1
Patna	43·1
Chittagong	37·6
Burdwan	36·6
Mozufferpore	31·6
Suburbs of Calcutta	29·8

3. The subjoined table shows that, as compared with the results of the preceding week, there was a sensible enhancement in the death-rate from cholera with a small diminution in that from the diseases classed under the head of "Other causes," and that the casualities from the rest of the diseases exhibited only fractional variations, with the exception of injury, the mortality from which remained stationary:—

	Ratio per mille during the weeks ending—	
	13th June 1885.	6th June 1885.
Cholera	7·0	5·8
Small-pox	·8	·6
Fever	11·5	11·7
Bowel-complaints	4·8	4·6
Injury	·5	·5
Other causes	7·5	8·4

4. Of the diseases specified above, excluding injury the casualties from which were nowhere noticeably large, and fever which proved conspicuously fatal only in the Gya town at the rate of 21·8 per 1,000 of its population, the other diseases caused the highest mortality in the following Municipalities:—

Cholera.

	Ratio per mille.
Durbhanga ...	73·1
Chittagong ...	14·1
Mozufferpore ...	8·5
Bhagulpore ...	8·1
Burdwan ...	7·6
Monghyr ...	6·3
Hughli ...	5·4
Patna ...	4·9
Gya ...	3·4
Suburbs of Calcutta ...	3·5

Small-pox.

	Ratio per mille.
Mozufferpore ...	7·3
Durbhanga ...	3·9

Bowel-complaints.

	Ratio per mille.
Durbhanga ...	15·7
Patna ...	13·0
Bhagulpore ...	10·9

Other Diseases.

	Ratio per mille.
Gya ...	18·4
Bhagulpore ...	13·6
Hughli ...	10·7
Patna ...	10·7
Poori ...	10·5
Suburbs of Calcutta ...	9·1

It will be observed that the mortality from cholera had abated considerably in the Burdwan town, in comparison with its incidence during the preceding week, but that it prevailed with marked severity in Durbhanga.

5. The mortality referable to *Sex*, *Class* and *Age*, stands as noted below:—

According to Sex.

	Ratio per mille.
Males	33·5
Females	30·6
Ratio of male deaths to every 100 female deaths ...	124

According to Class.

	Ratio per mille.
Christians	17·4
Hindus	34·0
Mahomedans ...	28·7

According to Age.

	Ratio per mille.
Under 1 year ...	289·8
1 and under 5 years ...	64·9
5 „ 10 „ ...	27·4
10 „ 15 „ ...	18·5
15 „ 20 „ ...	18·3
20 „ 30 „ ...	19·2
30 „ 40 „ ...	17·1
40 „ 50 „ ...	14·6
50 „ 60 „ ...	33·3
60 years and upwards ...	55·6

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

The 29th June 1885.

* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliable owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "*Age*," the ratios under which have been omitted, inasmuch as the census of the Europeans above alluded to, cannot be employed as a basis of calculation owing to the results of the census under this head not having been recorded under the authorized form of age classification.

GENERAL REMARKS AND EXPLANATIONS

The month's working shows a marked increase in several important staples, such as ginger, gunny-bags, jute, miscellaneous railway material, salt, seed and tobacco; the net increase amounting to 3,041·48 tons over and above the corresponding period last year.

Increases.

Ginger ... ... Tons 360·93

This article is in pretty general demand now.

Gunny-bags ... ... Tons 105·98

Enquiry continues.

Jute ... ... Tons 948·66

Business during the month was brisk, and prices advanced 6 to 8 annas. Imports, however, are not keeping pace with the demand.

Miscellaneous ... ... Tons 1,120·95

This increase is due to machinery and large quantities of firewood carried locally.

Railway material ... ... Tons 545·19

There has been an increase in the coal carried for the Locomotive Department.

Salt ... ... Tons 252·34

The increased activity of the jute market has had a like effect on this traffic.

Sugar ... ... Tons 49·86

Prices continue cheap, and this combined with low railway freights is helping this traffic.

Seeds ... ... Tons 154·96

A demand for mustard-seed has set in again. Linseed is also in request.

Tea ... ... Tons 54·93

Musters of the new crop have passed down, and are reported to be quite up to the average of first pickings.

Tobacco ... ... Tons 436·73

Both in Calcutta and Rangoon markets enquiry is being made for the better qualities of Rungpore tobacco.

Decreases.

Ale ... ... Tons 7·86

This small decrease will be made up later on.

Food-grain ... ... Tons 954·37

This decrease is principally in rice, the local price of which leaves no margin for profitable sale in Calcutta. In addition there is but little rice of last year's crop available for export.

Piece-goods ... ... Tons 26·82

This is a small decrease in the face of the traffic that has been carried since January.

G. S. Leonard, *Traffic Superintendent.*

Traffic Superintendent's Office, *Saidpur, the 30th May* 1885.

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2492A.

GENERAL.—*The 4th June* 1885.—The undermentioned officers are appointed to act, until further orders, in the first grade of District and Sessions Judges, with effect from the dates mentioned opposite their names:—

Mr. T. M. Kirkwood	...	... From the 11th April 1885.
,, F. J. G. Campbell	...	... ,, 17th ,, ,,
,, H. W. Gordon	...	... ,, 11th May ,,

The undermentioned officers are appointed to act, until further orders, in the first grade of Magistrates and Collectors, with effect from the dates mentioned opposite their names:—

Mr. G. M. Currie	...	.... From the 7th May 1885.
,, T. E. Coxhead	...	... ,, 16th ,, ,,

Mr. Currie also acted in this grade from the 16th March to the 6th April 1885.

The undermentioned officers are appointed to act, until further orders, in the second grade of Magistrates and Collectors, with effect from the dates mentioned opposite their names:—

Mr. M. Finucane	...	... From the 25th February 1885.
,, W. Fiddian	...	... ,, 16th March ,,
,, J. E. B. Jeffery	...	... ,, 28th ,, ,,
,, F. H. Barrow	...	... ,, 25th April ,,
,, F. H. B. Skrine	...	... ,, 7th May ,,
,, A. W. Paul	...	... ,, 16th ,, ,,

Mr. W. B. Oldham, Deputy Commissioner, Darjeeling, is appointed to act, until further orders, in the first grade of Deputy Commissioners, with effect from the 24th April 1885.

Lieutenant-Colonel W. L. Samuells, Officiating Deputy Commissioner, Lohardugga, is appointed to act, until further orders, in the second grade of Deputy Commissioners, with effect from the 24th April 1885.

The 30th June 1885.—Mr. A. H. Warde-Jones, Deputy Magistrate and Deputy Collector, on special duty under the Public Works Department, Irrigation Branch, of this Government, is posted temporarily to the sudder station of the Shahabad district.

Baboo Rutton Lall Ghose, Deputy Magistrate and Deputy Collector, is allowed leave for six months, under section 128, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 31st October 1884.

This cancels the order of the 2nd May last, appointing Baboo Rutton Lall Ghose to have charge of the Magoorah sub-division of the district of Jessore.

The 1st July 1885.—Baboo Tara Nath Bose, Temporary Sub-Deputy Collector, Mymensingh, is allowed leave for seven days, under section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 9th May last.

The 2nd July 1885.—Mr. C. R. Marindin, Joint-Magistrate and Deputy Collector, is appointed to act as Magistrate and Collector of Maldah, during the absence, on leave, of Mr. H. G. Sharp, or until further orders.

This cancels the order of the 22nd June 1885, appointing Mr. S. S. Jones to act as Magistrate and Collector of Maldah.

The 3rd July 1885.—Mr. C. A. S. Bedford, Officiating Deputy Commissioner of the Chittagong Hill Tracts, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from the 13th August next.

The 4th July 1885.—Baboo Durga Nund Dass, Khas Tehsildar, Chittagong, is allowed leave for one day, under section 72, chapter V of the Civil Leave Code, in extension of the leave granted to him under the order of the 16th February last.

The 6th July 1885.—Baboo Kristo Coomar Sen, Deputy Magistrate and Deputy Collector, Backergunge, is allowed leave for seventy-six days, under section 72, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Baboo Shib Chunder Nag, Deputy Magistrate and Deputy Collector, Backergunge, is appointed temporarily to have charge of the Dukhin Shabazpore sub-division of that district, during the absence, on leave, of Baboo Juggobundhu Khan, or until further orders, with effect from the date on which he joined his appointment.

Baboo Ganendro Nath Pal, Temporary Deputy Magistrate and Deputy Collector, who was lately stationed at Dacca, is transferred to Backergunge, and is posted to the sudder station of that district, with effect from the date on which he joined his appointment.

Baboo Hurri Mohun Sen, Deputy Magistrate and Deputy Collector, Dacca, is appointed to have charge of the Moonsheegunge sub-division of that district, with effect from the date on which he joined his appointment.

POLICE.—*The 4th July* 1885.—Mr. C. S. Murray, Assistant Superintendent of Police, 24-Pergunnahs, is allowed leave for one day, under section 134, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 27th April 1885.

EDUCATION.—*The 27th June* 1885.—The following promotions are made in the Subordinate Educational Service with effect from the 1st April 1885 :—

From Class IV to Class III.

Baboo Kali Kumar Mitra, Head Master, Patna Normal School.
„ Chundra Nath Bhuttacharjia, Head Master, Arrah Zillah School.
„ Kailas Chunder Sen, Assistant Inspector of Schools, Chittagong Division.
„ Jagat Bandhoo Laha, Head Master, Dacca Normal School.
„ Bepin Behary Gupta, Temporary Assistant Professor, Presidency College.

From Class V to Class IV.

Baboo Probhat Chandra Sen, Deputy Inspector of Schools, Julpigoree.
„ Chandra Kumar Maitra, Head Master, Barrackpore Government School.
„ Siv Narayan Trivedi, Deputy Inspector of Schools, Sarun.
„ Baikanta Nath Roy, Second Master, Dacca Collegiate School.
„ Muti Lal Maitra, Deputy Inspector of Schools, 24-Pergunnahs.
„ Bhuban Mohun Sen, Head Master, Furreedpore Zillah School.
„ Ishan Chandra Dutt, Temporary Second Master, Midnapore College.
„ Gour Mohan Bysack, Officiating Second Master, Burrisal Zillah School.
„ Dwarka Nath Dutta, Assistant Lecturer, Engineering College, Howrah.
„ Brojo Nath Lahiri, Head Clerk, Presidency College.
„ Kunja Behary Pal, Head Master, Bankoora Zillah School.
„ Durga Das Mookerjee, Head Master, Purulia Zillah School.
„ Raj Kumar Sen, Lecturer, Dacca College.
„ Sripati Banerjee, Deputy Inspector of Schools, Midnapore.

The 30th June 1885.—Baboo Nilmoni Mookerjee, Assistant Professor of Sanskrit, Presidency College, is appointed to be Professor of Sanskrit in that College, with effect from the 1st May last, *vice* Baboo Raj Krishna Banerjee, retired.

The 2nd July 1885.—The following gentlemen are appointed to be members of the District School Committee of Noakholly :—

The District Judge ... ... *Ex-officio.*
Baboo Ram Lal Roy, Superintendent, Bhulluah Estate, *vice* Baboo Tarini Prosad Sen.

Moulvie Abul Khair Muhammad Siddiq, Assistant Professor of Arabic, Calcutta Madrassah, is appointed to be Superintendent of the Dacca Madrassah, *vice* Moulvie Obaidullah, deceased.

Moulvie Abul Khair Muhammad Siddiq is also appointed to act, until further orders, in class II of the Subordinate Educational Service, with effect from the 9th February 1885, *vice* Mr. A. S. Phillips, on deputation.

This order cancels the orders dated the 2nd and 11th June, respectively, appointing Moulvie Zulfikar Ali to act in class II of the Subordinate Educational Service, and appointing him to be Superintendent of the Dacca Madrassah.

OPIUM.—*The 24th June* 1885.—Mr. G. W. Dick-Lauder, an Assistant Sub-Deputy Opium Agent attached to the Benares Agency, is allowed privilege leave for two and a half months, with effect from the 1st June 1885.

The 25th June 1885.—Mr. H. Blair, an Assistant Sub-Deputy Opium Agent attached to the Benares Agency, is allowed privilege leave for two months, with effect from the 20th June 1885.

MEDICAL.—*The 4th July* 1885.—Surgeon D. W. D. Comins, Civil Surgeon of Jessore, is allowed furlough for six months, under section 50, chapter V of the Civil Leave Code, in extension of the furlough granted to him under the order of the 24th December 1883.

MUNICIPAL.—*The 4th July* 1885.—Baboo Gopal Lall Mitter, Vice-Chairman of the Corporation of the Town of Calcutta, is appointed to act as Chairman, during the absence, on privilege leave, of Mr. H. L. Harrison, C.S.

ROAD CESS.—*The 27th June* 1885.—Moulvi Khoda Buksh, Khan Bahadoor, is appointed to be Vice-Chairman of the Patna District Road Committee, *vice* Moulvi Syed Mohamed, Temporary Deputy Magistrate and Deputy Collector, transferred.

ERRATUM.—*The 4th July* 1885.—In the notification, dated the 26th June last, publishing the result of the half-yearly departmental examination of Assistant Magistrates and others held in May 1885, for "*Baboo Khetter Mohun Mookerjee,*" who is shown as having passed in Hindustani by the higher standard, read "*Baboo Khetter Mohun Mitter.*"

The following notifications are republished from the *Assam Gazette*:—

No. 212.—*The 25th June* 1885.—Privilege leave of absence for 24 days is granted to Mr. G. B. Havelock, Assistant Superintendent of Police, in extension of the leave granted to him in Notification No. 123, dated the 24th April 1885.

No. 52.—*The 25th June* 1885.—Privilege leave of absence for three months, under chapter VII of the Civil Leave Code, is granted to Mr. J. Kelleher, C.S., District and Sessions Judge of Sylhet, and Sessions Judge of Cachar, with effect from the 10th July 1885, or from the subsequent date upon which he may be relieved of his duties.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

NOTIFICATION.

The 25th June 1885.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor has been pleased to appoint Baboo Hari Das Dey to be a Commissioner of the Jajpore Municipality, in the district of Cuttack, *vice* Baboo Adait Prosad Roy, deceased.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 26th June 1885.—It is hereby notified that, under section 17, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Roserah Municipality, in the district of Durbhunga:—

Baboo Raj Narain Koomar.
" Nanu Pershad.
" Uday Chand.
" Ram Gholam Panjear.
Munshi Mahomed Muksudally.
Baboo Naiti Naek.
" Ram Lall Singh.
Baboo Karan Chand Sett.
" Prem Sukh Das Marwari.
Munshi Buniad Ali Khan.
Mr. E. E. A. Kuster.
Munshi Mahomed Manir.
Syud Humayoon Mirza.
Civil Hospital Assistant Chand Khan.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 26th June 1885.—Whereas a notification was published at page 213, Part I of the *Calcutta Gazette* of the 25th March 1885, declaring the Lieutenant-Governor's intention to extend the provisions of Parts IX and X of the Bengal Municipal Act, III (B.C.) of 1884, to the Furreedpore Municipality, and whereas no objection has been raised to the proposal within one month from the date of the publication of the notification within the said municipality, it is hereby notified for general information that, in the exercise of the powers conferred on the Local Government by section 221 of the Act, and in compliance with the recommendation of the Commissioners of the said municipality, made at a meeting, the Lieutenant-Governor directs that Parts IX and X of the Act be extended to the municipality with effect from the 1st July next.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th June 1885.—It is hereby notified for general information that the Lieutenant-Governor is pleased, with the previous sanction of His Excellency the Governor-General in Council, to substitute the following revised rules for rules 6 and 8 of the rules in force under section 7 of Act VIII of 1881, which were published at pages 617 and 618, Part I of the *Calcutta Gazette* of the 19th July 1882.

Revised Rules to be substituted for Rules 6 and 8 of the existing rules under Section 7 of Act VIII of 1881.

6. (1) When a ship is stopped at Budge-Budge under Rule 4, or at Mateabrooj Ghât under Rule 5, the Superintendent of River Police, or one of his assistants, shall, within as short a time as possible, not exceeding 48 hours of time of the stoppage of the ship, go on board and obtain samples, in the former case, of all the uncertificated petroleum, and if there is certificated petroleum on board which, together with the uncertificated petroleum, amounts to more than 500 gallons, of that certificated petroleum: in the latter case, of all the petroleum on board which has not been reported "not dangerous."

(2.) The master shall give to the Superintendent or his assistant a sample of every variety of petroleum comprised in the petroleum of which samples are to be taken under clause (1), and shall, if the Superintendent or his assistant so require, take these samples from the particular receptacles indicated by him.

(3.) The Superintendent or his assistant shall forthwith seal the receptacles containing the samples, and having labelled them with the name of the ship, the name of the consignee, and such other distinguishing marks as may be necessary, shall forward them without delay to the Chemical Examiner for report, and the Chemical Examiner, having tested them, shall, without avoidable delay, and ordinarily within 24 hours of the receipt of the samples, sign a report declaring that they are or are not dangerous petroleum (as the case may be), and forward that report to the office of the Port Commissioners, where it shall be deposited.

8. If the uncertificated petroleum on board a ship exceeds 40 gallons, no portion of it shall be landed until the Chemical Examiner's report in respect of it has been deposited in the office of the Port Commissioners as hereinbefore provided. Such report shall be so deposited without avoidable delay, and ordinarily within four days of the time when the ship conveying the uncertificated petroleum is stopped at Budge-Budge.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th June 1885.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Mr. H. Dawson, District Superintendent of Police, to be a Commissioner of the Dacca Municipality, *vice* Mr. J. Savi, resigned.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 27th June 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers conferred on him by section 221 of Act III (B.C.) of 1884, and in accordance with the recommendation of the Commissioners of the Krishnaghur Municipality made at a meeting, to extend the provisions of sections 245 to 248 (both inclusive) of the above Act to the said municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th June 1885.—Whereas a notification, dated the 31st March 1885, declaring the intention of the Lieutenant-Governor to direct that all births and deaths occurring within the Chuttra Municipality, in the district of Hazaribagh, shall be registered under Act IV (B.C.) of 1873, was published in the *Calcutta Gazette* of the 8th April 1885, and whereas no objection has been raised to the proposal within one month from the date of the publication of the said notification within the said municipality, it is hereby notified that, in the exercise of the power conferred on him by section 1 of the said Act, the Lieutenant-Governor directs that all births and deaths occurring in the said municipality from the 1st August next shall be registered under the said Act.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th June 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the power vested in the Local Government by section 221 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the Rampore Beauleah Municipality made at a meeting, to extend the provisions of Part X of the said Act to that municipality, unless good reasons are shown to the contrary within one month from the date of the publication of this notification within the municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th June 1885.—Whereas a notification, dated the 31st March 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of Act V (B.C.) of 1880 (the Bengal Vaccination Act) to the Chuttra Municipality, in the district of Hazaribagh was published in the *Calcutta Gazette* of the 8th April 1885, and whereas no objection has been raised to the proposal within six weeks from the date of the publication of the said notification within the said municipality, it is hereby notified that, in the exercise of the power conferred on him by section 1, paragraph 4 of the said Act, the Lieutenant-Governor directs that the provisions of the Act shall have effect within the said municipality from the 1st August 1885.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 30th June 1885.—It is hereby notified that, under section 27, Act III (B.C.) of 1884, the Lieutenant-Governor has been pleased to appoint Civil Hospital Assistant Annoda Prosad Bhuttacharjea to be a Commissioner of the Bishenpore Municipality, in the district of Bankoora, *vice* Baboo Umes Chunder Mitra, resigned.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 3rd July 1885.—Whereas a Notification, dated the 28th February 1885, declaring the intention of the Lieutenant-Governor to extend the provisions of the Bengal Municipal Act, III (B.C.) of 1884, to the town of Perozepore, in the district of Backergunge, was published in the *Calcutta Gazette* of the 4th March last, and whereas no objection has been raised to the measure, it is hereby notified for general information that, in the exercise of the power vested in the Local Government by section 8 of the said Act, the Lieutenant-Governor extends the provisions of the Act to the town of Perozepore, with effect from the 1st July 1885.

The boundaries of the Perozepore Municipality will be as follows :—

North.—Lakhakati Don, Tezkati Don, Bharani khal, the villages of Chalisha, Juzkhola and Rajarkati.

South.—The villages of Nemazpore, Khaukati and Sareektola.

East.—Damortola village, the rivers Damoodar and Kaligunge.

West.—Nemoor Bharani khal, Chur Kadomtola and river Balessar.

The name of the municipality will be inserted in both the first and second schedules of the Act. The number of Commissioners to be appointed to the Municipal Committee shall be ten.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 3rd July 1885.—It is hereby notified that, under section 17, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appointment the following gentlemen to be Commissioners of the Perozepore Municipality, in the district of Backergunge :—

Baboo Durga Nunda Das.	Baboo Kali Prasanna Das.
,, Kenaram Bose.	,, Kailas Nath Bhadra.
,, Jagabundhu Sen.	,, Madhub Narain Roy.
,, Dina Nath Das.	,, Shastibar Mitter.
,, Benode Lall Mookerjee.	,, Sasi Bhusan Mitter.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 3rd July 1885.—It is hereby notified that, under section 23, Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint Baboo Shoshi Sikar Dutt, Sub-Divisional Officer, to be Chairman of the Perozepore Municipality, in the district of Backergunge.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 3rd July 1885.—The following order, issued by the Government of India in the Department of Finance and Commerce, is republished for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

No. 1102, dated Simla, the 29th May 1885.

NOTIFICATION—By the Govt. of India, Dept. of Finance and Commerce.

Secy. to the Govt. of India.

[First Publication.]

NOTIFICATION.

The 4th July 1885.—The following Notice to Mariners is published for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL DEPARTMENT (MARINE.)

NOTICE TO MARINERS.—(No. 39.)

INDIA—SOUTH COAST.

MADRAS PRESIDENCY.

Wreck in Tuticorin Roadstead.

WITH reference to Notice to Mariners No. 52, issued from this Department on the 17th September 1884, further information has been received from the Port Officer, Madras, that the main mast of the steamer *Galatia* has fallen down, leaving the wreck unmarked.

NOTE.—It is recommended that great caution should be exercised by inward-bound vessels in approaching the anchorage in Tuticorin Roadstead at night, or during the prevalence of thick weather, and vessels should on no account come under 6 fathoms of water (low-water).

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 2nd July* 1885.

[First Publication.]

NOTIFICATION.

The 7th July 1885.—The following Notice to Mariners is published for general information :—

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 40.)

BAY OF BENGAL—COAST OF ARAKAN.

PORT OF AKYAB.

Replacement of the Bar buoy.

WITH reference to Notice to Mariners No. 35, dated the 17th June 1885, issued from this Department, the Port Officer of Akyab has intimated by telegraph that the bar buoy marking the entrance to the Port of Akyab has been replaced in position on the 2nd July 1885.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 4th July* 1885.

ERRATUM.

The 4th July 1885.—In the fourth line of the notification, dated the 23rd June 1885, published in the *Calcutta Gazette* of the 1st July 1885, Part I, page 633, declaring certain lands in Khoorda to be reserved forests, *for* "with effect from the 1st July 1885" *read* "with effect from the 1st September 1885."

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

The 3rd July 1885.—In exercise of the powers conferred upon him by section 19 of the Indian Forest Act, VII of 1878, the Lieutenant-Governor hereby declares the lands described below (which, on the 19th June 1883, were notified as proposed reserves) to be reserved forests with effect from the 1st September 1885.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Banpūr range, Arang block.	*North.*—From the Sália river at the boundary between Khorda and Killah Ranpūr eastward following the demarcated and revenue survey boundary on Ranpūr of mouzahs Kūnda-Khái and Dhūánali to the triple junction of Dhūánali and Sandhamál in Khorda with Killah Ranpúr. *East.*—Thence along the eastern survey boundary of Dhūánali to the triple junction of the mouzahs Sandhamál, Parmúl and Dhūánali. *South.*—Thence along the south-eastern demarcated and surveyed boundary of Dhūánali and Aráng on mouzahs Barmūl, Patrapūr, Barsereipūr and Berūáñbári of Sima Champájhar to the Bhibhūtiá Ghāti. *West.*—From the triple junction pillar of Jūáliá-ámbo, Aráng and Berūáñbári following the Bhibhūtiá Ghāti and surveyed and mapped boundary between Aráng, Jūáliá-ámbo and Kiágorará to the foot of the hills, east of the Kiágorará village; thence in an easterly direction skirting the Aráng and Dhūánali valley along the base of the hills; thence along the northern limits of the valley and the base of the hills to the road from Dhūánali to Kūndá Khái, about half a mile north of the Dhūánali village; thence northward along the said road to the demarcated and surveyed boundary line between Aráng and Náthpūr; thence along the said road to the Sália river; thence following the Sália river up to the starting point.
Pooree ...	Khorda ...	Banpūr range, Támná block.	*North west.*—From the triple junction pillar of Ankūla, Baldiábhiri and Báhárápūt along the north-western demarcated and revenue surveyed boundaries of mouzahs Báhárápūt, Bárikará, Krūshnatará, Dūmdūmi and Sílingpará of the Bara mal to the Támná Hill Great Trigonometrical Survey hill mark on the boundary of Killah Nayágarh; thence along the demarcated and surveyed boundary between Sílingpara and Kūndá Khái in Khorda on Killahs Nayágarh and Ranpūr to the Sália river. *East and South.*—The Sália river and Aráng block to where the road from Dhūánali to Kūndá Khái crosses the river; thence due west to the nala at the foot of the Sílingpará and Náthpur Hill, south of the village of Sílingpará; thence following the nala and skirting the cultivated lands of Sílingpará to the base of the Támná range of hills; thence west along the base of the said hills and excluding the Sílingpará cultivation to the nala west of Sílingpara village; thence south to the triple junction pillar of Náthpūr, Sílingpara and Dūmdūmi; thence following the demarcated and surveyed eastern boundary of Dūmdūmi on Náthpūr and Aráng to the triple junction pillar of those villages with Ráipará; thence along the southern surveyed boundary of Dūmdūmi to the triple junction pillar with Ráipará and Niladriprasád; thence following the demarcated and surveyed boundary between Dūmdūmi and Niladriprasád to the triple junction pillar of those villages with Krūshnatará; thence to the triple junction pillar of Krūshnatará, Niladriprasád and Katūripata; thence skirting to the north of the new village of Krūshnatará to the triple junction pillar of Krūshnatará, Katūripatá and Jiripará; thence along a demarcated line in a south-westerly direction skirting the north of the cultivated lands of Jiripará to a survey station on the boundary between Jiripará and Phásipárá; thence skirting to the north of the cultivated lands and village of Phásipará to another survey station between Phásipará and Báhárápūt; thence along a demarcated line west for 20 chains, then south for 60 chains to the main cart road from Bhátpará to Niladriprasád; thence following the cart road to the Pathará Nadi, and for about 20 chains south where the road from Ankūlá meets the road from Bhátpará; thence along the said road to the starting point.

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Banpûr range, Katûál block.	*North.*—From the triple junction pillar of Baldiábhiri, Núágáôn and Katûál along the demarcated and surveyed boundary of Katûál to the road from Núágáôn to the Birijai Thákúráni's temple. *East.*—Thence along the said road past the said temple to where the road meets the Thárіápali and Katûál boundary; thence following the demarcated and surveyed boundary of Katûál on Kháriápali and Bighnapût to the junction pillar of Katûál Bighnapût, Bánkiápalá and Tálbarohi. *South.*—From the said junction pillar westward following the southern demarcated and surveyed boundary of Katûál on Tálbarohi, Sán Núágáñ and Bhátpará to the triple junction pillar with Bhûjiá-barbará. *West.*—Thence along the western demarcated and surveyed boundary of Katûál on Bhûjiá-barbará and Baldiábhiri to the starting point.
Pooree ...	Khorda ...	Banpûr range, Bankár block, late Bamdebpur block.	*North.* From the Salia river, where the Niladriprasád and Raipara cart road crosses it, along a demarcated line following the northern base of the Bankár Hills to a small nala close to the village of Raipará; thence along a demarcated line following the base of the Bankár Hills through Raipará, Bháliápará, *Jûdliambá* and skirting the cultivation of those villages to the Bhibutia Ghati at the point on the Jûlia-amba and Sán-Sereipûr road where that road crosses the demarcated and surveyed boundary between Aráng and Bankár Garh. *East.*—Thence to the triple junction pillar of Aráng, Bankár Garh and Bérúáñbári; thence southward to the triple junction pillar of mouzahs Trilochanpûr and Sán-Sereipûr of Sima Champájhar and Bankár Garh of the Aráng mal, following the demarcated and surveyed boundaries of those mouzahs. *South.*—From the above-named triple junction between Trilochanpûr and Sán-Sereipûr and Bankár Garh, following the demarcated boundary of Sán-Sereipûr to the triple junction of Sán-Sereipûr, Bankárpali and Bankár Garh; thence following the Bankár Nala and road across the Bankár pass to the Pankiá Nala in Nalápali. *West.*—From the Pankiá Nala along a demarcated line following the base of the hills to the north of the Rigirisimah village to the Salia river; thence along that river and the base of the Bankár Hill to where the Niládriprasád and Raipara cart road crosses the river.
Pooree ...	Khorda ..	Kûhûri range, Kûhûri block.	*North.*—From the junction of a nala in mouzah Goripara with the Kusmi river on the boundary of Killah Ranpûr to the east, following that river to the triple junction of Kandgáriá, Goripará and killah Ránpúr; thence south along the demarcated boundary between Kandgáriá and Goripará to a permanently marked survey station; thence eastward through Kandgáriá passing to the north of the Boitá Hill and skirting the cultivated and settled lands of Kandgáriá to a survey station on the boundary between Jaritáp and Kandgáriá; thence eastward passing to the north of a little hill to another survey station on the boundary between Tútambarpali and Jaritáp. *East.*—Thence southward along a demarcated line following the revenue survey boundary between Tútambarpali and Jaritáp past the triple junction of those mouzahs with Talgarh Kuhuri to a forest boundary pillar about 6 chains to the south of the said triple junction; thence west for 15 chains to the revenue survey boundary between Talgarh Kúhúri and Mahujhar; thence along a demarcated line leaving the Mahujhar boundary to the east to the triple junction pillar of Talgarh Kúhúri, Digitpará and Mahujhar, thence along the revenue survey boundary between Digitpará and Mahujhar to the junction pillar of those mouzahs with Brúshaband and Ariájara. *South.*—From the abovenamed junction pillar westward for 50 chains along the revenue survey boundary between Ariápará and Mahujhar; thence nearly due west for about 48 chains to where the cart road crosses the revenue survey boundary of Ariápará and Kûnjari; thence north-east following the cart track and skirting to the east of the cultivated lands of Kûnjari to the triple junction pillar of Mahujhar, Kûnjari and Goripará.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Kuhuri Range Kuhuri block.	*West.*—From the last named triple junction pillar northward following the revenue survey boundary between Mahujhar and Goripará for about 27 chains; thence along a demarcated line skirting the cultivated lands and village site of Mahujhar east and north to the cart road from Kandgariá to Goripará; thence along a demarcated line north of the Goripará village and orchard and south of the little hill near the village to the cart road; thence north-west skirting the Goripará cultivated lands to the starting point on the Kusmi river.
Ditto ...	Ditto ...	Ditto ditto, Sulia block.	*North.*—From the survey boundary pillar between the Khumlá mal in Bánpúr and killah Ranpur near the cart road from Khumla to Patia in Ranpur eastward following the revenue survey demarcated, surveyed and mapped boundary of Khumlá and Raipará in Banpar on killah Ranpúr to the triple junction pillar of Raipará zillah Banpur, Mundila, zillah Kúhúri, and Killah Ranpúr. *North-East.*—From the triple junction of Raipará, Mundila and killah Ranpúr along a demarcated line running south-east following the cart road to the south of the Mundila Tank No. 367 on the cadastral map of Mundila; thence continuing south-east along the said cart road to the cultivated lands Nos. 316-317, &c., of Mundila; thence skirting the said lands to the Revenue survey boundary between Mundila and Suliapali; thence along the said boundary to the triple junction pillar of Mundila, Dhoba, Dhobani, and Suliapali; thence along the survey boundary between Mundila and Dhoba Dhobani back to the cart road; thence eastward along a demarcated line following the said cart road to the survey boundary between Dhoba Dhobani and Harindihi; thence skirting the cultivated lands of Harindihi back to the said cart road; thence south-eastward following the cart road to the triple junction pillar of Harindihi; Khairpali and Moramari; thence from the said triple junction pillar along a demarcated line skirting to the south of the cultivated lands of Moramari to the Gorarajhari cart road; thence north to the triple junction pillar of Khairpali, Moramari and Gorarajhari; thence along a demarcated line through Kairpali to the triple junction pillar of Khairpali, Kunjari and Malakdia; thence skirting to the east of the hills excluding the Kunjari and Malakdia village and cultivation along the eastern margin of the Nakoi Bundh to the junction pillar of Akaspali, Belpará, Malakdiá and Gorarajhari; thence southward along a demarcated line skirting to the west and south of the Belpará cultivation to the junction of the two nalas; thence along a demarcated line skirting to the east of the Belpará cultivation to the cart road south of the triple junction of Akáspali, Belpará and Jaimangalpur; thence following the cart road and excluding the settled lands of Jaimangalpur to a forest boundary pillar at the triple junction of fields Nos. 961, 962, and 699 of Jaimangalpur. *South.*—From the said Forest Boundary pillar along a demarcated line following the base of the Kochila hill to the triple junction pillar of Jaimangalpur, Belpara, and Jariput; thence along a demarcated line skirting to the north, west, and south of the cultivated lands of Jariput back to the boundary between Jariput and Jaimangalpúr about 16 chains south of the above triple junction near the Kúápará nala; thence along the said boundary for 6½ chains; thence westwards across Jariput following a demarcated line to the boundary between Jariput and Gorarajhari north of field, No. 28 on the cadastral map of Jariput; thence along the said boundary between Jariput and Gorarájhari to the triple junction of Jariput, Belpará and Gorarájhari; thence westward and northward along a demarcated line to the Akáspali and Gorarájhari cart road; thence along the said cart road excluding orchard No. 58 of the map of Gorarajhari to the Malakdiá boundary and western margin of the Nakoi Bundh; thence along the survey boundary between Gorarajhari and Malakdia to a survey station at north-west end of the bundh; thence southward and westward along a demarcated line following the base of the

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			Dūmdūmi hill to the north of the Gorarájhari Malua village and paddy cultivation to the cart road from Gorarájhari to Khairpali; thence skirting to the north of the Gorarájhari cultivation to the boundary of that village with Kandhámbajhar; thence along a demarcated line through Khandhámbajhar to the south west base of the Kasa-ambo hill in Moramari; thence along a demarcated line through Moramari to the north of the cultivated lands to the Sulia nala; thence westward along a demarcated line to the triple junction pillar of mouzahs Manái, Gamái, and Raipará; thence along the boundary between the Raipará and Manái to a forest boundary pillar on the Ajgur nala, 25 chains west of the said triple junction. *West.*—From the said forest boundary pillar northward following the survey boundary of Raipará on Manái to the junction pillar of Raipará, Manái, Dinabandhūpūr, and Khumlá mál; thence following the survey boundary and Áská nala, north for 33 chains to a forest boundary pillar; thence westward along the base of the hills along a demarcated line for about 35 chains to the cart road leading into Ranpur; thence north along the said cart road for about 42 chains to the starting point on the boundary of Ranpūr.
Pooree. ...	Khord ...	Khorda range, Panchgarh block.	*North.*—From a Forest boundary pillar on the surveyed and maped boundary between Khairpali and Khothpali, eastward along a demarcated line between the base of the hills and Bará Bundh, then skirting the cultivated lands of Kūspala to another forest boundary pillar at a survey station on the boundary between Khairpali and Kūspala; thence along a demarcated line eastward to the margin of the cultivated field 1946—1978, &c., of Kūspala; thence skirting to the south of the cultivation to a forest boundary pillar about two chains east of field No. 1176 on the cadastral map of Kūspala; thence along a demarcated line northwards skirting between the hills and the cultivation to the Balai nala on the boundary between Kūspala and Pankálsáhi; thence along a demarcated line eastward to a boundary pillar near the south-east corner of mango orchard No. 140—908; thence northward to a pillar on the cart road from Pankálsáhi; thence following the said road and skirting the cultivation along a demarcated line to the south-east corner of field No. 900—917; thence along a demarcated line southward including mango orchard No. 899 to a forest boundary pillar on the surveyed boundary between Pankálsáhi and Mardábári on the southern margin of plot No. 2077; thence eastward along a demarcated line to a forest boundary pillar on the Bálibaniá nala; thence southward along a demarcated line skirting field No. 2083 and orchard No. 2466 to a boundary pillar in orchard No. 2475 near the head of the Khandia nala; thence along a demarcated line to a boundary pillar on the outer boundary of mouzah Mardábari, zillah Manikágorá, killah Khordá, on killah Ranpūr. *East.*—Thence southward along the demarcated surveyed and mapped boundary of killah Khorda on killah Ranpūr to the crest of the Nipániá Range; thence following the said boundary to the Nipániá Peak; thence following the crest of the Nipániá and Dadhináúti range along the said boundary to a survey station; thence nearly south to the Sathbháiá G. T. S. H. M., the triple junction of killah Ranpūr, Nayagarh, and Khorda. *South.*—Thence westward along the demarcated, surveyed and mapped boundary on Nayagarh along the crest of the Sáthbháiá, Santangar, and Gothmará ranges to the crest of the Gothmará hill. *West.*—From the boundary pillar on the said Gothmará hill along the demarcated, surveyed and mapped boundary of Khairpali on killah Nayagarh to the triple junction pillar of Khairpali, Kothpala and killah Noyagarh; thence following the surveyed and mapped boundary between Khairpali and Kothpalá northward to the starting point.

NOTIFICATION.

The 27th June 1885.—The following Notice to Mariners is published for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 38.)

AUSTRALIA—SOUTH COAST.

VICTORIA.

Removal of facilities for the Navigation of Port Philip in case of war.

WITH reference to Notice to Mariners, No. 27, dated the 22nd May 1885, issued from this Department, the Government of India has received further notice from the Hon'ble the Premier of Victoria regarding the probable restriction of the existing facilities for the navigation of Port Philip.

Masters of vessels and others are hereby informed that it may be necessary for the safety of the port and the protection of life and property to, at any moment, remove the facilities now afforded for the safe navigation of Port Philip.

As a warning that such steps have been taken, and that no vessels will be permitted to enter Port Philip Heads between sunset and sunrise, the *Points Lonsdale* and *Queenscliffe* high and low lights will be *extinguished.*

The master or pilot of any vessel entering Port Philip Heads between sunrise and sunset will be informed by the officer stationed at Queenscliffe whether he may proceed through the channel, or whether he must be piloted by a duly licensed pilot specially instructed. Immediately after the foregoing lights have been extinguished, the following action will be taken.

The lights in the South and West Channels will also be extinguished.

BUOYS.

The present system of buoyage in the South, West, and Cole's channels will be either entirely *removed* or *displaced*, rendering the navigation therein dangerous, excepting to duly licensed pilots specially instructed, who alone will be advised of existing dangers, and of the guiding marks which will, from time to time, be established for the purpose of facilitating the safe navigation of such channels during *daylight.*

PILOTAGE.

Vessels are prohibited from entering Port Philip Heads between sunset and sunrise.

No vessels will be permitted to enter Port Philip Heads between sunset and sunrise. The pilot schooner will be withdrawn from the outside station from sunset to sunrise, but provision will be made for cruizing outside and piloting vessels between sunrise and sunset only.

CAUTION—ELECTRIC LIGHTS.

At the present juncture the Defence Department may at any time exhibit one or more electric lights from the vicinities of Queenscliffe and Point Nepean. Such lights will be at least 60 feet below any of the present lights, and must not be taken as guiding lights, as they will be dangerously misleading for navigating purposes, their object being a means of guarding the entrance to Port Philip.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 25th June* 1885.

[Second Publication.]

ERRATUM.

The 29th June 1885.—In schedule B appended to the rules made by the Lieutenant-Governor under the Inland Emigration Act, I of 1882, published in Part I of the *Calcutta Gazette* of the 2nd January 1884, page 48, the following correction should be made in the columns "Daily allowance to each emigrant of and above ten years of age" and "Daily allowance to each emigrant between two and ten years of age," viz. against the item "chillies" in the first column named, *for* "$\frac{1}{4}$ chittack" *read* "$\frac{1}{10}$ chittack," and in the second column named, *for* "$\frac{1}{8}$ chittack" *read* "$\frac{1}{20}$ chittack."

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

The 23rd June 1885.—In exercise of the powers conferred upon him by section 19 of the Indian Forest Act (Act VII of 1878), the Lieutenant-Governor hereby declares the lands described below (which, on the 19th June 1883, were notified as proposed reserves) to be reserved forests with effect from the 1st September 1885 :—

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Dandimal range, Churang block.	*North.*—The revenue survey demarcated and mapped boundary of mouzah Bhálunká and Churang of Khorda, and mouzahs Ratagarh and Chandi in Cuttack, from Datungohiri, on east bank of the Patia jhil, to the point where the said boundary line meets the old fort wall called Sanpokharia Kanthi, near Chandi; thence across the old fort in a south-easterly direction, leaving out the Bara tank cultivation of mouzah Churang and fort walls near the Chandi village, and passing through the Pani Duar of the said fort to the north-east corner of field No. 38 of Churang. *East.*—The revenue survey map boundary of mouzah Churang, killah Khorda, district Pooree, and of district Cuttack, from a point on the said boundary at the north-east corner of field No. 38 of the cadastral map of mouzah Churang, near the Pani Duar, to the triple junction pillar of mouzah Churang in Khorda, with mouzahs Chandi and killah Sarangarh in Cuttack, leaving out field No. 40 of the Churang map; thence by a demarcated line westward, skirting the cultivated lands of Churang and the Churang jhil, to the boundary of Churang and mouzah Bhálunká at the northern corner of field No. 7 of the Churang cadastral survey map; thence skirting to the north of field No. 420 of the cadastral map of mouzah Bhálunká to survey station B on the boundary of Churang and Bhálunká; thence west skirting fields Nos. 419 and 418-426 of the Bhálunká map; thence east to survey station C on the boundary of Bhálunká and Churang; thence following the survey boundary of Bhálunká and Churang to the triple junction pillar of those mouzahs with mouzah Krushnanagar; thence south-eastwards in a straight demarcated line, leaving out fields Nos. 124, 126 and 128 of mouzah Churang, with the Churang jhil and other cultivation; thence east along the base of the Churang fort walls, leaving out fields Nos. 149 and 152 of Churang; thence in a north-easterly direction skirting Churang fields Nos. 144, 145 and 146, and following the southern limits of fields Nos. 97 and 96-174, as entered on the cadastral map of Churang, to the old fort wall at base of the Rajgiri hill; thence south-east skirting and leaving out fields Nos. 76, 78, 79, 80 and 87 of Churang to a pillar on the revenue survey boundary between Churang and killah Sarangarh in Cuttack; thence following the said revenue survey boundary to the Cuttack and Ganjam Trunk road. *South.*—A demarcated line following the north side of the Cuttack and Ganjam trunk road from the point where it intersects the Khorda and Cuttack boundary, to a pillar at about 16 chains to the eastward of the triple junction pillar of mouzahs Churang, Jujagarh and Krushnanagar; thence a demarcated line going in a north-westerly direction to a point near the base of the Baruni hill on the surveyed and demarcated boundary between Churang and Krushnanagar, about 40 chains distant from the said triple junction pillar; thence westward along a demarcated line to the village road from Krushnanagar in Khorda to Ratagarh and Lenkasahi in Cuttack. *West.*—A demarcated line following the eastern side of the Krushnanagar, Ratagarh and Lenkasahi village road to the outer boundary of Khorda and Ratagarh in Cuttack at the Datungohiri on the east bank of the Patia jhil, leaving out the cultivation of mouzah Bhalunka and the Patia bandh to the west.
Ditto ...	Ditto ...	Dandimal range, Chandka block.	*North.*—From a survey station, one chain north of the nala at the re-entrant angle of the boundary of killah Motri, north-westward, following the revenue survey map boundary between Bhalunka and killah Motri in Cuttack to the survey station 12F on the said outer boundary; thence along a zigzag demarcated line following the pillars erected by order of the

DISTRICT.	Perganah or other sub-division.	Name of forest.	Boundaries.
Pooree—*contd.*	Khorda—*contd.*	Dandimal range, Chandka block—*concld.*	Subordinate Judge of Cuttack to No. 2 of those pillars at the south-west base of Makarjoria *alias* Sikhobari hill; thence along a demarcated line south-west to the east corner of field No. 512 of the cadastral map of mouzah Bhuasuni; thence west to the base of Hati-tope hill, leaving fields Nos. 509—1110 and 510 out of the reserve; thence north-west along the base of the Hati-tope hill to No. 1 pillar, erected by order of the Subordinate Judge, leaving field No. 503 of the Bhuasuni map out of the reserve; thence west to the surveyed boundary between Bhuasuni and Tulsadei; thence along the surveyed and mapped boundary to the triple junction 12K on the boundary with Dompara in Cuttack; thence along the said survey and map boundary of Tulsadei and Chandka over the Loda and Nikhraj hills, and along the crest of the Tulsadei hills to the triple junction 13E of mouzahs Chandka and Similipatna in Khorda, and killah Dompara in Cuttack. *North-west.*—Following the revenue survey and map boundary pillars between mouzahs Similipatna, Aulapatna, Dalua and Bhola in killah Khorda and killah Dompara in Cuttack, to the triple junction 14C of Bhola and Kantabar in Khorda, and killah Dompara. *South-west.*—A demarcated line following the survey and map boundary between mouzahs Bhola and Kantabar of Khorda to the Kochilabar nala, where the boundary crosses. *South-east.*—From the Kochilabar nala along a demarcated line over the eastern spur of the Bhalumundia; thence northward to the cart road, leading to the Guali fort, as far as the Garbhanga nala; thence skirting the south-western slope of the Jakrámál hills to a pillar on the road to Datuá; thence along a demarcated line generally northward, including the Jakrámál hills, Mahanimba and small hills, to the Similipatna and Aulapatna boundary; thence north by a demarcated line to the Kendujhar nala along the western margin of Pitáária tank; thence eastward along a demarcated line to the boundary of Tulsadei and Chandka south-west of the Bara Loda hill; thence eastward, including the Rangamati hill to the south-east end thereof; thence north-east along a demarcated line to station M, on the survey boundary between Krushnanagar and Bhuasuni, and thence to a survey station in No. 286 of the cadastral map of mouzah Bhalunka, on the boundary between Bhalunka and Krushnanagar; thence northward along a demarcated straight line to the survey station at the re-entrant angle of the boundary of killah Motri, about one chain north of the Dudhia nala.
Ditto ...	Ditto ...	Dandimal range, Barhapita block, No. 1.	*North-east.*—The Chandka block, south-western boundary. *South-east.*—From a point on the Kochilabar nala (where the Chandka block boundary crosses), a demarcated line going nearly south to the east corner of field No. 186 entered on sheet No. 16 of the cadastral map of mouzah Kantabar; thence west to the south-east end of Jantaria hills, then crossing the Jhumká nala to the eastern limit of the Raikhola hill in Kantabar; thence skirting the southern base of the hill north of the village of Manai westward to Rangamati hill; then south-west to the north-western corner of field No. 364 entered on the cadastral map sheet No. 5 of Bhagabatipur; thence skirting the cultivation of mouzah Bhagabatipur to the north and crossing the Gurikhia nala to the western boundary of field No. 48 entered on the Bhagabatipur map sheet No. 4; thence south crossing the revenue survey boundary of Bhagabatipur and Barhapita to the Dehrach nala, about five chains north of the Dehrach Thakurani's temple; thence crossing the nala to the base of the Barhapita hill; thence along the south-eastern margin of the said hill to where the cart road crosses the boundary between Harirámárá and Barhapita, north of Nanda Sahu's house; thence skirting the cultivation to the head of the Kalajhar nala in Harirámárá near the junction of the roads from Barhapita and Jamjhari to Dompara; thence in a south-westerly direction skirting the base of the hills to the triple junction pillar of Kadamjhar, Harirámárá and Jamjhari.

DISTRICT.	Perxumah or other sub-division.	Name of forest.	Boundaries.
Pooree—*concld.*	Khorda—*concld.*	Dandimal range, Barhapita block No. 1.—*concld.*	*South.*—From the triple junction of Harirámárá, Jamjhari and Kadamjhar north along the survey boundary between Harirámárá and Kadamjhar to the cart road called Ambūthani Bato; then northward along the said cart road till it meets the said survey boundary again; thence along the said survey boundary and cart road across the nala from the Ambilá pokhari to where the Kadamjhar and Harirámárá boundary cuts the cart road from Koduamundá and Angárpará; thence southwest along the said cart road to the western boundary of Kadamjhar, north of the Ambila tank; thence along the said cart road in a south-westerly direction till it meets the road from Majáná near the junction of Fakirpara and Koduamundá; thence in a southwesterly direction to the triple junction of Koduamundá, Fakirpará and Minchinpatna, taking the cart road as the boundary; thence following the southern survey boundary of Fakirpará to the triple junction of the said mouzah with the Majana and Bantal. *North-west.*—From the triple junction of Fakirpará, Majana and Bantal north along the western boundary of Fakirpará to the triple junction pillar between Fakirpará and Tarkai in Khorda, and killah Dompara in Cuttack; thence along the revenue survey and map boundary between killahs Khorda and Dompara to the starting point.
Ditto ...	Ditto ...	Dandimal range, Barhapita block, No. 2, *alias* Tarkai block.	*North.*—From the triple junction of Haldia, Tarkai and Dompara along the revenue survey and map boundary between Tarkai and Dompara to the triple junction of killah Dompara with mouzahs Fakirpará and Tarkai in Khorda, skirting and leaving out the arable and orchard lands and math of Bharath Rantra and Bhaskar Das on the Dompara boundary. *East.*—From the triple junction of killah Dompara with mouzahs Fakirpará and Tarkai in Khorda, south to the triple junction of mouzahs Fakirpará, Majana and Bantal. *South.*—From the triple junction of Fakirpará, Majana and Bantal, along a demarcated line in a westerly direction to the north of the Panasjhar springs; thence skirting the Tarkai hills to the triple junction of mouzahs Tarkai, Baghaitangi and Haldia. *North-west.*—From the triple junction of Tarkai, Baghaitangi and Haldia along the boundary between Tarkai and Haldia to the triple junction of Haldia, Tarkai and Dompara.
Ditto ...	Ditto ...	Khorda range, Barunai hill block.	*North.*—From the meeting of two roads at the boundary between Totapara and Khorda, a demarcated line following the base of the Barunai hills along the southern survey boundary of mouzah Jemadei, excluding orchard Nos. 1183—1239, as entered on the cadastral map of mouzah Khorda, to the triple junction of mouzahs Khorda, Jemadei and Makundaprasad; thence along a demarcated line, excluding the Barunai Mata's math and orchard and the Barunai Thakurani's temple and orchards, to the triple junction of mouzahs Khorda, Makundaprasad and Belpara; thence along the revenue survey southern boundary of mouzah Belpara to the Kholaduar wall. *East.*—From the Kholaduar wall along the revenue survey boundary of mouzah Kholaduar to the triple junction survey pillar of mouzahs Khorda, Kholaduar and Porapara. *South.*—From the triple junction survey pillar of mouzahs Khorda, Kholaduar and Porapara along the northern boundaries of Porapara, Harirámárá, Brahmapur and Sialiapatna to the triple junction of Sialiapatna, Totapara and Khorda. *West.*—From the triple junction of Sialiapatna, Totapara and Khorda along the Pullahghati, following the boundary between Totapara and Khorda to the junction of the two roads mentioned in the north boundary.

DECLARATION.

The 24th June 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Motihari Municipality for a public purpose, viz. for the excavation of a municipal tank in the Motihari Municipality, close to the municipal serai, and for the benefit of the public generally, in the village of Khodanuggar, appertaining to mehal Motihari, tuppeh Madhwal, pergunnah Majhowa, zillah Chumparun, it is hereby declared that for the above purpose a piece of land measuring, more or less, 3 bigahs of local measurement by a rod of 7½ cubits = 3 acres 1 rood 38 poles, is required. The land is bounded on the north by the municipal road and serai; on the west by Makhoo Lall's garden; on the south by Chumru's house; and on the east by Mr. Edwards' indigo field.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th June 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Midnapore Municipality for a public purpose, viz. for the construction of a girls' school in the town of Midnapore, in the village of Oligunge, in the district of Midnapore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 15 cottahs and 2 chittacks of standard measurement, is required. The land is bounded on the north by the house of Baboo Jogendra Nath Mullick; on the east by Oligunge short road; on the south by Oligunge bye-lane or Killapooker lane; and on the west by Gangadin Misser's waste land and Sideswar Paramanick's tank.

A plan and specification of the land required is filed in the office of the Municipal Commissioners of Midnapore for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th June 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz. for opening a passage for mehters into certain privies in Shakhari Bazar, pergunnah Jahangirnugur, zillah Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8½ dhoors of standard measurement, is required. The land is bounded on the north and east by the lands of Raj Narain Nundi and others; on the south by the land of Madhusudan Soor; and on the west by that of Jago Bundhu Sen.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 25th June 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz. for widening the Sonkortolah lane, in the town of Dacca, pergunnah Jahangirnugur, zillah Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 8 chittacks 10⅔ gundahs of standard measurement is required. The land is bounded on the north and west by the Sonkortolah lane; on the south and east by the land of Jamir Bepari.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following orders, issued by the Government of India in the Home Department, are republished for general information.

NOTIFICATIONS.—MEDICAL.

Simla, the 30th June 1885.

No. 301.—The services of Surgeon E. S. Brander, M.B., officiating Civil Surgeon of Backerganj, are, at his own request, replaced at the disposal of the Military Department.

JUDICIAL.

The 3rd July 1885.

No. 949.—Under the provisions of section 138 of Act XXVI of 1881 (The Negotiable Instruments Act, 1881, as amended by Act II of 1885), the Governor-General in Council has been pleased to appoint the undermentioned persons to be Notaries Public and to exercise their functions as such within the limits of the sudder station of the district of the 24-Pergunnahs in Bengal :—

Babu Bipra Das Banerjee ... ... } Pleaders, Judge's Court,
„ Priya Nath Mallik ... ... } Alipore.

A. MACKENZIE,
Secy. to the Govt. of India.

The following orders, issued by the Government of India in the Revenue and Agricultural Departments, are republished for general information.

NOTIFICATION.—MUSEUMS AND EXHIBITIONS.

Simla, the 3rd July 1885.

No. 98—1*L*-26 *Ex.*—It is hereby notified for general information that an intimation has been received by the Government of India that a separate Court will be set aside at the Colonial and Indian Exhibition, 1886, for private exhibitors who wish to sell and deliver their goods during the Exhibition. Application for admission to this Court should be made to Messrs. H. S. King & Co., London, or to their Agents in India—Messrs. King, Hamilton & Co., Calcutta, and Messrs. King, King & Co., Bombay.

E. C. BUCK,
Secy. to the Govt. of India.

The following orders, issued by the Government of India in the Department of Finance and Commerce, are republished for general information.

CIVIL PENSION CODE.

PAGE 100.

Chapter XIII.

Insert the following as a footnote to the word "re-employment" *in the heading under this Chapter* :—

The rules in Chapter XIII of the Civil Pension Code regarding re-employment of pensioners require in certain cases deductions to be made from the pensions or salaries of re-employed officers. Instances have recently been brought to the notice of the Governor-General in Council in which such deductions were not made owing to the officers of Account having been ignorant of the fact that the re-employed officer had been granted a pension for previous service. The Governor-General in Council accordingly directs that in future when a person who was formerly in Government employ is re-employed, whether temporarily or permanently, the authority reappointing him shall specifically state in the order of reappointment whether he received any gratuity, bonus, or pension on retirement, and shall communicate a copy of this order to the Audit Office, and, if necessary, direct that the proper deductions may be made.

D. M. BARBOUR.
Secy. to the Govt. of India.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION No. 273.

The 2nd July 1885.

THE following annual accounts and reports of the Road Cess Committees of the districts of Dacca, Furreedpore, Backergunge, and Mymensingh for the cess year 1883-84, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

G. F. E. S. NEILL, *Major*, M.S.C.
Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 125, dated Dacca, the 22nd December 1884.

From—F. WYER, ESQ., Chairman, District Road Cess Committee, Dacca,
To—The Commissioner of Dacca.

I HAVE the honour to submit herewith in duplicate a detailed account of receipts and expenditure of the District Road Fund for the past cess year ending on 30th September 1884, prepared under section 178 of Act IX (B.C.) of 1880, and also the following brief report on the works of local improvement that were undertaken during that year and those proposed to be carried out during the current year 1884-85.

2. All the original works proposed for the year under review were undertaken and completed with the exception of the construction of a diversion of the road from Dacca to Naraingunge at Pagla, a timber bridge over the Sreenuggur khall on the road from Singpara to Sreenuggur, and a fair weather road from the west branch of Toorag river to Bentha (being part of the Manickgunge track to Mirpoor).

3. The works on the first and last mentioned projects could not be executed for reasons stated against them in the annual account. The construction of a timber bridge over the Sreenuggur khall on the road from Singpara to Sreenuggur was subsequently abandoned, as it was deemed unnecessary to incur heavy expenditure on this road, which is nothing but a village road fit only for foot passengers.

4. The District Engineer reports that during the year under report about 2,413 fruit-bearing plants, consisting of mangoe, jaban, jack, &c., were planted along the sides of roads, and all of them were provided with thorny enclosures.

5. Surveying operations were conducted during the year for the preparation of projects for the construction of new roads. They are the following:—

1. Surveying the proposed feeder road from Sreepoor to Gosinga hât.
2. Surveying the proposed road from Dacca to Demra.
3. Surveying the proposed road from Keranigunge to Chander ferry.
4. Surveying a portion of the proposed Dacca-Manickgunge road from Bulliarpoor to Joymandole.

6. Ordinary annual repairs were made on all the existing district roads, and they are reported by the District Engineer to have much improved, with the exception of the roads from Moonsheegunge to Singpara, No. 5; Dacca-Keranigunge ferry to Nishanbaree, No. 8; and Moniat road, Nowabgunge to Moniat, No. 12, which are below the level of high flood, and are consequently washed off during the rains. The general condition of these roads, however, is reported to be very fair.

7. In the case of the road from Dacca to Naraingunge, the metalling operations were carried out systematically during the year under review. The old and bad system of renewing only the worst portions of the road has been abolished, and the quadrennial system of renewing entire miles has been introduced. The introduction of this system and the use of bhowal kankar in place of rubbish as binding material have effected a marked improvement in the state of the road.

8. Repairs to jaffry enclosures and the planting of new trees in place of those which died out were done during the year on the following roads—

NAME OF ROAD.			No. of enclosures repaired.	No. of trees planted.
Road from Dacca to Naraingunge, No. 1		...	505	260
Ditto	Naraingunge to Bydebazar, No. 2	...	715	448
Ditto	Dacca to Toke, No. 3 ...	...	415	...
Ditto	Sealo to Manickgunge, No 6	...	547	450
Ditto	Mirpoor to Dacca, No. 10 ...	...	873	...

9. The maintenance and the watering of the roadside trees were carried on by malies under the supervision of overseers in charge of roads. The general condition of the trees is reported by the District Engineer to have much improved. Formerly Mr. Westmacott placed these trees under the charge of the chowkidari punchayets, but they entirely neglected looking after them, and I appointed malies to attend to the trees under the supervision of the overseers.

10. No original, but only two repair village works were carried out in the sudder subdivision. The cause of non-execution of new village works has been stated in the annual account.

11. Village works, both in the shape of original works and repairs, were executed by both the Branch Committees of Manickgunge and Munshigunge, the details of which have been given in the annual account. In certain cases the grants for village roads were supplemented by local contributions, and the lands required for the construction of village roads were given up free of cost in every instance. It is gratifying to observe that some of the members rendered great assistance in supervising the works entrusted to their charge.

* * * * * * * *

13. The District Committee and the Munshigunge Branch Committee have taken interest in and done their work satisfactorily, with the exception of the members who did not attend a single meeting. The Manickgunge Branch Committee appear to have worked fairly well.

14. The Act has been worked without difficulty.

15. The different establishments under the Road Committee have worked fairly, except the Road Cess Certificate Department, which for the first part of the year worked very badly. The department, however, now, under strict supervision, is working well.

Original Works *concluded.*			PUBLIC WORKS—*cont.*					
	4,000 0 0	17 & 40	Village roads and khals of Sudder sub-division ...	.....	.....	.....		There were several applications for original village works during the year, in some of which the grants applied for were sanctioned, but the applicants did not appear to receive their grants and undertake the works though reminders were sent to them on the subject. In one case there was a dispute between the villagers regarding the works applied for. In some cases the applications had to be sent to the Branch Committee as the proposed works were situated within their jurisdiction. Whilst in the remaining cases, the estimated cost of the proposed works was reported by the District Engineer to exceed the limit of Rs. 1,000 fixed by Government for village works. Under the above circumstances no expenditure under this heading was incurred.

ANUND CHUNDER SEN,

Vice-Chairman.

No. 287C,—III-5, dated Furreedpore, the 8th February 1885.

From—C. A. SAMUELLS, ESQ., Chairman, Districts Road Committee, Furreedpore.
To—The Commissioner of Dacca.

I HAVE the honour to submit herewith, two copies of the detailed accounts of the receipts and expenditure of the Road Fund of this district for the cess year ending on the 30th September last, together with the following report on the administration of the fund during the year. The accounts were duly audited by the standing Sub-Committee of audit and passed by the Committee at a special meeting held on the 26th ultimo, in accordance with the provisions of Section 179 of the Cess Act IX (B.C.) of 1880. A copy of the resolution of the special meeting of the Committee at which the accounts were passed is also enclosed, herewith.

2. *Cess on lands.*—The road cess was levied during the year at the usual rate of six pie on each rupee of annual value of lands. The Collection of cess cannot be said to be satisfactory, it having fallen short of the sum estimated in the budget by about Rs. 2,099. It is also less than that of the preceding year by Rs. 143-8-5, though it ought to have been more, there having been an increase of Rs. 6,521, in the demand effected by the partial revaluation already completed. The arrears of road cess thus remaning unrealized year after year, had accumulated to more than Rs. 22,000 at the end of September last. The various causes to which this short collection is ascribed have been reported in detail in the Annual Report submitted from the Cess Department of the Collectorate; but whatever they may be, it is necessary for the interests of the Committee, that prompt measures should be taken to make up these heavy arrears.

3. The receipts on account of fees, fines and forfeitures also fell short of the sums estimated in the budget. The recovery of process fees advanced by the Committee by means of Court-fees stamps was Rs. 3,541-7-3 as against Rs. 5,000, estimated in the budget. Thus the total revenue of the year as actually credited to the fund, fell short of the sum estimated in the budget by Rs. 4,768-12-10.

4. *Committees.*— * * The percentage of average attendance of members of the District Committee is below that of the previous year, but this is partly owing to the inability of the Executive Engineer, who is a member of the Committee, to attend any meeting during the year. There was also another non-official member who did not attend any meeting. He has since been replaced by a new member. With these exceptions, almost all the members of the District Committee took interest in the administration of the Fund. The Sub-Committees appointed for auditing the accounts and for other purposes, were more regular and punctual in the discharge of their duties than they had been in previous years.

5. The Madaripore Branch Committee is reported by the Chairman to have worked well, some of the members having taken great interest in the management of the fund placed at their disposal.

6. The Chairman of the Goalundo Branch Committee reports, that the members of that Committee interested themselves in the expenditure of the funds entrusted to them, for laying roads and sinking tanks within the Sub-division; but it seemed to him that no members excepting one, usefully expended the money placed at his disposal. It is difficult to understand, how under such circumstances, the members of the Branch Committee can be reported to have taken a real and genuine interest in the management of the Committee's Funds. It is certainly most unsatisfactory to learn, that the grants

made for public purposes have been so misapplied, and it is a matter of special regret that much of this misapplication was made by the members themselves to whom grants had been made with far different expectations. I have already intimated to the Branch Committee my strong disapprobation of this state of things, and it is hoped, that in future, rigid inspection will be insisted on and proper care taken to see that the money is usefully spent. The percentage of attendance of both the Branch Committees seems, however, satisfactory.

7. *Examination of Accounts.*—The accounts of the Committee's office were examined by Mr. F. Larpent, the Examiner of Local Accounts, in September last, besides their monthly and annual audit by the standing Sub-Committee, appointed under section 174 of the Cess Act. The books and accounts kept by the District Engineer were also audited by the Sub-Committee and inspected by the Examiner and the Divisional Superintendent of Works, Mr. Johnson, in September last. The results of all these audits and inspections of both the offices was satisfactory.

8.—*Original Works.*—As in the preceding year the work under this head done during the year under report was very poor. The expenditure amounts to only one-third of the sum estimated in the budget. A large amount was budgetted for the earthwork and compensation of the first section of the Madaripore road from Manicknagore to Bhanga on the expectation that the project would be sanctioned early. But to the great disappointment of the Committee, it was returned by Government at a late period of the year for revision and also for reconsideration as to the utility of the work. The project has, however, been resubmitted with recommendations for sanctioning it, and it is hoped that during the current cess year, a part of the work may be undertaken.

9. There were also provisions for the bridging of the Jessore, Madhukhali, Kristopore and the Bhojeswar Roads. The projects for the first two works were sent up, but were returned for revision, and could not be taken up within the year. The last two were taken up late and very little progress could be made in them.

10. Of the original works executed during the year, the completion of the bridging and metalling of the Khangunge road was the most important. The road is only 2,900 feet in length, but it is a feeder of the Eastern Bengal State Railway. Another feeder of the Railway from the Rajbari station to Godarbazar 1¼ mile in length, was also widened and raised during the year of report for the purpose of metalling it during the current year. The bridges on this road were also improved and an iron bridge of 10 feet span was constructed over a khall between this road and the Godarbazar. The earthwork and the bridge-work were completed during the year of report and the metalling is now going on.

11. Provision was made in the budget for the preliminary surveys of several roads which were completed with the exception of two only.

* * * * * * * *

15. *Repairs.*—Almost all the roads of the district are reported to have been maintained in good and trafficable order throughout the year. In roads, where there are gaps, causeways were made during the dry weather and bamboo skeleton bridges were put up in the rainy season. The expenditure incurred in repairs of the district roads aggregate to Rs. 9,423-0-4, giving a cost of about Rs. 79 per mile on the average. The largest outlay was on the Rajbari road, the cost for the repairs of which amounted to about Rs. 116 per mile.

16. The budget provisions for the repairs of almost all the roads were spent during the year. In cases where there was no expenditure against the allotments in the budget, explanations have been given in the memorandum accompanying the accounts. For the proper maintenance of roads and bridges, funds were obtained by transfer from other heads with the sanction of the Commissioner to meet the want or insufficiency of budget provisions, whenever it was thought necessary.

17. *Village Roads.*—It will be seen from the statement given below, that the expenditure on village roads in the district during the year under report, was more than that incurred for the purpose in any of the four preceding years, which is no doubt satisfactory.

Village Road Works.	Expenditure in 1879-80.	Expenditure in 1880-81.	Expenditure in 1881-82.	Expenditure in 1882-83.	Expenditure in 1883-84.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Original works ...	3,181 15 0	3,228 7 8	5,211 9 7	4,960 2 0	8,128 1 11
Repairs ...	2,243 0 3	2,649 13 9	2,015 2 5	1,332 3 9	1,352 5 1
Total ...	5,424 15 3	5,878 5 5	7,226 12 0	6,292 5 9	9,480 7 0

With the sum spent during the year under this head, 61 village roads as shown in the margin were constructed, improved or repaired. Besides these six village roads were constructed at a cost of Rs. 492-7-1, and 11 temporary and fair-weather village roads were repaired for Rs. 133-3-10 by the Chairman when in the interior, during the tour season from the sum of Rs. 1,000 placed at his disposal for the purpose.

	Rs.
By the Sudder Committee ...	19
,, ,, Goalundo Brach Committee	26
,, ,, Madaripore ,, ,, ...	16
Total ...	61

18. The total number of new village roads made during the year in the district was 44, aggregating in length to 29 miles approximately, as will be seen from the marginal notes. This seems to me to be satisfactory and some consolation for there having been made not a single district road for the last two years.

SUB-DIVISION.	Number of new roads.	Total approximate length in miles.
Sudder	11	6½ miles.
Madaripore ...	8	5¼ ,,
Goalundo... ...	19	16¼ ,,
Roads made by the Chairman when in camp	6	¼ ,,
Total ...	44	29

19. *Tanks.*—Eight Tanks were excavated during the year, of which three were in the Sudder Sub-division, three in Goalundo and two in Madaripore. The allotment under this head was Rs. 2,000 in the budget which was supplemented by a contribution of Rs. 500 paid by the interested and well-to-do villagers. Rupees 400 of this contributed sum was realized at Sudder and Rs. 100 in Madaripore.

20. I am glad to note that contributions were also received towards the construction of village roads in the Sudder and the Madaripore Sub-divisions amounting to Rs. 699, as shown in the margin, I have invited the attention of the Goalundo Branch Committee to the matter, and expect to see similar contributions realized in that Sub-division also. It is not unfrequently the case that villagers, if they can afford to pay, come forward with liberal contributions, specially if it be explained to them that their application will be considered prior to those without such offers.

	Rs.
Realised at Sudder	274
Ditto at Madaripore ...	425
Total ...	699

21. *Arboriculture.*—The total Expenditure during the year for maintenance of trees planted on the five marginally noted roads was Rs. 1,082-13-5. Such large sums are annually spent for this purpose, but the results are reported to be far from satisfactory. It had been the opinion of the late Commissioner of the Division that, trees are not needed on the roads of East Bengal. The Committee have therefore ceased to lay out any money for this purpose from the current year. Attempts are being made to encourage the villagers in planting fruit trees on road sides at their own cost, but no one has yet been induced to undertake the work.

1. Pangsa road.
2. Jessore do.
3. Madhukhali do.
4. New Talma do.
5. Rajbari do.

22. *Tramways.*—For the last two years the Committee had under contemplation the opening out of a line of Steam tramway or light Railway on the Rajbari road. In the cess year 1882-83, statistics of traffic were collected and submitted to Government. This information was called for by them with reference to a petition presented to His Honor the Lieutenant-Governor by the People's Association in this district, during his last visit to Furreedpore, in August 1882. But no further decision yet seems to have been passed by Government in the matter. During the latter part of the cess year under report, the Committee drew the attention of Government to the subject, and they in their reply No. 1233 T—R., dated the 22nd September 1884, communicated the unlikelihood of such a line being undertaken by the direct agency of Government, and asked the Committee to take into consideration, the possibility of undertaking the line themselves or finding some promoter for it under the provisions prescribed by the Act III (B.C.) of 1883—Tramways Act.

23. The statistics of passengers and traffic referred to above, would seem to show, and the Divisional Superintendent of Works, Mr. Johnson, during his inspection of the road in September last, thought the project to be feasible, and he also suggested a branch line to Fooltola. He has shown by an intelligent note that the project of the Tramway would be less costly than that of metalling the road (which has already been sanctioned), in consideration of the heavy annual expenditure required for maintaining the latter, and that the anticipated returns of the tramway would enable the Committee to pay off the required loan within a reasonable time; and if so, the returns would thenceforth show a sheer profit, even from a Company's point of view.

24. The proposal requires early disposal as the utility of a portion of the road has been considerably lessened by the absence of a bridge over the Marapadma which as well as several other suggestions of the Divisional Superintendent connected with the existing wooden bridges on the line, have been kept in abeyance pending the tramway question. A proposal in regular form is proposed to be submitted shortly in accordance with the provisions of the Act.

25. *Establishments.*—The Committee's establishment has worked very satisfactory during the year under report. The Head clerk who is also the accountant is an officer in whom the Vice-Chairman has much confidence, and who has been of great help to him in all matters of account. The establishments in the Collection Department has also done well. With regard to the Engineering establishment, however, I would only echo the the sentiment expressed by my predecessor in his report for 1881-82, as there do not appear to have been any perceptible improvement in the estimates framed by them, which is made, apparent by the fact, that many of them were returned by higher authorities as incomplete and which more than anything else contributed to the Committee's failure in undertaking any original work of importance during the year.

Vice-Chairman.

Explanatory Memorandum to accompany the Annual Accounts for the cess year 1883-84.

(*a*). The difference between the amounts shown under head Original Works and Repairs, respectively, in the monthly and the annual accounts is due to the expenditure of Rs. 13-6 incurred by the Goalundo Branch Committee and shown under head "Repairs" in the monthly accounts having now been transferred to "original works" to which it properly belongs.

(*b*). As "One per cent. Road Cess" and "Cess on houses" are no longer credited to District Road Fund, there were no estimated receipts in the budget under these heads; but owing to the adjustment of certain old discrepancies with the treasury accounts effected within the year, there were credits and debits under these heads, respectively; hence the entries under these heads. The receipts during the year on account of "Cess on houses" was annas 8, but the refunds on that account were Rs. 404, hence the minus entry of Rs. 403-8.

(*c*). On receipt of a contribution of Rs. 150, Rs. 300 was paid to the villagers of Teljuri. But owing to disagreement amongst themselves they could not execute the work, and they refunded the money granted, with interest. The contribution of Rs. 150 paid by them was therefore returned to them in accordance with the terms of the agreement.

(*d*). The temporary establishments were entertained in the previous year 1882-83 for partial revaluation, and the salaries were paid in 1883-84.

(*e*). The excess of Re. 1-14-3 over the budget allotment for the salary of each of the punkha-pullers of the Collection, Committee's, and the District Engineer's offices is due to the salary for both September 1883 and September 1884 being charged within this year 1883-84. The charge on this account during the current year will be less. The punkha-pullers were not entertained in excess of the sanctioned period—seven months.

(*f*). *See* explanation (*e*).

(*g*). The excess of Rs. 87-10-8 over the allotment in the budget for the establishment and contingencies of Committee's office is due to the salary of the establishment for both September 1883 and September 1884 having been charged within the year. The offices being closed on the 23rd of September 1884 for Puja vacation, the salary for that month was paid before the expiry of the month under orders of Government. No extra establishment was entertained.

(*h*). The excess payment over the budget under this head was due to the rate of percentage being changed from 1 per cent. on disbursement to 1·54 per cent. on the income of the Fund, under orders of Government No. 2224½T—F, dated the 24th September 1883. This change, which virtually caused an increase in the percentage, took effect from the 1st April 1882, and the increased amount from that date to the end of September 1883 was paid within the year. As the payment was imperative it was made even in excess of the allotment.

(*i*). This work was done from the amount of Rs. 160 deposited by the Chairman of the Nuddea District Road Committee, the works falling within the jurisdiction of that district.

(*j*). The allotment for bridging the Jessore road was not spent owing to the project for the work having not been sanctioned within the year.

(*k*). The estimate for increasing the width of metal on the above road was sanctioned by the Commissioner's letter No. 157T., dated the 29th September 1883, but as the Committee did not think it advisable to lay out any money on this part of the road (from the Furreedpore bazar bridge to the junction of the Rajbari road) till the question of the Rajbari tramway has been decided, the work was not taken in hand. A small amount, however, was spent out of this estimate for preparing metal by dismantling the Mojoordia bridge.

(*l*). The project for the Kristopore road bridge had to be revised more than once, and it was finally sanctioned when it was too late to begin the work: hence no expenditure. The work is now going on and will be completed shortly.

(*m*). The allotment for the Madhukhali road bridges was not spent owing to the project for the work having not yet been sanctioned.

(*n*). The estimate for the Rajbari road land compensation was sanctioned by Government No. 296T., dated the 3rd July 1880, and Commissioner's No. 991R., dated the 20th idem. The Collector having made no requisition for compensation money within the cess year, the allotment under this head was not spent. Rupees 2-8 only was paid for establishment charges made by the Deputy Collector.

(*o*). There were some materials at site of the Marapadma bridge on the Rajbari road from the previous years, and as they were not likely to be required for that work within a reasonable time, they were transferred to new Talma road bridge repair work. The former was therefore credited, and the latter debited, with the value of the materials transferred; hence the minus expenditure against Rajbari road bridge. The estimate for the Rajbari road bridges was sanctioned by Government No. 966L.C., dated the 16th March 1882, forwarded by the Commissioner's No. 428R., dated the 21st idem.

(*p*). The estimate for the Godarbazar road metalling was sanctioned by the Commissioner's No. 525R., dated the 30th March 1881.

(*pa*). The Rudrakor road was proposed at the request of a certain gentleman who was expected to advance the money required for the road, but as he subsequently refused to do so, nothing was spent on this account.

(*q*). The estimate for metalling the Khangunge road was sanctioned by Government No. 3034L.C., dated the 6th October 1882, forwarded by Commissioner's No. 28R., dated the 12th idem.

(*r*). The project for bridging the Bhojeswar road came up before the Committee for sanction too late, consequently so little of the allotment was spent within the year. The work is going on and is expected to be completed shortly.

(*s*). The estimate for land compensation of the Bhojeswar road was sanctioned by Commissioner's No. 1095R., dated the 4th September 1880.

(*t*). The allotments for the Madaripore road were not spent owing to the project thereof having not been sanctioned by Government. A greater part of the allotment was transferred to other heads for different purposes, with the sanction of the Commissioner.

(*w*). The pipe culverts on the Panchar road were put in 1882-83, but the payment was made in 1883-84.

(*v*). The estimate for the acquisition of land required for widening the Fultala road having not been sanctioned within the year, the allotments under that head could not be spent.

(*va*). The allotment for the temporary shed was not spent owing to the general revalnation of the estates having not been taken up within the year. The extra shed is wanted only for accommodating the revaluation establishment.

(*wa*). *See* explanation (*a*).

(*x*). The repair works of the roads Nos. 9 and 30, Haturia and the Bhojeswar roads, were not done for want of contractors: they are being done in this season.

(*y*). The roads Nos. 20, 24 and 45, Nurria, Kedarbaria and the Lonesing roads, were repaired during the year, but the payments were not made owing to certain discrepancies having been reported by the District Engineer between the estimate and the work actually done and billed for, which could not be settled within the year; hence the budget allotments were not spent.

(*z*). The roads Nos. 26, 27, 47, 51 and 52, Sibchur, Kotwalipara, Bondorkhola, Panchur and Bahadoorpore roads, respectively, were reported as being in good order, and no repairs were necessary during the year; hence the allotments for these roads were not spent.

(*za*). The expenditure of Rs. 6 incurred for bamboo bridges on the old Talma road was proposed to be met from the allotment for petty construction and repairs.

(*zb*). The road No. 48, Poragatcha road, has been washed away: the allotment for repairing this road was not therefore expended.

(*zc*). The verandah attached to the cess office has since been dismantled; therefore the money allotted was not spent for repairing it.

(*zd*). For the difference of Rs 13-6, *see* explanation (*a*).

(*zf*). For excess over the allotment for the salary of the punkha-pullers, *see* explanation (*e*).

AMVIKA CHANDRA MUZUMDAR,
Vice-Chairman.

No. 146, dated Burrisal, the 12th January 1885.

From—BABOO R. C. DUTT, Chairman, Road Cess Committee, Backergunge,
To—The Commissioner of the Dacca Division.

I HAVE the honour to forward herewith, copies of the annual accounts for the cess year 1883-84, and of the Vice-Chairman's report for that period, which have been passed by the District Road Committee under section 179 of the Cess Act, in duplicate. The report gives a full and clear account of the work done during the year, and I have nothing to add to it.

2. The office of the Chairman was held by me for the whole year, excepting the period from 28th December 1883 to 25th February 1884, when Mr. Veasey was Chairman.

* * * * * * * *

4. Baboo Jagadish Chandra Roy has held the appointment of District Engineer throughout the year, and has given satisfaction by his active and zealous performance of his duties. I agree with the Vice-Chairman's remarks with regard to the officers on the several establishments maintained from the Road Cess Fund, but I wish specially to note the praiseworthy care and assiduity with which Baboo Sri Nath Bose, head clerk of the Committee's office, has done his work.

Dated Burrisal, the 9th January 1885.

From—L. P. SHERRES, ESQ., Vice-Chairman, District Road Cess Committee, Backergunge,
To—The Chairman, District Road Cess Committee, Backergunge.

I HAVE the honour to submit the detailed account of the receipts and expenditure of the District Road Fund for the cess year 1883-84, and to report as follows.

2. Baboo Rakhal Chandra Roy, who was Vice-Chairman of the District Committee, resigned his appointment in June 1884, when I succeeded him.

3. The annual account has been examined and certified by the Sub-Committee of Audit under section 179 of the Cess Act. The only thing I have to say regarding it is that the contribution from Government for carrying on revaluation work was shown in this office account submitted to the Accountant-General, Bengal, under the sub-head "Miscellaneous," but the Accountant-General in his No. L.F.—069, dated 5th June 1884, gave instructions to transfer the amount from this head to the head "Grant from Government," and in compliance with this instruction Rs. 3,050-14-4 has been shown in the annual account under head "Grant from Government," but it now appears from the Government Resolution No. 4272R.C., dated 12th December last, on the estimates of receipts and expenditure for the current cess year, that such contributions should be shown under sub-head "Miscellaneous."

4. As usual, the budget estimate was framed in July of the preceding year, and was sanctioned by the Commissioner and reviewed by Government in its Resolution No. 4012R.C., dated 19th November 1883, received with Commissioner's No. 59R of the 28th idem. The figures shown in the revised estimate were accepted by Government by its letter No. 681R.C., dated 23rd February 1884, received with Commissioner's No. 269R. of 29th idem. Several changes were afterwards made in it by the Committee, with the approval of the Commissioner, to meet the requirements of the district that had not been foreseen when the budget was originally framed.

5. The Committee levied the cess, as in the previous year, at half the maximum rate. The Cess Act worked smoothly throughout the year, and no difficulty was experienced in carrying out its provisions. The demand on account of cess on lands for the year was Rs. 96,547, of which Rs. 97,630-4-6, including arrears of the previous year, was realized: the percentage of collection is 101·12, or 1·12 per cent. above the current demand, which is satisfactory notwithstanding the dilatory nature of the certificate procedure under which the arrears are realized. The Certificate Act does not really facilitate the recovery of arrears. It rarely happens that the defaulters pay their dues before the date of sale.

6. The number of estates sold is small compared with the number of those defaulting. The proprietors in very many cases prefer default to regular payment, as they cannot collect cesses from their tenants in time, and they prefer paying 12 per cent. to Government to borrowing money at an exorbitant rate. An interval of about three months from the date of default to the date of sale gives them facility to collect money, and by such studied default they have always the advantage in their favour.

7. This district is partially under revaluation, which work has been taken in hand about two years since: one-third of the cost is borne by Government. A Special Deputy Collector has been appointed this year for carrying on the work, and better progress under the personal supervision of this officer is now expected.

8. The District Committee worked as in former years. The greater number evinced interest in the matters brought before them for discussion.

9. The several Branch Committees have done their work to the best of their ability. In Bhola only two meetings were held during the year. The Chairman of the Branch Committee was asked to explain why the provision of section 119 of the Cess Act, under

which at least four meetings should have been held during the year, was not fully complied with. He explained that, as there was no other business than that transacted, no further meetings were necessary to be held. However, he has been instructed to act strictly in accordance with this provision of the law in future.

10. The Audit Sub-Committee, appointed under section 174 of the Cess Act, met every month and scrutinized the accounts and books of the Committee's and the District Engineer's offices.

11. The total outlay under the head original works was Rs. 55,922-11-9 against Rs. 33,410-2 of the previous year, and that on repairs Rs. 36,407-4-9 against Rs. 38,577-4-3 of the year preceding. The works executed under the former head were as follows :—

Original works ...
1. Two bridges on the Gournadi road.
2. Three bridges on the Tajumuddin road.
3. One bridge on the Dowlatkhan road.
4. Ditto on the Bejoypore road.
5. Earthwork of Kaligunge road.
6. Ditto of Harinafulia road.
7. Earthwork and bridging of Chandrahar road.

12. The two khalls, viz. the Lebukhali khall and the Haltahat cut, were budgetted during the year as original works, but their projects having been returned for revision, they could not be executed.

13. The Committee have saved the very heavy cost which they would otherwise have had to incur in acquiring land for the second and third sections of the Harinafulia road by the land having been acquired free of cost.

14. *Repairs.*—Almost all the existing roads and some khalls were budgetted for repairs. They were let out to contractors, who proceeded with them in almost all the cases with regular attention till February last, when the Divisional Superintendent, Mr. Johnson, came over this district and objected to execution of almost all the khall works and some of the road works. Mr. Johnson was of opinion that the Committee should not touch any khall, except as an original work. The matter was referred to Government who decided that the money expended in maintaining khalls in their existing condition should be entered as repairs, and should not be considered as expended on original works unless some improvenent on the pre-existing and normal condition of the khall was contemplated. The Chairman and Mr. Johnson have accordingly drawn up a list of khalls to be maintained, which is pending the approval of the Committee.

15. On the objection raised by Mr. Johnson, all the repair works to the khalls were stopped by the late Chairman, Mr. Veascy, and only in four cases resumed, as the work on these was far advanced.

16. All the existing roads were fairly kept up.

17. The Committee maintained for several years, a towing path from Burrisal to Jhalakati at a cost of about Rs. 1,500 a year. As it appeared proper that, being a towing path, it should be maintained by the Circular and Eastern Canals Division of Government, Public Works Department, the Chairman wrote to Government to transfer it to the proper department. The transfer has been effected with an annual saving of about Rs. 1,500 to the Committee.

18. *Village works.*—Rupees 24,900 was set aside for the village works throughout the district and was distributed as follows :—

	Original works.	Repairs.
	Rs.	Rs.
Sudder sub-division	4,910	2,090
Perozepore „	5,450	1,450
Patuakhali „	4,500	2,500
Bhola „	2,600	1,400
Total ...	17,460	7,440

19. In Patuakhali and Bhola the works were selected and funds distributed by the Branch Committees. In Perozepore the selection was made by the sub-divisional officer and approved of by the Branch Committee. In the sudder sub-division both the selection and distribution were made by the Chairman, who was authorized by the Committee to do so. The people in the interior appreciate the village works much more than district works, and present many petitions every year for them. They cannot be readily taken in hands, as funds are not available, and because the promoters cannot settle the objections about land. When proprietors of land do raise objections, they are so obstinate that compensation is out of the question. In sudder sub-division the villagers came forward to bear one-third cost in five cases. Their prayer was accepted, and two-thirds of the cost in each were allowed by the Committee. In four of these five cases works were carried out, and in the fifth the promoters having failed to obtain land the grant was withdrawn.

20. In sudder sub-division all village works were executed through the agency of the District Engineer, and all payments made on his reports. In other sub-divisions final payments were made on certificates or reports of the overseers.

21. The Chairmen of the Branch Committees report that the funds allotted have been spent to the best advantage. The funds at the disposal of the Branch Committees of Perozepore and Bhola have been nearly all spent, and in Patuakhali the unexpended balance is Rs. 1,678. The Chairman thus explains the cause of this abnormal balance :—

"In this sub-division there are no regular day-labourers. It is only the cultivators during their spare time, if they choose, work in the roads. During the year the price of rice having been high, the cultivators got much more money than in other years. Hence, as they are naturally indolent, it was found difficult to make them work in the roads, even in their spare time; the consequence was that the contractors could not finish some of their works within the year, hence there was a saving in the amount allotted to the Branch Committee."

22. *Arboriculture.*—Nothing was spent on this work during the year under report, though Rs. 300 was allotted for planting the Gournadi roadside. The planting in this district has been decided to be unnecessary. The trees planted in previous years were taken care of.

23. *Steamer service.*—A daily steamer service between Burrisal and Khulna has been opened by the Bengal Central Flotilla Company, Limited, since June last. This Committee pay a subsidy of Rs. 500 a month. The Company get a subsidy from the Khulna Road Cess Committee, as well as from the Postal Department for conveying mails. In spite of all irregularities as regards time, accommodation, and landing, &c., the service has been a great boon to the public. The rates are for first class passengers 1½ annas, and for third class 1¼ pice per mile.

24. *Establishment.*—The work of the Committee's office is always thoroughly well done, and the registers are always very neatly kept, and the clerks of that office all deserve praise, and of course more especially the head clerk, Baboo Sri Nath Basu, who has the control of it.

Of the Engineer's work I only know that the registers are properly kept up.

The Collection Department is large and unwieldy, and, as I stated in my recent report made to the Commissioner, the greater part of the work done appears to me to be unnecessary. It is however for the most part done under Board's orders. Of the officers of this Department I only know that they are very hard working.

No. 6—Part I.

No. 89, dated Mymensingh, the 6th December 1884.

From—E. G. GLAZIER, ESQ., Chairman, District Road Cess Committee.
To—The Commissioner of the Dacca Division.

Under the provisions of section 179 of the Cess Act IX of 1880 (B.C.) and in accordance with the instructions contained in Bengal Government's circular No. 973A., dated 14th September 1880, and No. 21A., dated 6th January 1881, I have the honour to submit the Annual Accounts of receipts and expenditure of the Mymensingh District Road Fund for the cess year 1883-84 in duplicate, duly audited by the Sub-Committee and passed by the District Committee at their meeting of the 1st instant.

2. The Road Cess Act has been in force in this district since October 1875, and this is the ninth report of its working. The people in general appreciate the working of the Road Cess system, on account of improvements that have been made in the district and village communications during the last few years.

3. * * * * * * * *

The non-official members of the Committees were irregular in their attendance; four meetings of the District Committee were adjourned during the year for want of a quorum.

4. The Road Cess on lands has been levied at the maximum rate of one half anna on each rupee of the annual value ever since the Cess Act came into force in this district. The net collections under the prescribed heads of receipts during the year amounted to Rs. 1,48,099-15-1, against the estimated demand of Rs. 1,54,394. The balance left unrealized on account of cess on lands at the close of the year with the arrears for the previous years

was Rs. 26,337 as per annual return. The income exceeded the expenditure, and there was a saving of Rs. 58,676 under the several prescribed heads of expenditure.

5. The expenditure under "original works" as per enclosed detail account amounted to Rs. 36,205-8-9 against the estimated cost of Rs. 54,999 provided. The amount allotted to this head was principally applied to the construction of two district roads, Road Cess office building, 17 masonry bridges and culverts, seven glazed earthen pipe culverts and metalling work, as well as to the improvement of the channel of the Bramaputra River passing the town. The saving of Rs. 18,794 under the head, is due partly to reductions in estimates under the directions of the Divisional Superintendent of works, and in some cases, to the works not being properly executed by contractors in time for payment before the close of the year. The original works noted in the annexed list have been completed during the year with the exception of four, namely—

I. Construction of 10 masonry bridges on the Mymensingh to Suburnacolly road.

II. Extension of the Shambhuganj to Durgapur road between Jharia and Durgapur.

III. Planting trees, 10 miles of the Mymensingh to Ramgopalpur road.

IV. Metalling the approaches of 5th mile bridge on the Mymensingh to Ramgopalpur road.

All of them are likely to be completed during the current cess year, and completion reports will be submitted as soon as possible.

6. The expenditure on "repair works" as per detailed accounts appended, amounted to Rs. 51,478-2-9 against the estimated cost of Rs. 76,724 during the year under report. Measures have been taken to keep all the existing district and village roads in a fair and passable order by petty repairs to the road surface, to the existing timber bridges, to the metalled portion of 17 miles on the district roads and to the inspection bungalows; and steps have also been taken during the current cess year to replace old and delapidated timber bridges by glazed earthen pipe culverts, which are less expensive and more satisfactory in every way. The saving of Rs. 25,246 under the head was owing principally to the reduction effected in the works according to the instructions given by Divisional Superintendent of works during his inspection.

7. The table in the margin shows the amount provided for and spent by each Branch Road Cess Committee, as well as by the District Committee in the Sudder Sub-Division, for the construction and the maintenance of village roads under the category of original and repair works during the year under report. The balance could not be spent for want of proper supervision of certain works by the Overseers in charge of works before the close of the year, and for some works not having been regularly and fully completed by contractors in time.

	Amount sanctioned. Rs.	Amount expended. Rs.	A.	P.
Sudder Sub-Division ...	4,725	4,246	14	6
Atia ditto ...	4,500	4,241	0	3
Jamalpur ditto ...	4,900	4,004	15	3
Kishoregunj ditto ...	4,830	3,510	14	0
Netrokona ditto ...	4,500	4,490	4	3
Total ...	23,455	20,494	0	3

A sum of Rs. 35,000 has been provided for in the current cess year's budget for the further improvement to village communications.

8. It may be mentioned that the sum of Rs. 860-14-9 was expended for improving certain tanks at the Netrokona sub-division for the supply of drinking water, against the amount of Rs. 300 spent in the preceding year.

9. With regard to arboriculture, I have to state that the sum of Rs. 1 088-4-6 has been spent for planting indigenous fruit-bearing trees on both sides of certain district roads near the town during the year under report, as specified in the appended account. Many of the trees planted in previous years have now attained a fair growth, and a few jack trees have borne fruit during the last season. Provisions has been made in the current year's budget estimate for planting trees on 17 miles of road.

* * * * * * * *

11. The subjoined statement shows the percentage cost of the different establishment under the District Road Cess Committee during the year under report.

Total income excluding balance of previous year.	Total cost of establishments exclusive of contribution for Divisional Superintendent of Works.	Percentage.	Cost of establishment for collection office.	Percentage.	Cost of administration establishment.	Percentage.	Cost of working establishment.	Percentage.
Rs.	Rs.		Rs.		Rs.		Rs.	
1,48,099	37,514	25·33	12,546	8·47	5,904	3·98	19,064	12·87

The total establishment charges exceeded one-fourth of the Committee's net income during the year which is attributable to the sum of Rs, 5,199-1, paid for the cost of serving processes under the Board's circular No. 8 of August 1882, and that of Rs. 2,356-11-6 spent for the extra establishment entertained for the revaluation works. The different establishments under the Committee have worked satisfactorily with the exception of two Sub-overseers employed under the District Engineer on works, whose services have been dispensed with and replaced by others.

12. In conclusion, I have to state that, the provision in the law with regard to the examination and audit of monthly and annual accounts of the District Road Funds for the year under report by the standing Sub-Committee, has been regularly observed, and that the work of the Committee as well as of the District Engineer's offices, in keeping books and accounts, with the submission of accounts, returns, &c., has been performed with care and regularity, and with credit to the officers concerned.

ISAN CH. CHAKRAVARTI,
Vice-Chairman,
Road Cess Committee.

W. MAUDE,
for Chairman,
Road Cess Committee.

No. 251R. dated Dacca, the 30th March 1885.

From—E. E. LOWIS, ESQ., C.S., Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department.

I HAVE the honour to forward herewith, copies of the Annual Accounts for the cess year 1883-84, together with the reports on the administration of the funds during the year, of the several districts in this Division under section 179 of the Cess Act. The reports give full and clear accounts of the various works executed during the year, I need therefore only add a few remarks on the general road cess administration in the Division.

2. *Cess Act.*—The Cess Act seems to have worked smoothly during the year in all the districts, and the people in general appear to have appreciated the working of the system. In the Furreedpore district, the collection of cess has not been satisfactory as it has been less then that of the preceding year, and the unrealized arrears which has been accumulating year after year now amounts to more than Rs. 22,000. The Committee will be directed to take prompt measures for the speedy recovery of the amount.

3. *Committees.*—The different Committees seem to have worked satisfactorily as in former years, and to have evinced interest in the matters brought before them for discussion. In Furreedpore, however, several members of the Goalundo Branch Committee appear to have misapplied the money placed at their disposal for the construction of village roads. This is a matter for special regret. My censure will be communicated to this Branch Committee, and the sub-divisional officer will be requested to exercise a more rigid supervision of the works carried out through the agency of members of the Committee in future.

4. *Examination of offices and accounts.*—The accounts were duly and regularly examined by the Audit Sub-Committees, and on some occasions by the Examiner of Local Accounts. The offices of the District Engineers were also inspected by the Divisional Superintendent of Works. The results of all these audits and inspections were satisfactory.

5. *Original works.*—It is very satisfactory to observe that the original works executed in the Dacca and Backergunge districts exceeded in value the operations of the preceding year. It is much to be regretted, however, that the list of such works carried out in the Backergunge district includes several wooden bridges, against the erection of which the Divisional Superintendent of Works advised strongly, without the approval of my predecessor to whom, as the proper sanctioning authority, the estimates ought to have been, but were not, submitted for sanction. In the Mymensingh district the expenditure under this head

amounted to Rs. 36,205-8, against an estimated expenditure and allotment of Rs. 54,999. The saving of Rs. 18,794-8 is reported by the Chairman of the Committee to be due principally to reductions in the estimates made under the advice of the Divisional Superintendent of Works. It is unsatisfactory to find that so little original work was carried out in the Furreedpore district. This appears to have been mainly due to the inefficient manner in which the various projects were prepared entailing their return for revision or reconsideration in nearly every instance.

6. *Repairs.*—The allotment under the head "Repairs" in the Dacca district was Rs. 24,573 out of which Rs. 16,246-11-6 were expended as compared with Rs. 12,747-2-9 expended during the preceding year, whilst a considerable saving on the grant was effected. The roads appear to have been maintained generally in fair order. In the Backergunge district the roads were all well maintained. It is necessary to remark, however, that under the head "Repairs" a sum amounting approximately to Rs. 11,000 was laid out in this district on what were properly original works. Out of this Rs. 6,928 were expended on four khalls. The Divisional Superintendent shortly after these works were commenced, condemned their further prosecution, firstly on the ground that they ought never to have been undertaken *without proper levels and surveys*, or without the sanction of Government under paragraphs 28 and 33 of Bengal Government No. 1209, dated the 8th March 1875, and secondly on the ground that the execution of the works in accordance with the provisions of the estimates and in the unprofessional manner in which he saw the work was being done, would be productive of temporary results only, which did not in his opinion warrant the expenditure. The Chairman at the time, Mr. Veasey, ordered the works to be suspended and it is to be much regretted that the Committee should in opposition to the Divisional Superintendent's advice have resolved subsequently to resume them. The remaining Rs. 4,072 or thereabouts, was expended, principally on the construction of new roads which were "original works" and for which estimates as such ought to have been submitted to my predecessor for sanction. A considerable number of irregularities of this kind in the Backergunge district were brought to notice by the Divisional Superintendent of Works during the year under review. Steps have now been taken to prevent the commission of similar irregularities in future. The expenditure under the head "repairs" in the Mymensingh district amounted to Rs. 51,478-2-9 against an estimated expenditure and allotment of Rs. 76,724. It may be noted that whilst the roads were well kept up, a saving of Rs. 25,246 was effected, owing to the advice of the Divisional Superintendent of Works having been acted on. In Furreedpore, Rs. 9,423-0-4 were expended under this head. Almost all the roads in the district are stated to have been maintained in good order.

7. *Feeder roads.*—Under this head the most important was the completion and bridging of the Khangunge road in the Furreedpore district. Another to Godarbazar from the Rajbari Railway station was also widened and raised, these roads are feeders to the Eastern Bengal State Railway.

8. *Village Communications.*—Works under this head appear to have been well provided for during the year under review, specially in the Furredpore district, where with Rs. 9,480-7 the amount provided for the purpose, 61 village roads were constructed. It appears that the grants for certain village roads were supplemented by local contributions, and that lands in certain cases were given up free of cost in all the districts except Mymensingh.

9. *Arboriculture.*—Nothing of importance appears to have been done in the Furreedpore and Backergunge districts under this head. Both are districts liable to floods, and the roads are not under these circumstances adapted to arboriculture. In Mymensingh and Dacca many fruit bearing trees have been planted and well taken care of.

10. *Steamer service.*—The Road Cess Committee of Backergunge are now paying a subsidy of Rs. 500 a month to the new steamer service between Khulna and Burrisal. This requires special mention as it has proved a great boon to the public.

11. *Meetings.*—The percentage of average attendance of members of the District and Branch Committees as per margin was small. The Chairmen of the Committees have been requested to call on the non-attending members to be more regular in their attendance in future.

	Dacca.	
1. District Committee,		2. Manickgunge Branch Committee.
	Mymensingh.	
1. District Committee,		3. Jamalpore Branch Committee.
2. Kishoregunge Branch Committee,		4. Netrokona ditto ditto.
	Backergunge.	
1. Ferozepore Branch Committee,		2 Patuakhali ditto ditto.
	Furreedpoore.	
1. District Committee.		2. Goalundo Sub-Division.

12. *Establishments.*—The total establishment charges in the district of Mymensingh appear to have exceeded one-fourth of the Committees net income during the year, but this was attributable to the cost of serving processes under Board circular No 8 of August 1882, and the cost of revaluation work. The different establishments under the Committees seem generally to have worked satisfactorily and well. The Chairman of the Road Cess Committee of Furreedpore complains, however, of the engineering establishment employed under it. Several important works in the district were apparently delayed and others not carried out at all owing to the projects having to be returned for revision, as already noted.

13. It will be observed that in the district of Mymensingh alone, the Divisional Superintendent of Works, Mr. Johnson, was the means of preventing an unwise or unnecessary expenditure of upwards of Rs. 40,000. The Committees of the Dacca, Mymensingh and Furreedpore districts appear to have availed themselves readily of Mr. Johnson's advice. The Backergunge Committee, however, whilst admitting the value of the advice proffered by him, have so far taken little or no practical advantage of it, but have, on the other hand, carried out several works condemned by him on purely professional grounds.

LAND SALE NOTICES.

NOTICE is hereby given, under section 6 of Act XI of 1859, that the undermentioned estates in the district of Pubna will be put up to public and unreserved sale at the Collector's office of that district on Monday, the 13th July 1885, corresponding with 30th Asar 1292, for arrears of revenue and other demands, which, by the Regulations and Acts in force, are directed to be realized in the same manner as arrears of revenue due on 28th March 1885.

Serial number.	Number on district revenue roll.	Name of estate and pergunnah.	Names of recorded proprietors.	Amount of sudder jumma.	Amount of arrears due.	REMARKS.

The share in which there is no arrear will be exempted from sale.
4	227	Kismat Ali Yarpur, pergunnah Katarmehal.	Jogut Chundra Bhadoori and others.	3,129 0 0 Police— 14 1 0	0 10 0	The entire mehal will be sold.
5	327	Zemindari share of 19¼ gundahs, pergunnah Barabazeo.	Drabo Moyi Chowdhurani and others.	764 15 0	0 1 0	Separate accounts have been opened in this mehal under section 70 of Act VII of 1876. The share of Gunga Churun Mojumdar, with a sudder jumma of Rs. 1-15, from which the arrear is due, will be first sold. The share in which there is no arrear is exempted from sale.
6	1723	Chur Sarasia, pergunnah Sindoori.	Shama Sundory Debya, mother of Jodu Nath Bhowmick, minor, Modhoo Sudun, Girswar, Gogun Chundra Mojumdar, and Soma Moni Dassia.	697 0 0	174 0 0	The proprietary right and right of settlement in this mehal will be sold.

Pubna Collectorate, the 5th June 1885. A. C. TUTE, Offg. Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estate situate in the sub-division of Dinapore in the district of Patna will be put up to sale on the spot (at the estate) at 8 A.M. on the 13th July 1885 corresponding with 16th Assar 1292 Fusli.

The purchaser will be subject to the following conditions of sale—

Conditions of Sale.

1*st*.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, subject to the revenue fixed in perpetuity.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

4*th*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

Number in statement of Government estates.	Number on the district roll or towzi number.	Name of estate and pergunnah.	Share which will be put up to sale.	Approximate area in local bighs.	Government revenue or sudder jumma of the entire estate.	Jumma khas of the share which will be put up to sale.	Deduct Government revenue of the share which will be put up to sale.	Net income.	Upset price.

WEDNESDAY, JULY 8, 1885.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 14th March 1885, and having received the assent of His Excellency the Governor-General on the 23rd June 1885, is hereby published for general information :—

ACT No. II OF 1885.

An Act to enable the Commissioners for the Port of Calcutta to construct Docks.

WHEREAS it is expedient to empower the Commissioners for making Improvements in the Port of Calcutta to construct Docks at Kidderpore in connection with the Port, and to raise loans for that purpose : Preamble.

And whereas the Secretary of State for India in Council has agreed to guarantee the payment of interest upon such loans :

And whereas the said Secretary of State has already advanced to the said Commissioners various sums for the purpose of commencing the construction of such docks :

It is enacted as follows —

1. This Act shall be read with, and taken as part of, Act V of 1870, passed by the Lieutenant-Governor of Bengal in Council. Construction.

And it shall come into force on the date on which it is published in the *Calcutta Gazette* with the assent of the Governor-General. Commencement.

2. In this Act the word "dock" includes all basins, cuts, quays, wharves, warehouses, tramways, and other works connected with the said docks and convenient for their use. Interpretation of "Dock."

3. It shall be lawful for the Commissioners to construct docks at Kidderpore in connection with the said port, in such manner as the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, by notification published in the *Calcutta Gazette*, may sanction, and to equip, maintain, and manage such docks. Power to construct and maintain docks.

4. The Commissioners may from time to time raise loans for the construction, equipment, maintenance, and management of the said docks, to such amount and at such rate of interest as the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, by notification published in the *Calcutta Gazette*, may sanction. Power to raise loans for construction, &c., of such docks.

5. The said Secretary of State, at any time not less than ten years after a loan has been raised under section four, may declare, by a notification published in the *Calcutta Gazette*, that the principal of such loan shall be repaid on a date to be specified in the notification, not being less than thirty years from the first publication of the notification, and may require the Commissioners to make such arrangements as shall provide to his satisfaction for such repayment ; and the Commissioners shall make such provision and repayment accordingly. Repayment of principal.

6. The Accountant-General of Bengal shall from time to time advance to the Commissioners such moneys as may be required to meet the charges on account of interest upon any loan raised under section four.

Accountant-General to advance sums for payment of interest on loans.

7. The Commissioners shall repay all moneys so advanced by the Accountant-General, under the last foregoing section, at such times and in such manner as the Lieutenant-Governor may direct, with interest thereon at the rate of four and a half per centum per annum.

Sums advanced by the Accountant-General to be repaid with interest.

8. It shall be lawful for the Commissioners from time to time to borrow moneys from the Secretary of State for India in Council for the purposes of this Act.

Power to borrow money from the Secretary of State.

9. All moneys so borrowed before the commencement of this Act shall bear interest at the rate of four and a half per centum per annum, and shall be repaid at such time and in such manner as the Lieutenant-Governor may direct.

Moneys so borrowed how to be repaid.

10. The Commissioners shall from time to time frame a scale of tolls, dues, and charges to be levied by them for the landing and shipment of goods at the docks constructed under this Act, and for the use of the said docks by sea-going or other vessels, and for the storing and keeping of any goods in any premises belonging to, or connected with, the said docks, and for the removal of such goods, and for the use of any moorings connected with such docks;

Tolls, &c., to be levied.

and also a scale of charges for any services to be performed by the Commissioners or their servants in respect of any vessels or goods, and for the use of any works or appliances provided by the Commissioners in connection with such docks.

Such tolls, dues, and charges shall not exceed the rates which may from time to time be fixed by the Lieutenant-Governor by notification published in the *Calcutta Gazette*.

Such scale of tolls, dues, and charges, when adopted by a resolution of the Commissioners at a meeting, shall be submitted to the Lieutenant-Governor, and it shall be lawful for the Commissioners to levy the same after publication of such scale or scales in the *Calcutta Gazette* with the sanction of the Lieutenant-Governor.

11. The said tolls, dues, and charges, and all other moneys and property leviable or received under this Act, shall be held and applied by the Commissioners for the purposes of this Act, and subject thereto for the purposes of Acts V of 1870 and IV of 1880, passed by the Lieutenant-Governor of Bengal in Council.

Application of tolls, &c., leviable, and property received under Act.

12. It shall be lawful for the Commissioners from time to time to make bye-laws,

Power to make bye-laws.

for the guidance of persons employed by them under this Act;

for the safe and convenient use of the said docks and the approaches thereto;

for regulating the entrance into, and departure from, the said docks of ships, boats, and vessels;

for the mode of levy and payment of tolls, dues, and charges leviable under this Act,

and for otherwise carrying out the purposes of this Act;

and from time to time to repeal or alter any such bye-law so made by them.

13. Such bye-laws, and such repeal or alteration of any bye-law, shall have the force of law upon the publication thereof in the *Calcutta Gazette*, with the sanction of the Lieutenant-Governor.

Approval of bye-laws.

14. All moneys borrowed, all expenditure incurred, all contracts made, and all works undertaken by the Commissioners, before the commencement of this Act, for and in connection with the construction of the said docks, shall be deemed to have been borrowed, incurred, made, and undertaken under this Act.

Validation of acts already done.

PART VI.

Bills introduced into the Council of the Governor General for making Laws and Regulations, or published under Rule 22

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[Third publication]

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 10th June, 1885, and was referred to a Select Committee:—

No. 11 OF 1885.

A Bill to amend the Indian Registration Act, 1877.

WHEREAS it is expedient to amend the Indian II of 1877. Registration Act, 1877, in manner hereinafter appearing; It is hereby enacted as follows:—

Short title and commencement.

1. *(1)* This Act may be called the Indian Registration Act, 1885; and

(2) It shall come into force at once.

I of 1877

Amendment of sections 17 and 50 of Act III of 1877.

2. *(1)* After clause *(f)* of section 17 of the Indian Registration Act, 1877, the following clause shall be inserted, that is to say:—

"*(ff)* any debenture issued by any such company and not creating, declaring, assigning, limiting or extinguishing any right, title or interest to or in immoveable property except in so far as it entitles the holder to the security afforded by a registered instrument whereby the Company has mortgaged, conveyed or otherwise transferred the whole or part of its immoveable property or any interest therein to trustees upon trust for the benefit of the holders of such debentures, or".

(2) In the second paragraph of section 50 of the same Act, "*(ff)*" shall be inserted between "*(f)*" and "*(g)*".

Amendment of sections 17, 50, 58 and 89 of same Act.

3. *(1)* After clause *(l)* of section 17 of the same Act the following clause shall be added, that is to say:—

"*(m)* orders granting loans under the Agricul- XII of 1884. turists' Loans Act, 1884, and instruments for securing the repayment of loans made under that Act."

(2) In the second paragraph of section 50, for the word and letter "and *(l)*" the letters and word "*(l)* and *(m)*" shall be substituted.

(3) In section 58 of the same Act, for the words "or a copy of a certificate under the Land Improvement Act, 1871, sent by the Collector to XXVI of 1871. be registered," or, where the Land Improvement Loans Act, 1883, is in force, for the words "or a XIX of 1883 copy of an order under the Land Improvement Loans Act, 1883, sent by the Collector to be re- XIX of 1883. gistered," there shall be substituted the following words, namely:—

"or a copy sent to a registering officer under section 89".

(4) After the second paragraph of section 89 of the same Act the following paragraph shall be inserted, that is to say:—

"Every officer granting a loan under the Agriculturists' Loans Act, 1884, shall send a copy XII of 1884. of any instrument whereby immoveable property is mortgaged for the purpose of securing the repayment of the loan, and, if any such property is mortgaged for the same purpose in the order granting the loan, a copy also of that order, to the registering officer within the local limits of whose jurisdiction the whole or any part of the property so mortgaged is situate, and such registering officer shall file the copy or copies, as the case may be, in his Book No. 1."

Amendment of sections 90 and 91 of same Act.

4. *(1)* After clause *(d)* of section 90 of the same Act the following clause shall be inserted, that is to say:—

"*(e)* notices given under section 74, or section 76, of the Bombay Land-revenue Code, Bom. Act V of 1879. 1879, of relinquishment of occupancy by occupants, or of alienated land by holders of such land".

(2) In section 91, for the word and letter "and *(c)*" the letters and word "*(c)* and *(e)*" shall be substituted.

(3) The said Act shall be construed as if the amendments made in it by this section had been made at the time the Act came into force.

STATEMENT OF OBJECTS AND REASONS.

THE objects of this Bill are three :—

(*1*) to except mortgage-debentures secured by a registered trust-deed from those provisions of the Indian Registration Act, 1877, which either require that such debentures shall be registered, or, where their registration is optional and they are not registered, give precedence over them, as regards the property on which they are secured, to any registered instrument relating to the same property ;

(*2*) to place instruments whereby immoveable property is mortgaged as security for the repayment of loans under the Agriculturists' Loans Act, 1884, on the same footing, in regard to registration, as certificates or orders granting loans, and instruments of collateral security, under the Land Improvement Act, 1871, or, where the Land Improvement Loans Act, 1883, is in force, under that Act ;

(*3*) to exempt from registration notices given under sections 74 and 76 of the Bombay Land-revenue Code, 1879, of relinquishment of occupancy by occupants and of alienated land by holders of such land.

2. As regards the first matter, it was represented to the Government of India in 1884 that the heavy expense and trouble entailed on the issue of mortgage-debentures by the joint operation of the Stamp Act and Registration Act practically prevented their being issued. The stamp-duty payable on such debentures has since been remitted, and it seems to the Government of India that, if the trust-deed by which such debentures are secured is registered, the debentures, provided they do not implicate any property beyond that comprised in the trust-deed, and do no more than give effect to the arrangement made by the trust-deed, may well be exempted from registration.

3. The second amendment proposed calls for no explanation. The third seems to be justified on the ground that there is, apart from the Registration Act, a complete official record of the surrenders in question, and that to require in addition that they should be registered under that Act would entail unnecessary trouble and expense on all concerned.

The 29th May, 1885.

ORDERS ON THE REPORT OF THE CALCUTTA SANITARY COMMISSION APPOINTED UNDER SECTION 28, ACT IV (B.C.) OF 1876.

No. 819T—M, dated Darjeeling, the 1st July 1885.

From—J. WARE EDGAR, Esq., C.S.I., Officiating Secretary to the Government of Bengal,

To—The Chairman of the Corporation of the Town of Calcutta.

I AM directed to acknowledge the receipt of your letter No. 295, dated the 4th May, in which you forward copies of the resolutions that have been passed by the Commissioners on the subject of the report of the Commission appointed under section 28 of Act IV (B.C.) of 1876 to consider the cleaning and conservancy of the Town, together with their views and proposals regarding the specific recommendations made by the Commission, and an account of the action taken by them towards carrying certain of the recommendations into effect.

2. The Lieutenant-Governor considers that the appointment of the Commission under section 28 of the Act has been productive of very valuable

results in the collection of much accurate and valuable information regarding the present sanitary condition of the Town, the working of the Corporation, its organization, and its executive and administrative machinery. By the terms of the section under which the Commission was appointed, the scope of the enquiry was limited to the actual condition of the cleaning and conservancy of the Town; and it did not fall within its province to collect evidence as to the improvements effected by the Corporation in the past. In the course of their proceedings, however, much of the work done of late years in the Town was brought before the members of the Commission, and they considered it expedient to place on record their recognition of the "real and solid progress" which has been made in the path of sanitary improvement, and to describe it in some detail in the opening pages of their report. This desire to give the fullest possible recognition to the progress already made seems also to have actuated the majority of the Commission in framing the recommendations which are embodied in the report; and though this has, perhaps, been productive of some inconvenience in making those recommendations less precise and formal than they would have been if the Commission had confined itself to the strict letter of the law, it has undoubtedly added to the completeness of the report as a record of the work which has been done in the past, of that which has been left undone or done inefficiently and incompletely, and of the measures which, in the opinion of the Chief Sanitary Officer of the Province, and of a former Chairman of the Corporation, are urgently required for the improvement of the sanitary condition of Calcutta.

3. The Lieutenant-Governor in like manner gladly takes this opportunity of again acknowledging the substantial progress in sanitary matters which has been made of late years by the Corporation, and especially by the present body of Commissioners. It is gratifying, too, to observe that this progress has been in great measure effected under pressure of public opinion, to which, as has been pointed out by Mr. Cotton, the Commissioners have shown themselves responsive in a very praiseworthy degree. The Municipal Report for the year 1884-85 is not yet before the Lieutenant-Governor; but he observes that, at a special general meeting on the 26th February 1885, the Municipal Commissioners, in a resolution passed on the occasion, placed on record that that year "is remarkable on account of the sanitary activity displayed by the Corporation," and he has little doubt that the greater public attention which has latterly been devoted to sanitary affairs, culminating in the agitation and memorial of July 1884, has contributed to bring about this commendable result. But while Sir Rivers Thompson desires in no way to detract from the value of the work which the Commissioners have done, it is impossible to ignore the fact, which is brought out clearly by the proceedings of the Commission, by the evidence recorded by it, and by its report, that very much yet remains to be done which must be done to remove the causes of preventible disease. In the Municipal Report for 1883-84, the Commissioners have themselves remarked on the significant circumstance that during that year those wards in which most work was done by the Bustee Department (including the special establishments employed for surface-cleansing) "the death-rates of the year almost universally show a marked improvement, whether as compared with last year or with the decennial mean." Too much stress cannot be laid upon the connection which is established upon the highest sanitary authority, and of which the experience of 1883-84 affords a timely and striking illustration, between a high rate of mortality and those insanitary conditions which have hitherto universally prevailed in Calcutta bustees. The existence of those conditions is fraught with the gravest danger to the public health. Their removal, as experience has shown, is a task well within the competence of the Corporation. So long, therefore, as they are permitted to exist, the Commissioners cannot be held free from responsibility for the continuance within the Town of sources of disease whose effects are not controverted, and whose eradication is within their power. The Government of India have recently recorded their regret that the progress of sanitary reform in Calcutta, both in bustee reclamation and in drainage improvements, has been slow and inadequate, and have used language which practically raises the question whether the inaction of the Corporation has not contributed to the increase of cholera mortality in 1883-84. In a communication reviewing

the municipal administration of that year, an extract from which is forwarded with this letter, it is stated that His Excellency in Council "is not satisfied that the lamentable exacerbation of cholera during the year was not due in a great measure to preventible causes, and trusts that the Corporation will spare neither trouble nor expense to complete those sanitary reforms which experience proves to be the only safeguard against cholera and zymotic disease." To these remarks fresh significance has been added by the connection which the Sanitary Commission has shown to exist between the distribution of cholera mortality and the insanitary condition of various wards of the city. The Lieutenant-Governor feels that there is an absence from your present letter of any indication that the Commissioners have adequately appreciated the importance of this question.

4. The Commissioners have expressed the opinion that, in the absence of a distinct finding by the Commission in the precise terms of the section under which it was appointed, the recommendations embodied in the report "are not such as are required to be carried out under the provisions of section 29 of Act IV (B.C.) of 1876." It is satisfactory to the Lieutenant-Governor to be able to recognise that, as regards some of the more important of those recommendations, the Commissioners themselves have taken, or propose to take, a definite course of action. For the rest, he understands the Commissioners to mean that, under the form of the report, there is no legal power to enforce what they do not wish to carry out, notwithstanding the recommendations of the Commission. Without accepting this interpretation of the position as applicable in all respects, the Lieutenant-Governor will not, for the present, enter upon any discussion of it, as he trusts that the good sense and voluntary action of the Commissioners will relieve him of the ungrateful duty of having recourse to compulsory measures either under the existing law or in course of the legislation which it is his intention to undertake.

5. The Commission, as already mentioned, was actuated by a desire to avoid the appearance of unnecessary fault-finding, and at the same time to include in its report a complete account of the sanitary requirements of the Town. These objects, commendable in themselves, have not been attained without some sacrifice of simplicity and directness. The 37 recommendations embodied in the report are of very different degrees of importance and urgency; some of them appear to travel considerably beyond the strict bounds of the enquiry; some would necessitate changes in the law which, however desirable in themselves, it was not in the power of the Corporation to make; while many of them are wanting in precision and definiteness. The Lieutenant-Governor does not propose, therefore, to discuss them all in detail, but will confine himself to the consideration of those to which he attaches primary importance, and in respect of which the action of the Commissioners appears to him to be incommensurate with the interests involved.

6. Sir Rivers Thompson has at no time desired to set up an abstract standard of ideal perfection to which the Corporation should be required to attain, and the question proposed for the consideration of the Commission was whether the progress actually made by the Commissioners was such as Government had a right to expect, having regard to the admitted defects in the sanitary condition of the Town, and to the resources placed at their disposal by law. In connection with this last point, the Lieutenant-Governor regrets to find no reference in your letter to the important subject of finance, which is discussed in paragraphs 139 to 142 of the Commission's report, and which, for obvious reasons, underlies the whole of its more important recommendations. In settling their budget for 1883-84, the Commissioners rejected the proposals of their executive that the house-rate should be fixed at the maximum of 10 per cent., and reduced expenditure by 3½ lakhs of rupees, of which Rs. 2,93 000 was cut out of the estimates for the various conservancy departments. It appears from paragraph 39 of your letter that, for the current year, the house-rate has again been fixed at its former figure of 7½ per cent. Under these circumstances, the Lieutenant-Governor is unable to avoid the conclusion that the resources at the disposal of the Commissioners have not been utilized to the utmost, and he cannot regard the plea of want of funds, which has been advanced in respect of at least one most important recommendation—the freeing of the public latrines—as valid.

The great difficulty of securing for the Corporation an income which shall be adequate to meet the requirements of the Town of Calcutta is fully recognized; and referring to the report of the Octroi Committee, and the views of the Commissioners regarding it, there seems to be some reason to fear that the prospect of securing a large revenue from this source is not so promising as was originally anticipated. The Lieutenant-Governor, however, has been unable to come to a final decision upon this question; but, in the meantime, I am to point out that the present action of the Commissioners in adhering to an inadequate standard of taxation in the face of the most pressing sanitary emergency, the existence of which is unquestioned, and which cannot be dealt with without increased funds, appears to the Lieutenant-Governor to be scarcely defensible. The Municipal Commissioners of Calcutta have the power to do more than they are doing in the way of sanitary improvement; and the Lieutenant-Governor can only give emphasis to the forcible words of the Government of India, that they "should spare neither trouble nor expense" in bringing the required sanitary reforms to completion.

7. With regard to many of the recommendations of the Commission, the Commissioners are, the Lieutenant-Governor is happy to observe, doing all that is required; and although in some cases their operations may fall short of the proposals, Sir Rivers Thompson readily admits that in matters of detail a large measure of discretion must be allowed to the responsible officers of the Corporation, whose hands the Commission was anxious not to tie. Among these proposals may be mentioned recommendation No. II, that an addition of from 5 to 10 per cent. be made in the establishment for cleaning the sewers, with a view to the more frequent examination of the pipe sewers; Nos. III and IV, that the connection of houses and surface drains with the sewers be pushed on more rapidly, and that the supervision of house-drainage be improved; Nos. V and VI, that the underground system of drainage be extended to Hastings, and that the drainage of Baug Bazar be taken into early consideration; No. XIV, that section 233 of the Act, which prohibits the construction of latrines, &c., within 50 feet of a public tank, be more strictly enforced; No. XVII, that the river water used at the bathing platforms be periodically analysed; and Nos. XXVI and XXVIII to XXXIV, which relate to increases proposed in various branches of the Engineer's Department. The Commissioners are unable to give effect to recommendation No. VII, that the Mahratta Ditch be obliterated, because the Ditch is at present the property of Government. They have, however, some time since submitted proposals on the subject, and orders will be issued on receipt of a report from the Commissioner of the Presidency Division. In some other cases, such as recommendations Nos. XV and XVI, that some restriction be placed on making excavations and on the sinking of wells, an amendment of the law is required, and this the Lieutenant-Governor will be prepared to undertake. A similar remark applies to a another matter which is referred to at some length in the Commission's report, but which has not been embodied in any specific recommendation. This relates to the condition of the gowalla-bustees and cowsheds. The Commission endorse the remark made by the Commissioners in their last annual report, that "the cattle-sheds of all kinds and their filthy surroundings are perhaps now the most obtrusive nuisance in the Town;" and the Lieutenant-Governor, on the evidence before him, is unable to resist the conclusion that much of the disease which prevails in the Town owes its origin directly to the tainted milk which is sent out daily from these places to all parts of the metropolis. It seems probable that the powers conferred by the present law are insufficient to ensure proper reform without friction and possible resistance in a court of law, and though immediate action is impracticable, the Lieutenant-Governor will be quite prepared to take the necessary measures, when the Municipal Act comes under revision in the next session of the Legislature, for making owners as well as lessees responsible for the condition of these sheds. It is possible that similar measures may be found desirable in the case of ordinary bustees also. In all the above points, and in some others which need not be more particularly referred to, the Lieutenant-Governor is prepared to accept the action which it is stated in your letter the Commissioners have taken, or are about to take, as more or less completely satisfying the recommendations which

the Commission has made. There are, however, several other matters which do not appear to have received the consideration to which their importance and urgency entitle them. To these I am now desired to invite the attention of the Corporation, in the hope that closer examination may convince the Commissioners of the necessity of dealing with them in a more prompt and energetic manner.

8. The first of these relates to the group of recommendations which deal with the unfiltered water-supply. The Commission recommended (No. I) that unfiltered water be laid on to as many sewer summits as possible with a view to the more effectual flushing of the pipe sewers; (No. XI) that more rapid progress be made in the distribution of unfiltered water in the principal streets; (No. XIX) that, wherever possible, privies should have unfiltered water laid on, and be connected with the sewers, and (No XXII) that zemindari latrines be connected with the sewers and with the water-supply. With reference to this, it is remarked that the only obstacle to the more rapid development of the use of unfiltered water is that "the size of the pipes for its distribution is insufficient to enable a full use to be made of the supply of water which the new engines can pump up." The strain on the unfiltered pipes at certain hours is even now greater than they can fully meet, and it is urged that to extend the supply further will only weaken the pressure until some of the main pipes are taken up and replaced by larger ones. Mr. Kimber's evidence before the Commission throws some light on the present position of this matter. In his examination by the Chairman, he explained in some detail how the then existing supply of unfiltered water was disposed of, and how it was proposed to distribute the increased supply which has since become available. It appears that since April 1884 none but unfiltered water has been used for street watering, and that only one municipal latrine was connected with the filtered supply. He also stated, however, that the present system of pipes provides only for connections with 15,000 private privies, which is about one-half the entire number; and that it was proposed to use rather less than 300,000 gallons a day for flushing pipe-sewers. With regard to the latter purpose, which Mr. Kimber stated was, in his opinion, the principal boon of the increased supply of unfiltered water, it is nowhere mentioned what quantity has hitherto been used, so that it is impossible to make any comparison or estimate to what extent the recommendations of the Commission have been complied with. With regard to privy connections, however, Mr. Kimber has estimated that only those privies will be supplied with water which are on the lines of unfiltered pipes, and that to supply water to the whole of the privies, and to flush all pipe-sewers, another set of pipes would have to be laid down, with perhaps some increase also to the pumping power. It appears to the Lieutenant-Governor that the expediency of carrying out some such scheme should receive the early attention of the Commissioners. The scheme which has just been completed, with the construction of the pumping-station at Mullick's Ghât, was sanctioned in 1881 at an estimated cost of Rs. 3,68,925, and although the actual outlay is likely to exceed this by rather more than a lakh of rupees, there seems no reason to doubt that the benefits which it has conferred on the Town are well worth the money. This scheme, however, at least so far as privy connections are concerned, only provides for the wants of half the Town; and the Commissioners will, the Lieutenant-Governor trusts, concur in the expediency of extending it to the other half, which includes many of the northern wards, at the earliest possible date. When the works for the increased filtered supply are completed (and it is understood that these are being pushed on with energy), some 600,000 gallons per diem of unfiltered water, which, under Mr. Kimber's scheme, are now used for the bathing platforms, will be set free. This quantity is capable of serving 10,000 privies, or two-thirds of the number remaining unconnected; and the Lieutenant-Governor thinks it could not be used to better purpose. It will not be possible, however, to do this until a more adequate system of piping has been laid down. From a report in the papers, it appears that, at a recent meeting of the Town Council, a resolution was adopted to the effect that "pipes of sufficient dimensions be laid down for the distribution of unfiltered water where it is most wanted." No official communication regarding this matter has reached the Lieutenant-Governor, but if the report is correct, it indicates that

the matter is receiving the attention of the Commissioners. Sir Rivers Thompson would be glad to be informed of any action which the Commissioners may have taken in the matter; and he desires that they may be informed that he will readily accord his support to any well-considered scheme for the extension of the unfiltered supply, so as to bring it within the reach of at least the great majority of the private privies and zemindari latrines.

9. The next point to which the Lieutenant-Governor finds it necessary to draw attention is the filling of foul tanks. The recommendations of the Commission with regard to tanks are (No. XII) that foul tanks be filled up as fast as possible under the present system, and (No. XIII) that those foul tanks which cannot be filled up at once be de-watered and guarded in the hot season. These recommendations do not seem to have received the consideration which their importance demands. The first of them has been grouped in your letter with a number of recommendations regarding the water-supply extensions, with which it has only an indirect connection, and appears to have escaped the attention of the Commissioners who have made no remarks respecting it. With regard to the second, you observe that "it is a matter of detail which can only be settled in the case of each tank on the report of the Health Officer, and that the Commissioners are not in favour of promiscuously de-watering all the tanks in Calcutta during the hot weather, while there is so great a dearth of water as at present." The Lieutenant-Governor is unable to find in the Commission's report any recommendation that all the tanks in Calcutta should be promiscuously de-watered. Their recommendations refer only to *foul* tanks, *i.e.* to the 70 or 80 tanks which are said to have been condemned by the Corporation and are to be filled up. The table showing the analyses of water taken from 23 of these tanks, which is given in paragraph 70 of the report, is too striking to require detailed comment. The Lieutenant-Governor considers it vastly preferable that the people of the locality should be put to some small temporary inconvenience by the immediate de-watering of these tanks than that they should be allowed to have free access to the liquid poison which they contain. He must therefore request the Commissioners to re-consider carefully the recommendations relating to these foul tanks. He scarcely thinks that any want of legal power to enforce the recommendation of the Commission on this point could ever be justifiably pleaded in the presence of so enormous an evil.

10. The Commissioners appear to have missed the essential point of recommendation No. XVIII, which is to the effect that at least 75 bathing platforms in all be constructed before the end of 1885-86. It is said that 28 bathing platforms had been constructed before the 31st March last, and that sites have been selected for 30 more, and "this will raise the number to 58, or not far short of the number recommended by the Commission." This appears to proceed upon the assumption that the number (75) mentioned by the Commission represents the full number which would be finally sufficient for the wants of the Town, and to which the Corporation should eventually work up. This assumption is quite erroneous. The Commission expressly state that this number, which they take from an estimate framed by the Chairman, is a *minimum*; it is not the number that will ultimately be required, but merely the number which should, in their opinion, be constructed before the end of the current year. The object of constructing these platforms is to check the habit of bathing in the water of foul tanks and wells; and as these latter are rendered inaccessible, it is clear that the provision of the former must be continuously increased. The Commission have estimated the cost of a platform at Rs. 1,200 on an average; and to comply with their recommendation and construct 17 more within the prescribed period, in addition to those for which sites are said to have been selected, would cost in all Rs. 56,400. I am desired to request that the Lieutenant-Governor may be informed distinctly whether the Commissioners are prepared to carry out these works completely before the end of the current official year.

11. The Lieutenant-Governor has perused paragraphs 27 and 28 of your letter with much regret. These paragraphs discuss the recommendations of the Commission on the very important question of latrines. It has been recommended that the public latrines be made free; that more public

latrines be provided ; and that separate l ·ines be erected for women. With regard to the last of these, it is stated th the Commissioners propose to set off a separate portion of the existing lat for the exclusive use of women. This proposal, I am to observe, is at va with the opinion of the Commission, the members of which laid much st on the entire separation of the women's latrines from those of the m The Lieutenant-Governor is not disposed, however, to dwell upon this point, which seems to be of less immediate importance, for the reason that the Commissioners have agreed to consider the propriety of constructing separate latrines for women, should the results of the experimental measure which has been resolved upon prove that the want actually exists.

12. It is chiefly, therefore, with regard to the abolition of the charge for latrines, and the provision of more latrines, that the Lieutenant-Governor feels himself compelled to disagree with the Commissioners. It is observed in your letter that the Octroi Committee have also recommended that these public conveniences should be made free, and that the question can be more conveniently discussed in connection with the report of that Committee. This statement was probably lost sight of when your letter No. 528, dated 26th ultimo, was written ; for that letter, which purports to communicate the views of the Commissioners regarding the report in question, contains no reference to the subject of freeing the latrines. The objection of the Commissioners to taking this step appears to rest on the ground that the latrines were erected from capital as a self-supporting work, and have hitherto only paid a very moderate percentage on the outlay. The Commissioners, therefore, it is said, "do not see their way to freeing them except as a set-off against other funds placed at their disposal." On similar grounds they demur to constructing more public latrines except as a charge against capital. The Lieutenant-Governor is constrained to say that this view appears to him to involve a complete misconception of the duty of the Corporation in the matter of providing latrine accommodation. There are large classes of persons resident within the Town whose circumstances will not permit them to pay any charge, however small, for the use of a latrine; these people have no alternative, in the absence of free accommodation, but to resort to the lanes and open spaces in the neighbourhood of their own houses; nor is it possible to prevent this by any measures of practical severity. If, therefore, surface-fouling is to be stopped at all—and stopped it must be if Calcutta is ever to attain its proper sanitary standard—an adequate supply of free public latrines, to which the poorest classes may have access without any charge whatever, is an absolute necessity. So far from admitting that the freeing of the latrines may properly be deferred because they have hitherto paid only a moderate percentage on their capital cost, the Lieutenant-Governor regards it as quite indefensible that they should be expected to yield any return whatever. But even if this were not the case, the argument with which the Commissioners seek to justify their disregard of the recommendations of the Commission would appear singularly unhappy in the face of the fact that they have for years past derived a handsome annual profit from the operations of the night-soil department. From a statement given in the appendix to the Commission's report, it seems that, taking latrines and night-soil fees together, the receipts have exceeded the gross expenditure by upwards of 6½ lakhs of rupees since 1876; that in only one year (1877) was there a deficit; and that during the five years ending 1883-84 the annual profit has averaged Rs. 1,22,011. The impropriety of working this department so as to bring in a profit has been represented by the Chairman on more than one occasion, and has also been admitted by the Commissioners themselves. It is difficult therefore to reconcile their accepted views upon this question with their present hesitation to apply a small part of this profit to remove a very grave defect in their administration of the department from which it accrues. Sir Rivers Thompson trusts therefore that you will move the Commissioners to reconsider their position in respect of this matter, and invite them to take very early steps to place the latrine accommodation of the Town on a satisfactory footing. The expediency of forming the receipts of this department into a separate fund, which should be applicable only to meeting the cost of the work done, and not be available for general expenditure as an asset of the General Municipal Fund, has already suggested itself to the Lieutenant-Governor;

and the action of the Commissioners as to the freeing the latrines will no doubt considerably influence the course of impending legislation for the revision of the Municipal Act of Calcutta.

13. Finally, the Lieutenant-Governor desires to direct the particular attention of the Commissioners to the remarks of the Commission regarding the appointment of a whole-time Health Officer, and the organization of a proper Health Department. It is the absence of organization and defective supervision which, in the opinion of the Commission, constitute the great defect in the present municipal arrangements. "There is an establishment here, and an establishment there; an Inspector here, and an Inspector there; an infinity of work in different hands and under different guidance; but all the work is done in a fragmentary and unsystematic way." It is stated that on the termination of the present temporary arrangement with Dr. O'Brien, which has now lasted for upwards of a year, the Commissioners will select a permanent whole-time Health Officer. The Lieutenant-Governor is glad to receive this intimation, and he considers that the Commissioners will by that time have gained sufficient practical experience of the subject to justify them in proceeding at once with the organization of a complete Health Department, to which all departments concerned with conservancy and sanitation shall be subordinated, without waiting further to ascertain the views of Dr. O'Brien's successor.

14. The Commission has referred, in the concluding paragraphs of its report, to the desirability of amalgamating the Town with the Suburbs, or at least with a portion of the latter. This question has latterly been pressed upon the attention of Government from many quarters, and, as the Commissioners have already been informed, the Lieutenant-Governor has appointed a Special Committee to consider the proposal, and to lay down the lines on which the amalgamation should proceed. Such a measure will require legislation, and as the experience of the past nine years has shown that the present Municipal Act of 1876 is in need of amendment in a variety of points, it has been thought desirable that the entire constitution of the municipality, its powers, duties, and responsibilities, should be brought within the purview of the Committee. A large measure of this kind necessarily involves questions of great difficulty and complexity, and the Lieutenant-Governor feels that the Commissioners have it in their power to render very valuable assistance to the Committee, by indicating the difficulties which they have had to contend against in the past, and the reforms which their experience shows to be necessary in the future. Some of the more important of these reforms, on which the Lieutenant-Governor believes that it may be necessary to insist by specific legislative enactment, have been indicated in the foregoing paragraphs of this letter. It is manifest that the greatest care will be required in working out the details of the measure, and that ample time must be allowed for the determination of the numerous questions involved, and for the ventilation of the substantive changes proposed to be made in the law. The Lieutenant-Governor is confident that the Commissioners will not allow this interval to be wasted, but that they will endeavour to advance the good work of reform by prosecuting, with the utmost diligence, all those primary municipal improvements of which Calcutta even yet stands in such urgent need.

Extract from a letter from A. MACKENZIE, ESQ., C.S., *Secretary to the Government of India, Home Department, to the Secretary to the Government of Bengal, Municipal Department—No.* 41, *dated Simla, the* 19*th May* 1885.

PARA 2. The interval which has elapsed between the close of the period to which the Report relates and the date of its receipt by the Government of India, is such as to render it of little practical use to enter into any detailed review, especially as the whole question of the conservancy of the town is now under the consideration of the Local Government in connection with the report of the Commission appointed to enquire into the matter. I am to request that a copy of this latter report may be forwarded at an early date, with a copy of the orders of the Bengal Government thereon.

3. As regards the measures undertaken during the year 1883-84 for the purpose of improving the sanitary condition of the town, the Governor-General

in Council regrets to observe that the progress made up to the close of the year under report in bustee reclamation was so slow, and that the work done in the direction of improving the drainage showed a considerable falling off. The decrease in the expenditure on vaccination in Calcutta is also to be regretted, especially in view of the fact (stated in the Resolution*) that the mortality from small-pox was higher than in any of the three preceding years. His Excellency in Council is moreover not satisfied that the lamentable exacerbation of cholera during the year was not due in a great measure to preventible causes, and trusts that the Corporation will spare neither trouble nor expense to complete those sanitary reforms which experience proves to be the only safeguard against cholera and zymotic disease.

* Paragraph 21.

No. 954, dated Calcutta, the 1st April 1885.

From—COLMAN MACAULAY, ESQ., Secretary to the Government of Bengal, Municipal Department,
To—The Chairman of the Corporation of the Town of Calcutta.

I AM directed to invite attention to Government letter No. 290, dated the 31st January last, with which was forwarded, for the consideration of the Commissioners, a copy of the Report of the Commission which was appointed under section 28 of Act IV (B.C.) of 1876, and to request that the Lieutenant-Governor may be favoured, as soon as possible, with the result of the Commissioners' consideration of this report.

No. 295, dated Calcutta, the 4th May 1885.

From—H. L. HARRISON, ESQ., C.S., Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

IN reply to Government order No. 954 of 1st ultimo, asking for a report of the result of the consideration by the Municipal Commissioners of the report of the Commission appointed under section 28 of the Municipal Act, I have the honour to submit the following report.

2. The Government letter forwarding the report of the Commission was at once laid before the Town Council, and by that body ordered to be laid before a Special General Meeting, which was convened for the 26th of February last. At that Meeting the following resolutions were passed *nem con*:—

1*st*.—That this Meeting views with satisfaction that the report of the Commission has now placed it beyond doubt that there has been great and solid improvement in the sanitation of the town during the incumbency of the Commissioners constituted by Act IV (B.C.) of 1876, and especially during the last three or four years.

2*nd*.—That the evidence taken by the Commission has made it clear that, so far from there having been any relaxation of effort on the part of the Commissioners since the memorial of 1883, there have been additional establishments sanctioned and additional improvements effected, and the year 1884 is remarkable on account of the sanitary activity displayed by the Corporation.

3*rd*.—That in the absence of any distinct finding by the Commission that the cleaning and the conservancy of the town are defective to an extent likely to be prejudical to the health of the inhabitants of the town, or of any part thereof, and in the absence of any definite statement of further provision to be made for the cleaning and the conservancy of the town up to the end of the current year, or the year following, and of an estimate of the cost of such further provision, the Commissioners are justified in considering that the various recommendations contained in the report are not such as are required to be carried out under the provisions of section 29 of Act IV (B.C.) of 1876.

4*th*.—That while holding the view referred to in the preceding resolution, the Commissioners are anxious to treat the recommendations of the Commission with the respect due to such an eminent authority as the Sanitary Commissioner of Bengal and to Mr. Beverley, the late Officiating Chairman of the Corporation, and they accordingly resolve to send the report to the Town

Council, the Town Improvement Committee, the Bustee Committee, the Budget Committee and the Water Supply Extension Committee, with a request that they will carefully consider the portions of it which concern them respectively, and report to the Commissioners in Meeting such of the recommendations as they may consider necessary.

5*th*.—The Commissioners think it much to be regretted that the majority of the Commission refused to examine the witnesses Mr. Cotton was prepared to produce, as referred to in paragraph 9 of his minute of dissent, and consider it a great defect in the enquiry that the evidence of native witnesses was not taken.

6*th*.—The Commissioners concur entirely in the minute of dissent recorded by Mr. Cotton, and beg to record the expression of their deep gratitude to him for his invaluable services to the town during the recent enquiry.

3. It will be seen that it was the opinion of the Commissioners, both from the phraseology of the concluding words of paragraph 18 of the Report, from the marked absence of any specific estimate such as is contemplated in sections 28 and 29, and from the want of any distinction in the report between such recommendations as were manifestly outside the legal powers of the Commissioners and such as might have been brought within those powers, that it was the intention of the majority of the Commission to restrict themselves to advice, relying on the Corporation "to receive their criticisms and suggestions in the spirit in which they are offered, and to give them that fair and careful consideration to which they may be entitled" (paragraph 10).

4. It is in this spirit that the various recommendations of the Commission have been considered in Committee Meetings, and the following is a statement of the results of these deliberations.

5. The recommendations of the Commission, as recapitulated at the end of the report, are 37 in number, of which the following recommendations advocate a policy which the Commissioners entirely accept, and will do their best to give effect to so far as circumstances may admit of:—

I.—That unfiltered water be laid on to as many sewer summits as possible with a view to the more effectual flushing of the pipe sewers.

VIII.—That greater economy be exercised in the use of filtered water for road watering and flushing drains and latrines.

X.—That the extension works be pushed on as rapidly as possible.

XII.—That foul tanks be filled up as fast as possible under the present system.

XIX.—That wherever possible privies should have unfiltered water laid on and be connected with the sewers.

6. The only obstacle to the more rapid development of the use of unfiltered water, as suggested in the above recommendations, is that the size of the pipes for its distribution is insufficient to enable a full use to be made of the supply of water which the new engines can pump up. The unfiltered water has year by year been more and more made use of for watering streets, and it is also laid on to all the bathing platforms and night-soil depôts in the town. When street watering is in full swing, the drain on the unfiltered water pipes is even now greater than they can fully meet, and further extension will only weaken the pressure, until some of the main pipes are taken up and replaced by larger ones.

7. On the other hand, when the water is not being used for street watering, there is an abundant supply for all other purposes, and there would be enough to spare for other uses, such as those indicated above. The problem before the Commissioners is how to extend the use of the unfiltered water in such a manner as to close these new outlets during the hours of street watering, and only open them at other hours. Some of the pipes are now being replaced by larger ones, and the Commissioners must see the effect of this measure and of the filtered supply extension before determining how far it will be practicable to go on carrying out these suggestions.

8. The above considerations involve the answer of the Commissioners to suggestions, No. XI that more rapid progress be made in the distribution of

unfiltered water in the principal streets, and No. XXII to connect zemindary latrines with the sewer system and with the water-supply. The policy implied in these recommendations has their entire concurrence, but it seems impracticable to give effect to it till either the filtered supply is extended or till the unfiltered pipes are enlarged. The fact that the same pipes, which proved of sufficient dimensions two or three years ago, are now found too small, shows in itself how much the use of unfiltered water has been already extended.

9. The suggestions connected with the budget for 1885-86 were unfortunately not in the hands of the officers of the Corporation, when the budget was in the first instance prepared, owing to the delay in the submission of the report; but the Commissioners as usual appointed a Special Committee to revise the budget, and this Committee carefully considered the recommendations of the Commission as they bore on each grant.

10. Recommendation No. II is that an addition of from 5 to 10 per cent. be made to the establishment for cleaning the sewers with a view to the more frequent examination of the pipe sewers. The number of mehters has been increased from 28 to 30 and of dhangurs from 102 to 110, and the total grant for sewer cleaning establishment from Rs. 25,956 to Rs. 27,312, an increase of 5 per cent. This follows an increase of about 40 per cent. sanctioned two years before.

11. Recommendation III is that the connection of houses and surface drains with the sewers be pushed on more rapidly; and

Recommendation IV that the supervision of house drainage be improved.

These two recommendations may be taken together. It has for years been the policy of the Commissioners to push on connections as fast as possible, but the check on progress is the capability of the supervising establishment to cope with the work. It must be borne in mind that the progress has already much increased of late years, as the report of the Commission shows. In the seven years 1873-80 the number of connections rose from 3,291 to 11,694, or at the rate of 1,200 per annum; while in the $3\frac{3}{4}$ years from 1881 to September 1884 the number had been raised to 20,149, or at the rate of 2,254 per annum.

12. The Commissioners have therefore, for the current year, re-organized the department of house drainage, the number of inspectors has been increased from four to six, and a special supervisor, an ex-Assistant Engineer, has been appointed and put over it. The budget grant has been raised from Rs. 6,254 to Rs. 9,786.

13. Recommendation XXV is that the supervision in the Night-soil Department be improved, but this summarises very briefly the careful review of the night-soil arrangements, contained in paragraphs 96 to 98 of the report, and the comparison of them with the similar arrangements in force in Bombay. The Commissioners have during the year united the Bustee, Conservancy and Night-soil Departments, and placed them both under the immediate control of the Health Officer. The working staff consists of 1,200 mehters and 300 dhangurs, and the supervising staff, exclusive of the Health Officer, of a Superintendent on Rs. 400, four Inspectors on Rs. 120 to Rs. 180, four sircars, nine jemadars, 18 mate jemadars and 45 peons. The Health Officer considers this supervising establishment to be sufficient, and the Commissioners believe that such inefficiency as still exists is due rather to defects in the construction of privies than to deficient supervision. In one sense every intelligent occupier is made by his own interest an amateur supervisor. Thus though the alterations made in this direction scarcely go so far as the report of the Commission recommends, the Commissioners must respectfully express their opinion that they go as far as the requirements of efficiency reasonably necessitate. Should experience show that this is not the case, they will be re-considered.

14. Recommendation XXVI is that better provision be made for the removal of cow-dung, either through the sewers or by carts. About half of the cow-sheds are connected with the sewers, as are the model cattle sheds erected by the Commissioners last year in Jorabagan and Kolabagan; but for the remainder, which are unconnected, the provision has been increased as recommended, and the budget allotment raised from Rs. 3,193 to Rs. 4,562.

15. Recommendation XXVIII is that the road scraping establishment should be increased by 20 per cent. The Engineer at first asked for an increase

from Rs. 19,000 to Rs. 25,000 for this purpose, and this the Budget Committee, looking to the recommendation of the Commission, were prepared to sanction, but subsequently the Road Department, guided by the experience of the last year, has reduced its claim to Rs. 20,000 only. The rule has been introduced of utilizing the street-watering cattle for removing road scrapings after heavy rain, the only time when the powers of the establishment are at all taxed, or when, the Commission report, the work is insufficiently done, and the Superintendent of Roads and Conservancy has assured me that the needs of this department are fully provided for.

16. Recommendation XXIX is to increase the road sweeping establishment by 20 per cent. The Engineer in his budget asked for an increase of establishment from 410 men to 425, and from 52 boys to 60; also of mehters from 24 to 25. All these increases the Budget Committee sanctioned: they are much less than 20 per cent. it is true, but they are all that the responsible head of the department considered necessary.

17. Recommendation XXX is that the establishment for removing horse droppings be increased. The budget provides a grant of Rs. 7,362, as against Rs. 6,024 for the previous year.

18. Recommendation XXXI is that the number of carts and cattle be increased. The budget of 1885-86 sanctions 452 carts, as against 402 carts for 1884-85, and 482 cattle as against 422.

19. Recommendation XXXII is that the railway platform accommodation be increased and improved. A special grant of Rs. 1,876 for this purpose was made in 1884-85, and Rs. 3,000 have been sanctioned for the same object in 1885-86.

20. Recommendation XXXIII is that the rolling stock of the railway be increased. An allotment has been made for an additional engine, 10 additional refuse wagons, and 4 additional ballast wagons for the year 1885-86.

21. Recommendation XXXIV is that the supervising agency of the Roads and Conservancy Department be strengthened.

22. The budget provides for an Assistant Superintendent on Rs. 200 a month, who has been already entertained. The Commissioners prefer this to the alternative suggestion of dividing the town between two Superintendents, as it unifies control and obviates the inconvenience of double reports, and in some respects of a double procedure.

This completes all the recommendations connected with the budget.

23. Recommendations V and VI are that the underground system of drainage be extended to Hastings, and that the drainage of Baug Bazar be taken into early consideration. In both of these the Commissioners fully concur. The scheme for the underground drainage of Hastings was ready two or three years ago, and was only not sanctioned in consequence of the unfounded objections to the system taken by the residents, who were misled by the attack upon the drainage system which was inaugurated in the cold weather of 1882-83.

24. The report of the Commission has contributed to dissipate this prejudice, and the residents of Hastings have withdrawn their objection: the scheme for its drainage was therefore sanctioned by the Commissioners on the 7th of February 1885 and is now being carried out by the Engineer.

25. The drainage of Baug Bazar has only been delayed by the engineering difficulties incidental to the drainage of so low-lying an area. The Commissioners have never hindered it or opposed it, and the Engineer has just submitted a project for approval.

26. Recommendation XVIII is that at least 75 bathing platforms in all be constructed before the end of the year 1885-86. The number of bathing platforms that were constructed by the end of 1884-85 was 28, and there can be no doubt of the good use which has been made of them and of the manner in which they have been appreciated, specially during the present hot weather. The only drawback is that the demand for the water is so great that it is intercepted by lotahs and gumlahs before it can fill the reservoir, which gets almost empty about 8 or 9 o'clock in the morning. The Health Officer has been already* requested to select 30 more sites for the construction of as many more

* Since this was written the selection has been made, and the sites are now under consideration.

additional bathing places, and this will raise the number to 58, or not far short of the number recommended by the Commission. The question of selecting sites is one of great practical difficulty. It is necessary that the site should be near the unfiltered supply, and also in a good central locality, and at the same time that it should not be inconveniently situated in the middle of any large plot of ground, in which case the owner usually puts forward a claim to very heavy severance compensation.

27. Recommendation XX is that the public latrines be made free. The Commissioners observe that the Octroi Committee have made the same recommendation, on the supposition that certain additional sources of income will be placed at their disposal. As the latrines were erected from capital as a self-supporting work, and have hitherto only paid a very moderate percentage on the outlay, the Commissioners do not see their way to freeing them, except as a set-off against other funds placed at their disposal. The question can more conveniently be discussed in connection with the Octroi Committee's report now under consideration.

28. Recommendation XXI is that separate latrines be erected for women, XXIII that more public latrines be erected, and XXVII that roads in the north of the town be provided with side-drains. As regards the first of these recommendations, the Commissioners propose to set off a separate portion of the existing latrines for the exclusive use of women, and if this is found by experience to meet a want, the existence of which some Commissioners doubt, the propriety of constructing separate latrines for women will be considered, but the Commissioners would point out that these three recommendations involve expenditure which has hitherto been incurred from capital, and which the Committee think should still be met from that source, as it is not reasonable to place all the burden of improvements on the present generation ; but before expenditure can be incurred against capital it is necessary that the capital should be forthcoming. The present policy of the Government is to leave municipalities to their own resources in obtaining capital, and so far as can be gathered from the present outlook, it is very doubtful whether it will be possible to obtain much more money in India on reasonable terms. The Commissioners have in hand many projects requiring capital, to which they are prepared to give favourable consideration as soon as they know that the money will be forthcoming ; but the water-supply extension, to which they are already committed, has the first claim on them, and till they have ascertained that sufficient money will be lent them to enable them to complete these works, prudence demands that other schemes should be postponed.

29. Thus far the recommendations of the Commission have been considered in convenient groups: those which remain for consideration are the following :—

Recommendation VII is that the Mahratta Ditch be obliterated. The Commissioners entirely concur in this, but thus far the objection proceeds from Government, as will be seen from the Government letter No. 487 of 25th February 1884.

It is not for the Commissioners to discuss the weight of the objection, but the practical question is whether the ditch should be maintained as a drainage ditch, as it at present is. If the present state of things is to be remedied, it is necessary—*first*, that the Government, which at present owns the ditch, should either bear the expense of piping it, or transfer the proprietary right to the Commissioners ; *secondly*, that those who will benefit by it should pay the cost of the work. The houses which drain into the ditch are almost exclusively houses in the Suburbs, and under section 88 it is lawful for the Commissioners to impose a drainage rate of 2½ per cent. on all such localities as the Local Government may notify under section 168. If Government will make over the Mahratta Ditch to the town, and will authorize the imposition of a drainage rate on all houses draining into it, by a notification under section 168, the recommendation of the Commission can be carried out.

30. Recommendation IX is that more stand-pipes be erected in bustees : this policy the Commissioners are prepared to adopt as soon as the extension works are ready. Till then any augmentation in the number of stand-pipes would only weaken the already inadequate pressure.

31. Recommendation XIII is that foul tanks, which cannot be filled up at once, be de-watered and guarded in the hot season. The Commissioners quite agree in the principle embodied in this recommendation, and already give effect to it in certain cases, but it is obviously a matter of detail which can only be settled in the case of each tank on the report of the Health Officer. The Commissioners are not in favour of promiscuously de-watering all the tanks in Calcutta during the hot weather while there is so great a dearth of water as at present.

32. Recommendation XIV is that section 233 of the Act, which prohibits persons constructing a latrine, urinal, &c., within 50 feet of a public tank, should be more strictly enforced. The Commissioners were not aware that the rule was not already strictly enforced. If there is any relaxation it is not in consequence of orders from them, or of any policy in that direction, but solely from the practical difficulty which the Health Officer experiences in giving effect to the rule. That the enforcement of it should be left to the Health Officer is the best guarantee that all reasonable energy is shown in enforcing it.

33. Recommendation XV is that some restriction be placed on making excavations. Under the present law the Commissioners have the power to require the owner to fill up an excavation if they consider it insanitary, but they have no power to prevent its being made. This recommendation involves an amendment of the law.

34. Recommendation XVI.—The same remark applies to the next suggestion to prohibit the sinking of wells.

Recommendation XVII is that the river water used at the bathing platform be periodically analysed.

The river water is already analysed once a week, and the attention of the Analyst has been drawn to paragraph 73 of the Commission's report.

35. Recommendation XXIV is that more urinals be erected, and the Commission express an opinion that the difficulty in obtaining sites is much exaggerated. This is quite contrary to the experience of the majority of the Municipal Commissioners if by 'sites' is understood places where urinals are needed, and not places where a urinal could be put up, but where it is not needed. The officers of the Corporation are constantly selecting sites for urinals, and in nine cases out of ten the project has to be abandoned owing to the force of the objections raised. Recommendations to put up additional urinals are frequently received either from the people who require them, from the Ward Commissioners, or from the officers of the Corporation, and each case has to be considered on its merits. Unfortunately the quarters whence most of the applications come are the business quarters of the town, where sites are most difficult to be found.

36. Recommendation XXXV is that all the surface conservancy be placed under an Executive Health Officer. This question came under the consideration of the Commissioners during the year 1884, and as a consequence the whole of the bustee conservancy has been placed under the Health Officer, but on that officer's recommendation the road conservancy has been left with the Engineer. The Commission would transfer to the Health Officer the sweeping of roads, cleaning surface drains, and removing town sweepings; the scraping, watering, and repair of roads they would leave to the Engineer. This is a very difficult question, and the arguments in favour of and against the change are numerous. Some Commissioners are in favour of it, others (the majority; are opposed to it) but it seems evident that the line proposed to be drawn by the Commission, by which the same road is to be swept by the Health Officer's establishment, but scraped by the Engineer's staff, is to say the least a very artificial one, and it could scarcely fail to involve a waste of supervision. On the termination of the present temporary arrangement with Dr. O'Brien, the Commissioners will have to select a permanent whole-time Health Officer, and as soon as he has become familiar with his work, they will ascertain his views on the subject.

37. Recommendation XXXVI proposes to take away the supervision of the registration of births and deaths from the police, and transfer it to the Overseers. The Health Officer, who has been consulted on the subject, thus writes:—

"It would be, in my opinion, a mistake to transfer registration from the control of the police to that of the Municipal Overseers, either of the Conservancy or Bustee Departments,

as these men are already sufficiently occupied with the onerous and important duty of attending to the cleanliness and conservancy of the town. So far from a gain in the efficiency of registration resulting from such a change, I think there would be a certain loss. In the first place, there is not an Overseer in each ward, only one to each of the eight divisions, into which the town is divided for conservancy purposes; in the second, the attention of the Overseer and his subordinates is entirely directed to matters relating to conservancy, drainage, roads, &c., and not to matters relating to the people themselves. In the third place, he has absolutely no time to devote to extra work like registration. On the other hand, in each ward there is a Police Inspector working with a staff of subordinates, far more intelligent than the subordinates in the Conservancy Department, and the attention of the Inspector and of the whole establishment under him is directed towards the people of the ward and not to the ward itself, so that they would be more likely to hear of domestic occurrences, such as births and deaths. Under the circumstances, there would be certainly no gain, but a certain deterioration in registration, if the proposed change were made.

"Lastly, I may say that the Registrars of the 18 thanas make reports direct to the Health Officer, and are amenable to his orders in matters of registration, when they are forwarded through the Deputy Commissioner of Police."

The Commissioners are disposed to concur in this view.

38. The only remaining recommendation is XXXVII, that the suburbs be placed under the same municipal administration as the town. The Government has specially asked the opinion of the Commissioners on this question in forwarding them the report of the Octroi Committee, and it would be more convenient to postpone their remarks on this subject.

39. The Lieutenant-Governor is no doubt aware that owing to the repayment of 25 lakhs of 6 per cent. debentures, on which 2 per cent. sinking fund was also payable, the expenditure under the General Fund has in 1885-86 received relief to the extent of two lakhs of rupees. At the same time, owing to the re-assessment of large portions of the town during the past year, the house-rate at 7½ per cent. is expected to yield Rs. 50,000 more than in 1883-84. The Commissioners have devoted the whole of this sum (2½ lakhs) to reinforcing the conservancy establishments and improving the efficiency of the administration generally during the year 1885-86.

40. It seems to them that this is all that they are justified in doing from revenue, as it is not fair to make the existing generation bear all the expenses of such large improvements as are usually constructed from capital funds. What the Commissioners will be able to do from capital must depend on the capital forthcoming, but they much fear that the decision of Government, neither to lend money to local bodies, nor to let them appeal to English markets, will greatly augment the difficulty of obtaining future loans for the improvement of the metropolis.

REPORT OF THE COMMITTEE APPOINTED TO CONSIDER THE PROPOSAL TO INTRODUCE AN OCTROI INTO CALCUTTA.

MUNICIPAL DEPARTMENT.—MUNICIPAL.

Darjeeling, the 29th June 1885.

RESOLUTION.

READ again—

The Report submitted by the Committee appointed under Government Resolution, dated the 4th August 1884, to consider and report upon the proposal to introduce an Octroi into Calcutta.

Letter to the Chairman of the Corporation of the Town of Calcutta, No. 961, dated the 4th April 1885, forwarding, for the consideration of the Commissioners, a copy of the Report submitted by the Octroi Committee.

Read—

Letter from the Chairman of the Coporation of the Town of Calcutta, No. 528, dated 26th May 1885, forwarding a copy of the Resolutions recorded by the Commissioners upon the above Report.

The Lieutenant-Governor thinks that it would be convenient to postpone his final decision on the several recommendations of the Octroi Committee until he can deal with the question of the amalgamation of the Town of Calcutta with the urban portions of the Suburbs under one system of municipal government, which is now being enquired into by the Committee recently appointed by Government under Resolution dated the 20th instant. In the meantime, the

Lieutenant-Governor is pleased to direct that the Report of the Octroi Committee, with a copy of the correspondence with the Chairman of the Calcutta Corporation recited in the preamble, be published in the *Calcutta Gazette* for general information. Sir Rivers Thompson takes this opportunity to thank the members of the Octroi Committee for their careful consideration of the question referred to them, and for the report which they have submitted.

ORDER.—Ordered that this Resolution, with the papers indicated above, be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

J. WARE EDGAR,

Offg. Secretary to the Govt. of Bengal.

Report of the Committee appointed by His Honor the Lieutenant-Governor of Bengal to report upon the proposal to levy an octroi in Calcutta.

THE circumstances which led to the appointment of our Committee are recorded in the Resolution of the 4th August of the Government of Bengal and in the preamble thereof. The Hon'ble Baboo Doorga Churn Law, C.I.E., was subsequently added to our number on the representation of the British Indian Association.

We met seven times, and took into consideration the official correspondence and memoranda received from Government. At our first meeting it was ascertained that we were unanimously of opinion that a complete system of octroi,—understanding by the term a cordon of stations or toll houses round Calcutta for the purpose of levying town dues on articles of consumption generally,—was not to be recommended.

2. We found, however, that we were divided in opinion in respect of the propriety of levying an octroi on bulky articles of consumption other than coal the taxation of which was generally disapproved of; the majority were for considering each article on its merits, but the minority, comprising the representative of the Chamber of Commerce, the representative of the Port Commissioners, and the Hon'ble Baboo Doorga Churn Law, C.I.E., were opposed to the introduction of an octroi even in the case of commodities of this class. It appeared, however, that the minority were not equally opposed to the levy of a fee of 2 annas a case on all petroleum brought into the town, partly because this revenue can be raised without difficulty or liability to abuse, owing to the rules which are about to be introduced regulating the transport of petroleum by cart or boat; partly because, if the consignees of petroleum find it convenient to store the article in the town instead of conveying it direct from the riverside depôt to the Railways which take it up-country, there is no injustice (considering the dangerous character of the commodity) in requiring a small fee to be paid for the use made by its owners of the town and its thoroughfares.

3. It will be seen hereafter that this is the only proposal in which any large majority of the Committee are able to concur. As regards levying an income by the method of an octroi on other bulky articles, the majority deprived of the support of their colleagues do not feel justified in pressing their views.

4. The President, however, suggested that articles of general consumption, especially articles of food, might be taxed in other ways, such as by increasing the fees for animals slaughtered at the slaughter-house, and by imposing licenses on the retail sale of food, which would not be open to the objections taken to an octroi, while the incidence of the tax would be eventually the same, in that it would fall on all the consuming classes.

As regards the fees and licenses above mentioned, some members of our Committee expressed a doubt whether the consideration of such modes of taxation fell within the cognizance of an Octroi Committee. A reference was therefore made by the President to the Lieutenant-Governor. His Honour in reply intimated that the deliberations of the Committee should not be fettered by any limitations other than the broad one that no proposal for

increasing the revenues of the town would be accepted, which would in any way operate as a restraint upon trade.

5. On receipt of this report the Committee expressed a general approval of the principles on which this proposal was based, and requested the President to lay it before them in a more detailed form, with a rough estimate of the amount which it would yield. The following suggestions were then made for their consideration:—

6. That an income might be raised—

I.—From petroleum; by authorizing the levy of a fee not exceeding 2 annas on each case brought into the town for storage there.

II.—From articles of food consumed in Calcutta; (*a*) as regards animal food, by levying an additional fee on each animal brought for slaughter to the municipal slaughter-house, no other slaughter-house being licensed either in the town or the suburbs; (*b*) as regards all other articles of food sold in regular shops,—by imposing a special license fee on such shops; (*c*) as regards food (other than meat) exposed for sale in markets not in regular shops,—by levying a license fee from the market owner, varying according to the space usually occupied by such vendors.

III.—From tobacco; by requiring a special license fee for its retail vend.

IV.—By authorizing the levy of fees for all offensive and dangerous trades registered under section 297 or licensed under section 298 of the Calcutta Municipal Consolidation Act, 1876, under which section depôts for hay, straw, wood, and coal are registered or licensed.

7. In regard to I, it was proposed (and we unanimously recommend the proposal for sanction) to levy a fee of 2 annas a case on all petroleum brought into the town. Under the system of transport passes it is believed that there will be no difficulty whatever in distinguishing petroleum consigned to the town, from petroleum consigned to the railways or to country boats. In estimating the additional municipal income which would be obtained from the levy of the fee proposed, the best information available is to be found in the statement of Calcutta trade supplied to us by Government from the trade returns of the three years ending 1883-84. These show the imports of petroleum to exceed the exports on an average by 756,000 cases per annum. The fees on this quantity would amount to Rs. 94,000 a year. These figures relate to the Town, the Suburbs, and Howrah, and if the estimate appears unduly high, we may observe that there is every probability that the consumption of kerosine-oil in Calcutta and the adjacent places which draw their supplies from Calcutta has not reached its full developement. We do not recommend that the petroleum destined for Howrah direct should be taxed (*see* paragraph 25), but a fair proportion of the fees collected should be handed over to the Suburban Municipality.

8. As regards II (*a*), an additional income can easily and equitably be raised from the consumption of animal food by levying higher fees at the slaughter-house, as follows:—

On the slaughter of each—

	Now levied.	Proposed.
	As.	As.
1st class bullock	4	10
2nd ditto	2	6
Calf	1	3
Sheep	2	5
Goat	2	4
Kid	1	2
Pig	.....	4

If, as often happens, the slaughter-house is used for the transfer of the carcass from the dealer to the butcher, an additional small fee is levied, as well as an anna on the skin if, as is generally the case, it is sold there to the hide merchant.

By this change additional income would be obtained as follows :—

	Number slaughtered in a year.	Additional fee.	Amount.
		As.	Rs.
1st class bullocks	11,000	6	4,125
2nd ditto	70,000	4	17,500
Calves	13,000	2	1,625
Sheep	60,000	3	11,250
Goats	36,000	2	4,500
Kids	24,000	1	1,500
Pigs (say)	4,000	4	1,000
			41,500

Pigs are not now killed at the slaughter-house, but it may be thought desirable that the killing of pigs should be brought under control, and a suitable building constructed at a proper distance from the Tengrah slaughter-house for the purpose. This is the only slaughter-house in use either in Calcutta or the Suburbs, and no new one may be licensed in either of these jurisdictions without the permission of the Municipal Commissioners. There will, therefore, be no difficulty in giving effect to this proposal, though it may be advisable to amend the Municipal Act to some extent so as to prohibit under a penalty the slaughter of animals elsewhere than in a licensed building, excepting animals *boná fide* killed in sacrifice, whether at *kalisthans*, or at the houses of Mahomedans, or at certain specified places.

It was brought to the notice of the Committee, however, that there is a slaughter-house in the South Suburban Municipality, from which a portion of the meat sold in the Kidderpore market is supplied. This might require to be specially dealt with. Also a portion of the extra fees corresponding to the proportion of the meat which is taken to suburban markets should be allotted to the Suburban Municipality.

9. With regard to II (*b*), the owners of all retail shops now pay license fees according to the following maximum scale .—

	Per annum.
	Rs.
Itinerant hawkers	1
Shopkeepers whose shops are assessed at less than Rs. 10 per mensem	4
Keepers of *permanent* stalls at markets and shopkeepers whose shops are assessed at over Rs. 10 a month	12
Shopkeepers whose shops are assessed at over Rs. 25 a month ...	25
Ditto ditto over Rs. 100 ditto ...	50

In all trade and profession licenses under the Calcutta Municipal Act, the license is required to be taken out, not on account of the place of business, but by the individual. The permission is personal, and the individual, when he has obtained his license, may remove his business to one shop after another for the year for which his license is in force, as long as the new shop is not of a different class from the old one.

The present proposal is that all shops (i) for the sale of food other than meat, or (ii) for the sale of tobacco, should be licensed by the name or number of the house occupied. The collection of the license fees should be left to the agency employed to collect the fees now imposed under section 75 of the Calcutta Municipal Act, and at the time of payment the two amounts should be added together and demanded in one sum. It might be found desirable to collect the fees quarterly instead of annually in order that the smaller retail vendors might not be driven out of the field by their inability to pay the whole fee before they had had time to recoup themselves by the higher prices which would necessarily follow. A personal license would then, under section 75, be

required by the owner of the shop and a separate license for the place of business, for which the following scale is suggested :—

		For the sale of tobacco.	For the sale of all kinds of food excepting meat.
Class 1	Shop assessed above Rs. 250 a month ...	500	300
„ 2	Ditto ditto „ 100	350	150
„ 3	Ditto ditto „ 50	200	80
„ 4	Ditto ditto „ 25	100	40
„ 5	ditto ditto „ 10 and owners of permanent stalls at markets.	50	20
„ 6	Ditto below „ 10	20	10
Hawkers	... ...	4	2

The license to be taken out by hawkers would be an exception to the provision above recommended, to the effect that all shops should be licensed by the name or number of the house occupied, but it would obviously be unfair to the owners of the food shops if hawkers were not required to take out licenses. Daily vendors at markets would not be affected by this recommendation. Their case is dealt with below.

10. In the scale given above it is not intended that the licenses should be cumulative, but alternative, *i.e.*, a tobacco license should entitle the holder to sell any article, while the holder of a license to sell food would be entitled to sell any article except tobacco.

No municipal license would be requisite for the sale of butcher's meat or spirituous liquors; the former would be affected by the additional fee proposed for the slaughtering of animals, and as regards the latter the opinion of the Committee is expressed in paragraph 18 below.

11. The municipal reports show the number of food and tobacco shops now in the town to be as follows :—

Hawkers	397
Shops below Rs. 10 assessment	6,420
„ above „ 10 assessment and permanent stalls at markets...	1,332
„ „ „ 25 ditto	218
„ „ „ 100 ditto	70

Out of the 70 shops assessed at above Rs. 100 a month, it may be anticipated that about seven would be assessed at above Rs. 250 for that portion of their place of business which is devoted to the retail sale of articles of food or tobacco. It would be equitable to allow any one who claimed it to have a separate assessment made on the portion of his premises devoted to the retail sale of articles of food, and this would cause no appreciable municipal inconvenience. Assuming that one-half of the shops assessed above Rs. 25 would be assessed above Rs. 50, the following estimate may be made of the proceeds of the license fees proposed :—

	Amount of assessment.	Number of tobacco shops.	Fees.	Number of food shops.	Fees.	Annual income.
	Rs.		Rs.		Rs.	Rs.
Class 1 ...	Above 250 ...	5	2,500	2	600	3,100
„ 2 ...	„ 100 ...	10	8,500	63	9,450	12,950
„ 3 ...	„ 50 ...	20	4,000	90	7,200	11,200
„ 4 ...	„ 25 ...	20	2,000	90	3,600	5,600
„ 5 ...	„ 10 ...	300	15,000	1,000	20,000	35,000
„ 6 ...	Below 10 ...	1,000	20,000	5,000	50,000	70,000
Hawkers ...	.....	10	40	350	700	740
	Total ...	.....	47,040	.....	91,550	1,38,590

This estimate probably errs on the side of caution. The number of moodies and tobacconists recorded in the town is 1,915, and all moodies at present sell tobacoo. A large margin has, therefore, been allowed for moodies who may prefer to abandon the sale of tobacco rather than pay the higher fee by which its sale would be authorized. Also in the lowest grades, a margin is allowed for shops which may be discontinued in consequence of the imposition of a higher license fee than that now levied.

12. Proposal II (*c*) does not relate to keepers of permanent stalls at markets; they will pay a license fee, as shopkeepers, assessed at above Rs. 10 a month, as at present. But for the sale of food at temporary stalls (*i.e.*, when the vendor temporarily occupies the ground and goes away every evening, returning the next day either to the same or an adjacent spot) an annual license fee might be required to be paid by the owner of the market. At present he pays Rs. 50 for a personal license, and the same license is paid for the largest and the smallest markets. It would perhaps be best to graduate the fee according to the area set apart for daily vendors. An annual fee of four annas a square foot would be fair, and the Rs. 50 paid by the owner for his personal license might be deducted from the total of the annual fees to be paid by him on account of the temporary stall-holders. There are 26 markets in the town, and the additional income to be derived from this source would probably amount annually to Rs 10,000.

13. Proposal III, to grant licenses for the retail sale of tobacco has been provided for in the recommendations formulated in paragraphs 9 to 11.

14. IV.—By section 298 of the Calcutta Municipal Act no place may be newly used for certain purposes (described as dangerous and offensive trades) without a license from the Municipal Commissioners, but under the existing law no fee is chargeable for this license. The dangerous and offensive trades specified in section 297 include not merely "melting tallow," "boiling offal," and, generally, manufactories from which offensive or unwholesome smells arise—the total number of which places is small—but also yards and depôts for hay, straw, wood and coal. Wood presumably includes timber and bamboos, and depôts for the storage of these articles are numerous; the owner or occupier of any such place might be equitably required to pay a substantial fee for its license. At present no payment on this account is required, though the owner has of course to take out a trade license like any other trader.

15. The owners or occupiers of such depôts as were in existence when the Calcutta Municipal Act was passed are bound to register them under section 297, but as a matter of fact not a single place used for any offensive or dangerous trade has been registered. In default, therefore, of registration, licenses must be taken out for all these places, but the scale of fees should be the same for places registered or licensed so as to meet the case of those depôts of which the owners might even now be able to establish a title to registration in spite of their long neglect. The objection to taxing coal in this form is not very great, as coal used for steamers, railways, and manufactories would not often be stored in any depôt for which such a license would be needed.

16. There is no correct information of the number of these depôts, as licenses have not been taken out in respect of a large proportion of them, and the municipality has not employed any special agency to enforce the taking of licenses. Their number is, however, considerable, and an annual fee varying according to area, say Re. 1 a square yard, should be imposed, while a fixed fee might be charged for offensive trades.

The fees charged at Madras are—

	Rs.	
For melting tallow	10	
Boiling offal and blood	50	
Soap house	50	
Oil boiling house	5	
Dying house	12	
Tannery	75	
Brick pottery or lime kiln...	20	per kiln.
Sago manufactory	50	
Any place likely to be dangerous to life, health or property ...	100	

The income derived from this source at Madras is Rs. 9,000 annually, and at Bombay Rs. 27,000. The sum of Rs. 20,000 is a probable estimate of the amount which might be obtained from this source in Calcutta.

17. Combining the anticipated results of the various proposals set forth in the preceding paragraphs, we have a total of 2¾ lakhs of rupees as the addition to be expected to the present income of the Calcutta Municipality, composed as follows :—

	Rs.
Fees on petroleum	94,000
,, on the slaughtering of animals	41,500
Tobacco and food shop licenses	1,38,590
Fees on account of temporary stalls in markets	10,000
,, for licenses for dangerous and offensive trades ...	20,000
Total ...	3,04,090
Or, allowing for the Howrah and Suburban share of the income from petroleum, say	2,75,000

18. No proposal is made to tax the sale of wines, beers, and sprituous liquors, because they are already taxed under a system which makes it probable that a great part of the revenue raised would lead to a corresponding reduction in the Government excise revenue. It is a question for Government to determine whether the city is not entitled to some portion of the excise revenue levied on the consumption of spirituous liquors within its area. The municipality enjoys a portion of that revenue both at Bombay and Madras.

19. When the details of this scheme were laid before the Committee, some disappointment was felt at the high scale of fees necessary to produce a revenue of less than three lakhs, and Baboo Kalinath Mitter expressed his preference for a more simple scheme, such as the doubling all round of the amount now levied for trade and profession licenses, which would produce the same revenue; eventually three other members of the Committee adhered to this proposal. The other four members of the Committee, though constituting by the casting vote of the President, a bare majority, do not desire to press the acceptance of the scheme of taxation described in paragraphs 4 to 18 unsupported by their colleagues. Neither the President nor those members who agree with him, consider that the proposal is a particularly desirable one, and though the cost of the licenses would no doubt fall after a short time on the consuming classes, in the same way as an octroi would, the inconvenience of paying for the license would be felt as a great grievance by the retail vendors, and a good deal of discontent and heart-burning would in the outset result therefrom. All that the members of the Committee who concur with the President desire to report as their opinion therefore is that, if taxation is to be levied from articles of general consumption in such a manner that the incidence shall be on consumers, the scheme sketched out above is the only one that has been suggested to the Committee which will effect this object without great interference with the trade and commerce of the city and port; and they think that the municipality should be informed that no other method has been proposed by which a revenue could be levied without doing violence to important economical principles and embarrassing trade and commerce.

20. If the Municipal Commissioners concur with their representatives on the Committee in viewing these proposals with distaste, they should abandon the expectation of raising a revenue by indirect taxation on articles of general consumption. To this the proposed small fee on petroleum constitutes the only exception the Committee would make. Tobacco might also be lightly taxed by requiring all retail vendors of that article to pay a higher license than they do at present by (say) 25 per cent. This would not be seriously felt, and would effect its object by raising slightly the price of tobacco, and thus throwing the tax on the consumers; but the amount thus realized would not exceed Rs. 5,000 per annum, and therefore would scarcely be worth the innovation.

21. As regards the proposal (accepted by four members of the Committee and embodied in the separate dissents which are annexed) to double the present trade and profession licenses, and thereby add 2½ lakhs to the

income of the Corporation, the other four members of the Committee cannot report in favour of it for reasons given in a separate note attached to this report. The views of the four members who are in favour of the proposal are also separately annexed.

22. We have also been authorized by His Honour the Lieutenant-Governor to suggest, if we deem it right, the relief or exemption of the poorer classes from direct taxation if an octroi of any kind is introduced. We have, as above stated, been unable to recommend the introduction of an octroi, but as we have suggested a scheme for raising an income in a somewhat similar manner on articles of general consumption, we are perhaps in a position to express our views on the suggestion above mentioned. We are of opinion that as all the proposed taxes would fall eventually on consumers, of whom the poor are by far the largest number, a portion of the amount might fairly be applied to the purpose of relieving from all direct rates all houses assessed at an annual value below a sum to be settled after due consideration.

23. The Corporation of Calcutta, we are informed, issues nearly 300,000 bills per annum for the house, water, police, and lighting rates for a total demand of 20 lakhs, and 73,000 of these bills (being the rate bills on huts assessed at Rs. 5 a month and under) represent an aggregate demand of only Rs. 40,000: thus by abandoning 2 per cent. of the demand which is levied from the poorest classes, 24 per cent. of the bills would be saved.

It is strictly in accordance with the principles of political economy to exempt the poorest class of houses from any direct taxation. Mr. J. S. Mill, in the last paragraph of his section on the House Tax, says:—

"As incomes below a certain amount ought to be exempt from income tax, so ought houses below a certain value from house tax, on the universal principle of freeing from all taxation the absolute necessaries of healthful existence."

24. To the suggestion contained in paragraph 22 we would add another, in support of the views of the President, who as Chairman of the Corporation has had considerable opportunities of arriving at a conclusion. He is of opinion that it is desirable to free all or most of the public latrines in the town. These, we are informed, were constructed in the time of the Justices at a total cost of Rs. 3,41,000, and are annually leased out to sirdar mehters by public auction for about Rs. 20,000. They pay, therefore, about 6 per cent. net return on the outlay. So far as they are a financial undertaking, therefore, they are on a fair and equitable basis; but the non-existence of free public latrines is, we believe, one of the most embarrassing causes of the filthy condition of waste, unoccupied, and secluded lands. As long as the poorest classes, who have no latrines of their own, cannot resort to public latrines without payment, pollution of the soil is unavoidable. We concur in the President's views, but we have to add that the subject is one which falls within the scope of the duties of the Municipal Commissioners rather than of ourselves.

25. We have also been directed to consider the question whether it is desirable to extend octroi taxation to Howrah and the Suburbs. We do not think it necessary to make any recommendation regarding Howrah, which, being divided by a broad river from Calcutta, can without any difficulty be still kept under a separate administration; but we unanimously recommend the extension to the Suburbs of any of the modes of taxation described above which might be adopted in Calcutta; indeed, it is almost a requisite of the success of such proposals that they should be so extended. Shops on the east and south side of Circular Road have not hitherto paid any license fee, and if the heavier fees on licenses recommended were imposed only in Calcutta, many shops would be transferred to the other side of the boundary. We apprehend that the Suburban Municipality is quite as much in want of additional funds as the Corporation of Calcutta. Should it be said that the inhabitants of the Suburbs being poorer than those of Calcutta, the proposed taxation would fall on them with greater severity, we have to remark that so far as the fees to be paid on licenses are concerned, the gradation of the license according to the assessed value of the shop furnishes the necessary corrective, as where the custom is least the rent will also be lowest. Indeed, the Committee would go further, and if they are not exceeding their functions, would draw attention to the desirability of placing the Suburbs and Calcutta under one central controlling authority, while at

the same time preserving for each large sub-division of the amalgamated municipality considerable initiative and responsibility in matters of local administration. Their interests are so identical as to render union between them almost indispensable.

26. Two copies of our proceedings are enclosed for the information of Government.

The 31*st December* 1884.

I HAVE signed the report, subject to the following reservations, viz.:—

1. I am sorry the proposition for the taxing of food in the shape in which it has been recommended in the report cannot command my assent. The incidence of such taxation would be seriously oppressive on the poorer classes; I would have therefore much preferred an increased rate of license fee on professions, trades, and callings as enumerated in the third schedule of Bengal Act IV of 1876. If the rate be doubled, it would yield quite as much as my colleagues anticipate from a variety of sources and several of which are so objectionable. I was unfortunately absent from the meeting of the Committee on 8th instant, in which this scheme appears to have been negatived. As between that scheme and the one that has been proposed as its substitute, there cannot be any question that the former has considerable advantages, inasmuch as the burden of such taxation would have fallen on a larger area, and being thus distributed, its incidence would have been much lightened upon the poor, those who are the least complaining of the community, and it is on this ground that I object to the scheme the most.

2. The exorbitantly heavy tax proposed for tobacco is intolerable. It has been adopted under European ideas not applicable to this country. In Europe, tobacco is to a great extent a luxury, and therefore it is fitly selected as an article for taxation. In India it is a necessity in the damp climate of Bengal; it is a pressing necessity, and to tax it heavily would be to deprive the poor of the help of a potent preservative. I cannot on any account support so cruel a proposition. The rich man's wines, spirits, and beer, and country arrack would escape, and so the poor man who indulges in, or finds it necessary to take, the least intoxicating of substances, is to be subjected to a heavy impost.

3. I consider the levy of a fee of two annas a case on petroleum a very appropriate tax to impose. It is light in amount, and can do no harm.

4. I object to the tax on dangerous and offensive trades as described in section 298 of the Municipal Act, as it would legalise what should be discouraged in every possible way. The temptation of gain would induce the Municipality to encourage the carrying on of occupations and trades which should be driven out of the town. A thickly peopled town of small area is no place for melting tallow, boiling offal and blood, soap-house, tannery, and the like. They were strongly condemned when the first Municipal Act was passed, and the saving clause about old established works was introduced to protect traditional interest. The license was provided to enable the Municipality to prevent their growth, and the time has now come to prohibit them altogether, and not to encourage them. I observe that under this head it is proposed to levy a heavy license fee for all depôts for the sale of timber, fuel, hay, bamboos, wood, &c. While I agree to the expediency of taxing them, the rate proposed appears to me to be exhorbitant.

5. The prospect of relief from house-rate for the poorer classes will not generally apply to the poorest, for no house-rent will be reduced in their case by the abandonment of a two per cent. on the entire amount of the town-tax below a certain limit. They are mostly not the owners of houses but kurfa

ryots, and so they can have no relief, and they will be at the same time heavily taxed for their necessaries of life.

6. My colleagues have quoted with approbation the opinion of J. S. Mill, that "as incomes below a certain amount ought to be exempt from income-tax, so might houses below a certain value from house-tax, on the universal principle of freeing from all taxation the absolute necessaries of healthful existence." I entirely subscribe to this opinion, but I cannot help noticing that they have entirely lost sight of it in recommending heavy taxes on food and fuel, the most important necessaries of life.

D. LAW.

It seems to me that doubling license fees all round is a far more simple and effectual mode of raising an additional revenue of about 2,50,000 being the amount likely to be raised if the President's scheme is adopted. The Administration Report of 1882-83 shows the following licenses granted during that year:—

187 Joint Stock Companies.
1,375 Merchants, agents, wholesale traders, shroffs, baniaus, builders, auctioneers, and owners of jute presses.
222 Practising barristers, attorneys, and pleaders of the High Court.
26 Owners of markets and bazars.
17 Surgeons.
120 Keepers of hotels, boarding-houses, dispensaries, manufacturers, and other shop-keepers whose shops and places of business are assessed at Rs. 100 per month or upwards.
138 Pleaders of subordinate courts and mooktears.
218 Practising Licentiates of medicine, apothecaries, veterinary surgeons, and owners of dispensaries.
1,182 Keepers of hotels, boarding-houses, or whose shops or places of business are assessed at or about Rs. 25, but less than Rs. 100 per month.
432 Pawn-brokers, money-lenders, and shop-keepers whose shops or places of business have been registered under sections 297 and 298.
58 Owners of barge boats.
67 Native doctors, kavirajes, and hakeems.
49 Order-suppliers.
146 Cooly-suppliers, shipping agents, &c.
97 Poddars and money-changers.
3,093 Keepers of permanent stalls, miscellaneous shop-keepers whose shops are assessed at Rs. 10 per month, but less than Rs. 25 per month.
12,472 Midwives, petty dallals, and shop-keepers whose shops are assessed under Rs. 10 per month, and pedlars.
5,914 Itinerant dealers.
865 Miscellaneous shop-keepers.

If the fees are doubled, the additional amount will, in the first instance, be paid by 25,678 persons, yet the whole of them will undoubtedly be able to recoup themselves in the course of their trade, with the probable exception of practising barristers, attorneys, pleaders of the High Court, and surgeons; but their number is so limited that one is justified in considering their interests subordinate to the important question of the sanitation of the town. The scheme proposed by me is a far more comprehensive one than that of the President, and it seems to me that it is not likely to cause such an amount of heart-burning as is sure to happen if the other mode is preferred. It is true that the burden of taxation in the case recommended by the majority would ultimately fall upon the general public, but in the meantime several small dealers will be swept away, and the poor will in a great measure be deprived of one of the necessaries of their life, namely, to have their chillam of tobacco. It is difficult to conjecture why food and tobacco shops should alone be called upon to bear the burden of the increased taxation while all other classes of trade are not at all to be interfered with. The answer that the incidence of taxation will fall upon the consumers will not avail to so great an extent when, by the proposals made in this dissent, the increase in taxation to individual traders will be so trifling as to render the raising of prices almost unnecessary. It may be mentioned that all the members of the Octroi Committee were of opinion that an octroi pure and simple was impracticable in Calcutta, and two of our members were strongly opposed even to the

name of octroi being used for the same mode of taxation as prevails in Bombay. Under such circumstances is it not best to devise such a plan as will be least oppressive and will cause the least amount of harassment to trade. I am of opinion that my proposal has both the advantages, and therefore will adhere to it.

KALLY NATH MITTER.

The 20th December 1884.

I REGRET that I am compelled to record my dissent from the major portion of the proposals set forth in this report.

I cannot bring myself to accept a scheme which has for its main feature so large an enhancement as that proposed in the rates now charged for municipal licenses, and that too of only one section of the traders in the town, viz., the vendors of articles of food and tobacco. It is not to be doubted that such a scheme if brought into operation would press with undue hardship on traders of this class, and because also, from the rise in prices which would follow, of much distress to the poorer inhabitants of the town.

It must be seen that if the collection of even the present license tax from the poorer class of traders is attended with some difficulty, and involves the issue of a large number of summons for its recovery, the difficulty in collecting the proposed higher rates cannot but prove infinitely greater, and result in very serious hardship.

It appears to me that the reasons which led the Committee to consider that they could not recommend the introduction of a system of octroi in Calcutta apply with equal force to the proposal to which I feel it my duty to take exception.

It is certain that the proposed increase would lead to numerous attempts to evade the payment of the tax, simply from the inability of the poorer traders to meet it, and entail in other ways a serious amount of harassment and demoralization.

The payment of a duty on goods and of a tax on trades are two distinctly separate matters: the payment of the former in small sums is generally not felt, and is regarded as a portion of the price to be paid for bringing an article into retail sale; the payment of the latter, on the other hand, has to be met from the profits of a trade, and such profits are proverbially uncertain.

It is difficult, moreover, to understand why (if an addition to the revenues of the municipality be necessary for sanitary and structural improvements in the town) the increased revenue, or, it may be, the larger portion of it, should be raised by the levy of heavy taxes from one special class of traders only. Such improvements being of equal importance to all the residents of the town, it is but just that any proposed scheme of taxation should embrace the widest scope possible, and that even if it be unequal in its incidence, it should be contributed to by as large a portion of the community as possible.

I feel no doubt that this end would be served to a material extent by merely doubling the municipal tax on trades and professions as enumerated in the third schedule of Bengal Act IV of 1876. I therefore still adhere to the resolution brought forward at the meeting of the Committee by Baboo Kally Nath Mitter and seconded by myself.

Beyond this, I am in favour of levying a fee not exceeding two annas on each case of petroleum brought into the town for storage, of exempting the poorer classes from direct municipal taxation as pointed out in paragraph 22 of the report, and of making all the public latrines free.

A. H. WALLIS,

Member, Octroi Committee.

Calcutta, the 20th October 1884.

THE undersigned members of the Committee regret that they are not able to concur in the suggestion to double the license fees for exercising trades, professions, and callings in Calcutta.

The proposal seems to them to be inopportune and also not equitable.

It is inopportune, because there is nothing in the circumstances which preceded the appointment of the Committee to warrant a suggestion which differs fundamentally in principle, though only partially in practical operation, from that proposed by the President. The appointment of the Committee is due to the offer of Government to relinquish a portion of the police rate on the condition that the Municipality would raise an equivalent amount of taxation by augmenting the house-rate. The Commissioners in reply objected to replacing a tax which fell upon occupiers by a tax which would fall on a limited portion of the community, viz., the owners of houses, and suggested in lieu thereof an octroi as a form of taxation which would fall upon all persons residing in the town in proportion to their consumption of the ordinary articles of food and of other necessaries.

An octroi of the ordinary kind, that is the establishment of a cordon of posts on passing which all taxable articles would have to pay duty, was considered to be open to grave objections, and the Committee therefore considered in lieu thereof certain suggestions which would lead to the same fiscal result, that is, that the same articles should be taxed at the time of their retail vend. Such taxation would be eventually paid by all consumers as would an ordinary octroi.

It was mainly for this reason that the Committee consented to consider the details of this proposal. If not an octroi, it was at least taxation levied on the same articles of consumption as an octroi, and payable in the long run by the same class of persons. But this cannot be said of the suggestion to double all trade and profession licenses promiscuously. These licenses are taken out by many persons who are not at all in a position to transfer to the general consumer the tax payable by them as the vendors of the necessaries of life would be. Among their number are to be found professional men—barristers and pleaders, physicians and surgeons, engineers and architects—whose fees are regulated by a scale which could not be altered to meet the increased license-fee; merchants, brokers, and commission agents, whose profits depend on the state of trade and commerce; traders, whose competitors carry on their business in England and the continent of Europe, and many others whose profits are regulated by conditions independent of local taxation. All such persons would not only have to pay their own augmented license fees, but would also suffer from the higher prices that would result from the extra fees taken from the vendors of food and other necessaries.

Instead, therefore, of a tax on all consumers, the proposed alternative is a tax on the very limited class which now pays the municipal license-tax; and the question, therefore, arises whether it is equitable to select this class to bear the burden of such additional taxation as is deemed requisite.

The present Municipal Act allows 10 per cent. to be taken as a maximum from owners in the form of a house-rate and 11 per cent. to be taken as a maximum from occupiers in the form of water, police, and lighting rates, while license-fees are leviable at certain maximum rates for professions, trades, and callings.

This last tax has invariably been levied at maximum rates, and it requires a very strong case to be made out before the committee would be justified in asking to have these rates doubled when for many years past neither owners nor occupiers have been paying more than 7½ per cent.

H. L. HARRISON.
WM. CRAIK.
G. H. MORRISON.
C. E. BUCKLAND.

I sign this report with the following reservations :—

It is very unfortunate that in a matter of such grave importance, the representatives of different interests could not agree on their report to Government. Unanimity amongst the Members would have carried great weight especially when the question involves increase of taxation, and the Committee

is charged with the duty of suggesting the most suitable one to harmonise with the instincts of the people on whom this additional burden will have to be imposed.

It is a well-known fact that the Government of this country had been for a long time thinking of imposing a tax on tobacco, but for diverse reasons it refrained from doing so. Foremost amongst other considerations is that the poorer people use tobacco more than any other class, and it serves both as a safeguard against malaria and an indispensable luxury of their simple life. Even now tobacco is much adulterated, and if any tax be imposed, it will be more so, and thereby be injurious to the health of the people. I am therefore unable to recommend any tax on tobacco. Neither do I see any reason to increase the license tax on retail food shops and on dangerous and offensive trades. My reason for this is simple and obvious. It is a well-known fact that these retail shop-keepers of food are generally men without any capital of their own, and who only borrow money to carry on this trade, and who besides adulterate the *ghee*, &c., to such an extent, that those who use these articles of food generally get dyspepsia, acidity, and other diseases. Any additional tax would either drive these people out of the field of competition, or compel them to use coarser stuff, because the people would not take any such article less in quantity than what they now get for their money.

With reference to the question of levying fees on dangerous and offensive trades in Calcutta, I fear that the small amount to be realised from this source would not be compensated by the amount of risk to life and property we would incur by allowing such trades to be carried on within such a small area. Such trades are generally carried on in the Suburbs, and it would be most desirable if all such trades be removed there. The Suburban Municipality until recently had been getting an income of Rs. 12,000 per annum from this source, and I would suggest that power be given to that Municipality to impose fees on such trades, which would give them an income of about Rs. 15,000 or more per annum. Besides, such an additional burden would not be felt by the people, as they had been paying such fees from 1864 to 1876. It would certainly be most objectionable to allow these dangerous and offensive trades to be carried on within the limits of the town.

As for doubling the license tax under the Calcutta Municipal Act, I am sorry that I gave my support in the Committee to such a proposition. I think I could without contradiction say that those Members of the Committee who suggested or supported this proposition merely wanted to make their choice out of two evils, and they preferred one to the other suggested by the other four Members of the Committee, including the Chairman. On second thoughts, I find that the one is as objectionable as the other; and when I consider the fact that those who now pay the municipal license tax also pay the Imperial license tax, it becomes a matter of serious consideration how far we are justified in recommending an additional burden on a class who are already groaning under the present burden; and to impose on them anything additional would prove the last straw on the camel's back.

As for giving up an income of Rs. 20,000 per annum derived from public latrines, I have serious objections. These latrines are constructed at a cost of Rs. 3,41,000, and the Commissioners have to pay now 6 per cent. interest to the debenture-holders. If on sanitary grounds it is considered desirable to free all the public latrines in the Town, I should certainly consider it only fair that this amount should be debited to the night-soil account, which yields a large surplus almost every year.

I would not object to raising the fees on slaughtering animals in the municipal slaughter-house, and to bring such places as are under private management under municipal control. The Members of the Committee are unanimous in recommending a fee of two annas on each case of petroleum brought within the Town and Suburbs, which would give an income of Rs. 94,000 per annum. I would suggest here that instead of giving up a lakh of rupees annually on police charges, let Government give Rs. 1,50,000 per annum from the abkaree revenue, and release the Suburbs from the payment of Rs. 35,000 which they now pay as their one-fourth contribution to the police charges. If to this Rs. 10,000 be given to the Suburbs out of the fees realised

from the petroleum, then the income of the Town would be from fees on petroleum	Rs.	84,000
Additional fee from municipal slaughter-house	,,	41,000
Contribution by Government from abkaree revenue ...	,,	1,50,000
	,,	2,75,000
Add municipal contribution	,,	1,50,000
Total for the Town ...	,,	4,25,000
And the Suburbs' fees from petroleum...	,,	10,000
License from dangerous and offensive trades	,,	15,000
One-fourth police contribution by Government	,,	35,000
	,,	60,000
Add municipal contribution	,,	35,000
Total for Suburbs ...	,,	95,000

Let Government in giving Rs. 1,50,000 and Rs. 35,000 to the Town and Suburban Municipalities make it a condition precedent that the municipality will give a like grant for town and bustee and conservancy improvements of places within their respective jurisdiction.

Thus we shall have Rs. 4,25,000 at the disposal of the Town Corporation and Rs. 95,000 at the disposal of the Suburban Municipality to make a fair start.

19*th January* 1885. JODOO LAUL MULLICK,

A Member of the Octroi Committee.

No. 961, dated Calcutta, the 4th April 1885.

From—COLMAN MACAULAY, Esq., Secy. to the Govt. of Bengal, Municipal Dept.,
To—The Chairman of the Corporation of the Town of Calcutta.

WITH reference to my letter No. 779, dated the 17th July last, I am directed to forward herewith, for the consideration of the Commissioners, a copy of the report of the Committee appointed to report upon the proposal to levy an octroi in Calcutta.

2. It will be observed from paragraph 19 of the report that the Committee do not desire to press the acceptance of the scheme of taxation described in paragraphs 4 to 18 in view of the bare majority by which it was carried in the Committee. The only question of taxation in which there was an unanimity of opinion is the proposal to levy a fee of 2 annas upon every case of petroleum brought into the town for consumption.

3. The remarks made by the Committee in paragraphs 22 to 24 of their report, regarding the question of relief to be given to the poorer classes living in the town from direct taxation, if an octroi of any kind is introduced, deserve the consideration of the Commissioners.

4. I am desired to invite the special attention of the Commissioners to the concluding part of paragraph 25 of the report, where the Committee recommend the amalgamation of the town and suburbs for municipal administration, and to say that Sir Rivers Thompson would be glad to have the views of the Commissioners upon this point.

No. 528, dated Calcutta, the 26th May 1885.

From—H. L. HARRISON, Esq., Chairman of the Corporation of Calcutta,
To—The Secretary to the Government of Bengal, Municipal Department.

THE report of the Octroi Committee, forwarded for the consideration of the Commissioners with Government order No. 961 of the 4th April, was duly laid before the Town Council, when it was directed that a Special General Meeting should be called for the purpose of discussing it.

2. The views of the Commissioners are indicated by the Resolutions which were passed at this Meeting; they are as follows:—

(1) That the Commissioners concur in the recommendation to charge two annas a case on all petroleum stored in the town.

(2) That looking to the circumstances of Calcutta and the objections which are raised to an octroi proper, the Commissioners are not in favor of raising a municipal income by means of an octroi.

(3) That the scheme for an indirect tax on articles of consumption set forth in the Committee's report will cause much discontent among retail vendors, and is not desirable.

(4) With reference to the proposition to place Calcutta and the Suburbs under one central controlling authority, while at the same time preserving for each large sub-division of the amalgamated municipality considerable initiative and responsibility in matters of local administration, the Commissioners are of opinion that it is desirable that certain portions of the Suburbs should be amalgamated with the Town.

(5) That a Committee be appointed to determine what portions should be amalgamated.

3. A rider on No 3 which was prepared by the Chairman to the effect that "an exception might be made in the case of tobacco, and a small license fee varying according to the assessment of the shop, be imposed for its retail vend in addition to the ordinary trade license" was lost by a large majority.

4. Of the above propositions Nos. 2 and 4 elicited much difference of opinion, and an amendment moved, by Mr. Nolan, to the effect that the Commissioners were prepared to consider proposals for an octroi on any article which appeared to be adapted to that mode of taxation, was only lost by a narrow majority.

5. As regards No. 4, an amendment was moved by Baboo Soorendro Nath Banerjee that the Meeting regret that the amalgamation of Calcutta and Suburbs under the municipal administration would lead to administrative inconvenience, stop the steady improvement of the Suburbs, throw the burden of the improvement of the Suburbs upon the rate-payers of the Town, and defeat the principle of local self-government which aims to utilise local interests and local experience for the administration of local affairs. This, after an animated discussion, was lost by a majority of 18 to 11.

6. A further report will be submitted when the Committee, which has been appointed, have completed their labors.

RESOLUTION ON THE REPORT ON THE ADMINISTRATION OF CIVIL JUSTICE IN THE SONTHAL PERGUNNAHS DURING THE YEAR 1884.

RESOLUTION.

JUDICIAL.

Darjeeling, the 4th July 1885.

READ—

The Annual Report on the Administration of Civil Justice in the Sonthal Pergunnahs for the year 1884.

Read also—

The Reports for the years 1882 and 1883, and the orders of Government recorded thereon.

The following comparative statement shows the progress of civil litigation in the Sonthal Pergunnahs during the past three years :—

	Instituted.			Disposed of.			Pending.		
	1882.	1883.	1884.	1882.	1883.	1884.	1882.	1883.	1884.
Civil suits	7,350	7,351	6,665	7,332	7,289	6,468	635	697	894
Rent ,, ...	4,545	3,892	3,583	4,602	3,834	3,611	376	434	406
Title ,, ...	478	1,443	2,873	490	1,250	2,432	170	323	764
Civil execution...	4,448	4,253	3,470	4,633	4,218	3,401	719	754	823
Rent ,, ...	3,332	2,805	2,131	3,125	2,863	2,185	515	457	703
Title ,, ...	139	508	791	145	448	738	46	106	159
Total ...	20,312	20,252	19,813	20,336	19,942	18,835	2,461	2,771	3,748

While the total number of institutions, including execution cases, slightly decreased in 1884, the number of suits disposed of fell from 19,942 to 18,835, and the number of suits pending at the close of the year rose from 2,771 to 3,748.

2. Civil suits, that is suits for money and moveable property, decreased from 7,351 to 6,665. The decrease occurred in all sub-divisions of the district with the exception of Doomka, and is attributed to loss of crops and consequent distress of a rather severe type. Although the number of suits instituted decreased, the number pending at the close of the year increased from 697 to 894, and the number disposed of was less by 821 than in the year 1883. This result is not satisfactory, and a clear explanation should have been given by the Commissioner. The Commissioner again notices the anomaly regarding the application of the usury clauses of Regulation III of 1872, which were specially adopted for the protection of the Sonthals in their dealings with foreign money-lenders. The High Court having decided that those clauses do not apply to contracts under the Contract Act, the application of them to cases in which the claim exceeds Rs. 1,000 is at present in abeyance, as such cases are tried in the courts in the Sonthal Pergunnahs constituted under the Civil Courts Act VI (B.C.) of 1871. Cases in which the claim does not exceed Rs. 1,000 are dealt with by courts appointed under section 2, Sonthal Districts Act XXXVII of 1885, and are not appealable to the High Court. To these cases the usury clauses are still applied by the Courts. The Commissioner remarks: "As the question stands, it appears to me that our procedure answers the main object fairly well. The limit of Rs. 1,000 suffices, I imagine, to cover all cases in which Sonthals are concerned, and they consequently reap the benefit of the usury clauses. If hardship has arisen in cases of a higher value, rendering change of the law desirable, the Deputy Commissioner should particularize and give instances in detail." In these views the Lieutenant-Governor agrees. In view of the following description given by the Deputy Commissioner of the exacting character of some of the money-lending classes in Sonthalia, the Lieutenant-Governor would not lightly modify the present accepted policy. Mr. Forbes writes:—

The worst class of traders and money-lenders in the district, as Mr. Oldham pointed out last year, is the Bhojpoorea Bhagat from the Arrah district. He is stigmatized even by his fellow-workers as the most grasping and usurious of all his class, and the most unscrupulous in regard to accounts. This is the only district in which he has been able to get and retain a firm foothold, and the reason is obvious. As a land-grubber he has no equal, and in dealing with him as a suitor, particularly when his victim is a Sonthal or other hill-

man, the courts have to be very careful in their scrutiny of the accounts. The Bhagat is the only man who does not subscribe to the custom, amounting to creed, prevalent among ordinary traders and money-lenders never to worry agricultural debtors during the period of cultivating his fields or gathering his harvests. At a meeting held by me in Heridwa in January, at which some zemindars and a large and influential gathering of mahajans and traders were present, the question of sales of ryoti lands to money-lenders was under discussion. The more respectable traders, even, who themselves had purchased lands, were of opinion that the mahajans, as a rule, did not care to hold isolated pieces of land, as they rarely if ever cultivated the lands themselves, and the profits they derived were not remunerative, and they considered it as so much capital sunk. They were of opinion that, looking at the excitable nature of the Sonthal people, and the risk they ran from holding these people's lands, they would gladly give them up if they could get an equitable arrangement for the recovery of their debts. They assured me that these lands were generally acquired by them as a last resource, and because the vendors themselves preferred to take this course rather than have a debt hanging over them and a constant dread of being sued. But they were unanimously of opinion that the Bhagat money-lenders would fight to the death rather than yield an inch towards the giving up of lands.

3. Suits instituted for arrears of rent decreased from 3,693 to 3,497. Suits for ejectment have decreased from 631 in 1882 to 37 in the year under review, and this is a result of the settlement; for, as the Commissioner infers, the people have arranged whatever differences they had on the basis of the settlement, and doubts which prevailed before regarding holdings have now disappeared. Rent suits, it is stated, are of an extremely simple character, and the record, as a rule, shows that a suit is only brought when the rent-receiver has failed to obtain payment through the usual means of laying the claim first before a village punchayet. As regards the disposals, there was a slight decline in the number decided, from 3,834 to 3,611. This is, no doubt, due to some extent to the changes among the officers in the Sonthal Pergunnahs. These, during the past year, were, from various causes, more frequent than is ordinarily the case. The question of the relation existing between the village headman and the ryots is connected with the administration of civil justice only so far as it effects the litigation between those parties. Upon this particular point the report is silent; and upon the general aspect of the question the Commissioner promises a separate report. The main object of the Regulation of 1872 was to secure the peace and order of the district, and among the means to that end was the ascertainment and record of all the various interests and rights in the land. If the position of the "moostajir" of the village has, to some extent, been altered and affected in the process, the gain on other sides has been very great, and the Lieutenant-Governor is inclined to think that the fears which Mr. Forbes expresses in the appendix attached to the Commissioner's report are somewhat exaggerated.

4. In title suits there was an increase from 1,443 to 2,873 in institutions; from 1,290 to 2,432 in suits disposed of; and from 323 to 763 in suits pending at the close of the year. In 1882 the number of title suits was 478, and the sudden increase in 1883 was explained by the classification of jote suits under this heading, these having, till September 1882, been shown as cases under the rent laws. On the increase in 1884, the Deputy Commissioner remarks: "The reason for this sudden and extraordinary rise is mainly our own action in dealing with transfers and sales of cultivators' jotes. Mr. Oldham, in his report for last year, alluded to the feeling of disquietude then existing among the Sonthals. Subsequently, it would appear these people came to know that Mr. Oldham had asked for a rule absolutely prohibiting sales, and they also by some means learned that an order had passed directing the courts to stay proceedings in execution cases in which Sonthals were the judgment-debtors. The people drew their own conclusions from these facts. Meetings appear to have been held simultaneously in Hendwai Doomka) and Sultanabad (Pakour), and several cases of dispossession of Diku purchasers by Sonthals and others occurred simultaneously in both places." The attempts at lawlessness were easily suppressed. The passing of the Bengal Tenancy Act so far meets the case that transfers of occupancy holdings are left to the particular custom and usage of each district. In the Sonthal Pergunnahs there may be very good reasons for the absolute prohibition of such a practice. The Commissioner's report on this special question is awaited.

5. Including three appeals pending from the previous year, there were six appeals to the High Court, four of which were decided during the year. The number of appeals against the orders of subordinate civil and revenue

courts increased from 632 to 759, of which 490 were to Sub-Divisional Officers and 269 to the Deputy Commissioner. Miscellaneous appeals increased from 43 to 77. It must, however, be borne in mind, when comparing the appeal work of 1884 with that of the preceding year, that in the latter the number of these cases was abnormally small.

6. The receipts of the courts decreased from Rs. 75,718-5-6 to Rs. 72,901-4. There was an increase in Doomka, Godda, Rajmehal, and Jamtara, but it was more than balanced by a decrease from Rs. 22,755 to Rs. 19,877 in the receipts in Deoghur, and a decrease from Rs. 10,783-9 to Rs. 5,133 in Pakour. The decrease in these two sub-divisions is attributed by the Commissioner to a falling off in institutions of suits of large values. This statement, however, affords no explanation of the decrease, as it is but a reiteration of the same fact in different words. Suits in the civil courts of values not exceeding Rs. 10 decreased from 5,409 to 4,934 ; of values between Rs. 10 and Rs. 50 increased from 5,150 to 6 058 ; and of values between Rs. 50 and Rs. 100 from 1,322 to 1.3-1. In suits of higher values, those of values not exceeding Rs 500 decreased from 682 to 653 ; of values not exceeding Rs. 1,000 from 43 to 38 ; and of values not exceeding Rs. 5,000 from 36 to 28. The decrease in the total value of suits was from Rs. 4,87,960 to Rs. 4,87,169, and was only nominal. These figures therefore certainly do not explain the general decrease in the receipts. The Deputy Commissioner states that special attention was paid during the year to the valuation of suits, and that he intends to make a further report at an early date on the whole subject. Pending the submission of this report, the special attention of the Deputy Commissioner has been drawn to the orders contained in paragraph 6 of the Resolution of 1882, directing the exercise of a closer scrutiny into the valuation of all suits, with a view to ensure that the stamp revenue does not suffer.

7. There were 8,159 applications for execution of decrees before the courts. Of these, 2,644 were satisfied in full and 832 in part. The amount realized was Rs. 1,15,684, of which Rs. 12,217 were realized without issue of process. On 487 applications immoveable property was sold. In 1883 immoveable property was sold on 687 applications. In future reports the Commissioner should notice how far the sale of immoveable property in execution of decrees has the effect of transferring land from the possession of Santhals to that of persons foreign to the district.

8. The information afforded to the Lieutenant-Governor by the Commissioner's report regarding the administration of civil justice in the Sonthal Pergunnahs for the year 1884 is not so full as that afforded by the preceding report for the year 1883, as the report of the Deputy Commissioner has this year not been forwarded. The Deputy Commissioner's report should always be sent as an appendix to the report of the Commissioner.

9. Sir Rivers Thompson is pleased to observe that the officers in the Sonthal Pergunnahs have, with hardly an exception, continued to discharge their respective duties with zeal and intelligence. The work is certainly heavy, and such as to cause a severe strain on their energies. It is satisfactory therefore to notice that the quality, as well as the quantity, of work has been, on the whole, good. A copy of the remarks of the Commissioner regarding these officers will be forwarded for record in the Appointment Department.

By order of the Lieutenant-Governor of Bengal,

F. B. PEACOCK,

Secretary to the Government of Bengal.

METHODOCATTLE VACCINATION IN MONSIEUR PASTEUR'S LABORATORY, PARIS.

Circular No. 68C—3-6, dated Simla, the 16th May 1885.

From—C. S. BAYLEY, Esq., C.S., Officiating Under-Secretary to the Govt of India, Revenue and Agricultural Department,

To—The Secretary to the Government of Bengal, Municipal Dept.

IN continuation of Mr. Holderness' endorsement No. 123—2-18, dated the 1st November 1884, I am directed to forward, for the information of His Honor the Lieutenant-Governor, copies of a report* by Dr. Hallen, General Superintendent of Horse-breeding Operations in India, on the results of a visit to Monsieur Pasteur's Laboratory in Paris.

* No 76MD, dated 6th December 1884, to the Government of India, Military Department.

2. It has been suggested to her Majesty's Secretary of State for India that a few of the veterinary officers sent out to India should receive a special course of training in the institutions devoted to the study and culture of disease germs; and it has been proposed to establish a laboratory of the character indicated in paragraphs 7 to 10 of Dr. Hallen's report in connection with the Veterinary College at Lahore. This last proposal may, however, be modified so far as the locality of the first laboratory is concerned.

No. 76MD, dated Babugarh, the 6th December 1884.

From—J. H. B. HALLEN, Esq., Inspecting Veterinary Surgeon and General Supdt., Horse-breeding Operations in India,

To—The Secretary to the Government of India, Military Department.

I HAVE the honour to submit the following report for the consideration of His Excellency the Viceroy of India in Council.

2. I received, when in England, a letter, R. S. and C., No. 1604, dated 18th August 1884 (copy attached, and marked A), from the India Office, explaining that, before returning to my duties, I should visit Monsieur Pasteur's Laboratory in Paris, with the view of learning the method of vaccinating cattle, to which I replied that I would have much pleasure and interest in doing so; and in due course, having been furnished with the necessary letter from the Foreign Office to the British Embassy at Paris, I proceeded there on the 5th September 1884 on the visit of enquiry.

3. After my return to London on the 14th September 1884, I submitted the following report, dated Edinburgh, 24th September 1884, to the Under-Secretary of State for India:—

"Referring to letter, R. S. and C., No. 1677, dated India Office, 4th instant, to my address, I have the honour to report that I proceeded on the 5th instant to Paris for the purpose of investigating in that city the method of cattle vaccination pursued by Professor Pasteur.

"On calling at the British Embassy, I delivered the letter received from the Foreign Office, in which the purport of my visit was explained, and Sir John Walsham kindly wrote that day to Professor Pasteur on the subject. Monsieur Pasteur was at the time some distance from Paris, but on receiving Sir John Walsham's letter at once courteously replied to the effect that he regretted his inability to personally explain the method of vaccination adopted, but had written to his representative, instructing him to do all in his power to assist me.

"Accordingly on the 11th instant, accompanied by Mr. Crowe of the Embassy, who was so good as to offer to assist me in mastering all details, as my limited knowledge of the French language might cause me some difficulty in acquiring all particulars, I went to Professor Pasteur's establishment, and there found Monsieur Loire, his representative, who most fully explained and demonstrated with the necessary apparatus the measures adopted in detecting and cultivating anthrax germs, and attenuating the virus, so as to render it 'vaccine' of the two kinds used, viz. *Premiére* and *Deuxiéme*; also he pointed out how the operation of vaccination is performed in sheep, cattle, and horses.

"This gentleman's demonstrations were most lucid, fully bearing out all I had read in publications by Monsieur Pasteur and other scientists on the subject.

"That animals duly vaccinated with the attenuated virus, as prepared in Professor Pasteur's Laboratory under the names *Premiére* and *Deuxiéme*, become protected from anthrax, has been most fully proved, and thus in France and neighbouring countries the system is becoming generally adopted, and heavy losses among stock are gradually more and more prevented.

"This boon should now be extended to India, where anthrax in many forms attacks animals; for example, as Ludhiana disease in the equine, and quarter-ill and black-leg in the ovine and bovine species.

"But to have anthrax 'vaccine' available in India, it will be necessary to have laboratories established there, where, under specially qualified veterinary surgeons, 'vaccine' of a proper strength may be prepared and thence issued as required in the districts. To have

'vaccine' ready for vaccination, prepared in Monsieur Pasteur's Laboratory in Paris, sent so long a distance as India, and often, as it might be, to very remote portions of that large country, would not be a safe mode of procedure, as it is believed such vaccine could not be always depended upon when employed after having been a long time prepared, and so the necessity of having local laboratories, say one at each of the several veterinary colleges already established or about to be formed in India, is apparent.

"The operation of cattle vaccination is in itself a simple matter, but the greatest care is requisite in the employment of correct 'vaccine,' that is, 'vaccine' of a proper strength and not too long a time prepared. It is considered that anthrax vaccine ready for use, supplied from Paris and sent to a not longer distance than Russia, cannot be always relied on.

"As it is under contemplation of the authorities to have veterinary surgeons provided for the civil districts of India, where their professional assistance will be of benefit with reference to the treatment of cattle-diseases, more especially as regards the prevention of murrains which are ever more or less ravaging the herds and flocks of India, I would earnestly suggest that of the veterinary surgeons to be employed on these most important duties, some should receive special education in Bacteriology, or in the study of disease-germs with respect to their microscopic detection, cultivation, &c., and in the cases of anthrax and rabies, their attenuation and reduction so as to be able to have the benefits accruing from Monsieur Pasteur's discoveries enjoyed throughout India. Moreover, veterinary surgeons so educated would in India have grand opportunities of prosecuting their bacteriological studies with reference to rinderpest, foot-and-mouth disease, glanders, and other contagious maladies, and might rightly cherish the hope of not only detecting the germs of such dire plagues as are as yet unknown, but of discovering how to so attenuate the virus of some of them, and in time establishing vaccine to give immunity from such diseases to other animals.

"In India most of the murrains known are indigenous, and are at all times more or less prevailing; so the field for bacteriological enquiry is unlimited, and with due precautions, without the risk of spreading the diseases, as would be the case were such experiments carried on in countries where they are only known when imported.

"It has been my privilege during the past year to have the *entrée* to a laboratory in Edinburgh, where, under the administration and expense of Professor J. Chiene of the University, most valuable experiments as regards disease-germs and their culture are carried on by Dr. Hare, a pupil of Herr Koch, and I have now had, through the kindness of Monsieur Pasteur, an examination of the grand work of his laboratory, and such are the grave impressions made on my mind that I feel it my duty most earnestly to submit, for the consideration of the Right Hon'ble the Secretary of State for India in Council, that it behoves the Indian Government to allow some of the veterinary surgeons to be employed in the Civil Veterinary Department of India—those especially who may have a bent for the study—to have the benefit of three or four months' study in such laboratories prior to their entering on their Indian service; and I am permitted by Professor Chiene to state that he will allow veterinary surgeons intended for Government employment in India, so sent to him, to study in his laboratory for a time, and then I would suggest their being permitted to go to Paris to abide for another period in Monsieur Pasteur's Laboratory, where I feel assured they will be heartily welcomed; and thus having obtaind due practical knowledge of both Professor Pasteur's and Dr. Koch's methods of procedure in detecting, cultivating, &c., germs, they will be well prepared to zealously follow up bacteriological research in the large field of India.

"I will have the honour of submitting a further report on this most important topic for the consideration of the Government of India after my return to duty next month. Meanwhile, I most respectfully urge that the subject is one so weighty as to deserve the early attention of the Right Hon'ble the Secretary of State for India in Council"

4. I beg now to further explain that the operation of vaccination is simple, and fully described in the printed paper headed "Vaccinations Charbonneuses," marked B and attached. It is necessary to have a Pravaz syringe for duly injecting the "vaccine" in proper quantity.

5. Thousands of sheep have been, and are being, vaccinated in France and neighbouring countries; also cattle are being similarly protected from anthrax; but as yet the vaccination of horses has not been so general: still it is believed that satisfactory results will be obtained among equine, as have been gained with ovine and bovine animals. The fact that horses in France and other continental countries are not so prone to anthrax as cattle and sheep are, explains why vaccination has not been so generally adopted with the former class of animals. Here, in India, horses are frequently attacked with anthracoid forms of disease, and heavy losses annually occur from this cause among Government troop horses; so the desirability of having scientifically conducted vaccination among horses for anthrax carried out is apparent. Again, the many deaths that yearly occur from anthrax among cattle at the Hissar farm suggests the advisability of having all the cattle of the farm protected by vaccination.

6. The beneficial results that will ensue from Government thus practically giving proof of the value of vaccinating animals for anthrax will induce stock owners to desire to have their animals made safe from the fatal disease, and it may be hoped that in time cattle and sheep-owners in India will learn to become only too ready to have their animals protected.

7. As I have indicated in my letter (above quoted) to the Under-Secretary of State for India, it will be necessary to have a laboratory at each veterinary college, wherein anthrax "vaccine" may be prepared.

8. When in Paris, I gathered that the cost of the necessary apparatus and appliances for the purpose, according to the method pursued in Monsieur Pasteur's Laboratory, will be about

£300 for each laboratory. I believe Monsieur Pasteur, in a communication addressed some months ago to the British Embassy at Paris, noted his opinion that such would be about the cost, and probably information on this head has been furnished by the Foreign Office to the India Office.

9. As I have explained in my letter to the Under-Secretary of State for India, the laboratories will afford opportunities of not only providing anthrax "vaccine" to any extent that may be required, but will also allow of experiments being carried out with reference to other infective maladies of stock, such as rinderpest, foot-and-mouth disease, &c., and thereby give hope that other "vaccines" may in due time become known and prove effective in giving immunity from their respective contagious diseases.

10. The importance of having these laboratories duly established and scientifically worked has, I trust, been made plain.

11. The veterinary surgeons placed in charge of them should have the privilege of working for some time in the laboratories of Monsieur Pasteur in Paris and of Professor J. Chiene in Edinburgh, and thus thoroughly acquiring a sound knowledge of both the Pasteur and Koch methods of preparing anthrax "vaccine," and of cultivating disease-germs in the many ways now known, so that they will be quite able, as scientists, to prosecute enquiry relative to the germs of rinderpest, foot-and-mouth disease, pleuro-pneumonia, glanders, &c.—infective diseases which are always more or less prevailing throughout India.

12. Most assuredly the scientific labours to be undertaken in these laboratories will lead to the collecting of most valuable information, not only for the benefit of India, but of all civilised countries.

APPENDIX B.

Monsieur Pasteur's Method of Protective Inoculation.

The disease known under the names of "Charbon," splenic fever, Siberian plague, anthrax fever, splenic apoplexy, braxy, gloss-anthrax, black quarter, and malignant sore-throat, commonly called Ludhiana fever, is caused by the development of a microscopic organism (Bacterium) in the blood of the animal. If a few drops of the blood of an animal which has died of this disease are introduced under the skin of a healthy one, death is almost sure to follow in the course of two or three days. The bacteria which cause the disease are then in an exceedingly virulent condition, and if the virus were cultivated, that is, if it were developed in a solution favourable to its growth, it would retain its virulence. By adopting a plan which has been described at length in the reports of the Academy of Sciences, Messrs. Pasteur, Chamberland, and Roux have succeeded in attenuating this virulence, and they have managed to obtain fresh virus of different degrees of strength. Thus they can produce a very powerful virus which would be sure to cause death, or virus more or less attenuated which would communicate disease in a mild form, or virus which is entirely harmless and which would not impart the disease at all.

2. Now, when an animal has had the mild disease by introducing under the skin bacteria weakened in their virulence, it is not fit to contract the mortal disease, that is that animal cannot die of anthrax during a certain time, at least within about one year. Under this fact lies the principle of anthrax inoculations. In order to protect animals from contracting this disease, which is certain to be fatal to many of them, two preservative inoculations are made — the first, with very weak virus (first vaccine matter or anthracine), which gives only a slight fever; and the second, used twelve or fifteen days later, with much stronger virus (second vaccine matter) which would kill a certain number if they were not already protected in part by the previous inoculation; but in consequence of this partial protection, animals on the second inoculation get only a slight fever. When they are completely protected, they have become refractory to anthracoid diseases. Sheep, goats, cattle, buffaloes, horses, asses, mules, and many other animals can be so protected.

PRACTICE OF THE OPERATION.

The "vaccinal" liquid or lymph is conveyed to its destination in closely corked tubes which contain sufficient to inoculate 50, 100, 200, or 300 sheep and goats or 25, 50, 100, or 150 cattle, buffaloes or horses. These tubes are labelled "First vaccine" or "Second vaccine." A certain quantity of this liquid must be inserted under the skin of the animal. This can be done with a Pravaz syringe, such as is used by doctors and veterinary surgeons to make injections under the skin of man and the domesticated animals. First, the syringe must be filled with the liquid. For this the small metallic thread in the needle, which is intended to keep out any foreign substance that might choke it up, must be removed. The needle must then be fixed on the piston tube (cylinder), the vaccine shaken, and the liquid drawn up by slowly raising the piston. If the syringe works well, it will be completely filled with liquid and will leave only a very small air bubble under the piston. It frequently happens, however, that the piston is more or less dry, or that the needle does not fit well. Then the liquid does not fill the syringe completely, and a very large air bubble is found under the piston. In this case, by repeating the process two or three times, the piston will be moistened, and if the needle fits well the syringe will be filled completely. *It is indispensable that this first condition should be attained.*

2. If, however, owing to any accident, the piston should be too dry and allow the air to escape, it should be boiled in water and left to cool in the vessel in which it was boiled until it is lukewarm; then the syringe must be filled two or three times with this water to swell the piston. *Water which has not been boiled must never be used for this purpose.*

3. If the water passes above the piston, it is a sign that it is bad and will have to be changed If one piston only is at the disposal of the operator, it must be tightened a little with the small key which is in the box of the syringe.

4. *Sheep and goats.*—When the syringe is quite full, the little brass marker which is on the stem of the piston must be placed at the division marked 1. An assistant must then take hold of the animal which is to be inoculated, and hold it firmly by its forelegs in the required position. The operator then must insert his needle under the skin in the middle of the *right* thigh, and push the piston until the marker touches the syringe. The inoculation of the first animal is then complete. The syringe is drawn back, the brass marker is placed at the division marked "2" on the stem of the piston, and the second animal is operated upon; and so on, each syringe holding enough to inoculate eight. When empty, the syringe must be filled up again in the same way as before. With a little practice, a man would soon be able to inoculate 150 sheep per hour. Twelve or fourteen days after the first operation, the process must be repeated with the second vaccine; but this time the injection must be made in the *left* thigh of the animal, that is, in the one which has not been already operated upon.

5. *Horses, &c.*—The same fluid which is used for sheep and goats may be taken for cattle, horses, asses, and mules; but a double dose will be needed for the larger animals; that is to say, the small brass marker must be placed at the division 2 for the first operation, afterwards it may be put at 4, and then at 6, &c., each syringe containing enough lymph to inoculate four of the larger instead of eight of the smaller animals. Instead of injecting the lymph into the thigh, it should be put behind the shoulder for cattle, and in the neck of the horse, ass, and mule, care being taken to place it where the collar will not press upon the marks.

6. The skin of large animals is very difficult to pierce with a needle; care must be taken, therefore, to make the puncture in an exact line with the syringe to avoid a bruise. It is a good plan also to make a small fold of skin with the left hand by way of facilitating the introduction of the needle. The same needle which has been used for sheep should not be used for the larger animals, and for safety's sake a stronger needle for operating on them is put into the box with the syringe.

7. It is most important that the vaccinal liquid should be in a condition of *perfect purity* when it is injected under the skin. If it be impure, that is to say, if it were contaminated by water which had not been boiled, or by dust or other foreign substance, there would be injected into the animal only the mild virus, but other organisms, possibly those of erysipelas or septicæmia (for example), which might give another disease, or the inoculation might be hindered. *The liquid as sent is quite pure*, and may be drawn directly into the tube, but it is necessary that the syringe also should be pure. New syringes which have never been used are so, but after they have been employed for one inoculation they should be replaced by fresh ones. *The operation is an exceedingly delicate one*, and the syringe should be repaired and cleaned before it is used again. In one word, a syringe should not be used a second time after some days have elapsed since it was first employed, until it has been thoroughly cleansed.

8. *The lymph should be put as soon as possible in a cellar to keep it cool, and a tube which is open one day should not be employed on the following or succeeding days. Consequently the contents of every tube which is opened should be used the same day, and any matter which remains should be rejected without hesitation.*

9. If an operator is pressed for time, or has too many animals to inoculate, he may do his work in a hurry; then there is a danger that the needle may pass over the skin instead of piercing it, and shoot the vaccine outside; or he may neglect to remove the marker, and from that time he may push the piston, but the lymph will not be injected under the skin. Under these circumstances, as there is a doubt about the first inoculation, there is a danger that since the first vaccine has not been introduced into the system, *the second vaccine, being more active may cause death.*

10. Great care should be taken also to prevent animals which are being inoculated with the first vaccine from escaping too soon out of the hands of the assistant who is holding them. They may mingle with the flock or herd, and then have an injection of the second vaccine before they have been partially preserved by the first, and in this way accidents may arise.

11. There is another mischance to be guarded against, namely, that the air in the tube must never be at the needle end. If it were so, the operator might push the piston, but air only, not lymph, would escape, and thus the inoculation would not be accomplished. *This accident is of frequent occurrence.*

12. Cattle and buffaloes have not hitherto exhibited a tumour at the points inoculated. Horses, especially young horses, had sometimes had tumours more or less extensive, but they always subside with tolerable quickness without any treatment whatever. The experiment of inoculating young horses three times has been made that is, twice with the first vaccine and once with the second, but not the slightest tumour has been produced. Proofs of this kind continued to increase. It may be that this is the best method of inoculation for these animals.

LIBERALITY OF BABOO RAJ MOHAN RAI CHOWDHURI.

GENERAL DEPARTMENT.—EDUCATION.

Darjeeling, the 30th June 1885.

RESOLUTION.

READ—

The correspondence ending with a letter from the Director of Public Instruction, No. 6T., dated the 4th May 1885, regarding the endowment by Baboo Raj Mohan Rai Chowdhuri, a zemindar of Taki, in the 24-Pergunnahs, of the Aided English High School at Taki.

IN 1878 Baboo Raj Mohan Rai Chowdhuri, Member and Secretary of the Taki High School Managing Committee, offered to endow the Taki School with an income of Rs. 300 per year, and to build a masonry school-house on condition that Government would undertake to maintain the school in perpetuity as a Government school. He asked that Government should continue to make an annual grant to the school of such sum as might be thought proper, and that if the total revenue of the school should become in the future insufficient to maintain a high school, a Government middle class school should be established; or if this, too, should be found to be impracticable, that the Taki School should still exist as a vernacular school. He also asked that Government should give a piece of land as a site for the school-house which he proposed to build. The Government having accepted Baboo Raj Mohan Rai's liberal offer, and having sanctioned a net grant to the school of Rs. 90 per mensem, the Educational Department took over the school as a Government high school from the 1st April 1881. A piece of land was also acquired by Government at a cost of Rs. 1,229-7 for the new school building; and upon it Baboo Raj Mohan Rai Chowdhury has, as promised, built a new school-house, at an estimated outlay of Rs. 10,000. Government has recently made a grant of Rs. 1,000 for furniture for the new building.

2. On the 10th May 1885, Baboo Raj Mohan Rai Chowdhuri made over to the local authorities Government securities to the amount of Rs. 7,500, yielding an annual income of Rs. 300, in place of landed property of this value which he had assigned to Government for the support of the school in 1881. Thus, through the public spirit of Baboo Raj Mohan Rai Chowdhuri, the people of Taki and its neighbourhood are secured special advantages in the way of education; and the Lieutenant-Governor desires that, in consideration of this fact, the thanks of Government be conveyed to Baboo Raj Mohan Rai Chowdhuri for his liberality. The Lieutenant-Governor also desires that a tablet be erected in the Taki School building to commemorate this liberality.

By order of the Lieutenant-Governor of Bengal,

A. P. MACDONNELL,

Secretary to the Government of Bengal.

LIBERALITY OF SYED ASGAR REZA AND BABOO KUNJO LAL IN CONNECTION WITH A DISASTROUS FIRE WHICH RECENTLY BROKE OUT AT KISSENGUNGE IN PURNEAH.

No. 992J.D., dated Darjeeling, the 17th June 1885.

From—F. B. PEACOCK, ESQ., Secretary to the Govt. of Bengal, Judicial Dept.,
To—The Commissioner of the Bhagulpore Division.

I AM directed to acknowledge the receipt of your letter No. 1165J., dated the 28th ultimo, forwarding copy of a report, and its enclosure, from the Magistrate of Purneah, on the subject of a disastrous fire which recently broke out at Kissengunge in that district.

2. In reply, I am to say that the liberality displayed by Syed Asgar Reza and Baboo Kunjo Lal in promptly responding to the call of the sub-divisional officer for subscriptions towards the relief of the sufferers, and in distributing a quantity of food and clothes among them, was highly commendable. I am to request that you will be so good as to convey the acknowledgments of the Lieutenant-Governor to these gentlemen, as well as to all others who have assisted in alleviating the distress which the fire has caused.

3. I am at the same time to observe that Baboo Gossain Das Datta, the sub-divisional officer of Kissengunge, appears to have worked with praiseworthy energy and judgment. The Lieutenant-Governor desires that an expression of his satisfaction may be conveyed to that officer.

4. I am to add that this correspondence will be published in the Supplement to the *Calcutta Gazette*.

No. 1165J., dated Bhagulpore, the 28th May 1885.

From—G. N. BARLOW, ESQ., C.S.I., Commissioner of the Bhagulpore Division and the Sonthal Pergunnahs,
To—The Secretary to the Government of Bengal, Judicial Department.

I HAVE the honour to forward to you herewith copy of a report, No. 1220J. of the 18th instant, and its enclosure, from the Magistrate of Purneah on the subject of a disastrous fire which broke out on the 22nd ultimo at Kissengunge in that district.

2. I think that the liberality of Syed Asgar Reza and of Kunjo Lal (agent of Luchiram), as well as the efforts of other subscribers and the relief committee, may be acknowledged by Government. The sub-divisional officer seems to have acted promptly and judiciously.

No. 1220J., dated Purneah, the 18th May 1885.

From—A. WEEKES, ESQ., Magistrate of Purneah,
To—The Commissioner of the Bhagulpore Division.

I HAVE the honour to report that on the 22nd ultimo a most disastrous fire broke out and consumed almost the whole of the town of Kissengunge, including most of the masonry houses, and that forty-five women and children and five men lost their lives. About fifty persons were injured more or less from burns, most of whom are expected to recover. The fire began in some stable of Syed Asgar Reza, at about 1 o'clock in the day, when the unusually hot and furious wind we used to have at that time was raging. The fire in a few moments passed the bridge and river and involved the whole of the town, and there was not only no chance of stopping it, but the street was so hot as to be impassable, and the women and children, who hesitated a moment as pardanashin to leave their houses, were unable to do so, and this seems the reason that so many women and children, in proportion to men, were killed. On receipt of the information on the 23rd, I wrote to the sub-divisional officer of Kissengunge to call a meeting of zemindars and other well-to-do persons and raise subscriptions to relieve the houseless poor and others who were temporarily without shelter or food.

His call was generously and promptly responded to by Syed Asgar Reza and Baboo Kunjo Lal, Lachiram, and many others, and the two former distributed a quantity of food and clothes to the sufferers. Rupees 3,366 was promptly collected and a committee formed to distribute the relief thus afforded. The sub-divisional officer tells me he received great assistance from Mr. Wadschow, Personal Assistant to Syed Asgar Reza, in the

distribution of relief; and he was also very energetic and active, and rendered great assistance in endeavouring to stop the fire. Unfortunately his mother died very suddenly during his absence at the scene of the fire. The loss of merchandise is roughly estimated at Rs. 1,48,855, and this does not include furniture and other property, including cattle.

I take this opportunity to bring to your notice the liberality of Syed Asgar Reza and of Baboo Kunjo Lall, agent of the firm of Lachiram. The latter has, besides his liberal subscription, also promised to construct two deep large wells for the protection of the town at a cost of Rs. 2,000 to Rs. 3,000.

It appears that the origin of the fire was the carelessness of a Eurasian jockey, who placed his pipe too near some thatch; but the main cause of the fire was the terrific hot wind which was blowing like a hurricane, in a way quite unprecedented, and the extreme dryness of the country.

I have asked the sub-divisional officer to see whether the jockey ought not to be put on his trial for carelessness with regard to fire.

I believe that some kerosine oil in some of the houses contributed to swell the conflagration and made it more destructive, and have directed the sub-divisional officer to call on the seller of such oil to take proper action with such property, and to store it at a safe distance in a place to be approved of by the sub-divisional officer.

I have the honour to append a copy of a report from the sub-divisional officer, received on the 12th instant.

No. 148, dated Kissengunge, the 10th May 1885.

From—Baboo Gossain Das Datta, Sub-Divisional Officer of Kissengunge,
To—The Magistrate of Purneah.

It has been ascertained by the police that an Eurasian jockey in the employ of Syed Asgar Reza, zemindar, smoked and kept his hooka inclined to the tattie of the stable house, whence the fire arose; and as the west wind was blowing very high at that time, so the straw thatching of the stable, getting loose with the wind, was blown away with the fire to the thatches of the neighbouring houses, whence again loose bundles of straw on fire were blown across the river to the other side of the town, and within half an hour the whole of the town was in a blaze. The dust-storm was very strong, and nobody could see the roads properly, and everybody got confused and knew not what to do or how to help himself: the owners of the brick-built houses could not close their windows, and masses of straw on fire entered the houses by the windows, and everything inside the houses caught fire. Able-bodied men ran away with only one dhooti and a shirt which they had on their body, and women and children collected in large numbers inside houses built with mud walls and covered with mud roofs, and these broke down and fire entered into them, and they got very much heated by the surrounding fire, and the inmates died of suffocation and heat.

2. It has been ascertained that 50 persons died immediately from the effects of fire, 45 of whom were women and female children and five men: besides these, about 50 other persons got partially burnt, and most of these men will recover.

3. The fire commenced at about mid-day, but continued to burn inside pucca houses for three days continually. On the first day, from 12 o'clock noon up to 7 P.M., it was impossible for anybody to proceed near the houses. On the following morning the fires in thatched houses was extinguished, and the people looked quite in despair. They were without food during the previous day, and there was no grain in the bazar for purchase. So I issued orders inducing some of the shopkeepers of Khagra to go with rice, choora, moory, &c., to the town of Kissengunge, and asked Baboo Kunja Lall, agent of the richest merchant here, Baboo Lachiram, and Syed Asgar Reza, zemindar of Kissengunge, to give out something in alms to the poor in the shape of food; and Baboo Kunja Lall and Syed Asgar Reza gave out 40 bags of rice or 80 maunds to anybody who asked for the same for his food, and this was of great use. Syed Safdar Reza, step-brother of Syed Asgar Reza, also gave out some rice, and everybody in Khagra, Bhariadangi, Chakla and other adjoining places went with food and clothes to help their friends and the needy. I also issued notices in the neighbouring villages and police stations and outposts calling for grain-dealers, &c., to come to Kissengunge with their grain for sale. The scarcity of food-grains continued for two days, after which abundance of grain was to be seen in the Kissengunge bazar, and there was no difficulty at all on account of want of food.

4. Eight hundred and fifty-one families suffered from the effects of the fire, including several well-to-do mahajans and shop-keepers, and the following is a statement showing what the richer merchants and shopkeepers lost.

	Total ...	1,48,855

This shows the loss of articles of merchandise only. Besides this household property, including clothes, beds, brass utensils, food-grains, cattle, poultry, &c., was for the most part burnt to ashes, and I approximately make out the total loss to be about two lakhs and twenty-five thousand rupees.

5. On the day following the date of the conflagration the town was giving out a bad smell, almost suffocating, and sickening to the extreme from the existence of half-burnt carcasses of animals, poultry, and men, and nobody would take out the dead bodies of men for fear of losing his caste, as the dead bodies of both Mahomedans and Hindoos were all mixed up in several places. Mehters and Chamars had therefore to be at once engaged to clear out the carcasses and to bury the same at a distance, and for this purpose I gave out Rs. 25 out of my own pocket as an inducement to others to come forward to help the poor and to clear out the town, and 60 Chamars and 15 mehters were at once engaged to clear out the carcasses of dead animals, and to clear the town and private houses.

6. Two days after I called a meeting of the rich zemindars and mahajans of this sub-division in order to raise subscriptions for helping the poor in rebuilding their houses, and subscriptions to the amount of Rs. 4,625 were at once promised. Syed Asgar Reza, zemindar of Kissengunge, headed the list and promised to pay a sum of Rs. 3,000. Baboo Kunjo Lal, agent of Baboo Lachiram, Rs. 1,000 : besides these the following gentlemen promised amounts noted against the name of each :—

	Rs.		Rs.
Baboo Tara Chand	... 100	Mia Elahi Bux	... 25
,, Lall Chand	... 51	Munshi Pana Ali	... 10
,, Woodi Chand	... 51	Moulvi Nooral Huq, Pleader	... 10
Mia Mazaher Ali	... 100	Munshi Himut Ali, Mooktear	... 5
Kokalal Moodi	... 150	,, Ekun Ali ,,	... 10
Kalimuddin	... 25	Baboo Dya Singh ,,	... 5
Mr. Wadschow	... 22	Moulvi Bahadur Ali ,,	... 5
Baboo Gossain Das Datta	... 25	Munshi Feda Ali ,,	... 2
,, Bhojram Singh	... 25	,, Abdul Wahed ,,	... 4

Baboo Haradhun Sirkar ... Rs. 5

7. The subscriptions from the persons noted in the margin have been paid up in full, and Syed Asgar Reza has up to date paid up Rs. 1,817 out of his share of the subscription. The total collection of subscriptions has been up to date Rs. 3,366. Out of this amount relief operations were commenced from the 2nd of May current, and 628 families have up to date been relieved. Each poor man was given Rs. 5 to Rs. 10, according to the number of persons in his house, besides six yards of cloth to each woman and two yards to each child. Rs. 3,278-2 have thus been given out to the poor people to rebuild their houses, besides Rs. 60 have been spent in clearing out the carcasses of dead animals and in burying them, and at present only five mehters have been kept to clear out the private dwelling-houses and streets of the town.

	Rs.
Baboo Kunja Lall	1,000
,, Tara Chand	100
,, Lall Chand	51
,, Woodi Chand	51
Mia Mazaher Ali	100
Kokalal Moodi	150
Kalimuddin	25
Mr. Wadschow	22
Baboo Gossain Das Datta	25
,, Bhojram Singh	25
Total ...	1,549

8. There are now about 175 women who are to be relieved, and the amount due to these persons has been made over to a sub-committee consisting of Baboo Kunja Lall, Baboo Mohim Chandra Somaghati and Baboo Kokalal Moodi: these women did not come out in public to receive their quota, so the sub-committee will pay the amounts due to them at their homes.

9. The relief to the poor was distributed in presence of a committee consisting of the following gentlemen, with myself as President of the same:—

1.	Baboo Gossain Das Datta	*President.*
2.	Mr. A. G. M. Wadschow	*Members.*
3.	Baboo Kunja Lall	
4.	,, Lall Chand	
5.	,, Woodi Ram	
6.	,, Tara Chand	
7.	,, Mohim Chandra Somaghati	
8.	,, Kokalal	

and I am glad to inform you that the members have all exerted themselves to bring the relief operations to an end as quickly as possible, and up to date nearly two-thirds of the houses have been rebuilt.

10. I take this opportunity to bring to your notice that Baboo Kunja Lall, the agent of the richest merchant here (Baboo Lachiram), has, besides his liberal subscription of Rs. 1,000, promised to make two deep wells with reservoirs for water for the future safety of the town at a cost of Rs. 2,000 to Rs. 3,000 from his own pocket, and I think Government ought to take some notice of the liberality and public spirit of Baboo Kunja Lall and Syed Asgar Reza.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 4th July 1885.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Div. 1	Burdwan, July 4 '85	1·60	Weather—seasonable. Prospects good. Price of rice 11¼ to 14¼ seers per rupee. Public health good.
	Culna ...	2·18	
	Raneegunge ...	1·69	
2	Bankoora, „ 4 „	1·45	Weather—hot and rainy. Cultivation of *amun* going on in places. Prospects of crops favourable. Sowing of early rice almost completed. Health good.
	Bishenpur ...	0·35	
3	Beerbhoom. „ 4 „	1·37	Weather—cloudy with occasional rain. Prospects of rice crop continue good; ploughing and sowing, and in some places transplanting, in progress. Prices unaltered. Cholera still prevalent in the Sudder sub-division.
	Rampore Hat ...	2·55	
4	Midnapore, „ 4 „	1·81	Weather—sultry with occasional heavy rain. Ploughing and transplanting of paddy in progress. Health good.
5	Hooghly, „ 4 „	0·83	Weather—less rainy than usual. Prospects so far fair, but more rain wanted in Jehanabad. Prices steady. Public health good.
	Serampore ...	1·16	
	Jehanabad ...	0·45	
	Howrah, „ 6 „	1·55	Weather—seasonable. State and prospects of crops very satisfactory. Public health good.
	Oolooberiah ...	3·37	
	Central Districts.		
Presidency Div. 6	24-Pergha. July 6 '85	.....	Weather—hot with close showers. Prospects of early rice and jute continue good. Lands being prepared for *amun* paddy, the seedlings of which are doing well. Public health generally good.
7	Nuddea, „ 4 „	1·77	Weather—rainy and cloudy. Prospects of paddy and other crops appear to be good.
	Kooshtea ...	2·17	
	Meherpur ...	0·67	
	Chooadanga ...	0·77	
	Ranaghat ...	3·03	
8	Khoolna, „ 4 „	1·16	Weather—cloudy and sultry; not much rain. *Aus* paddy and *amun* seedlings doing well. Public health good
9	Jessore, „ 4 „	1·90	Weather—cloudy and hot. Prospects of paddy continue favourable, although insects are doing injury to the plants in certain places. Health improved.
	Jhenida ...	1·71	
	Magoora ...	1·56	
	Narail ...	2·03	
	Bongong ...	2·76	
10	Moorsheuabad, „ 4 „	0·84	Weather—seasonable. Prospects of *aus* rice are fairly good; sowings almost completed. Land being prepared for *amun* rice. Common rice selling at from 11 to 13½ seers per rupee. Public health fair.
Rajshahye Div. 11	Dinagepore, July 3 '85	4·49	Days of alternate sunshine and heavy showers. Crops reported from everywhere to be doing well. Insects reported in Patnitolla. Sporadic cholera in Patiram.
12	Rajshahye, „ 4 „	2·10	Weather—cloudy and showery. Prospects of *aus* paddy, jute, *til* and sugarcane generally fair. Preparation for *amun* paddy still continues. Price of rice about 12 seers per rupee. A few sporadic cases of cholera still reported, and 7 deaths from small-pox occurred in Raninagore outpost.
	Nattore ...	2·68	
	Nowgong ...	2·92	
13	Rungpore „ 4 ...	1·74	Weather—hot and cloudy with occasional rain. Prospects of crops good. *Aus* crop is being cut in some places; transplanting of *amun* has commenced. Price of rice rising. Cholera has considerably abated, but fevers, chiefly of severe intermittent type, are increasing.
	Nilphamari ...	3·03	
	Gaibanda ...	1·06	
	Kurigram ...	1·86	
14	Bogra, „ 4 „	4·04	There has been good rain, but the weather has been close. Prospects of *aus* paddy good; jute and sugarcane thriving. Sowing of *amun* paddy going on, but more rain is wanted. Public health fair.
15	Pubna, „ 4 „	2·87	Weather—very hot and rainy. Crops excellent. They may be late, but will be good.
	Serajgunge ..	2·23	
16	Darjeeling, „ 4 „	9·62	Weather—wet and warm. State and prospects of crops excellent.
17	Julpigoree, „ 4 „	7·05	Weather—heavy rain towards the close of the week, with great fall of temperature. Prospects of all crops favourable. Cattle-disease is bad in some parts of the district Cholera has broken out in a virulent form at Damdin.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—*concld*			
	Eastern Districts.		
Dacca Division.			
18	Dacca, July 4 '85	2·27	Weather—first part of the week hot; latterly cooler *Aus* paddy being harvested Jute plants, *amun*, and sugarcane thriving Lands being cultivated for *reachia* paddy. Prospects of crops and public health good.
	Manickgunge ...	2·13	
	Munshigunge ...	0·54	
	Naraingunge ...	4·07	
19	Furreedpore, „ 4 „	2·23	Weather—seasonable. Prospects of crops good. Public health fair.
	Madaripore ...	1·05	
	Goalundo ...	2·43	
20	Backergunge, „ 2 „	1·91	Weather—hot. Rain during first four days of the week. Prospects of crops good. Cholera still prevalent
21	Mymensingh, „ 3 „	2·31	Weather—hot. Prospects of rice and jute good. Public health good.
	Jamalpur ..	1·90	
	Kishoregunge ...	2·59	
	Attia ...	0 37	
	Netrokona ...	1·75	
Chittagong Divn.			
22	Chittagong, July 7 '85	7·94	Weather—seasonable. Sowing of *aus* paddy completed. Lands being prepared for *amun* paddy. Prospects generally good. Prices changeable. Cholera lingers. Cattle-disease reported.
23	Noakholly, „ 3 „	5·46	Weather—cloudy and rainy. State and prospects of crops good. *Aus* is being reaped in some places. Public health good
	Fenny ...	4·02	
24	Tipperah „ 2 „	1·18	Weather—cool with frequent light showers. The comparative cessation of rain for the past fortnight has saved a large proportion of the submerged crops. The inundation has drained off, but a moderate proportion of the paddy has suffered irretrievable injury. The exception is in the case of the head-quarters thana, where the loss is enormous.
	Brahmanbareah ...	0·72	
	Chandpore ...	1·05	
25	Chittagong Hill Tracts. June 30 „	0·79	Weather—very hot; occasionally cloudy with slight showers. Rain very much wanted for *joom* paddy and cotton crop, which are suffering somewhat. Land being ploughed for late rice crop.
	Hill Tipperah, July 1 „	0·85	Weather—unsettled; more rain wanted. *Satya* paddy growing. Prospects of *joom* crops fair. Public health good.
BEHAR.			
Patna Divn.			
26	Patna, July 4 '85	3·05	Weather—cloudy and much cooler. Rain fell heavily during the last two days of the week. Agricultural operations progressing. Prospects much improved. Sowing of paddy commenced. Public health generally good.
	Behar ...	1·10	
	Dinapur ...	2·45	
	Barh ...	1·07	
27	Gya, „ 4 „	2·57	Good rain at the Sudder station on the 2nd and 3rd, which probably extended over a large portion of the district; weather still cloudy. Indian-corn is being sown, and *murwa* being transplanted. Recent rain will also facilitate the preparation of paddy seedlings. Prospects fair. Prices have risen slightly at Nawada, but are elsewhere stationary. Public health good.
28	Shahabad, „ 4 „	3·92	Weather—cloudy with east wind Sugarcane doing well. Preparation of fields for *bhadoi* progressing satisfactorily, but more rain is wanted in some places. Rice and millet are being sown. Cholera reported from Buxar, Bhabuah and Sasseram.
	Buxar ...	0·78	
	Bhabbhua ...	3·00	
	Sasseram ...	0·50	
29	Durbhunga, „ 4 „	2·28	Weather—latter part of the week cloudy and showery; heavy rain on the 3rd. Rain has been most useful. *Bhadoi* cultivation progressing favourably. Paddy seedlings coming on well. Prices remain stationary. Cholera abating.
	Tajpur ...	1·02	
30	Mozufferpore, „ 4 „	7·09	Weather—very hot and sultry during the most part of the week; at present cloudy and more rain expected. Rain which fell on the 2nd, 3rd, and 4th seems to have been pretty general throughout the district, and has done much good to the crops, and enabled the cultivators to sow their *bhadoi*. Prices stationary. Public health fair.
	Hajipur ...	0·24	
	Sitamarhi ...	0·29	
31	Sarun, „ 4 „	1·89	Weather—oppressively hot with west wind, and very little rain until yesterday (3rd), when good rain fell. Rainfall of 3rd and 4th has been general. It has been of great benefit for the *bhadoi* sowings and to the indigo crop throughout the district, but more is still required for transplanting. A few sporadic cases of cholera, fever, and small-pox reported; public health otherwise good.
	Sewan ...	0·03	
	Gopalgunge ..	0·43	
32	Chumparun „ 4 „	5·02	Weather—cloudy and rainy. Sufficient rain has fallen and has greatly benefited *bhadoi* and *aghani* crops, and facilitated sowing of *bhadoi* and paddy. Prices stationary. A few cases of cholera and small-pox reported; public health otherwise good.
Bhagulpore Divn.			
33	Monghyr, July 4 '85	1·98	Weather—exceedingly close and oppressive for the greater part of the week; cooler for the last two days; skies overcast. *Bhadoi* sowings are rapidly being completed, and the crop promises well Sugarcane also thriving. Paddy sowings have commenced. Rivers rapidly rising. Prices steady. Public health fairly good
	Begusarai ..	0·67	
	Jamui ...	1·72	
34	Bhagulpore, „ 4 „	3·18	Prospects have much improved. Agricultural operations being carried on vigorously. Prices stationary, excepting that common rice is a little cheaper in the north than it was last week. Public health good.
	Soopole ...	0·21	
	Mudehpurah ...	2·23	
	Banka ...	2·24	
35	Purneah „ 4 „	1·52	Weather—very hot during first-half of the week, then wet and cooler. All crops doing well. Health fair.
	Kissengunge ...	0·73	
	Arrareah ...	2·79	
36	Maldah „ 4 „	6·15	Weather—seasonable; very heavy showers on the 2nd and 3rd. Prospects of all crops much improved, but more rain is still wanted. In thana Nowabgunge transplanting of winter paddy has begun. Common rice selling at from 12 to 16 seers per rupee. Public health generally good.
	Chanchal ...	6·11	
37	Sonthal Perghs. „ 4 „	3·93	Rain too much to be favourable to the *bhadoi* crops, and a spell of sunshine is now required. A good deal of cholera about here and there.
	Godda ...	2·30	
	Rajmehal ...	6·50	
	Jamtara ...	2·00	
	Pakour ...	3·07	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	ORISSA.		
38	Cuttack, July 3 '85	0·88	Weather—hot and unseasonable. The rivers have now fallen, but the floods were very high and many breaches in the embankments have been reported. The extent of injury to the crops is not yet known, as the low lands are still under water. Rain is wanted for the high lands. Sugarcane crop in Banki has almost entirely been lost by the floods. Prices are rising. Public health generally good.
39	Orissa Divn. Pooree, „ 2 „	0·79	Weather—hot and cloudy. Heavy floods have caused numerous breaches in the river embankments and roads. *Sarad* crops have been much damaged in the flooded lands. Rain is wanted for the puddling of paddy plants in places where the lands have not been flooded. Common rice selling at an average of 19 seers 11 chittacks per rupee in the Sudder sub-division, and 20 seers 8 chittacks in the Khoorda sub-division. Cholera reported from town. Telegraphic communication interrupted by the floods.
	Khoorda ...	0·29	
40	Balasore „ 3 „	1·37	Weather—hot and cloudy. More or less rain throughout the district. Agricultural operations progressing favourably. A few sporadic cases of cholera; public health generally good.
	CHOTA NAGPORE.		
	South-West Frontier Agency.		
41	Hazaribagh. July 3 '85	3·68	Weather—seasonable. General rain reported and ploughing and sowing are in progress. Cholera in the Hazaribagh jail has abated.
42	Lohardugga, „ 4 „	3·48	Weather—seasonable. Heavy rain during the week, with a three days' break in the middle of it. Ploughing and sowing being carried on actively, and so far the weather has been all that was desirable. Prices stationary. Public health good.
43	Singbhoom, „ 3 „	4·24	Weather—seasonable. Rain has fallen all over the district. Agricultural operations are being vigorously pressed on. Paddy has germinated well and sowings still continue General health good.
44	Manbhoom, „ 4 „	2·24	Weather—hot, but cloudy. Rain throughout the district has improved prospects. Ploughing and sowing going on vigorously; *amun* seedlings are up. Prices of food-grains very high. Cholera still prevalent in the district including the Purulia town.
	Govindpore ...	2·99	

Published for general information.

* Mean for five days.
† Mean for six days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical averages or means of the readings during the same hour. The *humidity* of the atmosphere is expressed as a percentage, saturated air being represented by 100. A clear sky is denoted by 0 and an overcast sky by 10. In the "observations of rainfall," the normal means are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisions from the district (*i.e.*), the total rainfall at the sub-divisional stations in the district sending in returns divided by the number of stations. A rainy

or the week ending Friday, the 3rd July 1885.

Average humidity at 10 A. M.	Average cloud amount at 10 A. M. for week.	Rainfall of week at observing stations.	DISTRICT OBSERVATIONS. RAINFALL. Of week. Mean for district.	Of week. Normal mean. Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blan If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

CALCUTTA, *the 7th July* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 3RD OF JULY 1885.

THE small cyclonic storm which had formed off the Sunderbuns during the previous week was on Friday the 26th of June at 10 A.M. to the south of Saugor Island. During the afternoon or night of this day, it advanced across the Balasore coast, and on the Saturday morning its centre was to the west of Midnapore. It again advanced in a westerly direction through the south of Chutia Nagpur, though gradually becoming more feeble, and on the Sunday, so far as can be judged by the wind directions, it still existed in the west of Chutia Nagpur, probably to the west of Ranchee. It was, however, at this time probably rapidly filling up, and it ceased to affect the meteorological conditions of the Province after this day. With the north-westerly movement of this storm a fairly strong advance of the monsoon winds took place over Bengal, and on the Saturday rain in considerable quantities fell in every district and almost at every station, except at a few in Behar. Rain was also general on the Sunday, but less general than on the previous day, and this was particularly noticeable at the stations in South Bengal and Orissa. With the advance and probably also the disappearance of this cyclonic storm on the 29th, the wind system in Bengal underwent a very considerable change, and a strong westerly current set in over the western districts, driving back the easterly and south-easterly currents which had prevailed with slight exceptions since the setting in of the south-west monsoon. These westerly winds of course brought up comparatively little moisture, and with their advance over the western districts rain to a great extent ceased, though in east and in parts of North Bengal the south-easterly and easterly winds were still blowing, and these gave showers in these districts. At the same time, however, a strong monsoon current was blowing over the centre and south of the Bay, and while the advance of the westerly winds was in progress over the western part of the Province, it was also evident that another advance of the Bay of Bengal monsoon current, bringing with it a heavy wave of rainfall, was forcing its way up the east coast of the Bay. Thus on the 29th Diamond Island received nearly seven inches of rain, and on the following day Akyab received between four and five inches also. This wave of rainfall commenced to spread itself over the province on the 1st and 2nd of July, and with its advance heavy rain fell over East and North Bengal, Behar, and Chutia Nagpur, while the rainfall in South-West Bengal and Orissa was decidedly lighter. These conditions have continued till the close of the week, and during this period a kind of contest has been going on between the south-easterly and easterly current, which has been blowing from the Bay of Bengal over East and North Bengal on the one hand, and the westerly current which has been blowing across India from the Bombay side on the other. These opposing wind currents, by their interaction, must necessarily create a certain amount of ascensional air motion, and thus rainfall has been caused which in many places was very heavy during the latter end of the week. With the disappearance of the small cyclonic storm, and with the setting in of westerly winds previous to the stronger advance of the monsoon current from the Bay, a period of comparative absence of rain set in over the Province, and there was thus a very partial break in the rains from about the 29th June to the 2nd of July, but of course the slight break was rapidly put an end to by the advance of the wave of rainfall above described.

Pressure.—The changes of pressure for the first two days of the week were mainly dependent on the formation and advance of the small cyclonic storm above mentioned. During its advance pressure fell at those stations affected by it, but with the further westerly advance a rapid rise of the barometer took place which in some instances amounted to nearly two-tenths of an inch. With the rapid rise of the barometer, which then took place, pressure became above the normal in all districts except South Behar. On the disappearance of the storm, pressure at first gave way for two days, and then a somewhat rapid rise took place for the same period, which neutralized the previous fall, and pressure became above the normal at the close of the week. On this day the excess pressure varied from 0·07″ at Cuttack to a nearly normal pressure at Chittagong. In the report for the previous week, it was stated that the average defect of pressure from the normal, was no less than 0·086″ while during the present week the variations from the normal have been comparatively small, and the average defect has been considerably less than a hundredth of an inch, so that the average pressure of the Province may be said to have been normal.

Temperature.—The changes of temperature have not been of much importance during the week, and they have of course to a considerable extent followed the distribution of rainfall. The average temperature over the whole Province has been 1·4° in excess of the normal, while during the previous week it was in defect by an almost corresponding amount.

Winds—At the commencement of the week were almost of normal direction, except in the immediate neighbourhood of the small cyclonic storm noticed above, round which very distinct cyclonic circulation of wind was noticeable. With the advance of the storm, monsoon winds of ordinary strength began to blow over the Province up to the 29th, when the westerly current advanced across Central India and began to make itself felt in the western districts of Bengal, gradually driving back the south-easterly and easterly currents from the Bay of Bengal. On the 30th of June and 1st of July the westerly current steadily gained ground, but on the 2nd and 3rd it retreated again, being forced back by the advance of the Bay of Bengal monsoon current, and on the latter day westerly winds were only reported from Chutia Nagpur and from one or two stations in West Bengal. With these opposing wind systems, wind velocities have of course been largely diminished, and at almost all stations throughout the week, except while influenced

by the small cyclonic storm, wind velocities have been comparatively small. At almost all stations therefore wind velocities have been below the normal, as is shown below by taking the numbers registered at five or six typical stations :—

Stations.	Actual daily wind velocity for week ; miles per day.	Normal wind velocity for June ; miles per day.
Chittagong	137	168
Jessore	106	119
Calcutta	123	152
Patna	90	95
Hazaribagh	202	212
Cuttack	55	95

Rainfall was fairly general over the whole Province on the 27th and 28th of June, and again at the close of the week on the 2nd and 3rd July. As has been before explained, there was a very partial break in the rains for about three days in the middle of the week. On Saturday, the 27th, the heaviest rainfalls were reported, naturally from the districts influenced by the small storm. Thus on this day Saugor Island received 3·54 inches, Satkira (Khoolna district) 2·8 inches, Hazaribagh 3·64 inches, and Ranchee 2·83 inches. Rainfall was again general on the 28th, but the amounts which fell were generally smaller in quantity, and there was a distinct tendency to cessation of rainfall in the western districts of South-West Bengal. From this day up to the 2nd of July only local showers, generally of small amounts, fell except in the hill districts, where the rainfall was more general. With the advance of the monsoon current towards East and North Bengal, as before described, rain became general over the whole of Bengal, though the largest amounts were received in the eastern and northern districts. Thus on Thursday, the 2nd, Julpigoree and Siligoree received 5 48 inches of rain, Buxar 4·5 inches, Darjeeling 4·05 inches, Maldah 3·8 inches, Bhola 3·41 inches, Naraingunge 3·34 inches and many stations amounts larger than two inches. On the Friday, the heavy rainfall advanced over Behar, and on this day Mozufferpore reported 5·2 inches, Sewan 3·26 inches, Arrah 3·2 inches, Tajpore 3·05 inches, and Sitamarhi 3 inches, while many stations received about two inches.

Rainfall has thus been received on an average of nearly four days during the week, which is about equal to the normal condition of things. East Bengal, North Bengal, Behar, and Chutia Nagpur have received a rainfall in slight excess of the normal, while South-West Bengal shows a fall decidedly smaller than the normal, and Orissa largely below the normal. The average rainfall over North Bengal has been 3·85 inches against the normal 2·96 inches or a fall equal to 130 per cent of the normal. North Behar has received 3·11 inches against 2·73 inches or 114 per cent of the normal. South Behar has received 2·71 inches against the normal 2·52 inches or a fall equal to 111 per cent. East Bengal has received 3·30 inches against the usual fall of 3·20 inches which is equal to 103 per cent. Chutia Nagpur has registered 2·96 inches against the normal 2·82 inches, which is 105 per cent of the normal. South-West Bengal has received 1·87 inches against the average amount of 2·20 inches or 89 per cent of the normal ; and finally Orissa has only received 1·53 inches against 3·54 inches which is 43 per cent of the normal quantity.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 3rd of July 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of June.		Since 15th May 1885.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, t thunder, p passing temporary showers, d drizzling rain, ≺ lightning, p dew.

ALEXANDER PEDLER.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of former years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·5 higher; and, finally, the thermometer, which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards, is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

ALEXANDER PEDLER,
For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, GOVT OF INDIA;
Calcutta, the 6th July 1885.

ALEXANDER PEDLER,
For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 6th July 1885.

MEMORANDA.

FROM the annexed table exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 20th June 1885, it appears—

1. That births and deaths were registered in these Municipalities in the proportions per 1,000 of population of 20·2 and 33·1, respectively, as opposed to 23 5 and 32·2 per 1,000 respectively, during the preceding week ending 13th June, indicating a considerable falling off in the record of births with a small increase in that of deaths.

2. That these events were recorded in the highest proportions in the following Municipalities:—

Births.	Ratio per *mille.*	*Deaths.*	Ratio per *mille.*
Chittagong	46·9	Durbhanga	159·7
Gya	41·7	Mozufferpore	42·5
Utterpara	37·8	Gya	41·1
Bhagulpore	36·2	Bhagulpore	39·8
		Purneah	38·1
		Burdwan	36·6
		Suburbs of Calcutta	30·2

3. That the mortality from the specific death-causes, mentioned in the table appended to this memoranda, compared with similar information for the preceding week, stood as follows:—

	Ratio per *mille* during the weeks ending—	
	20th June 1885.	13th June 1885.
Cholera	8·2	7·0
Small-pox	·8	·8
Fever	11·6	11·5
Bowel-complaints	4·2	4·8
Injury	·9	·5
Other causes	7·4	7·5

The only noticeable fact revealed by the above figures is that the death-rate from cholera had risen sensibly.

4. That referring to the death-causes above indicated, while bowel-complaints prevailed with normal severity in all the Municipalities (excepting in Durbhanga, where 11·8 per 1,000 of its population died from the disease), the rest proved most fatal to life in the following Municipalities:—

Cholera.	Ratio per *mille.*	*Small-pox.*	Ratio per *mille.*	*Fever.*	Ratio per *mille.*	*Injury.*	Ratio per *mille.*	*Other Diseases.*	Ratio per *mille.*
Durbhanga ...	115·6	Mozufferpore ...	4·9	Purneah ..	34·6	Chupra ...	7·8	Poori ...	18·9
Mozufferpore	6·1	Dacca ...	3·2	Burdwan ...	25 9	Gya ...	4·8	Bhagulpore ...	16·3
Bhagulpore ...	5·4							Gya ...	14·3
Patna ...	4·9							Durbhanga ...	12·6
Suburbs of Calcutta ...	3·5							Suburbs of Calcutta ...	11·2
Dacca ...	3·2								

It will be seen that cholera continued to prevail with added severity in the Durbhanga Municipality, in comparison with its incidence during the preceding week.

5. That in relation to *Sex*, *Class* and *Age*, the mortality of the week is stated to have been distributed as follows:—

According to Sex.	Ratio per *mille.*	*According to Class.*	Ratio per *mille.*	*According to Age.*	Ratio per *mille.*
Males	30·7	Christians	34·8	Under 1 year ...	258·9
Females	35·7	Hindus	34·9	1 and under 5 years ...	61·1
Ratio of male deaths to every 100 female deaths ...	97	Mahomedans ...	28·6	5 „ 10 „ ...	30·1
		Budhists	24·1	10 „ 15 „ ...	20 8
		Other classes ...	72·5	15 „ 20 „ ...	20·4
				20 „ 30 „ ...	18·8
				30 „ 40 „ ...	17·1
				40 „ 50 „ ...	18·8
				50 „ 60 „ ...	28·4
				60 years and upwards ...	75·6

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

NOTIFICATION.

The 13th July 1885.—The Lieutenant-Governor will return to the Presidency on Thursday, the 16th instant. All communications to the various departments of the Secretariat should be addressed to Calcutta till further notice.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

No. 2529A.

GENERAL.—*The 7th July* 1885.—Mr. A. P. MacDonnell, Secretary to this Government in the General and Revenue Departments, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from the 13th instant.

Baboo Kali Prosunno Sircar, Deputy Magistrate and Deputy Collector, on leave, is appointed to have charge of the Magoorah sub-division of the Jessore district, during the absence, on leave, of Baboo Peary Mohun Banerjee, or until further orders.

Mr. T. D. Moran, Deputy Magistrate and Deputy Collector, is allowed leave for six months, under section 134, chapter X of the Civil Leave Code, in extension of the leave granted to him under the order of the 20th February 1883.

The 8th July 1885.—Mr. R. T. Horsford is appointed to be a Lieutenant of the Dacca Volunteer Rifles, Mounted Company, *vice* Mr. R. S. Glover, resigned.

Moulvie Syed Mahomed, Temporary Deputy Magistrate and Deputy Collector, Maldah, is vested with the powers of a Collector under Act X of 1870 in that district.

Baboo Gour Chandra Sen is appointed to act as Tehsildar of Ungul, Cuttack, during the absence, on leave, of Baboo Narayan Chandra Naik, or until further orders.

Baboo Gour Chandra Sen is vested temporarily with the powers of a Deputy Collector.

The 10th July 1885.—Baboo Bejoy Krishna Bose, Deputy Magistrate and Deputy Collector, Rajshahye, was in charge of the Nattore sub-division of that district from the forenoon of the 12th to the afternoon of the 20th June 1885.

Mr. A. W. R. Cadell, Assistant Magistrate and Collector, Barh, Patna, is vested with the powers of a Collector under Act X of 1870 in that district.

Baboo Rajendro Chunder Ghose, Officiating Deputy Magistrate and Deputy Collector, Nowgong, Rajshahye, is vested with the powers of a Collector under Act X of 1870 in that district.

The 11th July 1885.—Mr. C. M. W. Brett, Joint-Magistrate and Deputy Collector, 24-Pergunnahs, is appointed to act as District and Sessions Judge of Chittagong, during the absence, on leave, of Mr. R. H. Greaves, or until further orders.

This cancels the order of the 22nd June last, appointing Mr. F. F. Handley to act as District and Sessions Judge of Chittagong.

The 13th July 1885.—Mr. H. H. Birch, Officiating Deputy Magistrate and Deputy Collector, Monghyr, is transferred temporarily to Darjeeling, and is posted to the sudder station of that district.

POLICE.—*The 6th July* 1885.—The order of the 1st June 1885, published in the *Calcutta Gazette* of the 3rd idem, granting privilege leave for fifteen days to Mr. J. Cowie, Officiating Assistant Superintendent of Police, Manbhoom, is cancelled.

The 13th July 1885.—Mr. A. B. Barnard, Assistant Superintendent of Police, in charge of the Gurjat Mehals Police, Cuttack, is appointed to have charge of the district police, Balasore, during the absence, on leave, of Mr. G. W. S. Cox, or until further orders, with effect from the date on which he joined his appointment.

This cancels the order of the 8th June 1885, appointing Baboo Gopal Hari Mullick to have charge of the district police of Balasore.

REGISTRATION.—*The 6th July* 1885.—Baboo Peary Mohun Sircar, Rural Sub-Registrar of Jagatbullubpore, in the district of Howrah, is appointed to be Rural Sub-Registrar of Ampta in the same district.

Baboo Dwarka Nath Ghosal, Officiating Rural Sub-Registrar of Ampta, is appointed to be Officiating Rural Sub-Registrar of Jagatbullubpore.

The 12th July 1885.—Mr. F. F. Handley, First Inspector of Registration Offices, is allowed leave for two months and thirteen days, under section 72, chapter V of the Civil Leave Code, with effect from such date as he availed himself of it.

The 14th July 1885.—The orders of the 24th January last, granting Pandit Dabee Prasad, Special Sub-Registrar of Chupra, privilege leave for seven weeks, and appointing Baboo Rajendra Nath Roy, Deputy Magistrate and Deputy Collector, Sarun, to act as Special Sub-Registrar of Chupra in addition to his own duties, are cancelled.

EDUCATION.—*The 9th July* 1885.—Mr. S. C. Hill, Professor in the Dacca College is appointed to act as Inspector of Schools of the Eastern Circle, during the absence, on leave, of Dr. C. A. Martin, or until further orders.

The 11th July 1885.—The following gentlemen are appointed to be additional members of the District School Committee of Darjeeling :—

The Senior Deputy Magistrate, *Ex-officio.*
Baboo Chunder Kanta Pyne, Pleader.
„ Chhatra Dhar Ghose.
„ Gopal Lall Banerjee, District Engineer.
Mr. D. Sutherland, Barrister-at-Law.

Baboo Mohendro Nath Banerjee, B.L., Government Pleader, Darjeeling, is appointed to be Secretary to the above committee, *vice* Mr. F. B. Taylor.

The 13th July 1885.—The Reverend Lal Behari Day, Professor, Hooghly College, is appointed temporarily to class III of the Bengal Educational Service, with effect from the 5th May 1884, *vice* Dr. G. Watt, on deputation.

Mr. G. A. Stack, Temporary Professor, Presidency College, acted in class III of the Bengal Educational Service, from the 5th May to the 5th October 1884, inclusive, *vice* Mr. A. Pedler, who acted in class II for that period.

Mr. A. Pedler, Professor, Presidency College, and Officiating Meteorological Reporter to Government, acted in class II of the Bengal Educational Service, from the 8th November 1884 to the 7th February 1885, *vice* Dr. C. A. Martin, on privilege leave.

Mr. Pedler will continue to act, until further orders, in class II, from the 8th February 1885, *vice* Mr. J. Eliot, on furlough.

Mr. W. Booth, Principal, Dacca College, is appointed to act in class III of the Bengal Educational Service, with effect from the 8th November 1884, *vice* Mr. A. Pedler.

Mr. G. Bellett, Inspector of Schools, Rajshahye Circle, is appointed to act in class I of the Bengal Educational Service, with effect from the 8th March 1885, *vice* Mr. C. H. Tawney, appointed to act as Director of Public Instruction.

Mr. R. Parry, Professor, Patna College, acted in class II of the Bengal Educational Service, from the 12th December 1884 to the 7th February 1885, *vice* Mr. J. Eliot, on furlough.

Mr. Parry is also appointed to act, until further orders, in class II, from the 8th March 1885, *vice* Mr. G. Bellett.

Mr. G. A. Stack, Temporary Professor, Presidency College, acted in class III of the Bengal Educational Service, from the 12th December 1884 to the 7th February 1885, *vice* Mr. R. Parry.

Mr. Stack is also appointed to act, until further orders, in class III, from the 8th March 1885, *vice* Mr. Parry.

Mr. J. H. Gilliland, Professor, Engineering College, Howrah, is appointed to act, until further orders, in class III of the Bengal Educational Service, from the 15th March 1885, *vice* Mr. J. Willson, on furlough.

Baboo Radhika Prasanna Mookerjee, Officiating Inspector of Schools, Presidency Circle, is appointed to act, until further orders, in class IV of the Bengal Educational Service, with effect from the 29th December 1884.

Mr. J. H. Gilliland, Professor, Engineering College, Howrah, acted in class III of the Bengal Educational Service, from the 24th January to the 23rd April 1884, inclusive, *vice* Pundit Mohes Chandra Nyayaratna, on privilege leave.

OPIUM.—*The 13th July* 1885.—Mr. H. F. Campbell, Sub-Deputy Opium Agent, reported his departure from India, on furlough, on the 21st March last.

The 14th July 1885.—Mr. W. H. T. Howey, an Assistant Sub-Deputy Opium Agent, attached to the Benares Agency, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from the 10th instant.

MEDICAL.—*The 9th July* 1885.—Surgeon-Major J. F. P. McConnell, Civil Surgeon, 24-Pergunnahs, is appointed to act as Professor of Materia Medica and Clinical Medicine, Medical College, Calcutta, during the absence, on furlough, of Dr. R. C. Chandra, or until further orders.

Dr. McConnell is also appointed to act, until further orders, as Medical Inspector of Emigrants (Inland and Colonial Emigration), with effect from the date on which he took charge of those duties.

Surgeon-Major H. B. Purves, Civil Surgeon of Burdwan, is appointed to act as Civil Surgeon of the 24-Pergunnahs, during the absence, on deputation, of Surgeon-Major J. F. P. McConnell, or until further orders.

PORT OFFICE, *Calcutta, the 4th July* 1885.

[Second Publication.]

NOTIFICATION.

The 3rd July 1885.—In exercise of the powers conferred upon him by section 19 of the Indian Forest Act, VII of 1878, the Lieutenant-Governor hereby declares the lands described below (which, on the 19th June 1883, were notified as proposed reserves) to be reserved forests with effect from the 1st September 1885.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Banpūr range, Arang block.	*North.*—From the Sália river at the boundary between Khorda and Killah Ranpūr eastward following the demarcated and revenue survey boundary on Ranpūr of mouzahs Kūnda-Khái and Dhūánali to the triple junction of Dhūánali and Sandhamál in Khorda with Killah Ranpúr. *East.*—Thence along the eastern survey boundary of Dhūánali to the triple junction of the mouzahs Sandhamál, Parmúl and Dhūánali. *South.*—Thence along the south-eastern demarcated and surveyed boundary of Dhūánali and Aráng on mouzahs Barmūl, Patrapūr, Barsereipūr and Berūáñbári of Sima Champájhar to the Bhibhūtiá Ghát. *West.*—From the triple junction pillar of Jūáliá-ámbo, Aráng and Berūáñbári following the Bhibhūtiá Ghát and surveyed and mapped boundary between Aráng, Jūáliá-ámbo and Kiágorará to the foot of the hills, east of the Kiágorará village; thence in an easterly direction skirting the Aráng and Dhūánali valley along the base of the hills; thence along the northern limits of the valley and the base of the hills to the road from Dhūánali to Kūndá Khái, about half a mile north of the Dhūánali village; thence northward along the said road to the demarcated and surveyed boundary line between Aráng and Náthpūr; thence along the said road to the Sália river; thence following the Sália river up to the starting point.
Pooree ...	Khorda ...	Banpūr range, Támná block.	*North west.*—From the triple junction pillar of Ankūla, Baldiábhiri and Báhárápūt along the north-western demarcated and revenue surveyed boundaries of mouzahs Báhárápūt, Bárikatá, Krūshnatará, Dūmdūmi and Sílingpará of the Bara mal to the Támná Hill Great Trigonometrical Survey hill mark on the boundary of Killah Nayágarh; thence along the demarcated and surveyed boundary between Sílingpara and Kūndá Khái in Khorda on Killahs Nayágarh and Ranpūr to the Sália river. *East and South.*—The Sália river and Aráng block to where the road from Dhūánali to Kūndá Khái crosses the river; thence due west to the nala at the foot of the Sílingpará and Náthpur Hill, south of the village of Sílingpará; thence following the nala and skirting the cultivated lands of Sílingpará to the base of the Támná range of hills; thence west along the base of the said hills and excluding the Sílingpará cultivation to the nala west of Sílingpara village; thence south to the triple junction pillar of Náthpūr, Sílingpara and Dūmdūmi; thence following the demarcated and surveyed eastern boundary of Dūmdūmi on Náthpūr and Aráng to the triple junction pillar of those villages with Ráipará; thence along the southern surveyed boundary of Dūmdūmi to the triple junction pillar with Ráipará and Niladriprasád; thence following the demarcated and surveyed boundary between Dūmdūmi and Niladriprasád to the triple junction pillar of those villages with Krūshnatará; thence to the triple junction pillar of Krūshnatará, Niladriprasád and Katūripata; thence skirting to the north of the new village of Krūshnatará to the triple junction pillar of Krūshnatará, Katūripatá and Jiripará; thence along a demarcated line in a south-westerly direction skirting the north of the cultivated lands of Jiripará to a survey station on the boundary between Jiripará and Phásipará; thence skirting to the north of the cultivated lands and village of Phásipará to another survey station between Phásipará and Báhárápūt; thence along a demarcated line west for 20 chains, then south for 60 chains to the main cart road from Bhátpará to Niladriprasád; thence following the cart road to the Patharā Nadi, and for about 20 chains south where the road from Ankūlá meets the road from Bhátpará; thence along the said road to the starting point.

DISTRICT.	Perganah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Banpūr range, Katūál block.	*North.*—From the triple junction pillar of Baldiábhiri, Núágáôn and Katūál along the demarcated and surveyed boundary of Katūál to the road from Núágáôn to the Birijai Thákūráni's temple. *East.*—Thence along the said road past the said temple to where the road meets the Thárіápali and Katūál boundary; thence following the demarcated and surveyed boundary of Katūál on Kháriápali and Bighnapūt to the junction pillar of Katūál Bighnapūt, Bánkiápalá and Tálbarohi. *South.*—From the said junction pillar westward following the southern demarcated and surveyed boundary of Katūál on Tálbarohi, Sán Núágáô and Bhátpará to the triple junction pillar with Bhūjiá-barbará. *West.*—Thence along the western demarcated and surveyed boundary of Katūál on Bhūjiá-barbará and Baldiábhiri to the starting point.
Pooree ...	Khorda ...	Banpūr range, Bankár block, late Bamdebpur block.	*North.* From the Salia river, where the Niladriprasád and Raipara cart road crosses it, along a demarcated line following the northern base of the Bankár Hills to a small nala close to the village of Raipará; thence along a demarcated line following the base of the Bankár Hills through Raipará, Bháliápará, *Jūdliambá* and skirting the cultivation of those villages to the Bhibutia Ghati at the point on the Jūlia-amba and Sán-Sereipūr road where that road crosses the demarcated and surveyed boundary between Aráng and Bankár Garh. *East.*—Thence to the triple junction pillar of Aráng, Bankár Garh and Bérūáñbári; thence southward to the triple junction pillar of mouzahs Trilochanpūr and Sán-Sereipūr of Sima Champájhar and Bankár Garh of the Aráng mal, following the demarcated and surveyed boundaries of those mouzahs. *South.*—From the above-named triple junction between Trilochanpūr and Sán-Sereipūr and Bankár Garh, following the demarcated boundary of Sán-Sereipūr to the triple junction of Sán-Sereipūr, Bankárpali and Bankár Garh; thence following the Bankár Nala and road across the Bankár pass to the Pankiá Nala in Naiápali. *West.*—From the Pankiá Nala along a demarcated line following the base of the hills to the north of the Rigirisimah village to the Salia river; thence along that river and the base of the Bankár Hill to where the Niládriprasád and Raipara cart road crosses the river.
Pooree ...	Khorda ...	Kūhūri range, Kūhūri block.	*North.*—From the junction of a nala in mouzah Goripara with the Kusmi river on the boundary of Killah Ranpūr to the east, following that river to the triple junction of Kandgáriá, Goripará and killah Ránpúr; thence south along the demarcated boundary between Kandgáriá and Goripará to a permanently marked survey station; thence eastward through Kandgáriá passing to the north of the Boitá Hill and skirting the cultivated and settled lands of Kandgáriá to a survey station on the boundary between Jaritáp and Kandgáriá; thence eastward passing to the north of a little hill to another survey station on the b undary between Tútambarpali and Jaritáp. *East.*—Thence southward along a demarcated line following the revenue survey boundary between Tútambarpali and Jaritáp past the triple junction of those mouzahs with Talgarh Kuhuri to a forest boundary pillar about 6 chains to the south of the said triple junction; thence west for 15 chains to the revenue survey boundary between Talgarh Kúhúri and Mahujhar; thence along a demarcated line leaving the Mahujhar boundary to the east to the triple junction pillar of Talgarh Kúhúri, Digitpará and Mahujhar, thence along the revenue survey boundary between Digitpará and Mahujhar to the junction pillar of those mouzahs with Brúshaband and Ariápara. *South.*—From the abovenamed junction pillar westward for 50 chains along the revenue survey boundary between Ariápará and Mahujhar; thence nearly due west for about 48 chains to where the cart road crosses the revenue survey boundary of Ariápará and Kūnjari; thence north-east following the cart track and skirting to the east of the cultivated lands of Kūnjari to the triple junction pillar of Mahujhar, Kūnjari and Goripará.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Kuhuri Range Kuhuri block.	*West.*—From the last named triple junction pillar northward following the revenue survey boundary between Mahujhar and Goripará for about 27 chains; thence along a demarcated line skirting the cultivated lands and village site of Mahujhar east and north to the cart road from Kandgariá to Goripará; thence along a demarcated line north of the Goripará village and orchard and south of the little hill near the village to the cart road; thence north-west skirting the Goripará cultivated lands to the starting point on the Kusmi river.
Ditto ...	Ditto ...	Ditto ditto, Sulia block.	*North.*—From the survey boundary pillar between the Khumlá mal in Banpūr and killah Ranpur near the cart road from Khumla to Patia in Ranpur eastward following the revenue survey demarcated, surveyed and mapped boundary of Khumlá and Raipará in Banpar on killah Ranpūr to the triple junction pillar of Raipará zillah Banpur, Mundila, zillah Kūhūri, and Killah Ranpūr. *North-East.*—From the triple junction of Raipará, Mundila and killah Ranpūr along a demarcated line running south-east following the cart road to the south of the Mundila Tank No. 367 on the cadastral map of Mundila; thence continuing south-east along the said cart road to the cultivated lands Nos. 316-317, &c., of Mundila; thence skirting the said lands to the Revenue survey boundary between Mundila and Suliapali; thence along the said boundary to the triple junction pillar of Mundila, Dhoba, Dhobani, and Suliapali; thence along the survey boundary between Mundila and Dhoba Dhobani back to the cart road; thence eastward along a demarcated line following the said cart road to the survey boundary between Dhoba Dhobani and Harindihi; thence skirting the cultivated lands of Harindihi back to the said cart road; thence south-eastward following the cart road to the triple junction pillar of Harindihi; Khairpali and Moramari; thence from the said triple junction pillar along a demarcated line skirting to the south of the cultivated lands of Moramari to the Gorarajhari cart road; thence north to the triple junction pillar of Khairpali, Moramari and Gorarajhari; thence along a demarcated line through Kairpali to the triple junction pillar of Khairpali, Kunjari and Malakdia; thence skirting to the east of the hills excluding the Kunjari and Malakdia village and cultivation along the eastern margin of the Nakoi Bundh to the junction pillar of Akaspali, Belpará, Malakdiá and Gorarajhari; thence southward along a demarcated line skirting to the west and south of the Belpará cultivation to the junction of the two nalas; thence along a demarcated line skirting to the east of the Belpará cultivation to the cart road south of the triple junction of Akáspali, Belpará and Jaimangalpur; thence following the cart road and excluding the settled lands of Jaimangalpur to a forest boundary pillar at the triple junction of fields Nos. 961, 962, and 699 of Jaimangalpur. *South.*—From the said Forest Boundary pillar along a demarcated line following the base of the Kochila hill to the triple junction pillar of Jaimangalpur, Belpara, and Jariput; thence along a demarcated line skirting to the north, west, and south of the cultivated lands of Jariput back to the boundary between Jariput and Jaimangalpūr about 16 chains south of the above triple junction near the Kūápará nala; thence along the said boundary for 6½ chains; thence westwards across Jariput following a demarcated line to the boundary between Jariput and Gorarajhari north of field, No. 28 on the cadastral map of Jariput; thence along the said boundary between Jariput and Gorarájhari to the triple junction of Jariput, Belpará and Gorarájhari; thence westward and northward along a demarcated line, to the Akáspali and Gorarájhari cart road; thence along the said cart road excluding orchard No. 58 of the map of Gorarajhari to the Malakdiá boundary and western margin of the Nakoi Bundh; thence along the survey boundary between Gorarajhari and Malakdia to a survey station at north-west end of the bundh; thence southward and westward along a demarcated line following the base of the

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			Dūmdūmi hill to the north of the Gorarájhari Malua village and paddy cultivation to the cart road from Gorarájhari to Khairpali; thence skirting to the north of the Gorarájhari cultivation to the boundary of that village with Kandhámbajhar; thence along a demarcated line through Khandhámbajhar to the south west base of the Kasa-ambo hill in Moramari; thence along a demarcated line through Moramari to the north of the cultivated lands to the Sulia nala; thence westward along a demarcated line to the triple junction pillar of mouzahs Manái, Gamái, and Raipará; thence along the boundary between the Raipará and Manái to a forest boundary pillar on the Ajgur nala, 25 chains west of the said triple junction. *West.*—From the said forest boundary pillar northward following the survey boundary of Raipará on Manái to the junction pillar of Raipará, Manái, Dinabandhūpūr, and Khumlá mál; thence following the survey boundary and Áská nala, north for 33 chains to a forest boundary pillar; thence westward along the base of the hills along a demarcated line for about 35 chains to the cart road leading into Ranpur; thence north along the said cart road for about 42 chains to the starting point on the boundary of Ranpūr.
Pooree. ...	Khord ...	Khorda range, Panchgarh block.	*North.*—From a Forest boundary pillar on the surveyed and maped boundary between Khairpali and Khothpali, eastward along a demarcated line between the base of the hills and Bará Bundh, then skirting the cultivated lands of Kūspala to another forest boundary pillar at a survey station on the boundary between Khairpali and Kūspala; thence along a demarcated line eastward to the margin of the cultivated field 1946—1978, &c., of Kūspala; thence skirting to the south of the cultivation to a forest boundary pillar about two chains east of field No. 1176 on the cadastral map of Kūspala; thence along a demarcated line northwards skirting between the hills and the cultivation to the Balai nala on the boundary between Kūspala and Pankálsáhi; thence along a demarcated line eastward to a boundary pillar near the south-east corner of mango orchard No. 140—908; thence northward to a pillar on the cart road from Pankálsáhi; thence following the said road and skirting the cultivation along a demarcated line to the south-east corner of field No. 900—917; thence along a demarcated line southward including mango orchard No. 899 to a forest boundary pillar on the surveyed boundary between Pankálsáhi and Mardábári on the southern margin of plot No. 2077; thence eastward along a demarcated line to a forest boundary pillar on the Bálibaniá nala; thence southward along a demarcated line skirting field No. 2083 and orchard No. 2466 to a boundary pillar in orchard No. 2475 near the head of the Khandia nala; thence along a demarcated line to a boundary pillar on the outer boundary of mouzah Mardábari, zillah Manikágorá, killah Khordá, on killah Ranpūr. *East.*—Thence southward along the demarcated surveyed and mapped boundary of killah Khorda on killah Ranpūr to the crest of the Nipániá Range; thence following the said boundary to the Nipániá Peak; thence following the crest of the Nipániá and Dadhináúti range along the said boundary to a survey station; thence nearly south to the Sathbháiá G. T. S. H. M., the triple junction of killah Ranpūr, Nayagarh, and Khorda. *South.*—Thence westward along the demarcated, surveyed and mapped boundary on Nayagarh along the crest of the Sáthbháiá, Santangar, and Gothmará ranges to the crest of the Gothmará hill. *West.*—From the boundary pillar on the said Gothmará hill along the demarcated, surveyed and mapped boundary of Khairpali on killah Nayagarh to the triple junction pillar of Khairpali, Kothpala and killah Noyagarh; thence following the surveyed and mapped boundary between Khairpali and Kothpalá northward to the starting point.

NOTIFICATION.

The 27th June 1885.—The following Notice to Mariners is published for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 38.)

AUSTRALIA—SOUTH COAST.

VICTORIA.

Removal of facilities for the Navigation of Port Philip in case of war.

WITH reference to Notice to Mariners, No. 27, dated the 22nd May 1885, issued from this Department, the Government of India has received further notice from the Hon'ble the Premier of Victoria regarding the probable restriction of the existing facilities for the navigation of Port Philip.

Masters of vessels and others are hereby informed that it may be necessary for the safety of the port and the protection of life and property to, at any moment, remove the facilities now afforded for the safe navigation of Port Philip.

As a warning that such steps have been taken, and that no vessels will be permitted to enter Port Philip Heads between sunset and sunrise, the *Points Lonsdale* and *Queenscliffe* high and low lights will be *extinguished*.

The master or pilot of any vessel entering Port Philip Heads between sunrise and sunset will be informed by the officer stationed at Queenscliffe whether he may proceed through the channel, or whether he must be piloted by a duly licensed pilot specially instructed. Immediately after the foregoing lights have been extinguished, the following action will be taken.

The lights in the South and West Channels will also be extinguished.

BUOYS.

The present system of buoyage in the South, West, and Cole's channels will be either entirely *removed* or *displaced*, rendering the navigation therein dangerous, excepting to duly licensed pilots specially instructed, who alone will be advised of existing dangers, and of the guiding marks which will, from time to time, be established for the purpose of facilitating the safe navigation of such channels during *daylight*.

PILOTAGE.

Vessels are prohibited from entering Port Philip Heads between sunset and sunrise.

No vessels will be permitted to enter Port Philip Heads between sunset and sunrise. The pilot schooner will be withdrawn from the outside station from sunset to sunrise, but provision will be made for cruizing outside and piloting vessels between sunrise and sunset only.

CAUTION—ELECTRIC LIGHTS.

At the present juncture the Defence Department may at any time exhibit one or more electric lights from the vicinities of Queenscliffe and Point Nepean. Such lights will be at least 60 feet below any of the present lights, and must not be taken as guiding lights, as they will be dangerously misleading for navigating purposes, their object being a means of guarding the entrance to Port Philip.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 25th June* 1885.

[Third Publication.]

ERRATUM.

The 29th June 1885.—In schedule B appended to the rules made by the Lieutenant-Governor under the Inland Emigration Act, I of 1882, published in Part I of the *Calcutta Gazette* of the 2nd January 1884, page 48, the following correction should be made in the columns "Daily allowance to each emigrant of and above ten years of age" and "Daily allowance to each emigrant between two and ten years of age," viz. against the item "chillies" in the first column named, *for* "$\frac{1}{4}$ chittack" *read* "$\frac{1}{16}$ chittack," and in the second column named, *for* "$\frac{1}{8}$ chittack" *read* "$\frac{1}{32}$ chittack."

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 23rd June 1885.—In exercise of the powers conferred upon him by section 19 of the Indian Forest Act (Act VII of 1878), the Lieutenant-Governor hereby declares the lands described below (which, on the 19th June 1883, were notified as proposed reserves) to be reserved forests with effect from the 1st September 1885 :—

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Dandimal range, Churang block.	*North.*—The revenue survey demarcated and mapped boundary of mouzah Bhálunká and Churang of Khorda, and mouzahs Ratagarh and Chandi in Cuttack, from Datungohiri, on east bank of the Patia jhil, to the point where the said boundary line meets the old fort wall called Sanpokharia Kanthi, near Chandi; thence across the old fort in a south-easterly direction, leaving out the Bara tank cultivation of mouzah Churang and fort walls near the Chandi village, and passing through the Pani Duar of the said fort to the north-east corner of field No. 38 of Churang. *East.*—The revenue survey map boundary of mouzah Churang, killah Khorda, district Pooree, and of district Cuttack, from a point on the said boundary at the north-east corner of field No. 38 of the cadastral map of mouzah Churang, near the Pani Duar, to the triple junction pillar of mouzah Churang in Khorda, with mouzahs Chandi and killah Sarangarh in Cuttack, leaving out field No. 40 of the Churang map; thence by a demarcated line westward, skirting the cultivated lands of Churang and the Churang jhil, to the boundary of Churang and mouzah Bhálunká at the northern corner of field No. 7 of the Churang cadastral survey map; thence skirting to the north of field No. 420 of the cadastral map of mouzah Bhálunká to survey station B on the boundary of Churang and Bhálunká; thence west skirting fields Nos. 419 and 418-426 of the Bhálunká map; thence east to survey station C on the boundary of Bhálunká and Churang; thence following the survey boundary of Bhálunká and Churang to the triple junction pillar of those mouzahs with mouzah Krushnanagar; thence south-eastwards in a straight demarcated line, leaving out fields Nos. 124, 126 and 128 of mouzah Churang, with the Churang jhil and other cultivation; thence east along the base of the Churang fort walls, leaving out fields Nos. 149 and 152 of Churang; thence in a north-easterly direction skirting Churang fields Nos. 144, 145 and 146, and following the southern limits of fields Nos. 97 and 96-174, as entered on the cadastral map of Churang, to the old fort wall at base of the Rajgiri hill; thence south-east skirting and leaving out fields Nos. 76, 78, 79, 80 and 87 of Churang to a pillar on the revenue survey boundary between Churang and killah Sarangarh in Cuttack; thence following the said revenue survey boundary to the Cuttack and Ganjam Trunk road. *South.*—A demarcated line following the north side of the Cuttack and Ganjam trunk road from the point where it intersects the Khorda and Cuttack boundary, to a pillar at about 16 chains to the eastward of the triple junction pillar of mouzahs Churang, Jujagarh and Krushnanagar; thence a demarcated line going in a north-westerly direction to a point near the base of the Baruni hill on the surveyed and demarcated boundary between Churang and Krushnanagar, about 40 chains distant from the said triple junction pillar; thence westward along a demarcated line to the village road from Krushnanagar in Khorda to Ratagarh and Lenkasahi in Cuttack. *West.*—A demarcated line following the eastern side of the Krushnanagar, Ratagarh and Lenkasahi village road to the outer boundary of Khorda and Ratagarh in Cuttack at the Datungohiri on the east bank of the Patia jhil, leaving out the cultivation of mouzah Bhalunka and the Patia bandh to the west.
Ditto ...	Ditto ...	Dandimal range, Chandka block.	*North.*—From a survey station, one chain north of the nala at the re-entrant angle of the boundary of killah Motri, north-westward, following the revenue survey map boundary between Bhalunka and killah Motri in Cuttack to the survey station 12F on the said outer boundary; thence along a zigzag demarcated line following the pillars erected by order of the

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree—*contd.*	Khorda—*contd.*	Dandimal range, Chandka block—*concld.*	Subordinate Judge of Cuttack to No. 2 of those pillars at the south-west base of Makarjoria *alias* Sikhobari hill; thence along a demarcated line south-west to the east corner of field No. 512 of the cadastral map of mouzah Bhuasuni; thence west to the base of Hati-tope hill, leaving fields Nos. 509—1110 and 510 out of the reserve; thence north-west along the base of the Hati-tope hill to No. 1 pillar, erected by order of the Subordinate Judge, leaving field No. 503 of the Bhuasuni map out of the reserve; thence west to the surveyed boundary between Bhuasuni and Tulsadei; thence along the surveyed and mapped boundary to the triple junction 12K on the boundary with Dompara in Cuttack; thence along the said survey and map boundary of Tulsadei and Chandka over the Loda and Nikhraj hills, and along the crest of the Tulsadei hills to the triple junction 13E of mouzahs Chandka and Similipatna in Khorda, and killah Dompara in Cuttack. *North-west.*—Following the revenue survey and map boundary pillars between mouzahs Similipatna, Aulapatna, Dalua and Bhola in killah Khorda and killah Dompara in Cuttack, to the triple junction 14C of Bhola and Kantabar in Khorda, and killah Dompara. *South-west.*—A demarcated line following the survey and map boundary between mouzahs Bhola and Kantabar of Khorda to the Kochilabar nala, where the boundary crosses. *South-east.*—From the Kochilabar nala along a demarcated line over the eastern spur of the Bhalumundia; thence northward to the cart road, leading to the Guali fort, as far as the Garbhanga nala; thence skirting the south-western slope of the Jakrámál hills to a pillar on the road to Datuá; thence along a demarcated line generally northward, including the Jakrámál hills, Mahanimba and small hills, to the Similipatna and Aulapatna boundary; thence north by a demarcated line to the Kendujhar nala along the western margin of Pitáária tank; thence eastward along a demarcated line to the boundary of Tulsadei and Chandka south-west of the Bara Loda hill; thence eastward, including the Rangamati hill to the south-east end thereof; thence north-east along a demarcated line to station M, on the survey boundary between Krushnanagar and Bhuasuni, and thence to a survey station in No. 286 of the cadastral map of mouzah Bhalunka, on the boundary between Bhalunka and Krushnanagar; thence northward along a demarcated straight line to the survey station at the re-entrant angle of the boundary of killah Motri, about one chain north of the Dudhia nala.
Ditto ...	Ditto ...	Dandimal range, Barhapita block, No. 1.	*North-east.*—The Chandka block, south-western boundary. *South-east.*—From a point on the Kochilabar nala (where the Chandka block boundary crosses), a demarcated line going nearly south to the east corner of field No. 186 entered on sheet No. 16 of the cadastral map of mouzah Kantabar; thence west to the south-east end of Jantaria hills, then crossing the Jhumká nala to the eastern limit of the Raikhola hill in Kantabar; thence skirting the southern base of the hill north of the village of Manai westward to Rangamati hill; then south-west to the north-western corner of field No. 361 entered on the cadastral map sheet No. 5 of Bhagabatipur; thence skirting the cultivation of mouzah Bhagabatipur to the north and crossing the Guriakhia nala to the western boundary of field No. 48 entered on the Bhagabatipur map sheet No. 4; thence south crossing the revenue survey boundary of Bhagabatipur and Barhapita to the Dehrach nala, about five chains north of the Dehrach Thakurani's temple; thence crossing the nala to the base of the Barhapita hill; thence along the south-eastern margin of the said hill to where the cart road crosses the boundary between Harirámárá and Barhapita, north of Nanda Sahu's house; thence skirting the cultivation to the head of the Kalajhar nala in Harirámárá near the junction of the roads from Barhapita and Jamjhari to Dompara; thence in a south-westerly direction skirting the base of the hills to the triple junction pillar of Kadamjhar, Harirámárá and Jamjhari.

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree—*concld.*	Khorda—*concld.*	Dandimal range, Barhapita block No. 1.—*concld.*	*South.*—From the triple junction of Harirámárá, Jamjhari and Kadamjhar north along the survey boundary between Harirámárá and Kadamjhar to the cart road called Ambūthani Bato; then northward along the said cart road till it meets the said survey boundary again; thence along the said survey boundary and cart road across the nala from the Ambilá pokhari to where the Kadamjhar and Harirámárá boundary cuts the cart road from Koduamundá and Angárpará; thence south-west along the said cart road to the western boundary of Kadamjhar, north of the Ambila tank; thence along the said cart road in a south-westerly direction till it meets the road from Majáná near the junction of Fakirpara and Koduamundá; thence in a south-westerly direction to the triple junction of Koduamundá, Fakirpará and Minchinpatna, taking the cart road as the boundary; thence following the southern survey boundary of Fakirpará to the triple junction of the said mouzah with the Majana and Bantal. *North-west.*—From the triple junction of Fakirpará, Majana and Bantal north along the western boundary of Fakirpará to the triple junction pillar between Fakirpará and Tarkai in Khorda, and killah Dompara in Cuttack; thence along the revenue survey and map boundary between killahs Khorda and Dompara to the starting point.
Ditto ...	Ditto ...	Dandimal range, Barhapita block, No 2, *alias* Tarkai block.	*North.*—From the triple junction of Haldia, Tarkai and Dompara along the revenue survey and map boundary between Tarkai and Dompara to the triple junction of killah Dompara with mouzahs Fakirpará and Tarkai in Khorda, skirting and leaving out the arable and orchard lands and math of Bharath Rantra and Bhaskar Das on the Dompara boundary. *East.*—From the triple junction of killah Dompara with mouzahs Fakirpará and Tarkai in Khorda, south to the triple junction of mouzahs Fakirpará, Majana and Bantal. *South.*—From the triple junction of Fakirpará, Majana and Bantal, along a demarcated line in a westerly direction to the north of the Panasjhar springs; thence skirting the Tarkai hills to the triple junction of mouzahs Tarkai, Baghaitangi and Haldia. *North-west.*—From the triple junction of Tarkai, Baghaitangi and Haldia along the boundary between Tarkai and Haldia to the triple junction of Haldia, Tarkai and Dompara.
Ditto ...	Ditto ...	Khorda range, Barunai hill block.	*North.*—From the meeting of two roads at the boundary between Totapara and Khorda, a demarcated line following the base of the Barunai hills along the southern survey boundary of mouzah Jemadei, excluding orchard Nos. 1183—1239, as entered on the cadastral map of mouzah Khorda, to the triple junction of mouzahs Khorda, Jemadei and Makundaprasad; thence along a demarcated line, excluding the Barunai Mata's math and orchard and the Barunai Thakurani's temple and orchards, to the triple junction of mouzahs Khorda, Makundaprasad and Belpara; thence along the revenue survey southern boundary of mouzah Belpara to the Kholaduar wall. *East.*—From the Kholaduar wall along the revenue survey boundary of mouzah Kholaduar to the triple junction survey pillar of mouzahs Khorda, Kholaduar and Porapara. *South.*—From the triple junction survey pillar of mouzahs Khorda, Kholaduar and Porapara along the northern boundaries of Porapara, Harirámárá, Brahmapur and Sialiapatna to the triple junction of Sialiapatna, Totapara and Khorda. *West.*—From the triple junction of Sialiapatna, Totapara and Khorda along the Pullahghati, following the boundary between Totapara and Khorda to the junction of the two roads mentioned in the north boundary.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

DECLARATION.

The 9th July 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Dacca Municipality for a public purpose, viz. for opening a cartway to a ditch at Patlakhan's Lane, in the town of Dacca, pergunnah Jahangirnagore, district Dacca, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5¼ chittacks of standard measurement is required. The land is bounded on the north by the brick-built house of Basi Babu; on the south by the brick-built house of Hari Mohan Baboo; on the east by the ditch, and on the west by Patlakhan's bye-lane.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

JUDICIAL DEPARTMENT.

No. 2530A.

The 6th July 1885.—Baboo Manmotho Nath Chatterjee, B.L., is appointed to act as a Munsif in the district of Rajshahye, to be ordinarily stationed at Nattore, during the absence, on leave, of Baboo Poorno Chunder Mitter, or until further orders.

Baboo Mohesh Chunder Sen, Deputy Magistrate and Deputy Collector, Maldah, is vested with powers under sections 133, 186 and 524 of the Code of Criminal Procedure.

Moulvie Syed Mahomed, Temporary Deputy Magistrate and Deputy Collector, Maldah, is vested with powers under sections 110, 133 and 524 of the Code of Criminal Procedure.

The 7th July 1885.—Baboo Abinash Chunder Mitter, Second Subordinate Judge of Tirhoot, is allowed leave for one month, under rule 1, section 73, chapter V of the Civil Leave Code, with effect from such date as he may avail himself of it.

Baboo Nil Madhub Banerjee, Munsif of Durbhunga, is appointed to act as Subordinate Judge of Tirhoot, during the absence, on leave, of Baboo Abinash Chunder Mitter, or until further orders.

Baboo Promotho Nath Chatterjee will continue to act as Munsif of Durbhunga, during the absence, on deputation, of Baboo Nil Madhub Banerjee, or until further orders.

The 8th July 1885.—Baboo Protap Narain Sing, Deputy Magistrate and Deputy Collector, Bankoora, is vested with the power to try summarily the offences mentioned in section 260 of the Code of Criminal Procedure.

Baboo Gour Chandra Sen, Officiating Tehsildar of Ungul, Cuttack, is vested temporarily with the powers of a Magistrate of the second class and of a Munsif.

The 10th July 1885.—Mr. S. J. Manook, Medical Officer and Sub-Assistant Commissioner, Singbhoom, is vested with the powers of a Magistrate of the first class.

The 11th July 1885.—Mr. W. Teunon, Assistant Magistrate and Collector, Rungpore, is appointed to act as a Justice of the Peace within the territories under the Lieutenant-Governor's control.

The 13th July 1885.—Baboo Ramgopal Chaki, Officiating Subordinate Judge and Small Cause Court Judge of Moorshedabad, is appointed temporarily to be Subordinate Judge of Noakholly, with effect from the date on which he joined his appointment.

First Division.

Reginald Digby Connell, LaMartiniere College, Lucknow.
Kali Kumar Roy, Presidency College, Calcutta.

CHARLES H. TAWNEY, *Offg. Director of Public Instruction.*

DARJEELING, *the 24th June* 1885.

NOTIFICATIONS OF THE BOARD OF REVENUE.

THE following revised rules made by the Board for the supply of copies of, and information respecting, papers and documents in Collectors' offices having been approved by Government, are published for general information.

By order of the Board of Revenue, L. P.,

P. NOLAN, *Offg. Secretary.*

CALCUTTA, *the 9th July* 1885.

Rules for the supply of copies of, and information respecting, papers and documents in Collectors' offices.

1. Applications may be received from the public for—

(*i*) Information respecting the contents of papers and documents in the Collectors' office, whether such information be or be not required for the purpose of correctly describing such documents in applications for copies of the same.

(*ii*) Unstamped copies of papers and documents, of which copies may by law be given on unstamped paper.

(*iii*) Stamped copies of papers and documents.

2. All applications of the first two classes are to be made at a place and to the officer designated by the Collector for that purpose, and between the hours of 10 and 12, except when office is held in the morning, when the hours should be between 7 and 9 A.M. The officer to be so designated shall be either the sheristadar or some other paid ministerial officer belonging either to the English office or to the munshikhana of the Collector's court. Applications for *stamped* copies must be made by petition to the Collector. The form of application is given in Appendix B. The form will then be made over to the officer appointed to receive applications, the applicant being directed to attend during the prescribed hours on the next open day to deposit his fees.

3. All applicants for copies, whether stamped or unstamped, must supply the folios at their own cost for the copies required.

4. All applications are required by law, Art. 1 (*a*) of Schedule II of the Court Fees Act, VII of 1870, to bear a one-anna stamp. By Government notification* it has been decided that this shall be in all cases an adhesive stamp.

*No. 361, dated 8th April 1883.

5. All applications received from the applicants shall be numbered consecutively, according to the number given to them in the registers, and filed in the office.

6. Applications for *information* (except applications on the part of recorded proprietors of estates on the revenue-roll for information regarding the state of their accounts, which are exempted from the operation of the rules) shall be on a printed form (A) in duplicate, to be obtained from the nazir at the cost of one pice per sheet. The applicant is to present it with the duplicate spaces reserved for the date, his name, and residence, the particulars of the information required, and the searching fee tendered by him, filed up. The officer receiving such application is to enter in duplicate in the first column the consecutive number, and in the seventh column his signature. He will also enter in duplicate, in the sixth column, the date and hour, if necessary, by which the information is to be furnished. The upper and lower portions of the form, with columns 1 to 7 thus filled up, will then be separated. The lower portion will be made over to the applicant with a direction to return with it at the time fixed. The upper portion will be passed on to the amlah to whose department it pertains, who will note in the eighth column the date, and, in cases where the extra fee has been paid, the hour of receipt, and, after entering in the column for remarks the necessary information, return it to the receiving officer before the time prescribed. On the applicant's re-appearance, this upper portion bearing the information will be made over to him, and the lower portion, bearing his dated receipt in the column for remarks, will be taken from him and recorded in the office. These forms will be filed, in the order of their admission, in a separate series of each month.

7. A register of application for information shall be maintained in the form given in Appendix C.

8. The ordinary searching fee shall be uniformly 4 annas for all cases, payable by an adhesive court-fee stamp of that amount in addition to the stamp of one anna affixed on the application. When this fee is paid, the time to be fixed for supplying the information required shall not, without the special orders of the Collector in each case, be later than 1 P. M. of the third open day after the presentation of the application, the day of presentation being excluded. The extra searching fee shall be an additional one rupee, by payment of which the applicant shall be entitled to receive the information applied for by 3 P.M. of the day on which his application is presented. The additional fee shall also be paid by means of an adhesive stamp.

9. Only one application need be made for copies of papers or for information required in connection with a single cause or matter, *e.g.*, if copies are required of four separate papers

in one record. only one application is necessary. When copies of, or information relating to, papers connected with different matters or causes are wanted, as many applications are necessary as the matters or causes to which they relate.

10. A uniform charge shall be made for the preparation of copies (whether certified or uncertified) at the rate of 4 annas per folio. This term, it is to be carefully explained to all subordinate officers, merely denominates a certain quantity of manuscript: the folio to consist of 150 words English, or of 300 words vernacular, four figures counting as one word. This charge should be levied by an impressed stamp* of 4 annas on each sheet of paper corresponding with the folio to be provided by the applicant for a copy.

Until such stamps are available stamps that are or will be adopted for this purpose in the civil and criminal courts should be used in the manner already prescribed or to be prescribed under the orders of the High Court, Calcutta.

11. If the stamps supplied by the applicant fall short of what is required, additional stamps should be called for and levied before the copies required are furnished to him. Should any applicant delay for more than a week after the period fixed for delivery of the copy to apply for the same, the fees paid by him shall be forfeited. All such orders for forfeiture shall be noted by the officer in the column for remarks in the register, and shall be brought to the Collector for signature on the day of forfeit. But nothing in this rule shall deprive the copyists of the remuneration due to them. Revenue agents must be held personally responsible for payment of the full fees in all cases when applications for copies are made through them. They will take care that payment is made to them by their clients.

12. All copies, whether certified or uncertified, must be examined before issue by a salaried officer. The copies themselves will in all cases be made by section-writers, who will be remunerated at the rate of 2 annas per folio.

13. Half the charge of 4 annas per folio, levied by means of the impressed stamp, represents the payment to Government on account of the salary of examiners, cost of papers, &c.: the other half will represent the earnings of the section-writers, whose accounts will be made up monthly, and the amount due to each paid out of contingencies. These payments must be checked at the time with the upper part of each stamp, which, when the copy is ready, must be torn off each sheet, along the perforated line, and then endorsed with the copyist's name, and kept till the end of the month. Care must be taken to see that nothing in excess of half the amount realized in stamps is paid away.

14. To prevent the risk of stamped slips being used more than once, the officer passing a copyist's account will, after checking it as directed, tear the slips to pieces and cause them to be burnt in his presence. A certificate that this has been done must be attached to the contingent bill on which the copyist's fees are drawn.

15. To protect the interests of the Government, care must be taken to see that all copies issued from the office are prepared on the prescribed stamp paper. They must be written on one side of the sheet only, and must not contain more than the authorized number of words. On the other hand, care must be taken to see that applicants are not imposed upon by the copyists spreading their writing over a larger number of sheets than is necessary. By insisting on the number of lines in each sheet being uniform, control may easily be exercised in this matter, the number of words in a few of the lines in each folio being checked. The business of a copyist is (like most other occupations) one calling for skill, and greatly dependent for its successful practice on experience. Copyists, therefore, must possess or acquire skill in their business, or they ought not to be retained.

16. When an applicant requires his copies to be furnished on the day of application, an extra fee of one rupee (or, if the copies exceed four folios, of 4 annas for each folio) * shall be charged on all copies so furnished, to be levied from him by a court-fee stamp, which should be affixed to the application for the copy, and be entered in the register for court-fee stamps. Care, however, is to be taken that other applicants for copies do not materially suffer by the arrangement. If the granting of other copies be much delayed by this rule, an extra hand ought to be told off to furnish the copies urgently required.

* This is a fee for credit to Government, and no part of it is payable to the copyists.

17. Under ordinary circumstances, the time for furnishing the copies required shall not be later than 1 P.M. of the third open day after the presentation of the application.

18. In the case of certified copies, the court-fee chargeable under Court Fees Act shall be levied by affixing the necessary stamp to the first folio of the copy. It shall be the duty of the officer who authenticates the copy to see that the stamp is correct before he does so, taking the orders of the head of the office in all cases of doubt or dispute

19. A register of applications for copies shall be maintained in form D given in the appendix.

20. Copies of public documents which may be used as evidence, even against the Government, are never to be withheld from applicants; but copies, whether certified or not, of written arguments, discussions, or opinions of public officers written previously to a decision, as they can be no legal evidence, are not to be given. Copies of correspondence on the subject of suits pending in the courts of justice are not to be granted without the permission of the Board of Revenue.

21. The ministerial officer in charge of the department in which the document of which a copy is applied for is found at the time of such application shall be held personally responsible for the observance of the above rule. In every case in which there shall be any doubt as to the propriety of giving the copy, such officer shall take the Collector's order on the subject before the document is made over to the copyist. Whenever a copy is refused, the folios which may have been deposited by the applicant are to be returned to him.

22. The Collector is to license as many copyists as can supply all applicants with copies within the period specified by these rules, and no one but a licensed copyist shall be employed in the preparation of copies. But when the copies applied for are few, or not sufficient to induce an outsider to take a license for the work, and the work generally is light, the Collector may employ an officer of the fixed establishment to do the copying work, if he can do it without detriment to his other duties.

23. For copies of the surveyor's village plans supplied on the requisition of private parties, the ordinary rate is to be one rupee per sheet;* but should the internal delineations be intricate, and the labour be enhanced in proportion, the rate may be increased at the discretion of the Collector within the limit of two rupees per sheet. For copies of thakbust maps and khasra maps (which are made by placing the map to be copied over the paper on which copy is to be made, pricking down the salient points, and then ruling lines from point to point so pricked in) each line ruled should be counted as equivalent to four vernacular words, the number of written words added thereto, and copying fees for the whole calculated under Rule 10.

* By sheet is not to be understood the paper employed in copying the plans, but the sheet of which each plan is composed.

24. The rate for ruling lines in copies of any register should be half the rate fixed for lines in thakbust and khasra maps, each line being taken the whole length or breadth of the page or sheet. Collectors are to encourage in every legitimate way the widest distribution of these maps among those interested in them.

25. In the case of other maps and plans no general rule can be laid down. In each case a charge will have to be fixed with reference to the difficulty or intricacy of the work done, and to the cost of materials.

26. When one copyist is entertained, the task of comparing must be performed by one of the officers of the fixed establishment: when two or more copyists are employed, they should compare for each other: when six or more copyists are continuously employed, a comparer may be entertained to compare the copies prepared by all, to be paid at the rate of Rs. 20 per mensem, levied from the copyists in proportion to their receipts.

27. The names of both the officers employed on the comparison must always be noted on the copy. Each copy must be attested by the record-keeper or other native officer specially authorized to compare and attest copies, who is responsible, jointly with the comparer, for the correctness of the copy.

28. Commissioners are at liberty, if the demand for copies from their records makes the arrangement advisable, to appoint a licensed copyist for their preparation.

29. No fees are to be demanded or paid for searching for or copying papers required by public officers for public purposes.

30. Nothing in these rules is to be held as interfering with the right of parties or their authorized agents to inspect the records of pending cases under such safeguards as the Collector may think necessary against the removal or alteration of documents, and the publication of privileged communications.

31. Admittance to the record-room should be absolutely prohibited to all persons other than the Deputy Collectors and Assistant Collectors serving in the district and the officers of the Collector's Court, except on production of a written order for admittance, signed by the Collector.

32. Copies of these rules in the vernacular are to be conspicuously exhibited in Collectors' offices.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sál beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 „ „ 2-12 „
23 „ „ 2-14 „
24 „ „ 3 „

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at „ 2-4 „
Under 7 feet at „ 2 „

The above prices are for ordinary building purposes.

For *Planking, Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion

Second and Third Class Timber will be sold and price fixed by agreement

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.

BANK OF BENGAL,
Calcutta, the 23rd April 1885.

Officiating Chief Accountant.

Published under section 339 of Act IV of 1876.

JOHN COWIE,
Acting Secretary.

(363—1)

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

NARENDRA NATH SEN, B.L., intends to apply for enrolment as a Vakil of the High Court.

(332—4)

AKSHYA KUMAR BARORI intends to be enrolled as a Vakeel of the Calcutta High Court.

(321—4)

Lost.

THE Government Promissory Note No. 090867 of the 4 per cent of 1842-43 for Rs. 500, originally standing in the name of the Bank of Bengal, and last endorsed to Aukhoy Kumar Mullick, the deceased proprietor, by whom it was never endorsed to any other person. Payment of the above note and the interest thereupon have been stopped at the Public Debt Office, Bank of Bengal, and application is about to be made for the issue of duplicate in favour of the proprietor.

(322—3) NITTO MOYE DASSEE, Mothurabatty.

Notice.

AS there is not likely to be much work of an important nature to be done by the Civil Court Ameen of this district during the rainy season, the applications for the post received in this office pursuant to the notice of the 3rd May last will be considered on the 12th November next, when orders will be passed for permanently filling it up.

B. L. GUPTA, Offg. Dist. Judge.

Moorshedabad, District Judge's office, the 7th July 1885.

(350—3)

Notice under Section XXX of Act XIV of 1882.

NOTICE is hereby given that Lallbehary Dutt has, with the permission of the High Court of Judicature at Fort William in Bengal, under the provisions of section 30 of Act XIV of one thousand eight hundred and eighty-two, on behalf of himself and all others, the creditors of Bhoyrodan and Poorunmull, instituted a suit in the said Court in its Original Side against the said Bhoyrodan and Poorunmull, both of No. 48, Cross Street, Burrabazar, in the town of Calcutta, traders; Narmull Lahia, of No. 7, Juggo Mohun Mullick's Lane, in Burrabazar aforesaid, merchant; and Dedraj of No. 56, Burtallah Street in Burrabazar aforesaid, merchant, for the recovery of the sum of rupees three thousand three hundred and seventy five two annas and nine pies, being the amount of composition at the rate of four annas in the rupee payable on the sum of rupees thirteen thousand and five hundred eleven annas and three pies, due to the said Lallbehary Dutt, with interest for an account if necessary of all m neys belonging to the estate of the said Bhoyrodan and Poorunmull, came into the hands of the said Narmull Lahia and Dedraj, or either of them, or to the hands of other persons for their use, or which but for their wilful default or neglect would have come into their hands or use, and of the payments made by them on account of the estate of the said Bhoyrodan and Poorunmull, and also of the amounts due to the creditors of the said Bhoyrodan and Poorunmull, who have signed the composition deed, and, if necessary, to have provision made out of the assets of the said Bhoyrodan and Poorunmull, and out of funds to be supplied by the said Narmull Lahia and Dedraj for the payment of the composition respectively payable to the said creditors of the said Bhoyrodan and Poorunmull.

Dated this twenty-fifth day of June one thousand eight hundred and eighty-five.

By order of the Court,
R. BELCHAMBERS, Registrar.

(351—1)

Notice.

THE several businesses of ship captain s banian, of coal, and of baler in jute, carried on by Grees Chunder Mookerjee and his brother Woomesh Chunder Mookerjee, under the name, style, or firm of Grees Chunder Mookerjee and Brother, and which said businesses were continued by the said Woomesh Chunder Mookerjee after the death of his said brother the said Grees Chunder Mookerjee on joint account, has ceased on the 7th June 1885, and the accounts of the said firm will be wound-up up to that date, and that on and from the 8th day of June 1885 the said Woomesh Chunder Mookerjee alone has commenced to carry on the business of ship captains' banian, of coal, and baler in jute at his own risk under the firm of Woomesh Chunder Mookerjee. All creditors of the said first mentioned firm or of the said Grees Chunder Mookerjee and Woomesh Chunder Mookerjee, or either of them, are requested to call on the said Woomesh Chunder Mookerjee within two months from date hereof and receive their respective claims, and those indebted are requested to pay their respective debts to the said Woomesh Chunder Mookerjee within 15 days from date hereof.

MOOKERJEE, DEB AND PALIT, Attorneys for Baboo Woomesh Chunder Mookerjee of No. 142-1, Radha Bazar, and also of No. 122, Ahireetollah Street, Calcutta.

No. 5, Old Post Office Street, Calcutta, the July 1885.

(352—4)

ON behalf of Baboo Nripendro Narain Ghose, the infant son of the late Obhoy Churn Ghose of Sankral, and No. 4, Obhoy Churn Ghose's Lane, Calcutta, I have to give notice that on the adjustment of accounts between my client and his brother Baboo Rajendro Narain Ghose in the suit No. 568 of 1881, now pending in the High Court in respect of the estate of the said Obhoy Churn Ghose, deceased, my client has a large claim against the said Rajendro Narain Ghose's share of the said estate, besides a large claim for rents (long overdue) payable to the zemindar, and that any incumbrance which the said Rajendro Narain Ghose may create on his share will be subject to these claims, in respect of which an application is about to be made to the High Court.

MOORALY DHUR SEN, Attorney for Baboo Nripendro Narain Ghose.

7, Church Lane, Calcutta, 9th July 1885. (354—1)

Notification.

TO be peremptorily sold, pursuant to a decree and order of the High Court of Judicature at Fort William in Bengal in its Ordinary Original Civil Jurisdiction, made in suit No. 483 of 1879 (wherein Kissory Mohan Roy and others are plaintiffs and Omerto Nauth Jha is defendant), and dated respectively the 27th of January 1884 and the 29th of November 1884 by the Registrar of the said Court in his sale-room at the court-house, on Saturday the 1st of August next, at the hour of 12 o'clock at noon the undermentioned immovable property—

All that upper-roomed house and premises, No. 131, Upper Chitpore Road, formerly numbered 97, Gurranhattah Street, in the town of Calcutta, containing by estimation three cottahs, and bounded on the north by the dwelling-house of the late Woomachurn Ghose; on the east by the dwelling-house of Nundolall Day; on the south partly by the dispensary of the said Nundolall Day and partly by the tenanted land of Nrisingho Bose and others; and on the west by the Chitpore Road.

The conditions of sale and abstract of title may be seen in the office of the Registrar of this Court in its Original Jurisdiction, and also at the office of Baboo Aushootoss Dhur, attorney for the plaintiffs, at No. 2, Hastings Street, in the town of Calcutta, on any day, before the sale, and will be produced at the sale.

R. BELCHAMBERS, Registrar.

A. T. Dhur, Plaintiffs' Attorney.

Calcutta, High Court, Original Jurisdiction, the 29th June 1885.

(335—1)

Notice.

SEALED tenders in Public Works Department form No. 7M will be received not later than the 31st August 1885 by the Chairman of the District Road Committee, Furreedpore, for the undermentioned works in that district—

No. I.—Construction of Madaripore road from Maniknagar to Bhanga, 11 miles; estimated cost Rs. 50,461.

No. II.—Construction of Belgatchi railway station road from Belgatchi railway station to Ramdia, 5 miles; estimated cost Rs. 9,447.

Plan, section, estimate, and other information can be had on application. Both the works are to be commenced on the 15th of November 1885, and the earthwork to be completed by the 15th April 1886; the remaining works are to be completed by the 15th June 1886.

Each tender must be accompanied with earnest money of Rs. 1,100 and Rs. 200 in currency notes for works Nos I and II respectively. And the name of work tendered for and the amount of earnest money accompanying the tender should be superscribed on the cover.

The Committee reserve the right of rejecting or accepting the lowest tenders offered.

AMVIKA C. MUZUMDAR, Vice-Chairman.

Furreedpore, District Road Committee's office, the 10th July 1885. (358-3)

Notification.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act (VI of 1878) that on the 21st April 1885, 1,851 gold Kali Fanams, exceeding Rs. 10 in value, were found by one Thathampatti Veeranan (servant), while digging the foundations of the house of one Thathampatti Tubba Reddi, residing in the village of Thathampatti, Madura taluk, Madura district in the Madras Presidency.

2. Any person or persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Madura on the 13th of November 1885 at Madura, with a view to the claims being enquired into and determined according to law.

C. S. CHOLE, Collector.

Madura, Collector's office, the 25th June 1885.

Notice.

IT is hereby notified, under section 5 of the Indian Treasure Trove Act, VI of 1878, that on the 5th June 1885 treasure, consisting of 32 rupees in current use, deposited in a small earthen pot, was discovered by Tangirala Daggulayya and Vooppula Sambhadu while pulling down a wall of a house in the village of Isakatripuravaram, Markapur taluk, Kurnool district, in the Madras Presidency.

Any person or persons claiming the said treasure or any part thereof are hereby required to appear personally or by agent before the Collector of Kurnool on the 11th of November 1885 at Kurnool with a view to the claims being enquired into and determined according to law.

E. C. JOHNSON, Acting Collector.

Kurnool, Collector's office, the 26th June 1885.

PART III.

Act of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

[Second Publication.]

THE following Act passed by the Lieutenant-Governor of Bengal in Council, received the assent of His Honor on the 14th March 1885, and having received the assent of His Excellency the Governor-General on the 23rd June 1885, is hereby published for general information :—

ACT No. II OF 1885.

An Act to enable the Commissioners for the Port of Calcutta to construct Docks.

WHEREAS it is expedient to empower the Commissioners for making Improvements in the Port of Calcutta to construct Docks at Kidderpore in connection with the Port, and to raise loans for that purpose : Preamble.

And whereas the Secretary of State for India in Council has agreed to guarantee the payment of interest upon such loans :

And whereas the said Secretary of State has already advanced to the said Commissioners various sums for the purpose of commencing the construction of such docks :

It is enacted as follows —

1. This Act shall be read with, and taken as part of, Act V of 1870, passed by the Lieutenant-Governor of Bengal in Council. Construction.

And it shall come into force on the date on which it is published in the *Calcutta Gazette* with the assent of the Governor-General. Commencement.

2. In this Act the word "dock" includes all basins, cuts, quays, wharves, warehouses, tramways, and other works connected with the said docks and convenient for their use. Interpretation of "Dock."

3. It shall be lawful for the Commissioners to construct docks at Kidderpore in connection with the said port, in such manner as the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, by notification published in the *Calcutta Gazette*, may sanction, and to equip, maintain, and manage such docks. Power to construct and maintain docks.

4. The Commissioners may from time to time raise loans for the construction, equipment, maintenance, and management of the said docks, to such amount and at such rate of interest as the Lieutenant-Governor, with the previous sanction of the Governor-General in Council, by notification published in the *Calcutta Gazette*, may sanction. Power to raise loans for construction, &c. of such docks.

5. The said Secretary of State, at any time not less than ten years after a loan has been raised under section four, may declare, by a notification published in the *Calcutta Gazette*, that the principal of such loan shall be repaid on a date to be specified in the notification, not being less than thirty years from the first publication of the notification, and may require the Commissioners to make such arrangements as shall provide to his satisfaction for such repayment; and the Commissioners shall make such provision and repayment accordingly. Repayment of principal.

6. The Accountant-General of Bengal shall from time to time advance to the Commissioners such moneys as may be required to meet the charges on account of interest upon any loan raised under section four.

Accountant-General to advance sums for payment of interest on loans.

7. The Commissioners shall repay all moneys so advanced by the Accountant-General, under the last foregoing section, at such times and in such manner as the Lieutenant-Governor may direct, with interest thereon at the rate of four and a half per centum per annum.

Sums advanced by the Accountant-General to be repaid with interest.

8. It shall be lawful for the Commissioners from time to time to borrow moneys from the Secretary of State for India in Council for the purposes of this Act.

Power to borrow money from the Secretary of State.

9. All moneys so borrowed before the commencement of this Act shall bear interest at the rate of four and a half per centum per annum, and shall be repaid at such time and in such manner as the Lieutenant-Governor may direct.

Moneys so borrowed how to be repaid.

10. The Commissioners shall from time to time frame a scale of tolls, dues, and charges to be levied by them for the landing and shipment of goods at the docks constructed under this Act, and for the use of the said docks by sea-going or other vessels, and for the storing and keeping of any goods in any premises belonging to, or connected with, the said docks, and for the removal of such goods, and for the use of any moorings connected with such docks;

Tolls, &c., to be levied.

and also a scale of charges for any services to be performed by the Commissioners or their servants in respect of any vessels or goods, and for the use of any works or appliances provided by the Commissioners in connection with such docks.

Such tolls, dues, and charges shall not exceed the rates which may from time to time be fixed by the Lieutenant-Governor by notification published in the *Calcutta Gazette*.

Such scale of tolls, dues, and charges, when adopted by a resolution of the Commissioners at a meeting, shall be submitted to the Lieutenant-Governor, and it shall be lawful for the Commissioners to levy the same after publication of such scale or scales in the *Calcutta Gazette* with the sanction of the Lieutenant-Governor.

11. The said tolls, dues, and charges, and all other moneys and property leviable or received under this Act, shall be held and applied by the Commissioners for the purposes of this Act, and subject thereto for the purposes of Acts V of 1870 and IV of 1880, passed by the Lieutenant-Governor of Bengal in Council.

Application of tolls, &c., leviable, and property received under Act.

12. It shall be lawful for the Commissioners from time to time to make bye-laws,

Power to make bye-laws.

for the guidance of persons employed by them under this Act;

for the safe and convenient use of the said docks and the approaches thereto;

for regulating the entrance into, and departure from, the said docks of ships, boats, and vessels;

for the mode of levy and payment of tolls, dues, and charges leviable under this Act,

and for otherwise carrying out the purposes of this Act;

and from time to time to repeal or alter any such bye-law so made by them.

13. Such bye-laws, and such repeal or alteration of any bye-law, shall have the force of law upon the publication thereof in the *Calcutta Gazette*, with the sanction of the Lieutenant-Governor.

Approval of bye-laws.

14. All moneys borrowed, all expenditure incurred, all contracts made, and all works undertaken by the Commissioners, before the commencement of this Act, for and in connection with the construction of the said docks, shall be deemed to have been borrowed, incurred, made, and undertaken under this Act.

Validation of acts already done.

GORDON LEITH,
Offg. Asst. Secy. to the Govt. of Bengal,
Legislative Department.

	Ranaghat ...	6·15	
8	Khoolna, „ 11 „	5·05	Weather—very rainy during the week. Transplanting of *amun* paddy commenced. *Aus* paddy is doing well. Public health good. Cattle-disease in some places.
9	Jessore, „ 11 „	2·60	Weather—cloudy with occasional rain. Harvesting of *aus* paddy has commenced in Magoora and Narail sub-divisions. Prospects favourable. Insects have done some injury to the paddy crop. Health good.
	Jhenida ..	2·83	
	Narail ..	4·32	
	Magoora ..	2·29	
	Bongong ..	1·25	
10	Moorshedabad, „ 11 „	1·83	Weather—seasonable. Prospects of crops good. Rice selling at from 13 to 13¼ seers per rupee. Public health good.
Rajshahye Div. 11	Dinagepore, July 10 '85	5·21	Daily rain at head-quarters. Crops doing well. Cholera in Patiram, but not severe. General health good.
12	Rajshahye, „ 11 „	2·18	Weather—cloudy and showery. Prospects of *aus* paddy, jute, and sugarcane fair. Preparation for *amun* paddy still going on. Health fair.
	Nattore ..	2·75	
	Nowgong ..	2·28	
13	Rungpore „ 11 ..	5·02	Weather—cloudy and rainy. Harvesting of *aus* paddy, *kaon* and jute has begun. Transplanting of *amun* paddy is vigorously going on Prospects of standing crops promising. Fevers are on the increase. Sixteen cases of cholera reported from the Gaibanda sub-division, of which fifteen proved fatal.
	Nilphamari ...	4·85	
	Gaibanda ...	4·11	
	Kurigram ...	7·72	
14	Bogra, „ 11 „	2·88	Weather—cool on and off; more or less rain daily. Prospects of *aus* very good. Jute thriving. Sowing of *amun* going on Public health fair.
15	Pubna, „ 11 „	3·17	Weather—hot and cloudy. Crops excellent. Rivers rising. Public health good.
	Serajgunge .	2·32	
16	Darjeeling, „ 11 „	9·49	Weather—wet and warm. Prospects of crops very favourable.
1	Julpigoree, „ 11 „	17·42	Weather—alternate rain and sunshine; very heavy rain on the 5th. All reports good. *Bhadoi* paddy and jute are good crops. An outbreak of cholera in north of district, but it has been checked. Cattle-disease prevails in Duars. Some sporadic cases of small-pox reported.

* For week ending 11th instant.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—*concld*			
	Eastern Districts.		
Dacca Division. 18	Dacca, July 11 '85	3·65	Weather—seasonable. *Aus* paddy being harvested; *amun* paddy, jute and sugarcane thriving. Ploughing for *roachia* paddy going on. Prospects of crops and public health good.
	Manickgunge ...	4·76	
	Munshigunge ...	2·60	
	Naraingunge ...	0·88	
19	Furreedpore, „ 11 „	1·51	Weather—cloudy and showery. Prospects of crops good. General health good
	Goalundo ...	2·73	
	Madaripore ...	0·97	
20	Backergunge, „ 9 „	7·97	Weather—hot; sufficient rain with occasional high winds. Prospects of crops good. Cholera and fever prevalent in the town and in some of the villages.
21	Mymensingh, „ 10 „	4·93	Weather—seasonable. State and prospects of crops good. Public health good.
	Jamalpur ...	2·64	
	Kishoregunge ...	1·00	
	Attia ...	2·75	
	Netrokona ...	5·73	
Chittagong Divn. 22	Chittagong, July 14 '85	7·55	Weather—seasonable. *Aus* paddy being transplanted. Prospects of crops fair Prices variable. Cholera continues.
23	Noakholly, „ 10 „	6·10	Weather—cloudy and rainy. State and prospects of crops good. Reaping of *aus* crop has commenced in the Fenny sub-division. A few deaths from cholera reported from Fenny; otherwise public health good.
	Fenny ...	4·86	
24	Tipperah „ 9 „	5·34	Weather—seasonable; intervals of rain and sunshine. Transplanting of paddy being carried on vigorously. Prospects generally good. Public health good.
	Brahmanbareah ...	1·17	
	Chandpore ...	5·35	
25	Chittagong Hill Tracts. „ 7 „	4·31	Weather—cloudy and rainy throughout the week. Rain has done much good to *joom* paddy and cotton crop. Ploughing progressing.
	Hill Tipperah, „ 8 „	2·44	Weather—occasionally rainy; more rain wanted. Prospects of *sátya* paddy, sugarcane and *joom* crops good. Cholera still prevails in Agortolla. Public health in other parts good.
BEHAR.			
Patna Divn. 26	Patna, July 11 '85	3·27	Weather—cloudy with east wind. Indian-corn is being sown; sugarcane doing well. Rain will facilitate the preparation of paddy seedlings. Prospects fair. Public health generally good.
27	Gya, „ 11 „	3·55	Weather more than three inches of rain fell at the Sudder on the 9th; good rain has also fallen in other parts of the district. Prospects have much improved. All crops on the ground doing well.
28	Shahabad, „ 11 „	1·94	Weather—seasonable. Sugarcane and *bhadoi* sowings doing well, but more rain would be beneficial; it is much wanted in the sub-divisions Cholera reported from all sub-divisions; it is abating in Bhabuah. Small-pox reported from Sasseram sub-division.
	Buxar ...	1·68	
	Sasseram ...	1·01	
	Bhabbhua ...	0·98	
29	Durbhunga. „ 11 „	7·33	Weather—greater part of the week cloudy and showery. Several heavy showers of rain during the week. The rivers have overflowed and have caused considerable injury to the *bhadoi* and paddy crops on their banks. There is, however, still time for re-sowing. Transplanting of *murwa* and paddy seedlings commenced in places. Prices stationary. Cholera still prevailing.
	Madhubani ...	7·93	
	Tajpur ...	4·09	
30	Mozufferpore, „ 11 „	5·43	Weather—rainy and cloudy. Rain has been of great benefit. *Bhadoi* sowings almost completed, and transplanting of rice in progress.
	Hajipur ...	3·11	
	Sitamarhi ..	10·40	
31	Sarun, „ 11 „	2·67	Weather—cloudy and rainy with intervals of fair weather. Rain general throughout the district; it has completely saved the *bhadoi* crop and has greatly benefited indigo, sugarcane and *cheena*. A few sporadic cases of small-pox, fever and cholera reported; public health otherwise good.
	Sewan ...	4·11	
	Gopalgunge ...	4·35	
32	Chumparun „ 11 „	9·97	Weather—cloudy with heavy showers of rain. Heavy rain has fallen throughout the district. Sunny weather is now required. Prices stationary. Public health fair.
Bhagulpore Divn. 33	Monghyr, July 11 '85	1·45	Weather—showery. Prospects of *bhadoi* crops favourable. More rain required for *aghani* crops. Prices stationary. Public health on the whole good.
	Begusarai ..	4·41	
	Jamui ...	2·29	
34	Bhagulpore, „ 11 „	3·21	Transplanting of *murwa* in the north nearly completed; transplanting of rice going on in Mudehpoorah. Ploughing and sowing going on briskly in the south. Prospects good. Prices stationary. Public health good.
	Banka ...	4·97	
	Soopole ...	4·50	
	Mudehpurah ...	2·71	
35	Purneah „ 11 „	1·79	Weather—wet with light showers. All crops are good at present. Heavy rain wanted for *aghani*. Health fair.
	Kissengunge ...	4·97	
	Arrareah ...	4·04	
36	Maldah „ 11 „	3·42	Weather—seasonable, with showers almost every day. Paddy crops are backward, but thriving, except that in the north (thana Khurba) it is reported that the young plants are being hurt by insects. Price of coarse rice from 12 to 16 seers per rupee. Public health generally good.
	Chanchal ...	4·44	
37	Sonthal Perghs. .. 11 „	4·30	Weather—heavy rain daily with short intermission. The continued heavy rain is retarding the crops and agricultural operations; a few days of sunshine would be very welcome. There has been too much rain for Indian-corn, and it is feared the crop will be a short one.
	Deoghur ...	3·75	
	Rajmehal ...	2·38	
	Jamtara ...	6·62	
	Pakour ...	3·1	

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
ORISSA.			
Orissa Divn. 38	Cuttack, July 10 '85	2·50	Weather—cloudy; slight rain occasionally. *Beali* being harrowed; *sarad* growing tolerably well, but requires more rain. Crops on the riverside lands greatly damaged by the late flood. Price of rice ranges from 11 to 13 Cuttack seers per rupee in the town. Cholera has made its appearance in the town, and sporadic cases reported from the interior.
39	Pooree, „ 9 „	1·23	Weather—hot and cloudy with rain on the last day of the week. *Sarad* cultivation in the low lands has been much damaged, and that in the high lands to some extent by the recent floods. Re-sowing going on in some places where the flood-water has subsided. Rain wanted for the puddling of paddy plants in the parts where the lands have not been flooded. Common rice is selling at an average of 17 seers per rupee in the Sudder sub-division, and 18 seers 9 chittacks in the Khoorda sub-division. Cholera prevalent in the town, and out in the district, from the influx of pilgrims for the approaching Car festival
	Khoorda ...	0·90	
40	Balasore „ 10 „	5·81	Weather—cloudy and rainy. All crops now doing well. Cultivation of rice is being pushed on everywhere favourably. Public health generally good, except that a few sporadic cases of cholera reported from the interior.
CHOTA NAGPORE.			
South-West Frontier Agency.			
41	Hazaribagh. July 10 '85	4·19	Weather—seasonable. Abundant rain reported from all stations. Paddy and *bhadoi* sown. No more rain required at present. Cholera reported from Bogodur, Burhi, Chumparan, Chatra and Hazaribagh. Prices rising.
42	Lohardugga, „ 11 „	3·25	Weather—seasonable. Ploughing and sowing going on vigorously. Prices stationary. Public health good.
43	Singbhoom, „ 10 „	1·69	Weather—seasonable. Agricultural operations progressing most favourably. Prices easy. Public health good.
44	Manbhoom, „ 11 „	4·29	Weather—wet and cool. Agricultural operations going on steadily. Plenty of rain all over the district. *Aman* is being transplanted. *Gora* paddy and sugarcane doing well. Prospects improved and prices falling. Cholera still prevalent.

Published for general information.

The total fall from 1st January to 11th July 1885	...	24·04
The average fall of the corresponding period for 24 years, S. G.'s Office ..	..	25·77

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No 85 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o overcast, g gloomy, p passing temporary showers, d drizzling rain.

ALEXANDER PEDLER.
For Meteorological Reporter to the Government of India.

METEOROLOGICAL OFFICE, INDIA;
Calcutta, the 13th July 1885.

ALEXANDER PEDLER,
Offg. Meteorological Reporter to the Govt. of Bengal.

METEOROLOGICAL AND RAINFALL SUMMARY OF THE PROVINCE OF BENGAL FOR THE MONTH OF JUNE 1885.

THE month of June is in Bengal, and from a meteorological point of view, the most important month of the whole year, for it is in June that the south-west monsoon establishes itself over the Province, and generally over the greater part of Northern India. Another fact which gives great importance to the meteorology of June is that the distribution of rainfall during this month is found to indicate in a rough and general way the chief features of the distribution of rain which may be expected during the whole of the south-west monsoon season.

The south-west monsoon current, which blows from the Bay of Bengal, is produced by causes which have already been referred to in the reports of previous months. During March, April and May the temperature of the whole of India, and of Northern India in particular, increases with great rapidity and there is thus a steady and increasing difference of temperature between the land and sea area, and at about the end of May, or the commencement of June, this difference attains its maximum. With this difference of temperature, southerly winds blow from the cool sea area towards the heated land. At first these are merely light and local winds; but with the increasing differences of temperature, the southerly moist winds increase in force and in depth till finally a point is reached, when there is a general advance of a large and deep body of moist winds, which may be said to absorb the previous comparatively local winds. It is this general advance of the moisture-laden winds which constitutes the commencement of the south-west monsoon in Bengal. It will be seen, however, that there is no reversal of previous conditions in this case, but rather the strengthening of the previous conditions; and thus in Bengal frequently it is rather difficult to state with accuracy the exact date of the commencement of the monsoon. The sea breeze blowing over Bengal from the Bay of Bengal in March and April is generally light and to a certain extent variable, and there is no doubt that it only extends to a short distance from the land. During the middle or latter end of May, however, a very important change commences, and southerly winds commence to blow in the south of the Bay, giving rise frequently to rain and squally weather. These southerly humid winds advance steadily northwards, giving rise sometimes to the formation of cyclonic storms, but in other cases advancing more quietly. The advance takes place usually along the eastern part of the Bay, and by the end of May monsoon winds are generally blowing over the whole of the southern half of the Bay. After a short interval, another advance of these winds takes place, and by the first week in June these strong and deep southerly winds reach Eastern Bengal, absorbing the lighter local winds in their progress; the monsoon current commences to spread over East and North Bengal, appearing as a south-easterly wind in East Bengal, and as an easterly wind in North Bengal, owing to the deflection caused by the hill systems to the East and North of Bengal. After the first burst it usually extends in a westerly direction, and a few days after the monsoon has commenced in East Bengal, it gives rain to South-West and West Bengal, and a few days later, or when reinforced by another burst of southerly winds, the monsoon extends over Behar and Chutia Nagpur.

It is an important fact that the rainfall in the south-west monsoon is not due to a perfectly steady and continuous action, but that it occurs rather as a series of waves or pulsations, a strong wave of rainfall being followed by a period of comparative calm and absence of rainfall, and it is during the latter that frequently small barometric depressions or cyclonic storms are formed, generally over the sea area, and which, after developing for a few days advance over the land, bringing heavy rainfall to the districts through which they pass. With reference to these storms, it may also be said that the longer the period during which they are forming the more intense they will be. So far also as has been ascertained up to the present time, it would appear that, during a comparatively weak monsoon, the periods of comparative cessation of rainfall are more frequent and are of longer duration than during a monsoon of normal strength, and thus weak monsoons are frequently characterized by the number and comparative intensity of the cyclonic storms or barometric depressions which visit the land, while during years when the monsoon is equal to or above its normal strength, these storms occur but seldom, and they are of little intensity.

In addition to the monsoon current blowing from the Bay of Bengal, there is of course a second monsoon current blowing from the Indian Ocean and Arabian Sea towards Bombay. The formation and character of this branch of the monsoon current were discussed in the monthly report for June 1883, and at certain periods of the monsoon season this branch has an important influence on the rainfall in Bengal, but in normal years, in June, the rainfall is due almost entirely to the Bay of Bengal branch of the monsoon current, so that at this period its influence need not been discussed.

The normal rainfall of June then occurs to a great extent from similar actions to those of April and May, though of course these conditions are much intensified. The rainfall is therefore much heavier than in the preceding two months, and the distribution is to a certain extent similar. The lines of equal rainfall run nearly north and south, the heaviest rainfalls occurring in East and parts of North Bengal, and the smallest in the western parts of Behar. In the former districts rainfall varies from 25 to 35 inches, while in Buxar it is less than 5 inches.

The most important meteorological features of June are therefore the date of the commencement of the south-west monsoon, its strength, the occurrence of cyclonic storms, and the rainfall.

Establishment of the monsoon.—In the report for May, it was noticed that there were indications of monsoon conditions setting in over the south of the Bay from the 18th to the 21st of that month. Strong winds and heavy rain were reported at the Ceylon stations on about these dates, and, so far as can be determined from the logs of vessels navigating the Bay, this was the first, though a rather feeble, burst of the monsoon. This small burst advanced as far north as the Nicobar Islands, and the weather in this locality was unsettled and clearly of a south-west monsoon character for some days. This burst of the monsoon apparently died away, though fresh winds continued to blow in the south of the Bay, but no further actual advance of the monsoon was noticed till the commencement of June, when another advance took place over the centre and south of the Bay. A fall of the barometer then commenced in Bengal on the 5th, which continued steadily up till the 8th, and with the reducing pressure and the rather strong winds blowing in the south and centre of the Bay, the monsoon current commenced to advance on the 7th and 8th over East and North Bengal. A slight pause then occurred in the advance of the monsoon, and it was only on the 11th and 12th that it spread out or extended in a westerly direction, giving good general rain to South-West Bengal and Chutia Nagpur. Another slight delay then occurred, and on the 15th the monsoon spread over North Behar and parts of South Behar, though the latter district did not receive general rain at this time, and in fact not until a day or two later. The monsoon has thus commenced at about the usual period, and the dates on which it may be said to have broken in the various districts may be said roughly to have been—

East Bengal ...	... 7th of June.
North Bengal ...	... 8th ,,
South-West Bengal and Chutia Nagpur	... 11th and 12th of June.
North Behar ...	... 15th of June.
South Behar and Orissa ...	... 16th and 17th of June.

The monsoon has thus commenced this year about a week later than it did last year.

Strength of the monsoon.—The monsoon current may of course vary in two ways, and its strength will depend on the two considerations of its velocity and the depth or thickness of the current. No means are available for measuring the depth of the current, but the velocity is easily measureable, and in the table below are given the actual hourly velocity of the winds for the month compared with the normal hourly velocity for the same period :—

Stations.	Actual wind velocity in June ; miles per hour.	Normal wind velocity in June ; miles per hour.
Diamond Island	7·9	4·4
Akyab	4·9	4·2
Chittagong	5·7	4·0
Dacca	5·5	3·7
Calcutta	7·3	8·4
Saugor Island	13·1	15·0
Cuttack	3·6	3·7
False Point	11·9	13·3

These are eight typical stations near or on the sea coast, and they should therefore give a good measurement of the velocity with which the monsoon current has been blowing. The general result of these numbers is to show that, while the average wind velocity at the eight stations has actually been 7·4 inches, the normal velocity is 7·1 inches. Practically, then, a monsoon of normal strength has probably been blowing. When, however, the individual stations are considered, it will be seen that, while in every case at the eastern stations the wind velocities have been above the normal, at the western stations in all cases velocities have been below the normal, or in other words, there is thus very strong evidence to show that the monsoon current is at present being deflected towards Eastern Bengal rather more than is usually the case.

Barometric depressions for the month.—Only two very small and feeble depressions were formed during the month. The first commenced to form either quite close to the head of the Bay or over the Sunderbuns, and on the 17th its centre was over the Sunderbuns not very far to the west of Chittagong. The storm first advanced in a north-westerly direction passing to the north of Calcutta, and on the 19th its centre was north of Midnapore. It then moved in a south-westerly direction, and on the following day it was to the west of Orissa, probably near Sumbulpore. On the 21st it again began to move in a northerly direction, passing through the western part of Chutia Nagpur and reaching the North-West Provinces, where it filled up and disappeared near Allahabad. The movement of this storm was very unusual, as such storms rarely curve in a southerly direction, and still more rarely partially retrace the previous path. The second storm commenced to form on the 25th instant a little

further south than the previous one. It advanced in a westerly direction, and on the 26th it was to the south of Saugor Island. It crossed the coast in the neighbourhood of Balasore on the same evening, and then travelled in a north-westerly direction through Chutia Nagpur. Both of these storms were comparatively feeble, but they of course brought up good general rain to the districts through which they passed, and it will be seen that Chutia Nagpur was benefitted by the rainfall due to the advance of both these storms.

Pressure was, as noted in the previous month's report, very largely above the normal, and the average excess over the whole Province in May was equal to 0·077″. The barometric changes which occurred in the earlier parts of the month were to increase this large excess, and the average excess for the first week in June was no less than 0·12″. In the second week the excess pressure began to disappear, and it fell to 0·05″. In the third week it had quite disappeared, and an average defect of 0·036″ was registered, while in the fourth and last week the defect was still further intensified, and it equalled 0·086″ over the whole Province. The average pressure for the whole month has therefore not been very far removed from the normal, and the extreme variations are an excess pressure of 0·03″ at Durbhanga, and a defect of 0·02″ at Gya. The average variation over the whole Province has been a defect of less than three thousandths of an inch, so that this pressure may be considered normal.

Temperature.—The temperature during the month, as is usual during June, has varied very considerably, and during the first week or ten days, or until the commencement of the monsoon rains, temperature was of course very high, but with the setting in of the rains temperature fell rapidly over the greater part of the Province. As the rains commenced at about the normal period, the average temperature for the Province is not far removed from the normal, and it is only about half a degree in excess. The extreme variations are an excess of 2° at Durbhanga, and a defect of 1·5° at Gya.

Rainfall —The distribution of rainfall during the month of June is generally very irregular, and this year has been no exception to the rule. As has been before stated, the rainfall in this month increases in quantity from the west towards the east of the Province. This has of course been the general distribution of rainfall for this month also, but it has been subject to very conspicuous exceptions. Centres of comparatively heavy and light rainfall have been rather numerous, and the lines representing equal falls of rain instead of being of the usual simple curved shape are very contorted. Further, it will be remembered that two barometric depressions or cyclonic storms have passed over Chutia Nagpur, and have brought heavy rainfall to that district.

Taking, however, the whole of the Province of Bengal into consideration, the rainfall has been about equal to the normal, and the average rainfall of the Province, obtained by taking the averages for each meteorological division, when compared with the normal average, shows that 95 per cent. of the normal rainfall has been received. Speaking generally, the only district which has received a fall largely in excess is Chutia Nagpur, and the fall has there been equal to 157 per cent. of the normal. On the other hand, three districts have received very defective falls, and these are Orissa and North and South Behar. Orissa has received 63 per cent. of the normal fall, South Behar 59 per cent., and North Behar only 56 per cent. South-West Bengal, East Bengal, and North Bengal have received about normal falls, and the amounts only vary from normal up to about 10 per cent. in excess.

The actual distribution of the rainfall has, however, been so irregular that it is impossible to do more than give the most general description of it. Thus it may be said that to the east of a line running from the Darjeeling district through the Rungpore, Mymensingh, Furreedpore, and Backergunge districts the rainfall has varied from 15 inches up to in some cases (in the Cooch Behar district) 45 inches; and to the east of a line passing through the Dinagepore, Rajshahye, Nuddea districts, Calcutta and Saugor Island the rainfall has been 10 inches and upwards. Chutia Nagpur has also received a fall generally exceeding 10 inches, while Orissa and North Behar have received a fall which has averaged about 5 inches. The greater part of South Behar has received a fall of less than 4 inches, while such stations as Barh, Behar (Patna district), Begooserai (Monghyr district), Buxar, and Gopalgunge (Sarun district) have received even less than 2 inches of rain.

Compared with the normal fall, the eastern and northern districts in many cases show a large excess, and in certain stations in North Bengal there has been an excess of from 10 to 15 inches. The southern parts of South-West Bengal, including parts of Bankoora, also show distinct excess rainfall varying in some cases up to as much as nearly 10 inches in excess at Satkira, while the whole of Chutia Nagpur is decidedly in excess, the average excess being from 4 to 5 inches. Assuming that, when the difference between the actual rainfall and the average rainfall is less than 10 per cent. of the average (either in excess or in defect), the rainfall may be considered normal then the rainfall for June was normal in the following districts:—Midnapore, 24-Pergunnahs, Howrah, Burdwan, Bankoora, Nuddea, Jessore, Chittagong, Noakhally, Mymensingh, Bogra, Julpigoree, and Manbhoom.

The following are the districts in which the average rainfall was more than 10 per cent., and less than 20 per cent in *excess*:—Khoolna and Pubna; and in the following districts the fall was more than 20 per cent. in *excess*:—Furreedpore, Dacca, Comilla, Rungpore, Cooch Behar, Hazaribagh, Lohardugga and Singbhoom.

In the same way the following are the districts in which the average rainfall was more than 10 per cent., and less than 20 per cent. in *defect*:—Hooghly, Beerbhoom, Backergunge, Rajshahye and North Bhagulpore.

In the following districts the rainfall varied from 20 to 40 per cent. in *defect* :—Balasore, Moorshedabad, Maldah, Dinagepore, Shahabad, Gya, South Bhagulpore and Sonthal Pergunnahs.

In the districts of Cuttack, Purneah, Durbhanga, Mozufferpore, Chumparun, Sarun and Monghyr, the fall was from 40 to 60 per cent. in *defect*; and lastly, in Pooree and Patna the *defect* was more than 60 per cent. of the normal.

The south-west monsoon, as will be seen above, has broken with considerable vigour in the eastern and northern districts of the Province, and with less vigour in Behar and Orissa. Some extraordinarily heavy rainfalls have been reported during the month from East and North Bengal, as the following instances will show. The first burst of the monsoon reached East and North Bengal on the 7th and 8th instant, and on the 7th, Dinhatta in the Cooch Behar district, reported 7·31 inches of rain and Cooch Behar 7·05 inches of rain; again on the 9th Cooch Behar reported 5·82 inches, and on the 10th 6·50 inches. On the 11th Mymensingh received 8·29 inches, and on the 13th 5·04 inches. On the 11th also Bagdogra (Rungpore district) received 6·86 inches. These amounts were, however, surpassed by Dinhatta, which on the 16th reported the excessive amount of 12·05 inches, and lastly on the 21st, Cox's Bazar received 6·84 inches and Chittagong 5·15 inches.

The following table gives the summary of the temperature and rainfall data of each of the seven Meteorological Divisions of the Province for the month of June 1885 :—

Meteorological Divisions.	Temperature.						Rainfall.							
	Highest observed during month.	Lowest observed during month.	Averages for month.			Average mean of month above or below normal mean of month.	Of month.			Rainy days.			Since 15th May 1885.

Explanation.—Indicates that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank.

Calcutta, *the* 14*th July* 1885.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 10TH OF JULY 1885.

At the close of the previous week a good steady monsoon current was blowing from the Bay of Bengal over the whole Province, and was giving rise to good general rainfall in all districts. There were, however, indications that a westerly current was setting in over the western divisions, and it was therefore seen that the Bombay branch of the monsoon was beginning to make itself felt. The Bombay branch of the monsoon steadily advanced in a westerly direction during the following four or five days, and its influence was felt even in some of the eastern districts of the Province On the 9th and 10th the Bay of Bengal monsoon winds began to strengthen, and to drive back the westerly winds which predominated fully as far as the centre of the Province, and on the last day of the week the influence of the westerly current had almost entirely ceased. It will thus be seen that almost throughout the week southerly, south-easterly, and easterly winds have been blowing in the eastern and northern districts, while southerly, westerly, and in some cases north-westerly winds have been blowing in the western and south-western districts. It will of course be noticed that these winds are to a great extent of opposite direction, and the effect of the interaction of these opposing wind currents is to produce ascensional air motion which is followed by expansion and reduction of temperature, and consequent production of rainfall. The conditions during the entire week have therefore been extremely favourable for the production of rain, and consequently in all districts and almost throughout the week rain has been falling and in most cases the amounts have been fairly large.

Pressure was during the previous week almost equal to the normal, it was increasing generally on the first day of the present week, and this was followed by a fall for about two days. After this there was a gradual but steady increase of pressure which lasted till the close of the week; so that the average pressure for the whole week has been in most districts very distinctly above the normal. The actual average variations from the normal for the week have been an excess of 0·04″ in Orissa, and a defect of about 0·01″ in Behar, but the average variation for the whole Province has been an excess of 0·012″.

Temperature has been low in almost all districts and at almost all stations throughout the week. This has of course to a great extent been due to the continued and abundant rainfall which has been received in most districts. At all stations except Hazaribagh the average temperature for the week has been below the normal. In Behar the defect from the normal has averaged about 2°, while in East and South-West Bengal and Orissa the defect has been about 1·5°. In Chutia Nagpur an excess temperature of about half a degree has been registered.

Winds were, as stated above, of the usual southerly, south-easterly and easterly character at the commencement of the week, but this was shortly followed by the setting in of the westerly Bombay current, which advanced as far as Central Bengal by the middle of the week, but which was again driven back by the Bay of Bengal monsoon current at the close of the week. Owing to the interaction of the opposing wind currents, wind velocities have been decidedly low throughout the week, but with the advance of the Bengal current, wind velocities commenced to increase rather rapidly, particularly at the southern and south-western stations.

Rainfall has been more general and more continuous during the present week than in any previous week since the commencement of the monsoon. In fact the rainfall has been so general and frequent in occurrence that about one-half of the registering stations in the Province have received rain on every day of the week. The extreme frequency of the rain showers may be judged by stating that the average number of rainy days at all stations in the Province for the week has been 5·4 or taking up the meteorological districts, Orissa reports an average of five rainy days, South-West Bengal reports on the average 5·6 rainy days, and in East Bengal there have been six rainy days. In North Bengal the rainy days in the week have averaged 6·1, in North Behar 5·7 days, in South Behar 5·2 days, and in Chutia Nagpur there have been only 4·8 rainy days. The rainfalls for the week have also been very heavy, thus Orissa has received 2·77 inches of rain against the normal fall of 2·36 inches, which is equal to 17 per cent. in excess. South-West Bengal has received 4·36 inches against the normal 2·35 inches or 86 per cent. in excess. East Bengal has received an average fall of 5·10 inches against the normal 3·34 inches or 53 per cent. in excess. North Bengal has received no less than 6·24 inches as against the usual fall of 3·72 inches, which is 68 per cent. in excess of the normal. North Behar has received 4·48 inches against the normal fall of 3·3 inches equal to 36 per cent. in excess. South Behar has received 2·70 inches, while the normal fall is 2·47 inches, so it has received 13 per cent. in excess; while Chutia Nagpur has received 4·18 inches against the normal fall of 2·70 inches which is equal to 55 per cent. in excess of the normal.

In some districts the falls have been exceptionally heavy for the week; thus, taking some of the South-West Bengal districts, the Midnapore district has received an average of about 5·6 inches against a normal fall of 2·4 inches, while at Midnapore itself no less than 11·73 inches were registered. The district of Burdwan has received an average of 6·7 inches against the normal fall of 2·05 inches, while Culna and Ranigunge both registered more than 8 inches of rain. The stations of Bankoora, Maliara, Indas and Kotulpore in the Bankoora district have also all registered more than 8 inches of rain during the week. Or taking up some of the North Bengal districts, the district of Julpigoree has received 12·5 inches

against an average of 4·75 inches; while Julpigoree itself reports 17·4 inches for the week, and on one day alone (the 6th) it received 9·61 inches; Buxa also reported 10·4 inches on the same day; the district of Rungpore has received 6·5 inches against the normal 5·5 inches, while Bagdogra has received more than 9 inches. Again in North Behar the Durbhunga district averages 6·5 inches against the normal fall of 4·24 inches, and Behar has received 8·2 inches, and lastly the Chumparun district has received 7·2 inches against the normal 4·79 inches, while Motihari and Bagala have reported between 9 and 10 inches of rain. Taking, then, the whole Province into consideration, it may be said that rainfall has been copious and continuous in almost all districts.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the Province for the week ending Friday, the 10th of July 1885:—

Meteorological Divisions.	Temperature.						Rainfall.									
	Highest observed during week.	Lowest observed during week.	Averages for week.			Average mean of week above or below normal mean of week.	Of week.			Rainy days.			Since 1st of month		Since 1st May 1885.

Meteorological Office, India; *Calcutta, the 13th July* 1885.

Alexander Pedler, *For Meteorological Reporter to the Govt. of India.*

VITAL STATISTICS OF THE PRINCIPAL MUNICIPALITIES IN BENGAL FOR THE WEEK ENDING 27th JUNE 1885.

During the week above mentioned, the birth and death-rates of the principal Municipalities, stood at 21·0 and 28·8 per 1,000 of population. respectively, as opposed to 20·2 and 33·1 per 1,000 during the preceding week ending 20th June, exhibiting a small improvement in the record of births, and a large decline in that of deaths.

2. The following towns returned the highest proportions of births and deaths :—

Births.

	Ratio per *mille.*
Burdwan	45·8
Gya	38·2
Bhagulpore	38·0
Beauleah	36·8

Deaths.

	Ratio per *mille.*
Durbhanga	89·7
Chittagong	53·9
Poori	39·9
Mozufferpore	37·7
Gya	36·9
Bhagulpore	36·2
Patna	35·4
Burdwan	29·0
Suburbs of Calcutta	28·1

3. Referring to the principal death-causes, cholera is stated to have caused the deaths of 6·3 per 1,000 of the population of the Municipalities under notice against 8 2 per 1,000 in the preceding week ; small-pox ·3 against ·8 per 1,000 ; fever 9·6 against 11·6 per 1,000 ; bowel-complaints 4·1 against very nearly the same proportion, viz. 4 2 per 1,000 ; injury ·4 against ·9 per 1,000 ; and "other causes" 8·1 against 7·4 per 1,000, indicating a decline in mortality from all diseases (principally from cholera and fever), excepting the diseases recorded under the head of "Other causes," which proved slightly more fatal.

4. Of the above-mentioned diseases, while bowel-complaints proved noticeably fatal only in the Bhagulpore town at the rate of 13·6 per 1,000 of population, and small-pox, fever, and injury exhibited normal severity, cholera and the diseases recorded under the head of "Other causes" caused the highest mortality in the following Municipalities :—

Cholera.

	Ratio per *mille.*
Durbhanga	56·6
Chittagong	25·8
Mozufferpore	9·7
Burdwan	9·1
Suburbs of Calcutta	6·8
Midnapore	6·2
Dacca	4·5
Howrah	2·9
Gya	2·7

Other causes.

	Ratio per *mille.*
Poori	27·3
Gya	13·7
Durbhanga	13·4
Midnapore	12·4
Patna	11·3
Bhagulpore	10·9

It will be observed from the above figures, that while cholera still prevails with much severity in Durbhanga, the fatal results from it had abated considerably in comparison with its incidence during the preceding week ; and that it prevailed in Chittagong in very severe form.

5. The death-rates in relation to *Sex*, *Class* and *Age* stand as indicated below :—

According to Sex.

	Ratio per *mille.*
Males	29·1
Females	28·4
Ratio of male deaths to every 100 female deaths ...	116

According to Class.

	Ratio per *mille.*
Christians	17·4
Hindus	30·6
Mahomedans ...	25·1
Other classes ...	72·8

According to Age.

	Ratio per *mille.*
Under 1 year ...	228·1
1 and under 5 years ...	46·5
5 „ 10 „ ...	24·2
10 „ 15 „ ...	14·5
15 „ 20 „ ...	12·5
20 „ 30 „ ...	18·0
30 „ 40 „ ...	19·4
40 „ 50 „ ...	19·1
50 „ 60 „ ...	36·6
60 years and upwards ...	51·7

R. LIDDERDALE, M.D., *Deputy Surgeon-General,*
Sanitary Commissioner for Bengal.

* A special census of the Europeans in the Darjiling Municipality was recently taken as the census of this section of the community, taken in February 1881, was not reliab owing to the Europeans being at a minimum in that month. The number of the natives remains as before, as it was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age," the ratios under which have been omitted, inasmuch as the census of the Europeans [illegible] form of age classification.

Allen Meabs,

Jamalpur, the 9th July 1885. *Dy. Traffic Manager.*

General Remarks on the fluctuation of principal staples carried over the East Indian Railway during the month ended 30th May 1885.

INCREASES.

Wheat.—Owing to firmer advices from th · home markets there were large transactions in the purchase of wheat for delivery in May, which led to this increase.

Seeds.—Good prices in the Calcutta and Bombay markets, and a fair demand for export, account for the increase in these staples.

Coal and coke.—The increase in upwards coal is attributable to heavy demand from foreign railways, and the small increase in downwards traffic is assignable to larger despatches to Calcutta for use of river steamers and for local consumption.

Railway Material, Foreign.—This increase is accounted for by the construction of the Bolan State Railway.

Sugar.—The increase in this staple is due to a better demand in the mofussil markets.

Stone.—Large despatches of stone were made from the principal quarries to Allahabad, Patna Ghat, and Howrah for public buildings resulting in this increase.

Gunny.—The increase in this commodity is accounted for by the improved traffic in wheat and seeds.

Opium.—This is attributable to more opium having been manufactured than in the corresponding period of 1884.

Tobacco.—Brisk markets in the Upper Provinces led to an increase under this head.

Government Stores.—Larger despatches than in May 1884 account for the increase.

Cotton.—The small increase noted against this staple may be attributed to ordinary fluctuation of trade.

Saltpetre.—The price of this artic e having improved is the reason of this increase.

DECREASES.

Piece-goods.—Tightness of money, several failures in the bazar, and political uncertainty, have all contributed to cause a decrease in the import of piece-goods.

Rice (husked and unhusked).—The falling off in this traffic is due to poor crops last season owing to scanty rainfall in Bengal.

Salt.—The heavy despatches made in March last to the Patna and Behar districts may be assigned as the reason for this decrease.

Iron.—This small decrease may be attributed to ordinary fluctuation of trade.

ALLEN MEARS, *Deputy Traffic Manager.*

PART I.

Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

No. 2608A.

GENERAL.—*The 17th June* 1885.—Mr A. C. Brett, District and Sessions Judge, Mozufferpore, is allowed leave for three months, under the note to rule 2, section 73, chapter V of the Civil Leave Code, with effect from the 14th August next.

The 13th July 1885.—Moulvi Syed Obedullah, Deputy Magistrate and Deputy Collector, Backergunge, is allowed leave for twenty-eight days, under section 72, chapter V of the Civil Leave Code, with effect from the date on which he availed himself of it.

The 14th July 1885.—Mr. F. W. Duke, Assistant Magistrate and Collector, Hooghly, is transferred to Beerbhoom, and is posted to the sudder station of that district.

The 17th July 1885.—Baboo Kunja Behary Chatterjee, B.A., is appointed to act, until further orders, as a Deputy Magistrate and Deputy Collector, and is posted to the sudder station of the district of Bankoora.

The 18th July 1885.—Mr. Horace A. Cockerell, C.S.I., Member of the Board of Revenue, is allowed leave for twenty-six days, under section 72, chapter V of the Civil Leave Code, with effect from the 19th August next.

The 20th July 1885.—Baboo Deno Nath Chuckerbutty, Deputy Magistrate and Deputy Collector, Sarun, is allowed leave for twenty-one days, under section 72, chapter V of the Civil Leave Code.

Moulvie Syed Wajid Hossein, Sub-Deputy Collector, Hajipore, Mozufferpore, is allowed leave for one month, under section 72, chapter V of the Civil Leave Code, with effect from the 23rd instant.

Mr. F. Wyer, Magistrate and Collector, Dacca, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code, with effect from the 14th August 1885.

Mr. A. A. Wace, C.S., has been granted by Her Majesty's Secretary of State for India an extension of furlough for four months.

The 21st July 1885.—Mr. H. H. Risley is appointed to act as Secretary to the Government of Bengal in the Revenue and General Departments, during the absence, on leave, of Mr. A. P. MacDonnell, or until further orders, with effect from the afternoon of the 11th July 1885.

Mr. F. W. Duke, Assistant Magistrate and Collector, Beerbhoom, is vested with the powers of a Deputy Collector.

In modification of the order of the 24th January last, Baboo Umesh Chunder Banerjee, Deputy Magistrate and Deputy Collector, Rajmehal, Sonthal Pergunnahs, is allowed leave for thirty days, under section 72, chapter V of the Civil Leave Code, with effect from the 7th February 1885.

Mr. R. M. Towers, Officiating District and Sessions Judge, Midnapore, is promoted to the first grade of District and Sessions Judges, with effect from the 8th May 1885, *vice* the Hon'ble H. Beverley.

Mr. T. D. Beighton, Joint-Magistrate and Deputy Collector, on furlough, is appointed to be a District and Sessions Judge of the second grade, with effect from the 8th May 1885, *vice* Mr. R. M. Towers.

Mr. C. W. Bolton, Under-Secretary to the Government of Bengal, is appointed to be a Joint-Magistrate and Deputy Collector of the first grade, with effect from the 8th May 1885, *vice* Mr. T. D. Beighton.

Mr. Bolton will continue to act as Magistrate and Collector of Gya until further orders.

Mr. E. N. Baker, Officiating Under-Secretary to the Government of Bengal, is confirmed in that appointment, with effect from the 8th May 1885, *vice* C. W. Bolton.

Mr. E. H. C. Walsh, Assistant Magistrate and Collector, Burdwan, is vested with the powers of a Deputy Collector.

Mr. C. W. E. Pittar, Assistant Magistrate and Collector, Dacca, is vested with the powers of a Deputy Collector.

Mr. S. J. Douglas, Officiating Joint-Magistrate and Deputy Collector, is posted temporarily to the sudder station of the 24-Pergunnahs district.

This cancels the order of the 7th April 1885, posting him to the sudder station of the district of Chittagong.

Mr. A. Ahmed, Assistant Magistrate and Collector, Patna, is vested with the powers of a Deputy Collector.

NOTIFICATION.

The 20th July 1885.—It is hereby notified for general information that an election will be held, under section 27, Act III (B.C.) of 1884, on the 10th August 1885, in Ward No. IV of the Madaripore Municipality, in the district of Furreedpore, for the purpose of filling up the vacancy caused by the failure of Baboo Prasanna Kumar Kundu Sarkar to attend six consecutive meetings of the Commissioners of that municipality.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 20th July 1885.—Whereas a notification, dated the 5th May 1885, was published at page 427, Part I of the *Calcutta Gazette* of the 13th idem, declaring the intention of the Lieutenant-Governor to sanction the extension of the provisions of Part VI of Act III (B.C.) of 1884 to the Khoolna Municipality, and whereas no objection has been raised to such extension within one month from the date of the publication of the notification within the municipality, it is hereby notified that, in the exercise of the power vested in the Local Government by section 221 of the above Act, and in accordance with the recommendation of the Commissioners of the said municipality made at a meeting, the Lieutenant Governor directs that Part VI of the Act be extended to the municipality of Khoolna with effect from the 1st October 1885.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st July 1885.—Whereas a notification was published in the *Calcutta Gazette* of the 20th May last, declaring the Lieutenant-Governor's intention to sanction the levy, by the Commissioners of the Sherepore Municipality, in the district of Bogra, under section 143, Act III (B.C.) of 1884, of a fee not exceeding Rs 4 for a year, or Rs. 2 for a half-year, on the registration, under section 142 of the Act, of all carts kept or habitually used within the municipality; and whereas no objection has been raised to the proposal within one month from the publication of the above notification within the municipality, it is hereby notified for general information that, under section 86 of the Act, the Lieutenant-Governor sanctions the levy of the fee.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 16th July 1885.—In supersession of the notification, dated the 6th ultimo, published at page 552 of Part I of the *Calcutta Gazette* of the 10th idem, the Lieutenant-Governor is pleased to direct the substitution of the following scale of provisions for lascars and native seamen on board foreign-going and home-trade ships for that published in the above notification :—

DAILY SCALE OF PROVISIONS FOR LASCARS AND OTHER NATIVE SEAMEN SHIPPED FROM MADRAS, BENGAL, AND BRITISH BURMA.

	Quantity per man. lbs. oz. drs.		Quantity per man. lbs. oz. drs.
(*a*) *For home-trade ships*—			
Rice	1 12 0	Ghee	0 2 0
Dâl	0 6 0	Salt	0 0 8
Ghee	0 2 0	Curry stuff	0 1 0
Chillies	0 0 4	Dry fish 4 oz. at sea, and fresh meat 4 oz. in harbour ...	0 4 0
Garlic	0 0 8	Vegetables, dry* at sea and fresh in harbour, with meat twice a week	0 6 0
Salt	0 0 8	Tamarind	0 1 0
Turmeric	0 0 8	Tea	0 0 4
Dry fish	0 4 0	Sugar	0 1 8
Onions	0 0 8	Lime-juice	0 1 0
Water	8 pints.	Oil (mustard)	0 0 12
(*b*) *For foreign-going ships*—		Water	6 pints daily.
Rice	1 6 0		
Flour	0 10 0		
Dâl	0 6 0		

* NOTE.—By the words "vegetables dry at sea," potatoes, onions, pumpkins, and yams are meant.

In bad weather, when it is impossible to cook, 6½ oz. biscuits and 2 oz. sugar, in addition to the quantity provided in the scale, may be substituted for the ration of rice and dâl.

When a lascar is ill and off duty, biscuits, tea, and sugar should be given to him with arrowroot or sago, as needed.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 18th July 1885.—Mr. John McKellar, Assistant Engineer-Surveyor at the Port of Calcutta, is appointed Surveyor of Steam Vessels in the Port of Calcutta under Acts V of 1862 and I (B.C.) of 1868, and of Steam Vessels under Act VIII of 1876. NOTICE TO MARINERS.—(No. 45.)

INDIAN OCEAN.

SUMATRA—WEST COAST.

BATOE ISLANDS.

Reef southward of Pasakie Islets.

INFORMATION has been received from the Admiralty, London, that the Netherlands Government has given notice of the existence of a reef lying about two miles southward of Pasakie Islets, Batoe Islands.

This reef, on which the Netherlands India steam-ship *Graaf Van Bijlandt* struck, is stated to be composed of coral, and to lie with the following bearings :—

Pasakie Besaar	...	...	...	N by E.
Pasakie Ketjil	...	...	...	NNW ¾ W.
Kasi islet	...	...	...	N ¾ W.

Approximate position.—Latitude 0° 01′ S.; longitude 98° 36′ 30″ E.

NOTE.—Mariners should use caution when navigating between Pulo Pinie and Tanah Masa, as shoals, yet uncharted, are reported to exist.

The Bearings are Magnetic.

BAY OF BENGAL—EAST COAST.

ORISSA COAST.

BALASORE RIVER.

Disappearance of the Bar Buoy.

TELEGRAPHIC information has been received from the Collector of Customs, Balasore, that the *white, wooden* buoy, with *spire and basket,* marking the outer bar at the entrance to the Balasore river, has disappeared.

By direction of the Government of Bengal,

ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 20th July* 1885.

NOTIFICATION.

The 17th July 1885.—It is hereby notified for general information that the Lieutenant-Governor intends, in the exercise of the powers vested in him by section 180 of Act IX (B.C.) of 1880, to confirm the following additional bye-law, which has been framed by the District Road Committee of Hooghly at a meeting, unless good reasons are shown to the contrary within one month from the date of the publication of this notification :—

Bye-law.

IX.—Whoever shall ease himself on the crest or berm of any road shall be liable to a fine not exceeding Rs. 10.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

NOTIFICATION.

The 21st July 1885.—It is hereby notified for general information that the Lieutenant-Governor proposes, unless any valid objection is shown within a month from this date, to substitute the following revised rules for the working of the Treasure Trove Act (VI of 1878) in place of those published at page 1223 of the *Calcutta Gazette* of the 20th November 1878 :—

1. The notification under section 5 (*a*) shall be published at the Collector's cutcherry, sub-divisional cutcherry, Munsif's cutcherry, and police station within the jurisdiction of which the treasure was found, and at some conspicuous spot in the village in which it was found.

2. On receipt of any application under section 4, or on receipt of information from any person other than the finder that treasure has been found, the Collector shall report the fact to the Commissioner, stating—

(1) name of finder;
(2) nature of treasure and number of coins, if any;
(3) approximate value;
(4) date of finding;
(5) whether the treasure, being coin, has been acquired under section 16, or whether it is recommended that Government should acquire the treasure.

A copy of this report shall be sent to the Asiatic Society at Calcutta for information.

3. In the case of information being given by a person other than the finder, the Collector shall issue a notice under section 5(*b*) of the Act on the person informed against to show cause why he should not be prosecuted for not giving the required notice; and in the event of no cause being shown, the Collector shall take such further action as may seem expedient.

4. All notices under section 5 shall be served at the cost of Government.

5. On receipt of the Collector's report, the Commissioner will, if he thinks the property ought to be acquired by Government, report the case for the orders of the Board of Revenue. This rule does not apply to cases where *coins* are the property found.

6. Collectors shall *ordinarily* acquire, under section 16 of the Act (without its being necessary for them to obtain the sanction of higher authority), the whole of any coins found, whether gold, silver, or copper, that appear to be old and not of British mintage.

Explanation.—These include coins struck at Calcutta, Moorshedabad, Benares, Surat, Arcot in the name of Shah Alum, dated 19th Juloos.

7. If for any special reasons, such as the largeness of the quantity found, or the coins being known to be of merely metal value, the Collector considers it unnecessary to acquire the whole of the coins found. he shall, in the report mentioned in Rule 2 above, state (sixthly) why he considers that the whole of the coins found need not be acquired on behalf of Government.

8. On receipt of the report, the Commissioner, if he thinks that the whole of the coins found should not be acquired, shall report the case for the orders of Government.

9. Coins acquired under section 16 of the Act shall be sent to the Asiatic Society at Calcutta, and the Society shall report to this Government the number and nature of the coins, and their probable numismatic value.

10. Collectors are empowered to purchase, otherwise than when proceeding under the provisions of the Treasure Trove Act, any coins of the age and description stated in Rule 3 above, when they are less than Rs. 10 in value, on payment of a sum equal to the value of the materials of the coins, together with one-fifth of such value. Coins so purchased shall be treated in the manner described in the last section.

11. All fines levied under this Act shall be credited to Land Revenue, "Miscellaneous," and any treasure which vests in Government under section 20 or 21 shall, unless it be such as it is thought advisable for Government to retain, be sold by public auction to the highest bidder under the orders of the Commissioner, and the proceeds be credited to the above head.

12. All Commissioners and Collectors should append a paragraph to their land revenue annual reports stating whether any applications have been presented during the year under report under section 4, or any proceedings taken before the Magistrate under section 20 or 21, or under Rule 10 above.

H. H. RISLEY,
Offg. Secy. to the Govt. of Bengal.

[Second Publication.]

NOTIFICATION.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS—(No. 41.)

BAY OF BENGAL—CHITTAGONG COAST.

SOUTH PATCHES.

Breaking adrift of the Automatic Sound Buoy.

NOTICE is hereby given that the Automatic Sound Buoy, laid in 10 fathoms of water, about a quarter of a mile from the reef called South Patches, has broken adrift.

Note.—Great caution is therefore necessary when passing the shoals.

By direction of the Government of Bengal,
ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 8th July* 1885.

[Second Publication.]

NOTIFICATION.

The 14th July 1885.—The following Notice to Mariners is published for general information.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF BENGAL, MUNICIPAL (MARINE) DEPARTMENT.

NOTICE TO MARINERS.—(No. 42).

SOUTH COAST OF ARABIA.

GULF OF ADEN.

Discontinuance of blue lights from Aden Light-ship.

NOTICE is given by the Port Officer of Aden that the *blue lights* exhibited, on a vessel entering the Inner Harbour of Aden at night, from the Aden light-ship, will be discontinued from and after the 1st August 1885.

Note.—Masters of vessels are warned to be cautious in entering the harbour during the night.

By direction of the Government of Bengal,
ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 11th July* 1885.

NOTICE TO MARINERS.—(No. 39.)

INDIA—SOUTH COAST.

MADRAS PRESIDENCY.

Wreck in Tuticorin Roadstead.

WITH reference to Notice to Mariners No. 52, issued from this Department on the 17th September 1884, further information has been received from the Port Officer, Madras, that the main mast of the steamer *Galatia* has fallen down, leaving the wreck unmarked.

NOTE.—It is recommended that great caution should be exercised by inward-bound vessels in approaching the anchorage in Tuticorin Roadstead at night, or during the prevalence of thick weather, and vessels should on no account come under 6 fathoms of water (low-water).

By direction of the Government of Bengal,
ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 2nd July* 1885.

NOTICE TO MARINERS.—(No. 40.)

BAY OF BENGAL—COAST OF ARAKAN.

PORT OF AKYAB.

Replacement of the Bar buoy.

WITH reference to Notice to Mariners No. 35, dated the 17th June 1885, issued from this Department, the Port Officer of Akyab has intimated by telegraph that the bar buoy marking the entrance to the Port of Akyab has been replaced in position on the 2nd July 1885.

By direction of the Government of Bengal,
ARTHUR W. STIFFE, *Captain*, I.M.,
Port Officer of Calcutta.

PORT OFFICE, *Calcutta, the 4th July* 1885.

[Third Publication.]

NOTIFICATION.

The 3rd July 1885.—In exercise of the powers conferred upon him by section 19 of the Indian Forest Act, VII of 1878, the Lieutenant-Governor hereby declares the lands described below (which, on the 19th June 1883, were notified as proposed reserves) to be reserved forests with effect from the 1st September 1885.

District.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Banpūr range, Arang block.	*North.*—From the Sália river at the boundary between Khorda and Killah Ranpūr eastward following the demarcated and revenue survey boundary on Ranpūr of mouzahs Kūnda-Khái and Dhūánali to the triple junction of Dhūánali and Sandhamál in Khorda with Killah Ranpúr. *East.*—Thence along the eastern survey boundary of Dhūánali to the triple junction of the mouzahs Sandhamál, Parmúl and Dhūánali. *South.*—Thence along the south-eastern demarcated and surveyed boundary of Dhūánali and Aráng on mouzahs Barmūl, Patrapūr, Barsercipūr and Berūáñbári of Sima Champájhar to the Bhibhūtiá Ghāti. *West.*—From the triple junction pillar of Jūáliá-ámbo, Aráng and Berūáñbári following the Bhibhūtiá Ghāti and surveyed and mapped boundary between Aráng, Jūáliá-ámbo and Kiágorará to the foot of the hills, east of the Kiágorará village; thence in an easterly direction skirting the Aráng and Dhūánali valley along the base of the hills; thence along the northern limits of the valley and the base of the hills to the road from Dhūánali to Kūndá Khái, about half a mile north of the Dhūánali village; thence northward along the said road to the demarcated and surveyed boundary line between Aráng and Náthpūr; thence along the said road to the Sália river; thence following the Sália river up to the starting point.
Pooree ...	Khorda ...	Banpūr range, Támná block.	*North west.*—From the triple junction pillar of Ankūla, Baldiábhiri and Báhárápūt along the north-western demarcated and revenue surveyed boundaries of mouzahs Báhárápūt, Bárikatá, Krūshnatará, Dūmdūmi and Sílingpará of the Bara mal to the Támná Hill Great Trigonometrical Survey hill mark on the boundary of Killah Nayágarh; thence along the demarcated and surveyed boundary between Sílingpara and Kūndá Khái in Khorda on Killahs Nayágarh and Ranpūr to the Sália river. *East and South.*—The Sália river and Aráng block to where the road from Dhūánali to Kūndá Khái crosses the river; thence due west to the nala at the foot of the Sílingpará and Náthpur Hill, south of the village of Sílingpará; thence following the nala and skirting the cultivated lands of Sílingpará to the base of the Támná range of hills; thence west along the base of the said hills and excluding the Sílingpará cultivation to the nala west of Sílingpara village; thence south to the triple junction pillar of Náthpūr, Sílingpara and Dūmdūmi; thence following the demarcated and surveyed eastern boundary of Dūmdūmi on Náthpūr and Aráng to the triple junction pillar of those villages with Ráipará; thence along the southern surveyed boundary of Dūmdūmi to the triple junction pillar with Ráipará and Niladriprasád; thence following the demarcated and surveyed boundary between Dūmdūmi and Niladriprasád to the triple junction pillar of those villages with Krūshnatará; thence to the triple junction pillar of Krūshnatará, Niladriprasád and Katūripata; thence skirting to the north of the new village of Krūshnatará to the triple junction pillar of Krūshnatará, Katūripatá and Jiripará; thence along a demarcated line in a south-westerly direction skirting the north of the cultivated lands of Jiripará to a survey station on the boundary between Jiripará and Phásipará; thence skirting to the north of the cultivated lands and village of Phásipará to another survey station between Phásipará and Báhárápūt; thence along a demarcated line west for 20 chains, then south for 60 chains to the main cart road from Bhátpará to Niladriprasád; thence following the cart road to the Patharā Nadi, and for about 20 chains south where the road from Ankūlá meets the road from Bhátpará; thence along the said road to the starting point.

DISTRICT.	Pergunnah or other sub-division.	Name of forest..	Boundaries.
Pooree ...	Khorda ...	Banpūr range, Katūál block.	*North.*—From the triple junction pillar of Baldiábhiri, Núágáôn and Katūál along the demarcated and surveyed boundary of Katūál to the road from Núágáôn to the Birijai Thákuráni's temple. *East.*—Thence along the said road past the said temple to where the road meets the Thárіápali and Katūál boundary; thence following the demarcated and surveyed boundary of Katūál on Kháriápali and Bighnapūt to the junction pillar of Katūál Bighnapūt, Bánkiápalá and Tálbarohi. *South.*—From the said junction pillar westward following the southern demarcated and surveyed boundary of Katūál on Tálbarohi, Sán Núágáô and Bhátpará to the triple junction pillar with Bhūjiá-barbará. *West.*—Thence along the western demarcated and surveyed boundary of Katūál on Bhūjiá-barbará and Baldiábhiri to the starting point.
Pooree ...	Khorda ...	Banpūr range, Bankár block, late Bamdebpur block.	*North.* From the Salia river, where the Niladriprasád and Raipara cart road crosses it, along a demarcated line following the northern base of the Bankár Hills to a small nala close to the village of Raipará; thence along a demarcated line following the base of the Bankár Hills through Raipará, Bháliápará, *Jūáliambá* and skirting the cultivation of those villages to the Bhibutia Ghati at the point on the Jūlia-amba and Sán-Sereipūr road where that road crosses the demarcated and surveyed boundary between Aráng and Bankár Garh. *East.*—Thence to the triple junction pillar of Aráng, Bankár Garh and Bórūáôbári; thence southward to the triple junction pillar of mouzahs Trilochanpūr and Sán-Sereipūr of Sima Champájhar and Bankár Garh of the Aráng mal, following the demarcated and surveyed boundaries of those mouzahs. *South.*— From the above-named triple junction between Trilochanpūr and Sán-Sereipūr and Bankár Garh, following the demarcated boundary of Sán-Sereipūr to the triple junction of Sán-Sereipūr, Bankárpali and Bankár Garh; thence following the Bankár Nala and road across the Bankár pass to the Pankiá Nala in Naiápali. *West.*—From the Pankiá Nala along a demarcated line following the base of the hills to the north of the Rigirisimah village to the Salia river; thence along that river and the base of the Bankár Hill to where the Niládriprasád and Raipara cart road crosses the river.
Pooree ...	Khorda ...	Kūhūri range, Kūhūri block.	*North.*—From the junction of a nala in mouzah Goripara with the Kusmi river on the boundary of Killah Ranpūr to the east, following that river to the triple junction of Kandgáriá, Goripará and killah Ránpúr; thence south along the demarcated boundary between Kandgáriá and Goripará to a permanently marked survey station; thence eastward through Kandgáriá passing to the north of the Boitá Hill and skirting the cultivated and settled lands of Kandgáriá to a survey station on the boundary between Jaritáp and Kandgáriá; thence eastward passing to the north of a little hill to another survey station on the b undary between Tútambarpali and Jaritáp. *East.*—Thence southward along a demarcated line following the revenue survey boundary between Tútambarpali and Jaritáp past the triple junction of those mouzahs with Talgarh Kuhuri to a forest boundary pillar about 6 chains to the south of the said triple junction; thence west for 15 chains to the revenue survey boundary between Talgarh Kúhúri and Mahujhar; thence along a demarcated line leaving the Mahujhar boundary to the east to the triple junction pillar of Talgarh Kúhúri, Digitpará and Mahujhar, thence along the revenue survey boundary between Digitpará and Mahujhar to the junction pillar of those mouzahs with Brúshaband and Ariápara. *South.*—From the abovenamed junction pillar westward for 50 chains along the revenue survey boundary between Ariápará and Mahujhar; thence nearly due west for about 48 chains to where the cart road crosses the revenue survey boundary of Ariápará and Kūnjari; thence north-east following the cart track and skirting to the east of the cultivated lands of Kūnjari to the triple junction pillar of Mahujhar, Kūnjari and Goripará.

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
Pooree ...	Khorda ...	Kuhuri Range Kuhuri block.	*West.*—From the last named triple junction pillar northward following the revenue survey boundary between Mahujhar and Goripará for about 27 chains; thence along a demarcated line skirting the cultivated lands and village site of Mahujhar east and north to the cart road from Kandgariá to Goripará; thence along a demarcated line north of the Goripará village and orchard and south of the little hill near the village to the cart road; thence north-west skirting the Goripará cultivated lands to the starting point on the Kusmi river.
Ditto ...	Ditto ...	Ditto ditto, Sulia block.	*North.*—From the survey boundary pillar between the Khumlá mal in Banpūr and killah Ranpur near the cart road from Khumla to Patia in Ranpur eastward following the revenue survey demarcated, surveyed and mapped boundary of Khumlá and Raipará in Banpar on killah Ranpūr to the triple junction pillar of Raipará zillah Banpur, Mundila, zillah Kūhūri, and Killah Ranpūr. *North-East.*—From the triple junction of Raipará, Mundila and killah Ranpūr along a demarcated line running south-east following the cart road to the south of the Mundila Tank No. 367 on the cadastral map of Mundila; thence continuing south-east along the said cart road to the cultivated lands Nos. 316-317, &c., of Mundila; thence skirting the said lands to the Revenue survey boundary between Mundila and Suliapali; thence along the said boundary to the triple junction pillar of Mundila, Dhoba, Dhobani, and Suliapali; thence along the survey boundary between Mundila and Dhoba Dhobani back to the cart road; thence eastward along a demarcated line following the said cart road to the survey boundary between Dhoba Dhobani and Harindihi; thence skirting the cultivated lands of Harindihi back to the said cart road; thence south-eastward following the cart road to the triple junction pillar of Harindihi; Khairpali and Moramari; thence from the said triple junction pillar along a demarcated line skirting to the south of the cultivated lands of Moramari to the Gorarajhari cart road; thence north to the triple junction pillar of Khairpali, Moramari and Gorarajhari; thence along a demarcated line through Kairpali to the triple junction pillar of Khairpali, Kunjari and Malakdia; thence skirting to the east of the hills excluding the Kunjari and Malakdia village and cultivation along the eastern margin of the Nakoi Bundh to the junction pillar of Akaspali, Belpará, Malakdiá and Gorarajhari; thence southward along a demarcated line skirting to the west and south of the Belpará cultivation to the junction of the two nalas; thence along a demarcated line skirting to the east of the Belpará cultivation to the cart road south of the triple junction of Akáspali, Belpará and Jaimangalpur; thence following the cart road and excluding the settled lands of Jaimangalpur to a forest boundary pillar at the triple junction of fields Nos. 961, 962, and 699 of Jaimangalpur. *South.*—From the said Forest Boundary pillar along a demarcated line following the base of the Kochila hill to the triple junction pillar of Jaimangalpur, Belpara, and Jariput; thence along a demarcated line skirting to the north, west, and south of the cultivated lands of Jariput back to the boundary between Jariput and Jaimangalpūr about 16 chains south of the above triple junction near the Kūápará nala; thence along the said boundary for 6½ chains; thence westwards across Jariput following a demarcated line to the boundary between Jariput and Gorarajhri north of field, No. 28 on the cadastral mapaof Jariput; thence along the said boundary between Jariput and Gorarájhari to the triple junction of Jariput, Belpará and Górarájhari; thence westwurd and northward along a demarcated line to the Akáspali and Gorarájhari cart road; thence along the said cart road excluding orchard No. 58 of the map of Gorarajhari to the Malakdiá boundary and western margin of the Nakoi Bundh; thence along the survey boundary between Gorarajhari and Malakdia to a survey station at north-west end of the bundh; thence southward and westward along a demarcated line following the base of the

DISTRICT.	Pergunnah or other sub-division.	Name of forest.	Boundaries.
			Dūmdūmi hill to the north of the Gorarájhari Malua village and paddy cultivation to the cart road from Gorarájhari to Khairpali; thence skirting to the north of the Gorarájhari cultivation to the boundary of that village with Kandhámbajhar; thence along a demarcated line through Khandhámbajhar to the south-west base of the Kasa-ambo hill in Moramari; thence along a demarcated line through Moramari to the north of the cultivated lands to the Sulia nala; thence westward along a demarcated line to the triple junction pillar of mouzahs Manái, Gamái, and Raipará; thence along the boundary between the Raipará and Manái to a forest boundary pillar on the Ajgur nala, 25 chains west of the said triple junction. *West.*—From the said forest boundary pillar northward following the survey boundary of Raipará on Manái to the junction pillar of Raipará, Manái, Dinabandhūpūr, and Khumlá mál; thence following the survey boundary and Áská nala, north for 33 chains to a forest boundary pillar; thence westward along the base of the hills along a demarcated line for about 35 chains to the cart road leading into Ranpur; thence north along the said cart road for about 42 chains to the starting point on the boundary of Ranpūr.
Pooree. ...	Khord ...	Khorda range, Panchgarh block.	*North.*—From a Forest boundary pillar on the surveyed and maped boundary between Khairpali and Khothpali, eastward along a demarcated line between the base of the hills and Barā Bundh, then skirting the cultivated lands of Kūspala to another forest boundary pillar at a survey station on the boundary between Khairpali and Kūspala; thence along a demarcated line eastward to the margin of the cultivated field 1946—1978, &c., of Kūspala; thence skirting to the south of the cultivation to a forest boundary pillar about two chains east of field No. 1176 on the cadastral map of Kūspala; thence along a demarcated line northwards skirting between the hills and the cultivation to the Balai nala on the boundary between Kūspala and Pankálsáhi; thence along a demarcated line eastward to a boundary pillar near the south-east corner of mango orchard No. 140—908; thence northward to a pillar on the cart road from Pankálsáhi; thence following the said road and skirting the cultivation along a demarcated line to the south-east corner of field No. 900—917; thence along a demarcated line southward including mango orchard No. 899 to a forest boundary pillar on the surveyed boundary between Pankálsáhi and Mardábári on the southern margin of plot No. 2077; thence eastward along a demarcated line to a forest boundary pillar on the Bálibaniá nala; thence southward along a demarcated line skirting field No. 2083 and orchard No. 2466 to a boundary pillar in orchard No. 2475 near the head of the Khandia nala; thence along a demarcated line to a boundary pillar on the outer boundary of mouzah Mardábari, zillah Manikágorá, killah Khordá, on killah Ranpūr. *East.*—Thence southward along the demarcated surveyed and mapped boundary of killah Khorda on killah Ranpūr to the crest of the Nipániá Range; thence following the said boundary to the Nipániá Peak; thence following the crest of the Nipániá and Dadhináūti range along the said boundary to a survey station; thence nearly south to the Saithbháiá G. T. S. H. M., the triple junction of killah Ranpūr, Nayagarh, and Khorda. *South.*—Thence westward along the demarcated, surveyed and mapped boundary on Nayagarh along the crest of the Sáthbháiá, Santangar, and Gothmará ranges to the crest of the Gothmará hill. *West.*—From the boundary pillar on the said Gothmará hill along the demarcated, surveyed and mapped boundary of Khairpali on killah Nayagarh to the triple junction pillar of Khairpali, Kothpala and killah Noyagarh; thence following the surveyed and mapped boundary between Khairpali and Kothpalá northward to the starting point.

A. P. MACDONNELL,
Secy. to the Govt. of Bengal.

DECLARATION.

The 14th July 1885.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz. for constructing a square at Taltolla Bazar, it is hereby declared that for the above purpose a piece of land, No. 48, Jaun Bazar Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 19 cottahs 6 chittacks and 40 square feet, is required. The land is bounded as follows:—On the north partly by Jaun Bazar Street and partly by No. 48, Jaun Bazar Street; on the south by No. 49, Jaun Bazar Street; on the east partly by No. 49, Jaun Bazar Street, and partly by No. 48, Jaun Bazar Street; and on the west partly by public drain, partly by No. 47, Jaun Bazar Street, and partly by No. 48, Jaun Bazar Street.

Plan and specifications of the land to be acquired are filed in the office of the Municipal Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

DECLARATION.

The 20th July 1885.—Whereas it appears to the Lieutenant-Governor of Benga that land is required to be taken up by Government at the expense of the Bankoora Municipality for a public purpose, viz. for the construction of a rest-house for the pilgrims on the side of the new pilgrim road, in the village of Jinakone, within the Bankoora Municipality, it is hereby declared that for the above purpose a piece of land measuring, more or less, 7 cottahs and 6½ chittacks of standard measurement is required. The land is bounded on the north by the track leading to the pilgrim road; on the south, east, and west by the *patit* land belonging to Prosad Dass.

This declaration is made, under the provisions of section 6 of Act X of 1870, to al whom it may concern.

J. WARE EDGAR,
Offg. Secy. to the Govt. of Bengal.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

[Second Publication.]
NOTIFICATION.

The 27th June 1885.—Under section 3 of the Mofussil Small Cause Court Act, XI of 1865, the Local Government is pleased to alter the territorial limits of the jurisdiction of the Burrisal Small Cause Court by the addition thereto of thanas Mehdigunge (Alligunge) and Gournadi, and of outpost Augarpur.

The jurisdiction of the aforesaid Small Cause Court will thus be conterminous with that of the sudder munsifi of Backergunge, and will comprise the following thanas, viz :—

1. Burrisal.
2. Nulchitty.
3. Jhalacatty.
4. Backergunge.
5. Alligunge (Mehdigunge).
6. Gournadi.

The above alteration will take effect from the 1st August 1885, inclusive.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

[Second Publication.]
NOTIFICATION.

The 4th July 1885.—It is hereby notified, under section 5 of Act III of 1 (the Indian Registration Act), that the sub-district of Julpigoree, in the district of Julpigoree, comprises the following thanas :—

Julpigoree.
Patgram.
Mainagori.
Shikarpore.
Kairuntee.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

[Second Publication.]
NOTIFICATION.

The 7th July 1885.—It is hereby notified that the Lieutenant-Governor has been pleased to sanction the extension of the provisions of section 34 of Act V of 1861 to the towns of Gopalgunge and Hajiapore, in the Gopalgunge sub-division, in the district of Sarun.

The following are the boundaries of the towns of Gopalgunge and Hajiapore :—

GOPALGUNGE.

North.—By village road from Saryea to Hajiapore canal bridge.
East.—By Gunduk river from Hajiapore canal bridge to the bridge on Baterde road.
South.—By Baterde road.
West.—By main road and a permanent footpath from encamping ground to Bhoojhawan Singh's tola.

HAJIAPORE.

North.—By village road to Walepore.
East.—By sesum tree belonging to Deoki Singh, tanks belonging to Mohan Singh and Gunga Prosad Singh.
South.—By jack tree belonging to Ramdut Doobay, semal tree belonging to Dusrath Baruwar, and a tope belonging to Gopal Panday.
West.—By part of village road to Manickpore.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 1st July 1885.—It is hereby notified for general information that the police station of Bhowanigunge, in the district of Rungpore, has been removed to Gyebanda in that district, and has been converted into an outpost subordinate to the police station of Sadullapore. The outpost will in future be designated the Gyebanda outpost.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

HIGH COURT NOTICES.

Issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

Rule No. 12, *dated the 1st June* 1885.

Posting receipts of A Deposits.

83 The figures in the Subordinate Courts' monthly detailed statement of A deposits received shall be entered by the District Judge in his own Register of Deposits received, and shall be numbered in continuation of his own series, their original numbers being also noted below the district numbers for subsequent reference.

The Judge should examine the receipts, so as to see that no item has been improperly held in deposit; and if he finds amounts so held which should be credited to Government, he should direct the Subordinate Court.

For Rule 83, chapter III, page 65, Civil Rules and Orders (page 32 of the Account Rules), substitute the following :—

83. The Subordinate Courts' monthly detailed statement of A deposits received shall be attached by the District Judge to his own Register of Deposits received after he has closed the accounts of the Civil Courts at the sudder station. The District Judge will also number the deposits in the Subordinate Courts' return in continuation of his own series.

CIVIL.

Rule No. 13, *dated the* 3*rd June* 1885.

After Rule 4 and before Rule 5, Chapter I, page 3, Civil R. and O., insert the following:—

4 A [*Chapter XV, C. C. P.—Suits in which Government Officers are parties to be decided out of turn.—Rule No.* 13 *of* 3*rd June* 1885].—All suits in Civil Courts, for the prosecution or defence of which persons in the service of Government, officers in the army or soldiers have obtained leave of absence, shall be disposed of by such Courts as soon as they are ripe for hearing, irrespectively of the order in which they may stand in the register, and as speedily as may be consistent with the due administration of justice.

Published in the *Calcutta Gazette* of the 13th May 1885, Part I, page 446, and in the *Assam Gazette* of the 16th May 1885, Part III, page 198.

CRIMINAL.

Rule No. 4, *dated the* 25*th June* 1885.

At page 105, Cr. R. and O., at the end of Chapter V, insert the following:—

CRIMINAL PROCEDURE CODE (ACT X OF 1882.)

8. [*Section* 276, *C. C. P.—Rules for the selection of Jurors by lot from the persons summoned to act as such.—Rule No.* 4 *of* 25*th June* 1885.]—The following rules, made under the authority conferred by section 276, Act X of 1882 (Code of Criminal Procedure), are laid down for the guidance of the Subordinate Criminal Courts:—

Courts of Session.

I.—In order to nominate a jury for the trial of any prisoner, or other person to be tried by jury, the Sessions Judge shall cause to be put together in one box cards or pieces of paper containing the names of all the persons summoned to attend, except such of the said persons as shall have been excused by the Sessions Judge from serving on that day in consequence of their having served as Jurors on the previous days, or for any other cause. Such cards or pieces of paper shall be, as nearly as may be, of equal size, and each shall bear the name of one person summoned to attend. The Sessions Judge shall then, in open Court, draw, or cause to be drawn, out of the said box, one after another, as many of the said cards or pieces of paper as may represent the number of Jurors required to try the case;* and if any of the Jurors whose names shall be so drawn shall not appear, or if any be objected to, and the objection be allowed, then such further number shall be drawn as may be necessary to complete the number of Jurors required for the case.

* The number of jurors has been fixed as follows (section 274, Cr. P. C.):—

(1.) When accused is a European (not a European British subject) or an American, the jury shall consist:—

(*a*) of five persons in the following districts, viz:—

Burdwan.	Moorshedabad.	Sarun and Chumparun.
Midnapore.	Dacca.	Monghyr.
Hooghly.	Patna.	Bhagulpore.
Howrah.	Shahabad.	Cuttack.
24-Pergunnahs.	Tirhoot.	

(*b*) of three persons in the following districts, viz:—

Bankoora.	Furreedpore.	Balasore.
Beerbhoom.	Backergunge.	Hazaribagh.
Nuddea.	Mymensingh.	Lahardugga.
Jessore.	Sylhet.	Singbhoom.
Dinagepore.	Cachar.	Manbhoom.
Maldah.	Chittagong.	Goalparah.
Rajshahye.	Noakholly.	Kamroop.
Rungpore.	Tipperah.	Darrang.
Bogra.	Gya.	Nowgong.
Pubna.	Purneah.	Sibsagar.
Darjeeling.	Sonthal Pergunnahs.	Luckimpore.
Julpigoree.	Pooree.	

(*Notification, Government of Bengal,* 4*th January* 1873, "Calcutta Gazette," 22*nd ib., Part I, page* 152.

(2) When accused is not a European or American, the jury shall consist of five persons in all the districts to which the system of trial by jury has been, or may hereafter be, extended.

(*Notification, Government of Bengal,* 4*th June* 1873, "Calcutta Gazette," 11*th ib., Part I, page* 741.)

(3) When accused is a European British subject, the jury shall consist:—

(*c*) of five persons in the districts named in the subjoined List A, and of three persons in the districts named in List B:—

LIST A.

Bhagulpore.	Hooghly.	Mozufferpore.
Burdwan.	Howrah.	Nuddea.
Chittagong.	Jessore.	Patna.
Chumparun.	Lohardugga	Purneah.
Dacca.	Midnapore.	Sarun.
Durbhunga.	Monghyr.	24-Pergunnahs.
Hazaribagh.	Moorshedabad.	

LIST B

Backergunge.	Furreedpore.	Pooree.
Balasore.	Gya.	Pubna.
Bankoora.	Julpigoree.	Rajshahye
Beerbhoom.	Khoolna.	Rungpore
Bogra.	Maldah.	Shahabad.
Cuttack.	Manbhoom.	Singbhoom.
Darjeeling.	Mymensingh.	Sonthal Pergunnahs.
Dinagepore	Noakholly.	Tipperah.

(*Notification, Government of Bengal,* 17*th June* 1885.

II.—In cases in which not less than one-half of the jury must be either Europeans or Americans (section 460, C. C. P., and section 451, C. C. P, read with section 7, Act III of 1884), or both Europeans and Americans (section 451, C. C. P., read with section 7, Act III, 1884), the Jurors shall be chosen as follows :—

First.—Not less than one-half of such jury shall be chosen by lot, in the manner prescribed by Rule I, from a box containing the names of only Europeans or Americans, or Europeans and Americans, until the necessary majority is complete.

Second.—To the names of Jurors not so chosen shall then be added the names of all the other Jurors summoned to attend, and the number necessary to complete the jury shall then be chosen by lot in the manner prescribed by Rule I.

III.—In cases in which not less than one-half of the jury must be neither Europeans nor Americans (section 275, C. C. P.), the Jurors shall be chosen as follows :—

First.—Not less than one-half of such jury shall be chosen by lot, in the manner prescribed by Rule I, from a box containing the names only of such persons as are neither Europeans nor Americans, until the necessary majority is complete.

Second.—To the names of Jurors not so chosen shall then be added the names of all the other Jurors summoned to attend, and the number necessary to complete the jury shall be chosen by lot in the manner prescribed by Rule I.

IV.—When the Jurors have been finally selected, their names shall be entered on the fly-leaf prescribed for records of Sessions trials (page 220, Cr. R. and O.), the "foreman" (section 280, C. C. P.) being specially designated as such.

District Magistrates' Courts.

V.—The above rules *mutatis mutandis* shall apply to the selection of Jurors in cases before District Magistrates, in which the accused is a European British subject, and claims to be tried by a mixed jury (section 451 (*a*), C. Cr. P.) Such Jurors shall be selected from the persons summoned, under the provisions of section 462 of the Code, to attend for the purposes of the trial.

General Letter No. 11, dated Calcutta, the 24th June 1885.

From—C. A. WILKINS, Esq., Registrar,
To—The District Judge of

THE Court having had several references from local officers as to the effect of Circular Order No. 8, dated 21st April 1885,* upon previous instructions as to the arrangement of the papers in a civil record, I am directed to give the following explanations on the subject for the guidance of yourself and your subordinates.

* Page 307, Civil R. & O.

2. It is not the intention of Circular Order No. 8, dated 21st April 1885, that the order of entry in the fly-leaf or index should be the order of arrangement in the record. The dates of filing of the documents should be entered in column 4 of the fly-leaf in chronological order; but the documents themselves should be arranged in the record according to the programme laid down in General Letter No. 14, dated 29th December 1881, Part III, which is reproduced in the last page of Rule No. 10, dated 18th May 1885.†

† Page 305, Civil R. & O.

3. I am to add that this programme must also be followed in filling up column 1 of the index. The serial number, though entered day by day as the trial proceeds, must have in view the final arrangement, each paper being numbered by anticipation according to its final resting place in the record. In this way the serial number in column 1 would be a safe guide to the resulting record. For example, if immediately after filing his plaint the plaintiff filed a *vakalutnamah*, the latter document, though put in second in order of time, would not bear the serial No. 2, but the serial number which marks its place in the prescribed programme, viz. 13. Under this number later *vakalutnamahs* would also be ranked, and might bear the Nos. 13 (*a*), 13 (*b*), and so on.

General letter No. 12, dated Calcutta, the 25th June 1885.

From—C. A. WILKINS, Esq., Registrar,
To—All Civil Judicial Officers.

WITH reference to General letter No. 9 of the 5th May last, I am directed to forward, for your information and guidance, the accompanying extracts from the Travelling Allowance Code, 1885 :—

Section 27.—A daily allowance is intended to cover the ordinary daily charges of an officer on tour. It is drawn only during absence from head-quarters on duty, including the period of halts on duty, or on an authorized holiday during such absence

Section 31 (*c*).—An officer of the third class, not included in schedule F, is entitled to a daily allowance of 2 annas for every 12½ rupees or fraction of 12½ rupees of the pay, or maximum pay of the appointment which he holds, subject to a minimum of 6 annas in the Bombay Presidency and of 4 annas elsewhere.

Section 32.—An officer may, for any day on which he travels, draw, in lieu of his daily allowance, the travelling allowance admissible under the Rules in Chapters X to XII.

Section 67.—For journeys by road officers are entitled to mileage allowances at the following rates:—

Officers of the 1st class	...	...	...	...	... 8 annas.
,, ,, 2nd ,,	...	...	...	...	... 4 ,,
,, ,, 3rd ,,	...	...	...	...	... 2 ,,
,, ,, 4th ,,	...	...	...	...	... 1 anna.

provided that a ministerial officer (except in cases of transfer) is only entitled to actual travelling expenses not exceeding the rate for his class.

General letter No. 13, dated Calcutta, the 30th June 1885.

From—C. A. WILKINS, Esq., Registrar,
To—The District and Sessions Judge of

I AM directed to state, for your guidance and for that of the Courts subordinate to you, that cases of contempt under chapter XXXV of the Criminal Procedure Code, in which the Civil Court itself punishes the offender by a fine not exceeding Rs. 200, under section 480, Act X of 1882, should find no place in any of the Criminal Statements, as such cases never come before either Magistrates or Sessions Judges.

2. They should, however, appear in (Civil) Annual Statement No. 4, Part II (Misc. Judicial), as laid down in the list* appended to Cl. (p.), Rule 117, Chapter III of the Civil Rules and Orders.

* *See* 13th entry, page 128.

SMALL CAUSE COURT NOTICE.

UNDER section 14, Act XI of 1865, notice is hereby given that, subject to the orders of the Government, the Judge of the Courts of Small Causes at Kushtea, Meherpur, and Chuadanga will hold sittings in the month of August 1885 as mentioned below, exclusive of Sundays and holidays:—

From	1st to 16th	...	...	...	... Kushtea.
,,	17th to 23rd	...	...	...	... Meherpur.
,,	24th to 31st	...	...	...	... Chuadanga.

PORESHNATH BANERJEE, *Offg. Judge.*

MEHERPUR SMALL CAUSE COURT, *the* 19*th July* 1885.

TREASURY NOTICE.

BABOO JOGENDRO NATH BANERJEA, Deputy Collector of Mymensingh, has been placed again in charge of the Mymensingh Treasury, on return to his duties from leave, *vice* Baboo Shama Churn Das, Deputy Collector, and is authorized to draw bills on other treasuries.

W. R. LARMINIE, *Offg. Commissioner.*

DACCA COMME'S. OFFICE, *the* 13—15*th July* 1885.

MEDICAL DEPARTMENT, BENGAL.

No. 5646. —*The* 17*th July* 1885.—Assistant Surgeon Radha Raman Ghose, attached to the sub-division and dispensary at Ranegunge, is allowed leave for three months, under section 72, chapter V of the Civil Leave Code.

No. 5648.—*The* 17*th July* 1885.—Assistant Surgeon Gopal Chundra Mukerjee, a Supernumerary at the Presidency, is appointed temporarily to have medical charge of the sub-division and dispensary at Raneegunge, during the absence, on leave, of Assistant Surgeon Radha Raman Ghose, or until further orders.

No. 5712 —*The* 21*st July* 1885.—Assistant Surgeon Ganes Chandra Mitra, a Supernumerary at the Presidency, is appointed to be House Physician, Second Physician's Ward, Medical College Hospital, *vice* Assistant Surgeon Narayan Chunder Basu.

A. J. COWIE, *Inspr.-Genl. of Civil Hospitals, Bengal.*

ECCLESIASTICAL.

The following orders, issued by the Government of India in the Home Department, are republished for general information.

H. H. RISLEY,
Offg. Secretary to the Govt. of Bengal.

No. 103, dated Simla, the 20th June 1885.

NOTIFICATION—By the Government of India, Home Department.

THE following revised rules (1) for the care and use of Government cemeteries throughout India, except those in the Presidency Town of the Diocese of Calcutta; (2) for the levy and expenditure of fees on graves and monuments in cemeteries and churches throughout India; (3) for the levy of other ecclesiastical fees; and (4) for regulating grants for the building of churches, compensation for accommodation for soldiers in chapels neither belonging to, nor rented by, Government, and for the supply of church furniture are published for general information and guidance:—

I

Rules for the care and use of Government Cemeteries throughout India except those in the Presidency Town of the Diocese of Calcutta.

CHARGE OF THE CEMETERY.

RULE I.—(1) The Resident Chaplain of a station has charge of the general cemetery and frames an estimate of the expenditure connected therewith in accordance with the directions contained in paragraph 1, Home Department* Resolution No. 6—370-382, dated 9th November 1876.

* Appendix A.

(2) The term "Resident Chaplain" includes a Clergyman of the Additional Clergy Society so far as concerns the stations to which he stands appointed, or other Clergyman of the Church of England placed in charge by the Bishop.

(3) During the temporary absence of the Chaplain, and at stations where there is no Resident Chaplain, the charge of the cemetery belongs to the Chief Magistrate on the spot, or the senior Military Officer if the cemetery is attached to a military cantonment.

(4) At out-stations where there is a Church Committee, the charge of the cemetery will belong to the senior member of Committee, and where there is no such Committee, to any subordinate officer nominated by the Magistrate or Deputy Commissioner of the district.

RULE II.—Each cemetery is allowed a mali-chowkidar or chowkidars in accordance with the scale prescribed in paragraph 2, Home Department Resolution* No. 6—370-382, dated 9th November 1876. These chowkidars are paid by Government through the Resident Chaplain by whom they are appointed and dismissed. In stations where there is no Resident Chaplain, the chowkidars are paid, appointed, and dismissed by the other officers named in Rule I.

* Appendix A.

RULE III.—Every reasonable effort should be made by the Resident Chaplain or other officer in charge under Rule I, not only to keep the cemetery in decent order, but to preserve its character as the resting-place of the remains of departed friends by providing for the necessary repairs and by planting the ground with suitable trees.

NOTE.—To meet the expenditure under this Rule, see Rule I, and paragraph 1 of Home Department Resolution* No. 6—370-382, dated 9th November 1876.

* Appendix A.

RULE IV.—The chowkidar will keep the key of the cemetery under the direction of the officer in charge.

RULE V.—The officer who has charge of the cemetery under the operation of Rule I will perform all the duties assigned to the Chaplain by Rules VII, VIII, IX, X and XI, with the exception of the approval of the inscriptions in that part of the cemetery reserved for the Church of England. These are to be forwarded to the visiting Chaplain, or, if there be none, to the Archdeacon, and not cut till his sanction be obtained. Should an inscription be disapproved, it may be referred, if those interested desire this, to the Government for decision.

INTERMENTS BY WHOM TO BE CONDUCTED.

RULE VI.—(1) The Chaplain will bury Christians of all denominations whose friends desire his services as laid down in the orders of the Government of India in the Home Department* No. 159, dated the 6th June 1877, using always the service of the Church of England, and the consecrated portion of the cemetery.

* Appendix B.

(2) A portion of every cemetery will be set apart by the orders of Government for the use of Roman Catholic congregations, and another portion will be appropriated for the

joint use of other Christians whose friends desire that they should be interred otherwise than according to the ritual of either the Church of England or of the Church of Rome, or who cannot legally be so interred.

(3) The unconsecrated portions thus set apart are not to be fenced or walled off from the rest of the cemetery, but simply divided off by a pathway, and they must be added to the existing cemetery or reserved from it If the existing cemetery be large enough for the wants of the whole Christian community, such portions will be reserved without reference to the fact that the whole enclosure has or has not been consecrated according to the rites of the Church of England. If the cemetery be only large enough for the wants of Christians desiring to be buried with the service of the Church of England, such portions will be added. The whole cemetery thus divided is to be surrounded by a wall, to have but one gate of entrance, and to be under the care of the officer specified in Rule I.

RULE VII.—(1) Ministers of all denominations have a right to conduct the service of burial over the body of any deceased member of their respective congregations who may be buried in any fitting portion of the ground set apart for the denomination to which the deceased belonged. At least six hours' previous notice of the burial should be given to the Chaplain in charge of the burial-ground, or, in the absence of the Chaplain, to the officer who may be in actual charge. The period herein prescribed may, for special reasons, be shortened with the permission of the Chaplain or officer in charge of the cemetery. Such Chaplain or officer will, if he thinks the circumstances of the case demand it, bring the facts to the notice of the local magisterial authorities in time to admit of an order stopping the burial being passed if necessary.

(2) A certificate of burial drawn up according to the required form must be sent to the Chaplain or to the Registrar of Births, Marriages, and Deaths, to be entered in the register kept up by him.

RULE VIII.—(1) No burial can, as a general rule, take place in that part of a Government cemetery which has been set apart for the use of members of the Church of England, unless the service prescribed by that Church is read by the Chaplain, if there be one, or, in his absence, by the layman who officiates at the funeral. But a person may be interred in the other portions of a Government cemetery with or without the use of any services of religion.

(2) Where in that part of a Government cemetery which has been set apart for the use of members of the Church of England there is a family vault, or grave, or a reserved plot of ground purchased by a member of the family, or a masonry grave prepared in immediate contiguity to such family vault or grave, or reserved plot, any deceased member of a family may, if the relative, friend, or legal representative having charge of the funeral arrangements shall so desire, be interred in such family vault, grave, or reserved plot without the performance of the service for the burial of the dead according to the rites of the Church of England.

(3) The burial may take place at the option of the person having charge of the same either without any religious service or with such Christian and orderly religious service at the grave as such person shall think fit; and any person or persons who shall be thereunto invited, or be authorized by the person having charge of such burial, may conduct such service or take part in any religious act thereat.

(4) Notice of any burial which it is intended to conduct under the provisions of clauses (2) and (3) shall be given to the Chaplain or other officer in charge of the burial-ground in the manner prescribed by Rule VII.

ARRANGEMENTS FOR BURYING.

RULE IX.—The arrangements for making the necessary preparations for digging graves, preparing coffins, and the like, will rest in military stations upon the senior military officer, and in civil stations upon the chief local Magistrate. These officers are authorized to direct any local Public Works officer to supply all that is necessary. The local Public Works officer would usually be the Executive Engineer of Military Works in military stations, and the Civil Executive Engineer in other stations. The expenditure incurred by the Executive Engineer will be held in his miscellaneous advance account until repaid by the officer authorizing the expenditure. But in cases of necessity or emergency, either officer may be called upon to do what is required.

RULE X.—The officer in charge of the cemetery shall keep a plan of the entire cemetery to be provided by the Public Works Department, with references written upon it in a book in which the names of parties interred are recorded, this plan and book being kept with the Church registers.

NOTE.—The Executive Engineer prepares a plan of the cemetery showing on it all the existing graves and the spaces allotted for future graves, and giving them all consecutive numbers.

RULE X-A.—The officer in charge of the cemetery may reserve grave space, as limited by Rule XI below, on the application of near relatives of persons already buried in the cemetery and for the burial of the persons named in the application. A double ground fee shall be levied in advance before granting any such application, and each grant shall be registered in a book to be kept for the purpose and indicated on the plan. The ground will then be reserved for 10 years. Before the expiry of that period, a fresh application should be made and a further double fee paid, failing which the ground will be resumed.

RULE XI.—The size of each grave, whether of masonry or not, is limited to $9' \times 4'$, and the area of ground to be enclosed must not exceed $11' \times 7'$ by external measurement.

RULE XII.—(1) All graves must be at least 6 feet in depth.

(2) No body shall be buried in any vault or masonry grave which it is intended at any after time within 14 years to re-open unless the coffin be separately entombed in an air-tight manner by properly cemented stone or brick-work, which shall never be disturbed.

(3) One body only shall be buried in a grave at one time, unless the bodies be those of members of the same family.

(4) No non-masonry grave or masonry grave unprovided with the separate air-tight compartment prescribed in clause (2) shall be re-opened within 14 years after the burial of a person above 12 years of age, or within 8 years after the burial of a child under 12 years of age, unless to bury another member of the same family, in which case a layer of earth not less than one foot thick shall be left undisturbed over the previously buried coffin. If on re-opening the grave any soil is found to be offensive, such soil shall be left undisturbed.

(5) There shall never be less than 3 feet of earth between the topmost coffin in a grave and the surface of the ground.

ERECTION AND REPAIR OF MONUMENTS.

RULE XIII.—Monuments may be erected by any interested person. The inscription before being cut, and the design, when the monument is other than a simple headstone, must be first approved of as laid down in Rule V.

RULE XIV.—When a grave is not of masonry throughout, the only monument ordinarily allowed over it is a simple cross or headstone on an adequate masonry foundation, not exceeding 3′ × 2′; and the whole structure must not stand higher than 3′ 6″ from the ground-level. But with the permission of the officer in charge of the cemetery, a monument, such as may be erected over a masonry grave, may be placed over a non-masonry grave, when adequate masonry foundations are provided on which the monument may rest.

RULE XV.—No monument, of whatever material constructed, shall exceed 8′ × 4′ at the base without the previous sanction of the Local Government.

RULE XVI.—No monument of *masonry* shall stand higher than 3 feet from the ground-level.

RULE XVII.—No cenotaph shall be more than 6 feet square at the base.

RULE XVIII.—The enclosure of ground round a grave must be by a metal railing, or by chains or bars of metal supported on masonry or metal pillars. Wooden or masonry enclosures are not permitted. The previous sanction of the Archdeacon, or, in his absence, of the Bishop, is necessary to the enclosure of a non-masonry grave: and no such sanction will be given unless the same fees are paid as for the construction of a masonry grave.

RULE XIX.—When a monument needs repairing, the officer in charge of the cemetery should communicate with the friends of the deceased, or when such communication is not possible, advertise three times in the *Gazette of India* and the Gazette of the Province; and if it falls into a ruinous condition, and no person will undertake to restore it, the ruined monument shall be made level with the ground during the next repairs, and any slab it contained will be placed over the grave in simple masonry, or be inserted in the wall of the cemetery.

NOTE.—(1) This rule does not apply to monuments of historical or archæological interest. Lists of such tombs should be obtained by Local Governments and Administrations, and as many of them as may be properly preserved at the public expense should be looked after by the local Public Works Department.

(2) The cost of the advertisements in the Gazette is met by the Government.

(3) In the Bombay Presidency a person, other than a British soldier or a non-commissioned officer, desiring to erect a monument over a grave is required to pay into the treasury a sufficient sum of money to be invested in Government securities, so that the interest on it will be sufficient to cover the cost of repairs annually. A British soldier or a non-commissioned officer is not compelled to make a deposit; but in the event of money for repairs not being forthcoming, Rule XIX is held to apply.

RULE XX.—All work connected with monuments must, as far as possible, be carried on outside the cemetery, and any undertaker not removing the debris of his work immediately upon its completion is liable to a fine of Rs. 5.

INSPECTION.

RULE XXI.—The cemetery should be inspected once in a half-year by the Chaplain in company with the Executive Engineer, the plan and book kept under Rule X being also examined, and a report made to the Archdeacon, and recorded in the Ecclesiastical record-book of the station, and also in the Engineer's office.

RULE XXII.—(1) Commissioners of Divisions should inspect cemeteries, whether closed or in use, within their respective jurisdictions, in the course of their annual tours, and should bring to the notice of the Local Government any instances of cemeteries which are negligently kept, or which the officers in charge may have allowed to fall into a state of bad repair or disorder. All cemeteries are equally subject to the visitation and supervision of the Bishop and Archdeacon.

(2) Sanitary officers in cantonments are invited to inspect cemeteries within their respective cantonments and to report to Local Governments any matter calling for notice.

MISCELLANEOUS.

RULE XXIII.—It is desirable that officers commanding regiments or detachments should be instructed to cause a report to be made to the nearest civil officer of graves dug for

soldiers on march, that measures may be taken for their effectual protection and preservation. These graves and all scattered Christian graves throughout the district are under the care of the local civil authorities.

RULE XXIV.—The above rules do not apply to Presidency cemeteries which are regulated by special rules.

II

Rules regarding fees in Cemeteries and Churches throughout India.

RULE I.—The following are the rates of fee chargeable :—

	Rs.	A.	P.
(1) For every square foot of ground occupied by a grave ...	0	8	0
NOTE.—This fee is independent of the actual charge for making a grave.			
(2) For a masonry monument, per square foot	1	0	0
(3) For a cut-stone or marble monument, per square foot ...	0	8	0
Provided that no fee under (2) or (3) shall be less than ...	5	0	0
(4) Additional fee when a cut-stone or marble monument stands higher than 3 feet from the ground-level ...	16	0	0
(5) For a headstone or cross over a non-masonry grave ...	5	0	0
(6) For a faculty for the erection of a monument in a church	75	0	0
NOTES.—(1) A tablet on the wall of a cemetery shall be regarded as a monument. (2) The term "stone or marble" does not include "slate." (3) The fee of Rs. 75 levied on a faculty is in all cases to be spent in charity.			
(7) For a cenotaph, in addition to the ground fee, a special fee of	50	0	0

RULE II.—Fees are leviable over the whole cemetery, including those portions which are used by Roman Catholics and Non-Conformists.

NOTES.—(1) The same rules in regard to fees apply to all graves, whether of Roman Catholics, of Non-Conformists, or members of the Established Church.

(2) Where a parcel of ground used for burial by a Christian community of any particular denomination other than the Established Church of England forms no part of the general cemetery, but is separate from it, or where, although not so separate, it is clearly distinguishable and was not originally acquired, and has not been kept up at the expense of the State, then, if the community by which the ground is used so desire, the Government will give up all claim to fees, on the distinct understanding that it is divested of all responsibility for the maintenance of the cemetery in proper order. On the other hand, where such parcels of ground form part of a cemetery of the Established Church or the general Christian community, provided and maintained by the Government, no distinction can be made as to keeping up any one part of the cemetery, nor should any exemption from fees be permitted.

EXEMPTION FROM FEES IN GOVERNMENT CEMETERIES.

RULE III.—British soldiers and non-commissioned officers are exempted, with retrospective effect, from the payment of any fee for the construction of graves, or for the erection of monuments in burial-grounds to the memory of their comrades, wives, or children; but not from the fees prescribed under Rule I (6) and (7). The widows and children of British soldiers and non-commissioned officers are also exempted from payment of the former class of fees in the case of their deceased husbands and parents. No monument, either regimental or private, shall exceed the dimensions prescribed in Part I of these rules.

NOTES.—(1) This rule is applicable to British soldiers and non-commissioned officers, whether in military or civil employ.

(2) Monuments erected under this rule, subscribed for partly by non-commissioned officers and men, and partly by officers, are likewise exempted from the prescribed fee.

(3) Warrant officers and volunteers are not exempted from payment of ecclesiastical fees.

RULE IV.—The Chunar pensioners being more or less under military control come under the category of soldiers, and are therefore entitled to the same exemptions as soldiers. But this ruling does not apply to other pensioners who are not similarly under military control.

RULE V.—The Chaplain may at his discretion reduce, or in cases of extreme poverty altogether remit, the fee leviable on the construction of graves, but not for the erection of monuments.

NOTE.—The Bishop on special occasions may sanction a reduction or remission of fees for the erection of monuments.

FEES BY WHOM TO BE COLLECTED.

RULE VI.—In those stations in which a mason has been appointed, who alone is allowed to work within the cemetery, he is required, in exchange for the monopoly, to collect the fees on monuments and masonry graves and pay them to the Chaplain: and any person ordering the construction of a masonry grave or monument by a mason or undertaker other than the person appointed by the Chaplain must pay the fees in advance.

NOTE.—Fees on masonry graves and monuments constructed by the appointed mason or undertaker need not be paid in advance, but in case of failure of payment, their recovery must be entrusted by the Chaplain to the Magistrate or Deputy Commissioner as the case may be.

FEES TO WHOM TO BE PAID.

RULE VII.—The fees prescribed in Rule I should be paid to the Chaplain or, in the absence of the Chaplain, to the officer in charge of the cemetery and remitted at once to the civil treasury, except fees for monuments in Churches which should be paid over by the Chaplain to the charitable objects to which the Bishop assigns them when his faculty is issued.

CEMETERY RECEIPTS AND CHARGES.

RULE VIII.—All cemetery receipts and charges are to be regulated as laid down in paragraph 4 of Home Department Resolution* No. 6—370-382, dated the 9th November 1876.

* Appendix A.

MISCELLANEOUS.

RULE IX*.—(1) A person may not purchase a portion of a Government cemetery as a burial-place for himself and his family so as to have a right to fence it with a rail or fence, and thus make it the private property of himself and family. But when such rights already exist, they are not without reason to be interfered with, and special cases as they arise may require exceptional treatment. In such special cases the Archdeacon may exercise his discretion with the sanction of the Local Government.

(2) All private rights must, however, cease, if, for sanitary or other public reasons, the cemetery is closed against burials, or even that portion of it in which the private ground is situated; but in special cases the Archdeacon may exercise his discretion of giving permission to open a vault or masonry grave.

(3) No cutcha grave can be opened in any cemetery for the purpose of converting it into a masonry grave without application to the Archdeacon, which must be accompanied by a certificate from the Principal Medical Officer that this may be done without risk to public health.

---

* From MR. JAMES SUTHERLAND, to the Officiating Secretary to the Government of India, dated, 10, Clive Row, Calcutta, the 20th December 1877.

A Mr. Joseph Gill came out to this country with letters of introduction to me, and died very suddenly at the General Hospital, Calcutta. On a reference from the Hospital authorities I had his body interred in the Catholic portion of the Military burial-ground at Bhowanipur. His widow, now resident in Paris, writes to me to have his body exhumed and buried in a family vault in the Roman Catholic Church at Dhurrumtollah: but I am advised that the Garrison Chaplain, under whose care the burial-ground is, requires the sanction of Government (Home Department) before permitting this to be carried out, and I would be much obliged if you would be good enough to give me the necessary sanction.

As the body will be interred in another grave without loss of time, I would also be obliged if you would dispense with the necessity of a zinc coffin, which, from its imperishable nature, is likely to form a serious obstruction in a family vault.

From F. C. DAUKES, ESQ., Under-Secretary to the Government of India, to the Secretary to the Government of Bengal, No. 1, dated Fort William, the 3rd January 1878.

I am directed to forward the accompanying letter, dated the 20th ultimo, from Mr. James Sutherland, asking for permission to remove the body of one Joseph Gill from the Military burial-ground at Bhowanipur for re-interment in a family fault in the Dhurrumtollah Roman Catholic Church, and to enquire what is the rule or practice in such cases, and whether there is any objection to permission being granted to remove the body for re-interment.

From H. H. RISLEY, ESQ., Under-Secretary to the Government of Bengal, General Department, to the Officiating Secretary to the Government of India, No. 377, dated Calcutta, the 25th January 1878.

With reference to your office letter No. 1 of the 3rd instant, and its enclosure, on the subject of the removal of the body of Joseph Gill from the Military burial-ground at Bhowanipur for re-interment in a family vault in the Dhurrumtollah Roman Catholic Church, I am directed to submit herewith a copy of a letter (*a*) from the Venerable the Archdeacon of Calcutta, and to say that, under the conditions specified therein, the Lieutenant-Governor thinks that permission to remove the body may unobjectionably be granted.

(*a*) No. 702, dated 18th January 1878.

From the VEN'BLE J. BALY, Archdeacon, Calcutta, to the Secretary to the Government of Bengal, No. 702, dated Mozufferpore, the 18th January 1878.

With reference to your note No. 122 of 8th January 1878, forwarding copy of letters relating to the removal of a body from the Bhowanipur cemetery to the Roman Catholic Church in Dhurrumtollah, I have the honour to say that there is no Government order bearing exactly on such a case, but that there is a regulation recently passed that no cutcha grave should be opened for the purpose of converting it into masonry grave or vault without previous reference to the Archdeacon, and the certificate of the Principal Medical Officer that no risk would be incurred thereby to the public health.

If this is certified with respect to the removal of the body referred to, and the Roman Catholic authorities make no objection to its re-interment in the Dhurrumtollah Church, I see no particular reason why the removal should not be sanctioned. I think, however that the coffin should certainly be cased with a zinc covering while it is being removed, which could be taken away, if necessary, when the coffin is finally deposited in the vault.

From J. O'KINEALY, ESQ., Officiating Secretary to the Government of India, to MR. JAMES SUTHERLAND, 10 Clive Row, Calcutta, No. 44, dated Fort William, the 31st January 1878.

In reply to your letter dated the 20th ultimo, I am directed to say that the Governor-General in Council is pleased to grant permission for the removal of the body of Joseph Gill from Military burial-ground at Bhowanipur for re-interment in a family vault in the Dhurrumtollah Roman Catholic Church on the following conditions:—

(1) That you obtain a certificate from the Principal Medical Officer at the Presidency that no risk to the public health will be incurred by the removal of the body.

(2) That the Roman Catholic authorities have no objection to the re-interment of the body in the Dhurrumtollah Church; and

(3) That the coffin be encased in a zinc covering while it is being removed, which covering may be taken off when the coffin is finally deposited in the vault.

No. 45.

Copy to the Government of Bengal for information, with reference to letter thence, dated the 25th instant, No. 377.

No. 46.

Copy to the Venerable the Archdeacon of Calcutta for information.

RULE X.—(1) When a piece of ground is granted by Government as a cemetery to a Railway Company for the interment of its own servants, which afterwards keeps it in repair and provides the necessary establishment, so that beyond the original grant of ground Government is at no expense, the collection and application of fees accruing are left to the decision of the Railway Company which maintains the cemetery in good order and repair.

(2) The Commissioner or district or judicial officer, and in military stations the officer commanding, should inspect such cemeteries and report to Government if they find them negligently kept.

III

Other Ecclesiastical Fees.

RULE I.—No fees are charged for the performance of the rite of baptism or burial, or for the registration of the performance of these offices.

RULE II.—In addition to the fee for the Surrogate's license, a fee of Rs. 10 shall be charged on all marriages by license, except the marriages of officers and others in the Military or Naval Service of Her Majesty.

RULE III.—The fee for a Surrogate's license shall be Rs. 50 both at the Presidency towns and in the interior. No fee shall be charged on marriages by banns.

RULE IV*.—When registers are searched and a copy of any entry given, a fee of one rupee shall be charged for the first year,† and four annas for every additional year over which the search may extend; as well as a fee of one rupee for the certificate. Soldiers, sailors, and non-commissioned and petty officers are exempted from payment.

† The first year shall be taken to mean any one year indicated by the applicant.

NOTE.—(1) The amount of fees payable for marriages performed, and for searching registers kept in accordance with the provisions of Act XV of 1872 (The Indian Christian Marriage Act), is fixed by each Local Government.

(2) The Chaplain may at his discretion reduce or altogether remit in cases of extreme poverty the fee for searching registers.

---

* Government of India, Finance Department Notification No. 1603, dated the 9th June 1882.

In exercise of the powers conferred by section 8 of the Indian Stamp Act (I of 1879), the Governor-General in Council is pleased to remit the stamp duty (if any) chargeable on copies of, or extracts from, baptismal, marriage or burial registers certified by Government Chaplains, subsidised or unsubsidised Clergymen, or Diocesan Registrars and granted to—

(1) soldiers, sailors, or non-commissioned or petty officers;

(2) or persons in needy circumstances, in whose favour Chaplains may exercise the discretionary power vested in them by Rule IX (*a*) of the Ecclesiastical Fee Rules published on the 29th September 1869, and may grant exemption from the payment of fees under Rule IV (*b*) of those rules.

(*a*) Rule IV, note (2), above.
(*b*) Same as Rule IV above.

Government of India, Finance Department Notification No 2036, dated 30th June 1882.

Whereas copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates, granted by Ministers and Marriage Registrars, are generally furnished on printed forms for which impressed sheets of stamp paper cannot be used without inconvenience: therefore in exercise of the powers conferred by section 9 of the Indian Stamp Act, 1879, the Governor-General in Council is pleased to make the following rule:—

The stamp duty payable under Article 22 of Schedule I of the Indian Stamp Act, 1879, on copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates shall be denoted by means of adhesive court-fee labels.

Government of India, Home Department Resolution No. 3—173-187, dated the 11th September 1882.

Read again—

Financial Department Notification No. 2036, dated the 30th June 1882, ruling that the stamp duty payable under the Indian Stamp Act, 1879, on copies or extracts certified to be true copies or extracts of baptismal, marriage, and burial certificates should be denoted by means of adhesive court-fee labels.

Financial Department Notification No. 1603, dated 9th June 1882, remitting the stamp duty (if any) chargeable on copies of, or extracts from, baptismal, marriage, and burial registers certified by Government Chaplains, subsidised or unsubsidised Clergymen or Diocesan Registrars, and granted to certain classes of persons therein specified.

Read also—

A letter from the Officiating Senior Chaplain of the Church of Scotland, No. 58A., dated the 5th July 1882, on the same subject.

RESOLUTION.—In connection with the orders contained in the above-mentioned Notification issued by the Department of Finance and Commerce, the following questions have now been raised by the Officiating Senior Chaplain of the Church of Scotland:—

(1) in what way the adhesive court-fee labels prescribed by the Notification, dated the 30th June last, should be defaced; and

(2) whether, in a case of a certificate granted to a person belonging to any of the classes exempted by the Notification dated the 9th June last, anything should be written on the certificate to show why it has been granted without the payment of stamp duty.

2. As regards the first question, the Governor-General in Council is pleased to direct that the officer issuing the certificate shall cancel the adhesive court-fee label affixed thereto by writing his name across it; and with regard to the second question, His Excellency in Council considers it desirable that a statement signed by the officer issuing the certificate should be made thereon, showing the grounds on which such certificate is issued without the payment of stamp duty.

IV.

Rules for regulating grants for the building of Churches; compensation for accommodation for soldiers in Chapels neither belonging to, nor rented by, Government; and for the supply of Church furniture.

RULE I.—All State charges for Churches are provided from Public Works funds.

In civil or military stations, such charges are to be dealt with under the general head "Civil Buildings." In the case of churches in stations where there are military cantonments and the military works are under the charge of the Inspector-General, and in the case of churches in provinces to which the Provincial Service arrangements do not apply, the necessary funds should be provided from the ordinary grant for Imperial Works under "Civil Buildings, Roads and Services." In other cases the funds should be provided for from the allotment for Provincial Services.

For churches at, or appertaining to, State Railway stations, the necessary funds should be provided from the capital of the railway concerned.

RULE II.—The provision of churches from Public Works funds is authorized under the limitations given in the following rules:—

MILITARY STATIONS.

RULE III.—At all permanent miltary stations, churches will be provided by the Government for its Protestant and Roman Catholic European British-born soldiers on the scale laid down in Rule VI.

NOTE.—The term "Protestant" includes members of the Church of England and of the Established Church of Scotland, Presbyterians, Wesleyans, and such other denominations of Christians as may from time to time be included by the Government of India.

RULE IV.—The amount of the Government grant for a Protestant church will in no case exceed such a sum as will suffice to provide a plain substantial building of the simplest ecclesiastical design, together with such plain furniture as is essentially necessary for the proper perfomance of the service according to the ritual of the Church of England. It will rest with private individuals to furnish the means of imparting architectural decorations to the building, should they desire to do so, and also of supplying additional furniture, including apparatus for lighting, of a more costly description.

RULE V.—The same principles will regulate the grant for Roman Catholic Churches.

RULE VI.—The number of sittings to be provided will be calculated on the following scale:—

Detail.	Protestant.	Roman Catholic.
	Nos.	Nos.
Regiment of British Infantry	... 400	300
Wing of ,, ,, ...	... 200	150
Regiment of ,, Cavalry	... 250	150
Wing of ,, ,, ...	... 150	100
Troop of Horse Artillery or Light Field Battery	... 100	50
Heavy Field Battery	... 80	25
Garrison Battery	... 50	...

Note.—The numbers in the preceding tables include soldiers' families.

RULE VII.—Any provision that may be necessary may also be made for Staff Officers, Officers of Native Regiments, and, where no civil church exists, for European British-born subjects in the service of Government or for Railway servants in accordance with the scale and terms hereinafter prescribed for civil and railway stations respectively.

RULE VIII.—As a rule, only one Protestant and one Roman Catholic Church will be provided; and where the number of sittings required for the troops according to the scale above given is very large, the size of the church may be regulated so as to allow of at least one-half of the troops attending service at one time.

RULE IX.—The Government grants for churches will be calculated on the following basis. The Executive Engineer shall prepare a ground plan which shall afford—

(*a*) accommodation for the total congregation to be provided for according to the scale laid down in Rules VI and VII, allowing six superficial feet per sitting;

(*b*) passages, chancel, vestry, porch of such moderate dimensions as may be reasonable in each case;

(*c*) tower or belfry, as may be required according to the dimensions, general design, and locality of the building.

The Government grant will be at a rate per superficial feet of the area of (*a*) and (*b*), 25 per cent. in excess of that which prevails at the station for ordinary single-storied buildings. Where a tower is admissible, a further grant, at the above rate, may be made for it, calculated on an area not exceeding three times the area occupied by its base.

CIVIL STATIONS.

RULE X.—At the chief civil station of a district, where there are at least 25 European British-born subjects, Protestants or Roman Catholics, as the case may be, in the general service of Government, and where no suitable church provision for them exists already, the Government will contribute towards church accommodation upon the following terms:—

(1) *Number of sittings required.*	(2) *Maximum Government grant.*
	Rs.
25	2,000
50	3,500
100	5,000
150	6,000
200	7,000
250	8,000
300	9,000
350	10,500
400	12,000
For any excess over 400	Rs. 30 per seat in excess.

NOTE.—(1) When the number of seats to be provided lies between any two numbers given in the table, the grant for the portion of the whole number of seats represented by the lower numerical figure in the table will be the grant shown against that figure, the rate per sitting for the excess number of seats over such lower figure being arrived at by dividing the difference between the maximum grants shown against the next higher figure and the said lower figure by the difference between the higher and lower figure. Thus, for 110 seats, the Government grant for 100 seats will be Rs. 5,000, and for the remaining 10 at the rate of $\frac{6,000-5,000}{150-100}$ = Rs. 20 per seat.

(2) As a rule, only one Protestant and one Roman Catholic Church will be provided. In the case of Protestant churches, accommodation will ordinarily only be provided for the number willing to attend the Church of England service.

(3) In ascertaining the number of seats to be provided, women and children belonging to the families of European British-born subjects in the general service of Government, and pensioned soldiers and their families, may be taken into account: two children being counted as one adult.

(4) In cases of stations where abnormal rates prevail, special application may be made to the Government of India for an increase to the grant given by the State; but no grant for more than 200 sittings will be made except at seats of Local Governments and Administrations, or at Hill Sanataria. In the latter case, the number of European British-born subjects in Government service must exceed (without their families) 120 to warrant the grant for a church of greater accommodation than 200 sittings.

Rule XI.—No Government grant for a Church in a civil station will be made until private subscriptions have been obtained, and then the grant will not exceed double the amount thus actually realised, the maximum figure in column 2 of the table above being in any case the extreme limit of the grant towards the scale of accommodation which stands opposite in column 1. And in no case will the Government grant be allowed until these contributions, together with the grant, amount to the estimated cost of the Church

RAILWAY STATIONS.

Rule XI-A—Whenever there are, at any State Railway station or depôt so situated that other church accommodation does not exist or is not available with reasonable convenience, at least 25 persons in the railway service of Government who are of European descent, pure or mixed, retaining European habits and modes of life and professing the Christian religion whether Protestant or Catholic, Churches will be provided by the Government for them in accordance with Rules IV, V, and VIII; the number of sittings being calculated on the principle, *mutatis mutandis*, of Rule X, notes (2) and (3), and the grant being in conformity with Rule IX.

Rule XI-B—Whenever such separate Churches are not required, Church accommodation for any such persons may be provided in the plans of any Church which is about to be erected at a military or civil station; but in the case of a Church at a civil station, the restrictions in Rule X, note (4) and in Rule XI, shall not apply in respect of the numbers of and grants for, such persons.

Rule XI-C.—In cases where a State Railway station or depôt is considered by the Railway administration to be likely to increase, such addition may be made to the number of sittings, calculated as above provided, as the Government of India in the Public Works Department may, in each case, sanction.

Rule XI-D.—The Rules in this section relating to Churches and Church accommodation for State Railway servants shall apply to persons in the service of any Railway Company assisted by the Government, by guarantee or otherwise, provided that the consent of the Board of Directors or other duly empowered representative of such Company be previously obtained.

GENERAL.

RULE XII.—It is desirable, whenever such a course will not be attended by inconvenience, to combine the Civil or Railway with the Military Church of a station, the grant allowed for the Church accommodation of the British troops or State Railway servants

(4) Each Roman Catholic Church built by Government, Civil, Railway or Military, will be supplied by the Public Works Department with the following articles, the cost of which will be allowed in addition to the grant for the building :—

		Maximum cost. Rs.
(*a*)	One bookstand	8
(*b*)	One almirah for altar vestments, &c., at least 4 feet long by 2 feet 5 inches broad	45
(*c*)	Three altar chairs for officiant and assistants	36
(*d*)	One table and three chairs for the Vestry	27
(*e*)	One Font and cover	60
(*f*)	Seats and kneeling accommodation for the congregation—	
	Officers, per seat	5
	stool	2
	Soldiers, per seat	4
	stool	1
(*g*)	Altar table	45
(*h*)	Communion rail, per running foot	4
(*i*)	Pulpit, each	200
(*j*)	Punkahs where required, complete, per running foot ...	2
(*k*)	Thermantidotes, where necessary	200
(*l*)	Apparatus for lighting, per 100 seats	100
(*m*)	One bell as in (*k*), Rule I.	
(*n*)	Chicks or bamboo blinds for doors and windows where absolutely necessary.	At market rates.
(*o*)	Matting where absolutely necessary for Churches with terraced floors.	

A second Altar table may be supplied to Churches intended to accommodate more than 500 persons.

(5) The following articles will be supplied to Roman Catholic Churches by the Military Department on the Executive Engineer's certificates of the necessity of original supply or renewal, as the case may be :—

		Rs.
(1)	One Tabernacle, inside covered with silk	150
(2)	One Pyx with silver cup, inside gilt	100
(3)	One Chalice	100
(4)	One Monstrance	180
(5)	Six Altar candlesticks and Crucifix	180
(6)	Two cruets and one plate	10
(7)	One Altar lamp	30
(8)	One Missal	25
(9)	Altar Canons (one set of three)	8
(10)	Altar Vestments of silk (five sets of the five colors) ...	300
(11)	Two copes, one white and one black, of silk	120
(12)	Humeral for Benediction	30
(13)	Altar linen, comprising Albs, Altar covers, Communion cloth, &c.	80

6. All applications for funds for the supply to Roman Catholic Churches of the articles mentioned above should be submitted through the Roman Catholic Bishop of the diocese in which the Church is situated.

RULE XIX.—The Executive Engineer will be guided, in granting the certificates above alluded to, by the following principles :—

Class I, Churches built by Government.—The certificate should state that the Church was built by Government for the use of European troops or European British-born subjects in the service of Government, or of State Railway servants, and is still maintained for the same purpose.

Class II, Churches which have received building grants from Government.—The certificates should state that the Church received a building grant of Rs._____, equal to the_____ part of the total cost of the building, and that the grant was made on account of European troops or European British-born subjects in the service of Government or of State Railway servants, and that the building is still used by them.

For this class of Churches a proportion of the standard cost of the articles will be sanctioned equal to the proportion of the grant-in-aid to the total cost of the building itself.

Class III, Churches rented by Government.—The certificate should state that the Church is wholly rented by Government for the use of European troops or European British-born subjects in the service of Government, or of State Railway servants.

In this class the articles necessary for service will be given by the Military Department, but returned into store if the building ceases to be rented for the performance of Divine Service to a Military congregation.

NOTE.—In none of the classes described above should any article of furniture be allowed with retrospective effect, and the required certificates should afford information as to when the article was originally supplied, and by whom, and the reason for recommending its renewal. When, however, the Government pay for the use of a certain varying number of seats in a Church, the hire of the seats should include everything necessary for the performance of the Service.

RULE XX.—When a Church, whether Protestant or Roman Catholic, is to be furnished, the Executive Engineer should communicate with the Ecclesiastical authorities concerned with a view to afford the congregation an opportunity of furnishing the Church by private subscriptions in more costly style, should they wish to do so. It is to be understood, however, that any article of furniture to which any public funds may have been applied will remain the sole property of Government, even though a portion of its cost may have been contributed by private persons. And in cases where articles of furniture are procured from England they should be purchased through the Secretary of State in the ordinary way, with the exception of articles to which the note to clause (2) of Rule XVIII applies, which may be purchased as therein allowed.

RULE XXI.—Where pew rents are charged, the renewal and repair of furniture will be met from that fund, and not be allowed to be brought forward as a public charge.

In cases where a portion of the seats are reserved by Government and the remainder rented out, the cost of renewals and repairs should be apportioned accordingly between Government and the pew rent fund.

RULE XXII.—In cases in which articles of furniture belonging to a Government Church are stolen, an immediate enquiry should be held in view to ascertaining whether the loss was caused through the negligence of the person responsible for the custody for such furniture. In the case of Protestant Churches at civil or railway stations, the enquiry should be conducted by the Chaplain and the members of the Church Committee; and in the case of Roman Catholic Churches at such stations, by the Chaplain in charge and the chief civil officer of the place, or such other person or persons as the chief civil officer may nominate for that purpose. As regards Protestant and Roman Catholic Churches in cantonments, the investigation should be made by a Committee assembled under the orders of the Officer Commanding, as is the case in the respect of all other enquiries into loss of Government property, the Chaplain in charge being invited either to be a member of the Committee or to give evidence before it.

(2) If the result of the enquiry should be to show that the loss was occasioned by negligence on the part of the person responsible for the custody of the furniture, such person should, if possible, be required to make good the loss; or if it should appear that the loss was due to circumstances beyond the control of the responsible officer, then the Government of India will be prepared to consider an application for the replacement, at the public expense, of the articles stolen. Such application should be submitted through the ordinary channels and should be accompanied by a full report of the enquiry.

RULE XXIII.—The care of Church clocks is to be charged against the pew rent fund, where it exists.

RULE XXIV.—The pay of chowkidars of Churches will be disbursed through Chaplains.

RULE XXV.—Churches are under the control of the Bishop of the Diocese in respect to the erection of tablets, ornaments, &c., while in course of construction, as well as after completion and consecration.

OWNERSHIP AND REPAIR OF CHURCHES.

RULE XXVI.—All Churches built under these Rules, except Rule XVI, clause (*b*), shall be considered the property of the Government.

As a general rule, all Churches, whether Protestant or Roman Catholic, which have in past times been built by the Government are the property of the Government.

Churches, whether built wholly by private contributions or by such contributions jointly with State grants, which have been borne for a series of years on the books of the Public Works Department and have been repaired and otherwise dealt with, unchallenged, as Government buildings, shall be deemed to be the property of Government.

Churches built wholly or in part by private contributions which have not been so borne, repaired or dealt with, but which may be taken over on behalf of Government, under sanction of competent authority, shall be brought on the books of the Public Works Department as the property of Government.

RULE XXVII.—All Churches which are the property of Government shall be in charge of the Executive Engineer, and shall be repaired under the ordinary rules of the Public Works Department.

In every case in which any alteration in a Church belonging to the Government, which affect its structure or its permanent fittings, may be desired by the Chaplain or other Clergy, the Executive Engineer must be consulted and his consent obtained in writing before the alteration is carried out.

COMPENSATION FOR ACCOMMODATION IN CHURCHES NEITHER BELONGING TO, NOR RENTED BY GOVERNMENT.

RULE XXVIII.—The rate of compensation for sittings for Roman Catholic soldiers shall be determined by the Public Works Department with reference to the value and description

before given being supplemented by a grant according to the scale shown in Rules X and XI, or XI-A to D, as the case may be. In special cases, buildings may be rented for Divine Service, with the previous sanction of the Government of India, or of the Local Government or Administration, according to whether the charge is Imperial or Provincial.

RULE XIII.—In addition to Church accommodation as above prescribed, a house for the chowkidar or resident bearer may be provided. In cases, however, where the Church is distant from the bazar and where special grounds are shown, accommodation may be provided for other duly authorized servants; but such further accommodation will be limited to shelter for day use only. These houses should, when practicable, be adjoining to, and not within, the Church compounds; but when within them, they should be erected in keeping with the other Church buildings.

RULE XIV.—Grants from Imperial Funds will be sanctioned by the Government of India in the Public Works Department only. Grants from Provincial Funds will be sanctioned by the Local Governments and Administrations, subject to the limitations contained in these Rules.

RULE XIV-A.—The scales of accommodation and expense for all Churches above laid down are in no case to be exceeded without a reference to the Government of India, even though the proposed expenditure from Public Funds may be within the powers of sanction vested in the Local Government or administration.

RULE XV.—Church accommodation for non-official residents, either British-born Europeans or others, or for official residents other than British-born or State Railway servants, should not be sanctioned by the Local Governments or Administrations without reference to the Government of India.

RULE XVI.—When private contributions are combined with a Government grant towards building a Church, the procedure to be adopted is as follows:—

(*a*) Under ordinary circumstances, the amount of private contributions being known a definite design and estimate will be prepared by the Executive Engineer and submitted for sanction in the usual way, the limit by which the Executive Engineer will be guided in his designs being the aggregate of the Government grant according to the scales given in the preceding Rules, and the amount of private contributions actually realised.

(2) Before the work is commenced, the amount of the private contributions must be paid into a Government treasury, or guaranteed by sufficient security, and carried to credit of deposits in the accounts of the Department.

NOTE.—In the case of a grant from the Church building fund for the Diocese of Calcutta, a certificate instead of a cash payment in advance may be accepted, showing the amount of the contribution to be allowed. The conditions on which this certificate may be accepted are that in every case definite arrangements must be made with the Local Government or Administration concerned respecting the precise dates on which the contributions will be paid, and that, until the payment is made, the Government shall have a primary lien on the funds of the Society. In case of any failure in paying up the stipulated payment on due date, the privilege herein allowed is to cease.

(3) In dealing with cases of this nature, the private contribution is to be looked upon as an addition to the Government grant, instead of the money allowed from public funds being considered as grant-in-aid of private contributions, and the responsibility of Public Works Officers with respect to the preparation of estimates, and the construction of such buildings with reference to excess of expenditure over the estimate, will be as strictly enforced as where only public funds are expended.

NOTE.—In the case of State Railways the functions assigned in this and succeeding Rules to the Executive Engineer will devolve on the Manager.

(*b*) In special cases, however, the Government grant for a Church at a Civil or Railway station may, with the sanction of the Government of India or of the Local Government or Administration, as the case may be, be treated as a grant-in-aid of private contributions raised for a Church intended either as a Civil or Railway Church within the meaning of these Rules, or partly for the use of non-official residents or others for whom grants are not admissible under these Rules.

(2) In such cases the plans and specifications shall be submitted to the Executive Engineer for the approval of the proper officers in the Public Works Department, who shall sanction them on satisfying themselves that they are safe and suitable and can be executed for the estimated amount. The construction of the building may then be left to the managers or trustees of the private contributions raised, with whom must rest the responsibility for excess, if any, over the amount of this sanctioned estimate.

(3) In such cases, the grant will ordinarily not be paid in full until the Executive Engineer has certified that the building has been completed in accordance with the sanctioned plans and specifications; but the Executive Engineer may make advances out of the sanctioned grant on receiving sufficient proof that the building is proceeding satisfactorily, and on the managers or trustees, certifying that all subscriptions relied on in support of the application for the grant have been paid up in full or guaranteed by sufficient security.

(4) When a grant is made under clause (*a*) of this rule for a Church intended partly for the use of non-official residents and others for whom grants are not admissible under these Rules, there shall be a trust deed, duly registered— (1) declaring that the building is granted in trust for Church purposes only; (2) giving to Government a prior lien on the building for the recovery of the grant in the event of the former being diverted to other purposes; (3) providing for the legal ownership of the building; and (4) indicating sufficient sources for its proper maintenance.

RULE XVII.—The preceding Rules shall apply, as far as may be, to the enlargement of existing Churches.

CHURCH FURNITURE.

RULE XVIII.—The supply of Church furniture will be regulated by the following rules. All expenditure connected with the articles to be supplied by the Public Works Department will be provided for under the Rules laid down for that purpose :—

1 Each Protestant Church, Civil, Railway or Military (Cathedrals excepted), will be supplied by the Public Works Department with the following articles, the cost of which will be allowed in addition to the grant for the building :—

		Maximum cost. Rs.
(*a*)	Appliances to seat the congregation, and to allow them to kneel in decent comfort	
	Officers, per seat	5
	„ stool or hassock	2
	Soldiers, per seat	4
	„ stool or hassock	1
(*b*)	Communion table, each	45
	„ rails, per running foot	4
(*c*)	Pulpit, each	200
(*d*)	Reading desk and stool	60
(*e*)	Font and cover	60
(*f*)	Vestry almirah	45
	„ table	12
	Two Vestry chairs, per pair	10
(*g*)	Two Altar chairs	24
(*h*)	Punkahs, complete, per running foot	2
	Thermantidotes when necessary, each	200
(*i*)	Lighting apparatus, per 100 seats	100
	Candlesticks for pulpits, per set	40
	„ for lectern	30
	„ for reading desk	30
(*j*)	Lectern	50
(*k*)	One bell of reasonable size to summon the congregation to Church, at a cost not exceeding Rs. 300 for a first class Church (viz., those containing more than 400 sittings), and Rs. 200 for a second class Church (viz., those containing not more than 400 sittings).	
(*l*)	Chicks or bamboo blinds for doors and windows where absolutely necessary.	At market rates.
(*m*)	Matting where absolutely necessary for Churches with terraced floors.	

The "reading desk" should be simply a desk (however appropriately shaped), and not an enclosure, expensive from its size and occupying needless space.

(2) The Civil Department will provide the following articles on the Executive Engineer's certificates of the necessity of supply or renewal, as the case may be :—

	Rs.
* Suitable set of Communion plate	150
A strong box, to be made in India and which may be locally purchased for custody of communion plate, which is also to be used for records	150
* Altar cover of red embroidered cloth	150
* Bibles and prayer-book for the Clergyman	50
* Fair linen cloth and napkins for Communion service ...	35
* Two service books for the Communion table ...	30

* NOTE.—Where the congregation choose to contribute in order to procure any of these articles of a richer design or material, the fixed grant may, if so desired, be paid to the Chaplain, and the purchase of the articles left to his and their joint discretion.

(3) In Cathedrals of the Church of England, the renewal and repair of furniture shall be provided out of the fixed monthly grants made by the Civil Department towards the maintenance of service, supplemented, if necessary, by contributions from the congregation.

of the accommodation provided, subject to a limit of Rs 3 per seat per annum, broken periods counting as a year.*

RULE XXIX.—The number of sittings for which compensation is allowed will be regulated by the highest attendance during the year of soldiers and their families (two children being counted as one adult) actually quartered in the station, subject to the same limit as is imposed in the case of the number allowed in Churches built at Government expense (Rule VI), the maximum allowed being 300 for a regiment of European Infantry or 33 per Company.

RULE XXX.—The outlay will appear in the Department Budget Estimates and Accounts under the head of Civil Buildings—Repairs.

RULE XXXI.—Charges for compensation require the previous sanction of the Government of India, and must be supported by a certificate from the Officer Commanding the Station of the numbers of Roman Catholic soldiers and women and children for whom accommodation has been obtained, and by a receipt for the money paid.

Such charges as have once been approved by the Government of India need not be resubmitted annually for sanction, but may be paid on the authority of the Local Government or Administration, subject to the conditions under which the original sanction was obtained.

RULE XXXII.—Compensation may be paid for Roman Catholic State Railway servants for whom Church accommodation has not been provided by the Government, the number of sittings being determined in the manner provided in Rule XI-B, the certificate being furnished by the Manager of the Railway, and the sanction of the Director-General of Railways being previously obtained. The charge will be debitable to the revenue account of the railway.

RULE XXXIII.—Compensation may be paid, with the previous sanction of the Government of India, for Protestant soldiers or State Railway servants not belonging to the Church of England under circumstances similar to those under which the same would be payable in the case of Roman Catholics.

APPENDIX A.

Extract from the Proceedings of the Government of India in the Home Department,—No. 6—370-382, Ecclesiastical), dated Simla, the 9th November 1876.

Read Home Department Resolution Nos. 314 to 318, dated 6th October 1875, appointing a Committee to report upon the following matters connected with ecclesiastical administration :—

(1) The framing of joint estimates for expenditure on cemeteries or Churches by the Executive Engineer and Clergyman in charge.
(2) A revision of establishments for cemeteries according to their area.
(3) The size of monuments and amount of ground that may be enclosed.
(4) Provision for planting cemeteries and preserving them in decent order.
(5) Mode of supply of certain articles of Church furniture.
(6) The substitution of three for two classes of Churches with respect to the expenditure allowed for them by Government.

Read—

The Report of the Committee, dated 29th October 1875.

RESOLUTION.—The Report of the Committee has been considered by the Governor-General in Council, who desires to express to the Committee his satisfaction at the result of their labours.

---

* Government of India, Public Works Department, Circular Resolution No. 33, dated Fort William, the 13th December 1881.

General application of Code Rules regulating grants for compensation for sittings provided for British-born soldiers in Roman Catholic and other Chapels from 1st January 1885.

Read again—

Public Works Department Circular No. 65, dated 6th November 1877.
Ditto Ditto Code, Chapter XI, paragraphs 58 to 61.

Read also—

Letter from Inspector-General, Military Works, No. 4462, dated 25th August 1881.
Public Works Department letter to Inspector-General, Military Works, No. 76A—M and C, dated 27th September 1881.
Letter from Inspector-General, Military Works, No. 5234, dated 10th October 1881.
Letter from the Right Reverend the Bishop of Pentacomia and Vicar-Apostolic of Hindustan, No. 985, dated 21st October 1881.

Resolution.—In the papers read above, it is shown that the rules published in 1877 regulating the scale on which charges for compensation for sittings provided for soldiers in Roman Catholic and other Chapels should be admitted are not applied generally, and that there are some Chapels which receive fixed grants in excess of scale under special orders of the Government of India. It is, however, considered expedient that the rules of 1877, which are considered quite liberal enough in themselves, should be applied without exception from a fixed date. The Governor-General in Council has therefore resolved that, from 1st January 1885, the rules of 1877, incorporated in Public Works Department Code, Chapter XI, paragraphs 58 to 61, shall be enforced in their entirety, and that all special grants sanctioned, from time to time, in individual cases should cease from and after the date specified.

2. This order will apply only to Chapels for which fixed grants have been specially assigned, and is not intended to disturb the arrangements in those cases in which special grants have not been assigned and where the rules in question have already been brought into effect.

The following rules have been approved relative to the subjects referred to the Committee for report :—

1. Churches and cemeteries have already been divided into two classes: (1) those in stations where there are military cantonments and the military works in which are under the charge of the Inspector-General of Military Works, and (2) those in other military cantonments and civil stations

Public Works Department No. 486 A—G, dated 13th July 1874.

In both classes of stations joint estimates* of expenditure should be framed annually by the undermentioned officers :—

(*a*) In the case of all expenditure connected with establishments, *e.g.*, pay of servants, alterations in their pay or number, &c.; also all expenditure by Government connected with the provision of articles of Church furniture supplied by the Civil Department ...	By the Chief Magistrate of the district and by the Chaplain.
(*b*) In the case of all expenditure connected with repairs and additions to Church fabric, to Church compound or cemetery walls, to cemetery gates, walks, wells, chowkidars or other Church servants' houses, provision of necessary appliances for graves or for the repair of tombs or for the planting of trees and shrubs in cemeteries and keeping the same in decent order; also all expenditure by Government connected with the provision of articles of Church furniture supplied by the Public Works Department	By the Executive Engineer and by the Chaplain.

(See Financial Department Resolution No. 87, dated 9th January 1875).

(See Financial Department Resolutions No. 87, dated 9th January 1875; No. 2024, dated 31st March 1875; and No. 675, dated 9th February 1876).

The estimates of expenditure to be prepared by the Executive Engineer and the Chaplain should show distinctly the probable charge under each of the following heads :—

(i) New works connected with additions to existing Churches and improvements to Church compounds.
(ii) New supplies of furniture for Churches and sanctioned articles of Church use.
(iii) New works connected with additions to existing burial-grounds.
(iv) Repairs to Churches and Church furniture and maintenance of Church compounds.
(v) Repairs to burial-grounds to be executed by Public Works Officers.
(vi) Repairs to burial-grounds, including planting and cleaning, to be entrusted to the Chaplain or Chief Civil or Military Officer of the Station or Cantonment under paragraph 4.

It would be convenient if distinct estimates were prepared for each of these classes of expenditure.

The provision of funds to meet the charges above enumerated will be made in the budget estimate of the Public Works Department. The estimates for the same will be subject to the scrutiny of, and be passed by, the Superintending or Chief Engineer or Local Government or Administration, according to the rules in force in the Public Works Department.

In stations in which the churches and burial-grounds are under the Local Governments and Administrations in which the Provincial Service arrangements are in force, the charges debitable to the Public Works Department will be provided for in the Provincial Public Works Budget estimate. In other Provinces and in the Military Works Branch the charge will be provided for in the Imperial Public Works Budget Estimate under civil buildings.

2. The following scale of establishments should be maintained at all cemeteries :—

(i) for a cemetery of which the area is five acres or less, one mali-chowkidar;
(ii) for a cemetery of which the area is more than five and less than ten acres, one mali-chowkidar and one assistant coolie;
(iii) for a cemetery of which the area is more than ten and less than 15 acres, one mali-chowkidar and two assistant coolies; and
(iv) for a cemetery of which the area is more than 15 acres, one mali-chowkidar and three assistant coolies.

It is left to the Local Governments and Administrations to determine the proper wages to be given to each servant. The cost of this establishment will be charged to Provincial Services in the case of those Local Governments and Administrations in which the Provincial Service arrangements are in force, and in the case of other Local Governments and Administrations and the Military Works Branch of the Public Works Department to Imperial Funds. In either case the charge will be included in the Civil Budget Estimate.

* * * *

4. No portion of the receipts from cemeteries and church compounds should be retained by any Government officer to be directly expended by himself; all such receipts should be paid into the Civil Treasury to the credit of the Public Works Department. In the case of receipts from cemeteries and church compounds in charge of the Military Works Branch, and under those Governments and Administrations in which the Provincial Service arrangements are not in force, the credit will be treated in the Public Works accounts as a receipt under Imperial Public Works Revenue In the case of the other Governments and Administrations,

* The estimates should be for the financial year, and should be prepared in advance as is prescribed for other budget estimates.

the credit will be raised to Provincial Service Public Works Revenue. But the amount passed upon the joint estimate framed by the Executive Engineer and Chaplain to provide for planting a cemetery and preserving it in decent order should be entrusted to the Chaplain where there is one. Where there is no resident Chaplain, the amount should be placed at the disposal of the Chief Magistrate on the spot, or of the Senior Military Officer if the cemetery is attached to a military cantonment. The necessary funds for the purpose will be advanced by the Executive Engineer concerned to the Chaplain or Civil or Military Officer Bills for the expenditure should be rendered by the officer to whom the advance has been made, either monthly or otherwise, to the Executive Engineer, who will charge for the amount thereof in the usual way in his accounts. Until the bills are received and charged off, the advance will be placed in the Miscellaneous Advance Account of the Executive Engineer. All planting of shrubs and trees by private persons in cemeteries should be under the control of the Chaplain if resident, otherwise under that of the Magistrate or Senior Military Officer as the case may be. When practicable, a well should be sunk in or near every cemetery.

* * * *

5. It should be understood that the Government cannot provide cemeteries at the public expense for Native Christian communities.

NOTE.—Where their number is small, the question is of little importance and is best arranged by mutual concessions or by special provisions made locally by the parties immediately concerned.

Ecclesiastical Proceedings, November 1877, No. 15.

And I am to suggest for His Lordship's (Bishop's) consideration whether, if the necessity of dealing at the present time with this matter of Native Christian interment be in his judgment unavoidably established, it should not be carefully examined in consultation with the several Local Governments, having regard to the diverse needs and circumstances of the population in each separate Province.

RESOLUTION.—After consultation with the several Local Governments and Administrations, it was decided in February 1875 to reduce the cost of church establishments in India.

Home Department letter to the Ven'ble the Officiating Archdeacon of Calcutta, No. 110, dated the 22nd May 1883.

In regard to churches and cemeteries situated within the limits of a military cantonment, the Government of India have decided—

(1) that the Chaplain is required to obtain the permission of the Officer Commanding the station before ordering a tree to be cut down in a cemetery or church compound situated within the limits of a cantonment ;
(2) that the Officer Commanding the station may order a tree to be cut down in the cemetery or church compound without the Chaplain's consent ;
(3) that it rests with the Chaplain to sell the trees cut down in the cemetery or church compound, the proceeds being paid in, as required by the standing rules, to the Civil Treasury to the credit of the Public Works Department ; and
(4) that the consent of the Commanding Officer should be obtained in respect of all repairs or alterations over which he or the Cantonment Committee may exercise control under the Cantonment Rules and Regulations, *e.g.*, Rules 13 and 26 of Chapter IV.

These orders, however, do not interfere with the duty of the Chaplain to see that the cemetery is kept clean of rank vegetation, shrubs, and undergrowth which are not included under the designation of trees.

Home Department letter to the Ven'ble the Officiating Archdeacon of Calcutta, No. 148, dated the 26th June 1883.

To carry out this decision, the scale of charges (shown in the margin) was fixed for general adoption, with the reservation that in some places somewhat higher charges might be allowed under exceptional circumstances; and that in the case of third class (non-military) churches, with fluctuating and very limited congregations, a moderate fixed allowance might be granted for lighting and sacramental elements. In accordance with this decision the several Local Governments and Administrations were requested to submit a fresh classification of military churches, and a scale of charges in accordance with the principles thus laid down.

First class (churches, the property of Government, containing more than 400 sittings at stations where there are European troops):—

	Rs.
1 Clerk	12
1 Chowkidar-bearer	6
1 Water-carrier	5
1 Sweeper	4
Lighting	20
Total ...	47 a month.

Second class (churches, the property of Government, containing less than 400 sittings at stations where there are European troops):—

	Rs.
1 Chowkidar-bearer	5
1 Sweeper	4
1 Lighting	10
Total ...	19 a month.

Third class (churches, the property of Government, at stations with no troops, or with only Native troops):—

	Rs.
1 Chowkidar-bearer	5 a month.

2. After consideration of the reports called for, the Governor-General in Council is pleased to pass the following orders.

3. If a clerk is now employed in any second class military church he need not be dismissed; the full reduction of the establishment must await the occurrence of a vacancy.

4. In Madras, including Mysore, but excluding Berar, there are 56 churches,* and the cost of establishments on the scale laid down by the Government of India would amount to Rs. 700 a month as against a present charge of Rs. 1,917½. The Government of Madras recommends, however, that the pay of chowkidar-bearers be fixed at Rs. 7 instead of Rs. 5 each a month; that an establishment of Rs. 47 a month be allowed to the church at Black Town; and that to five of the remaining 36 third class non-military churches, the marginally noted† special allowances be allowed. These proposals are approved with effect from 1st April 1877. A tabular statement showing the financial results of the measure, and including, as a temporary charge, the pay of such clerks as are now on the establishments of the second class military churches, should be forwarded for formal sanction.

	Number of churches.
* 1st class (military)	8
2nd do. do.	6
3rd do. (non-military)... ...	42
Total ...	56

	Rs.
† 1 Bearer	7
1 Sweeper	5
Lighting allowance	13
Total ...	30 each.

5. The Government of Bombay proposes (1) to raise the pay of chowkidar-bearers; (2) to allow a peon to each Chaplain; (3) to retain clerks for second class military churches; (4) to do away with water-carriers and sweepers, and provide for their duties from the contingent allowance of Rs. 20 a month for lighting for 1st class churches; and (5) to allow a small contingent allowance to poor third class non-military churches. The tabular statement submitted by the Bombay Government also shows other variations from the standard scale fixed in 1875. The Governor-General in Council regrets that he is unable to sanction peons for chaplains in Bombay; but he is pleased to sanction the following scale for adoption in the Bombay Presidency for 1st April 1877, with a request that a tabular statement showing the charges now made may be forwarded to Government for communication to the Audit Department:—

	First class military churches.	Second class military churches.	Third class non-military churches.
1 Clerk	A.	...	...
1 Chowkidar-bearer ...	7	7	7
Contingent allowance to cover lighting, and sweepers' and water-carriers' wages ...	20	10	B.

A.—On the pay proposed by the Archdeacon of Bombay

B.—A list of the poorer churches, for which a special contingent allowance is asked, should be entered in the tabular statement.

6. The proposal of the Government of Bengal in respect to the six military (1st class) churches, including the two within the Fort William, for which the authorised allowance of Rs. 47 a month is considered to be sufficient, is sanctioned with effect from the 1st April 1876; Rs. 100 a month is also allowed for each of the four (third class) non-military presidency churches* from 1st April 1877, for two years, subject to reconsideration at the end of that period; and an allowance of Rs. 55 a month is sanctioned for St. Stephen's Church, Kidderpore, and the Church at Howrah, on the same terms. Considering the peculiar character of St. Andrew's Kirk, Calcutta, and its use by the military, the recommendation of the Reverend Mr. Thomson, for an allowance of Rs. 100 when there are two chaplains and Rs. 185 a month when there is one, is approved from the same date. The necessity for

* St. John's.
Old Church.
St. James'
St. Thomas'

so large an allowance as* Rs. 32 a month for the care of the clock must be further established. The entire services of a competent native artisan could probably be secured for a much smaller sum.

7. In respect to the non-military (third class) churches in Bengal, the Governor-General in Council considers that the scale laid down in February 1875 should be more closely adhered to than is proposed by the Government of Bengal. The exceptional allowances there contemplated were intended only for churches with "*fluctuating and limited congregations*," and not for general adoption. The churches at Dacca, Cuttack, Berhampore, and other places do not appear to be of this class. His Excellency in Council desires, therefore, that the Government of Bengal will submit a tabular statement more in accordance with the scale laid down in February 1875, and showing the financial results of the arrangements now sanctioned for church establishments in Bengal.

8. The classification of churches, submitted by the Government of the North-Western Provinces, shows that there are 36† churches, the proposed cost for the establishments of which is Rs. 670. But it appears doubtful if this classification includes the Episcopalian and Presbyterian churches at Allahabad. This should now be made clear; and the church at Chunar should be ranked as a third class (non-military) church, and not as a second class military church. The usual tabular statement should also be submitted, showing the financial result of the charges now authorised with effect from the beginning of the next financial year.

† 7 (1st class) military, including 3 Roman Catholic Churches;
14 (2nd class) military, including 3 Roman Catholic Churches; and
15 3rd class (non-military) churches.

9. There are 48 churches in the Punjab, and the cost of the establishments proposed for them is Rs. 878 a month. It is also recommended that Rs. 50 a month may be placed at the disposal of the Government of the Punjab for allotments when necessary to the poorer third class (non-military) churches. The proposals of the Government of the Punjab are sanctioned with effect from 1st April 1877. The usual tabular statement should be submitted.

10. There are 15 churches in the Central Provinces, the cost of the establishments of which is Rs. 205 a month. Revised establishments as shown below are sanctioned for these churches, resulting in an increase of Rs. 17 a month over the existing charge:—

	Existing cost per mensem.	Now sanctioned per mensem.	
	Rs.	Rs.	
First class church at Kampti	47	47	A.
Ditto at Sagar	39	47	A.
Second class church at Jubbulpore	38	31	B.
Ditto at Sitabuldi, Nagpur	40	21	B.
Third class church at Nursingpur, Nimar and Seoni	17	18	
Ditto at 1 Chanda, 2 Wardha, 5 Bhandar ...	.....	.....	
Ditto at 4 Raipur, 5 Hosangabad, 6 Damoh ...	.....	.....	
Ditto at 7 Betul and 8 Chindwara	.....	48	
Total ...	205	222	
Increase ...	.....	17	

11. The Chief Commissioner of British Burma submits a list of church establishments in that Province, and recommends "that the establishments should be restricted to the scale fixed by the Government of India; but that the rates of pay should be in accordance with those which are customary throughout Burma where the cost of living is greatly in excess of that of India." He also recommends that an allowance of Rs. 30 a month may be granted to the Roman Catholic Church at Thayetmyo. In accordance with these recommendations the establishments noted below, which are in conformity with the scale laid down in February 1875, are sanctioned for the churches in British Burma with effect from 1st April 1877:—

	1st class Rangoon Church.	1st class Rangoon Town.	1st class Thayetmayo Protestant Church.	2nd class Thayetmayo Roman Catholic Church.	1st class Toungboo.	3rd Class. Bassein.	3rd Class. Moulmein.	3rd Class. Akyab.	3rd Class. Kyouk Phyoo.	Total.
	Rs. A. P.	Rs. A. P.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs. A. P.
1 Clerk	12 0 0	12 0 0	12	.....	12	...	...	...	....	48 0 0
1 Chowkidar-bearer	10 0 0	10 0 0	10	10	10	10	10	8	8	86 0 0
1 Water-carrier	9 0 0	.....	10	.....	8	...	...	...	...	27 0 0
1 Sweeper	6 0 0	6 0 0	5	5	6	...	...	...	...	28 0 0

	67 0 0	43 0 0	67	30	51	10	10	8	13	299 0 0
Present cost	95 8 0	67 10 0	80	.....	55	10	114	15	...	437 2 0
							Decrease ...			138 8 0

* This charge was subsequently accepted by the Government of India as an Ecclesiastical charge and as part of the Church allowance which is given in consideration of the benefit derived by the public from the use of the clock.—Letter to Government of Bengal, No. 316, dated the 27th September 1877.

A.—As detailed in paragraph 1 of this Resolution.
B.— Ditto plus the pay of a clerk, temporarily, as sanctioned in paragraph 3.

12. In addition to the higher rates of pay for chowkidar-bearers on account of the prevalent wages in the Hyderabad Assigned Districts, the Resident at Hyderabad proposes to add eight peons at a cost of Rs. 56 a month to the authorised scale of church establishments. The Governor-General in Council regrets that he is unable to depart from the scale already fixed, but is pleased to sanction the other proposals as shown below from the beginning of the next financial year:—

	Clerk.	Chowkidar-bearer.	Water-carrier.	Sweeper.	Lighting, &c.	Total.	Existing cost.	Saving.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1st class church at Secunderabad	12	6	5	4	20	47	64	17
Ditto at Trimulgherry	12	6	5	4	20	47	47	.....

Ditto at Jalna	.....	8	.....	.....	.....	8	7	1
Ditto at Hingali	.....	8	.....	.....	.....	8	20	12
Paid from Berar Revenues.								
3rd class church at Akola	.....	8	.....	.....	.....	8	48	40
Ditto at Ellichpore	.....	8	.....	.....	.....	8	27	19
Ditto at Amraoti	.....	8	.....	.....	.....	8	48	40
Total ...	32	64	10	12	50	170	303	175

* Till vacancy occurs.

13. The list submitted by the Chief Commissioner of Oudh shows that there are only six churches in Oudh—three of the first and three of the second class. The proposed classification of these churches is approved with effect from 1st April 1877 with a request that a tabular statement may now be forwarded.

14. The Chief Commissioner of Assam states that there are in Assam six third class non-military churches, and proposes to pay the chowkidar-bearers at Rs. 10 each a month, remarking that "this is the lowest salary on which a servant can be entertained to perform the above duties in this Province." The Governor-General in Council sanctions a chowkidar-bearer for each of the churches in Assam on the pay of Rs. 6 each a month from 1st April 1877, and requests that the usual tabular statement may now be forwarded.

Extract from the Proceedings of the Government of India, Department of Finance and Commerce, No. 3874, dated Simla, the 3rd November 1881.

Read again—

(1) Resolution of the Government of India in the Financial Department, No. 2202, dated the 15th August 1876, directing a reduction of minor charges on account of Church Establishments in India, and fixing the scale of charges shown below for general adoption, with effect from the 1st April 1876 in some and from the 1st April 1877 in other cases.

FIRST CLASS.—(Churches, the property of Government, containing more than 400 sittings at stations where there are European troops).

	Rs.
1 Clerk	12
1 Chowkidar-bearer	6
1 Water-carrier	5
1 Sweeper	4
Lighting	20
	47 a month.

SECOND CLASS.—(Churches, the property of Government, containing less than 400 sittings at stations where there are European troops).

	Rs.
1 Chowkidar-bearer	5
1 Sweeper	4
Lighting	10
	19 a month.

THIRD CLASS.—(Churches, the property of Government, at stations with no troops or with only Native troops.)

1 Chowkidar-bearer ... ... Rs. 5 a month.

(2) Order No. 572, dated the 12th May 1881, forwarding a copy of the above-mentioned Resolution to the Military Department for information and guidance, with the intimation that the scale of charges mentioned above (which are debitable to the Military Department on account of Roman Catholic Churches) should have effect from the 1st April 1880.

Read also—

(3) A letter from the Military Department to the Controller of Military Accounts, Bengal, No. 1246S—D., dated the 26th August 1881, sanctioning, as a very special case, the grant to the Roman Catholic Chaplain, Fort William, of the difference of lighting allowance between Rs. 33 and Rs. 47 a month, with arrears from the 15th August 1876 up to the 1st January 1881, and intimating that final orders in regard to the allowances admissible to Roman Catholic Churches generally will be shortly passed.

RESOLUTION.—On reconsideration, the Governor-General in Council is pleased to declare that the Resolution of the 15th August 1876 read in the 1st section of the preamble is

inapplicable to Roman Catholic Churches. Those Churches are mostly not the property of Government, and it is only to Churches owned by Government that the Resolution applies. Moreover, the application of the Resolution to Roman Catholic Churches would have the effect in the majority of cases of largely reducing the allowances now given to them, and the Governor-General in Council does not consider that their reduction would be expedient.

2. Under this decision the increased grant passed in the Military Department for the Roman Catholic Church of St. Patrick, Fort William, should be discontinued.

No. 7, dated Fort William, the 9th January 1878.

From—J. O'KINEALY, Esq., Officiating Secretary to the Government of India,
To—The Secretary to the Government of Madras.

I am directed to acknowledge your letter, dated the 2nd January 1877, No. 2, submitting for approval the Proceedings of the Madras Government determining the proposed scale of establishment for the Cathedral.

2. In reply, I am to say that the Governor-General in Council is pleased to fix a limit of Rs. 400 per mensem as the maximum grant towards the maintenance of the establishment of the Cathedral with effect from the 1st April 1878.

No. 9, dated Fort William, the 9th January 1878.

From—J. O'KINEALY, Esq., Officiating Secretary to the Government of India,
To—The Secretary to the Government of Bengal.

With reference to paragraph 8 of your letter, dated the 5th February 1877, No. 376, regarding the establishment at St. Paul's Cathedral, Calcutta, I am directed to say that the Governor-General in Council is pleased to comply with the recommendation of His Honor the Lieutenant-Governor, and sanctions the continuance of the Government grant of Rs. 400 per mensem at present made towards the maintenance of the Cathedral establishment.

No. 11, dated Fort William, the 9th January 1878.

From—J. O'KINEALY, Esq., Officiating Secretary to the Government of India,
To—The Secretary to the Government of Bombay, Ecclesiastical Department.

With reference to the correspondence ending with your letter, dated the 29th November last, No 249, regarding the establishment at St. Thomas' Cathedral, Bombay, I am directed to observe that it appears from the papers submitted that the cost of the Cathedral establishment and contingent charges amounts to Rs. 1,084 per mensem, and that the Trustees of the Cathedral object to any reduction being made holding that under the trust deed they have an indefeasible right to claim from Government both establishment and contingent charges on the existing scale.

2. The Governor-General in Council does not admit that the Trustees alone have the power to decide the question at issue, but His Excellency in Council does not desire to press the matter and leaves it to be settled by the Bombay Government on the most favourable terms which may be found possible.

3. I am to add that a maximum grant of Rs. 400 per mensem has been fixed for the Cathedrals at Calcutta and Madras.

Extract from the Proceedings of the Government of India in the Department of Finance and Commerce, No. 4016, dated Simla, 9th November 1881.

Read—

Office Memorandum from the Military to the Home Department (Ecclesiastical), No. 1618S—D, dated the 17th October 1881, proposing a general rule to regulate the incidence of charges on account of clerical and menial establishments for religious services in connection with the troops.

The undersigned is desired to asknowledge the receipt of the docket from the Home Department, No. 75, dated 5th May 1881, on the subject of the provision of a clerical and menial establishment for Presbyterian religious services in connection with the troops. The case in point is that of the 72nd Highlanders.

Original enclosures returned.

2. In reply, he is to forward the correspondence marginally noted, and to suggest that as (in regard to the general question) there would seem to be some doubt as to the proper incidence of charges on account of such establishments, the present opportunity be taken to settle the question finally.

From Adjutant-General in India, No. 2795B., dated the 29th June 1881.
From Controller of Military Accounts, Bengal, No. 10642. Return requested.

3. The present rule as regards Chaplains is understood to be as follows, *viz.* :—

The Church of England Chaplains and the Church establishments are paid in the Civil Department, even though employed in a cantonment solely for the use of the troops.

The pay of Roman Catholic Chaplains and of the Chapel establishment engaged in the the service of the troops is borne by the Military Department.

The pay of the Presbyterian Chaplains and of the Church establishments at ordinary stations is borne by the Civil Department, but the pay of Presbyterian Chaplains with Highland regiments is a Military charge.

4. It seems, therefore, to the Military Department right that the charge on account of establishments for the Church services of Highland regiments should also be a Military charge, when the Chaplain employed in the services is paid by the Military Department, and that in all other cases where there is a service performed for Presbyterian troops by a civil Presbyterian, Wesleyan, or other Chaplain, the charge for his services and any temporary establishment should be borne by the Civil Department.

5. The Military Department consider that the above would be a clearly defined rule which would prevent the mistakes which appear to have been made on more than one occasion in regard to the debit of such charges, and the undersigned is to recommend its adoption to the Home Department.

* * * * * * *

RESOLUTION.—The rule proposed in paragraph 4 is sanctioned.

APPENDIX B.

Extract from the Proceedings of the Government of India in the Home Department, Nos. 2—275 *to* 287 *(Ecclesiastical),—under date Simla, the 8th September* 1875.

Read the undermentioned correspondence relative to a proposed revision of the rules at present in force for the guidance of Chaplains of the Church of England in regard to the burial of such persons as have laid violent hands upon themselves; and of those who, having been members of the Roman Catholic Church, have been refused burial by the Priests of that Church—

From Government of Fort St. George, No. 142, dated 12th June 1874, and No. 203, dated 28th August 1874.
To Solicitor to Government, No. 327, dated 22nd September 1874.
From ditto ditto, No. 2316, dated 26th September 1874.
From the Lord Bishop of Calcutta, dated 13th January 1875.

RESOLUTION.—The first question was raised by the refusal of the Reverend C. H. Deane, Chaplain of Bangalore, to read the funeral service over a person who was found by a Court of Inquest to have committed suicide while in a state of temporary insanity.

2. The subjoined letter* from the Reverend C. H. Deane sets forth the ground of his refusal:—

* To Mr. Knox, dated 2nd January 1874.

"When I answered your memorandum about the interment of the remains of the late Sergeant Spiers, of the 18th Hussars, I was not aware that he had committed suicide. If, as I understand, there is no doubt that he poisoned himself, I regret to say that I shall not be able to officiate at his funeral. The Rubric before the burial service distinctly forbids it to be used for any that 'have laid violent hands upon themselves,' so that I have no option in the matter. The grave will be ready at 5 P.M., but no service can be used."

† To the Acting Chief Secretary to the Government of Fort St. George, No. 483, dated 24th March 1874.

3. The view taken of the question by the Right Reverend the Bishop of Madras is stated in the subjoined letter: †

"I am directed by the Right Reverend the Bishop of Madras to acknowledge your communication of the 17th ultimo, forwarding copy of a letter from the Deputy Adjutant-General, transmitting correspondence relative to the Reverend C. H. Deane's refusal to read the funeral service over the late Sergeant Spiers, 18th Hussars, who committed suicide.

"2. In reply, I am desired to state that Mr. Deane seems to have been requested to perform the funeral without having been furnished with the customary death-report or any intimation that it was a case of suicide.

"3. The Coroner's warrant in itself appears to be 'no more than a certificate that the body is not demanded by the law, and that therefore the relations may dispose of it as they please.'—(Wheatley on the Book of Common Prayer.) It does not, therefore, indicate the duty of a clergyman, or place him under legal obligation to give to a body Christian burial.

"4. In keeping with this view, the Government Notification in *Fort St. George Gazette*, June 11th, 1850, page 623, when it intimates that 'the Reverend Chaplains will in future consider the warrant of the Coroner for the interment of a body on which an inquest has been held to be a sufficient authority for their performance of the burial service over it,' adds, 'if it would be their duty, under ordinary circumstances, to perform that service.'

"5. What is the duty of a Clergyman when requested to bury a person who has committed suicide is to be ascertained partly from the Rubrics of our Church, which are binding upon the Clergy and have the force of law; and partly from the limitations of recognised legal commentators.

"6. The Rubric at the opening of 'the Order for the Burial of the Dead' forbids a Clergyman 'to use that service for any that have laid violent hands upon themselves."

"7. In Burn's 'Ecclesiastical Law' it is laid down: 'Of this sort [suicide] are to be understood not all who have procured death unto themselves, but who have done it voluntarily, and consequently have died in the commission of a mortal sin; and not idiots, lunatics, or persons otherwise of insane mind."

"8. In the same book it is also stated that 'the proper judges whether persons who died of their own hands were out of their senses are doubtless the Coroner's jury.'

"9. In the case under consideration it appears that the Reverend Mr. Deane, having regard only to the Rubric and *foro conscientiæ* accounting himself responsible for the interpretation of it, refused to bury the corpse even when he knew that the Coroner's jury had returned a verdict of 'temporary insanity.'

"10. In this refusal, I am instructed to state that Mr. Deane has not, so far as the Bishop can ascertain, violated any law, but he has departed from a recognised custom in not accepting the verdict of the Coroner's jury as a justification for the using of the Church's Service over the remains of Sergeant Spiers.

"11. Mr. Cripps, in his 'Practical Treatise on the Law relating to the Church and the Clergy' [ed. 1869],* states 'No case appears ever to have occurred in which a clergyman who has refused to bury the corpse of one who has committed suicide in insanity has been punished by the Ecclesiastical Law.' At the same time he adds: 'It must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.'

* Page 793.

"12. In the absence of any Court competent to visit with ecclesiastical punishment, the Bishop desires me to point out that it is very painful to a laborious and conscientious clergyman, such as Mr. Deane is, to deny the last offices of the Church to one who has been under his spiritual charge, and it must, the Bishop thinks, be allowed that there was much in the circumstances of the present case to support the conclusion at which Mr. Deane arrived. I am, therefore, directed to say that His Lordship is disposed to take a lenient view of Mr. Deane's action, and the more so as those who are endeavouring to check the prevalence of intemperance in the army can ill afford to lose any aid which a Clergyman in the honest discharge of his duty can lawfully render."

4. The Government of Madras referred the whole correspondence for the information and orders of the Government of India.

5. The following brief statement of the English Law will be found sufficient for the present purpose: By Common Law Christian persons are entitled to burial with the rites of the Church. The Statutes passed from time to time for the uniformity of public worship have proceeded upon, though not expressly dealing with, this state of things. The 68th of the Canons of 1603 recognises it, and enjoins the Clergy to act upon it. In that Canon occurs the exception of persons excommunicated for some grievous and notorious crime, and of whose repentance no testimony could be given. The Canons of 1603 are no part of the Statute Law, and it is only in a qualified sense that they are part of the law at all. But this Canon has been taken as truly expressing the ancient Common Law of the Church. The Books of Common Prayer have been embodied into the Statute Law by the various Acts of Uniformity, and Rubrics are authoritative guides when they speak on the question when the services are or are not be to used.

6. Down to the year 1661 there was no Rubric forbidding the performance of the Burial Service over any persons except persons excommunicated. The Rubric now in force was framed in the year 1661, and received the force of law from the Uniformity Act of 1662. It prescribes that "the office is not to be used for persons unbaptised or excommunicated or who have laid violent hands on themselves."

7. The question now is whether the expression "have laid violent hands on themselves" includes all who have committed the overt act of suicide, or only those who have done so deliberately being in their sound senses, and in a state in which moral responsibility attaches to them.

† Page 793.

8. In Mr. Cripp's† Treatise, the following statement is made:—

The uniform practice, however, so far as it has been able to be ascertained, is in accordance with the reasoning and opinion of Dr. Burn, and it must be doubtful whether a departure from a custom of such acknowledged propriety would not be visited with ecclesiastical punishment.

9. The opinion of Dr. Burn will be found in his work on Ecclesiastical Law, Volume I, page 265. After referring to the ancient Canon which forbade Christian burial to those who violently put themselves to death, and stating that this rule was understood to apply to those who did the act voluntarily, Dr. Burn intimates that the Rubric should not be construed as severer than the preceding Ecclesiastical Law, and therefore should not apply to persons of insane mind.

10. In the year 1809, the Court of Arches, speaking of the treatment of suicides puts it on the ground that they are supposed to die in the commission of mortal sin, and to have renounced Christianity. *Kemp* versus *Wickes*, 3 Phillimore, P.P. 272, 273.

11. The Government of India have not been referred to, and do not know of, any authority for holding that the words of the Rubric apply to persons who are not

responsible for their actions. It is certain that the practice has not been to apply these words in that way.

12. Under the circumstances, the Governor-General in Council comes to the following conclusions :—

(*a*) It is reasonable in this matter to regulate the conduct of Clergymen of the Church of England, who serve the Government of India, by the law and practice of the Church of England.

(*b*) There is no authority for holding that the Rubric under consideration applies to those who have caused their own death when in a state of mental insanity. For holding the contrary, there is the authority of commentators and of judicial *dicta*. There is also the much greater authority derived from a usage which is very wide-spread and long continued, if, indeed, it is not quite unbroken. Testing the question by reason, it is only reasonable to hold that the framers of this Rubric did not intend as regards the burial of suicides to alter the law and practice that they found in existence, or to visit with what must be considered as an ecclesiastical penalty, an act for which the doer is not responsible.

(*c*) Sincere respect is due to the scruples felt by conscientious men in performing a service of extreme solemnity. Nevertheless, it would not be reasonable that such scruples should prevail against the ancient law and practice of the Church of England, which has been handed down to the present time, and which plainly authorizes the use of the burial service over persons who have caused their own death while in a state of insanity.

13. The Governor-General in Council must, therefore, require from all Clergymen connected with the Government their conformity to this ruling.

14. The next point for consideration is the rule requiring Chaplains to read the funeral service over the bodies of persons who, having died in the profession of the Roman Catholic faith, have been refused burial by the Priests of that Church. It is stated by the Bishops of Calcutta and Madras that the Clergy of the Church of England look upon the rule as bearing hardly upon them, and they desire to have it reconsidered.

15. This rule was laid down in the year 1855, under the belief that the case was governed by positive law, *viz.*, the 68th of the Canons of 1603. But on reconsideration of the matter, the Governor-General in Council is of opinion—1st, that the Canon in question which is founded on the English parochial system cannot, for the purpose now under consideration, be applied to the very different circumstances of an Indian Station; and 2ndly, that even if it were applicable, it would not prevent the Government from establishing a different rule of conduct for Indian Chaplains if found expedient.

16. The Governor-General in Council further thinks that, for the case now under review, a different rule is expedient. The Chaplain of an Indian station does not stand to the residents in the station in the relation which the Parson of an English parish bears to his parishioners. It was expressly so ruled by the Court of Directors in their despatch on this subject bearing date the 30th October 1844. Chaplains have been ordered to abstain from endeavours to influence the religious tenets of Roman Catholic soldiers, and in one case, a Chaplain was compelled to resign the service for persisting in such endeavours.

17. As regards the Chaplains themselves, it does not seem consistent that they should be compelled to perform duties towards the corpse of a man whom, when living, they were forbidden to approach in any pastoral relation, and the Governor-General in Council admits that the dissatisfaction, which the Chaplains have felt with the order of 1855, rests on reasonable grounds.

18. As regards other persons, it can hardly be agreeable to the feelings of either Protestants or Roman Catholics that the Chaplain should be called in to supply a service which the Priest has refused. To Protestants it must seem that, in so acting, their Church is lax and careless about the performance of its solemn rites. To Roman Catholics, it can hardly be otherwise than offensive that a stranger, who in their eyes has no authority, should affect to give to a member of their Church what the recognized authority of that Church has thought fit to withhold. And neither community can wish it on account of any advantage to the dead man: not Protestants, because the whole notion of such an advantage is contrary to their tenets; and not Roman Catholics, because they do not attribute any spiritual character to the Chaplain.

19. For the above reasons the Governor-General in Council is pleased to revoke the orders issued in the year 1855, and he will request the Military authorities to make arrangements for the decent burial of Roman Catholic soldiers, to whom the rites of their Church have been refused by the Priests.

Extract from the proceedings of the Government of India, in the Home Department (Ecclesiastical),—No. 159, under date Simla, the 6th June 1877.

Read again—

Home Department Resolution No. 275—287, dated the 8th September 1875, laying down certain rules for the guidance of Chaplains of the Church of England, in regard to the burial of suicides, &c.

Read also—

Office Memorandum from the Military Department, No. 810, dated the 16th November 1875 forwarding, for an expression of opinion, a draft General Order which His Excellency the Commander-in-Chief proposes to issue on the subject in accordance with the above rules.

RESOLUTION.—On a reconsideration of the subject, the Government of India think it necessary to modify the rules contained in the Resolution of 8th September 1875, so far as regards the burial of deceased Roman Catholics. The Government of India have now decided :—

1*st*—That at stations where there is a Roman Catholic Priest, drawing an allowance from Government, he shall be held bound to read the burial service over the body of every deceased Roman Catholic soldier brought for burial, unless he be excused from doing so by the Rubrics and Canons of the Roman Catholic Church : and that when the Roman Catholic Priest refuses to read the burial service over the body of a deceased Roman Catholic soldier, the Military authorities shall make proper arrangements for the decent interment of the corpse ;

2*ndly*—That where there is no Roman Catholic Priest, paid by the State, the Protestant Chaplain shall, if requested by the friends of the deceased, or by the Officer Commanding, be bound to bury the deceased according to the rites and ritual of the Church of England, except in either of the three cases in which Protestant Chaplains in India are excused from burying a deceased Protestant, *viz.*, dying unbaptized even by lay baptism ; excommunicated by the major excommunication ; or declared to be *felo de se* ; and that when a Protestant Chaplain refuses to officiate at the burial of a deceased Roman Catholic soldier, on either of the three above-mentioned grounds, the military authorities shall, as in the case of refusal by a Roman Catholic Priest, make proper arrangements for the decent interment of the corpse :—

3*rdly*—That whenever, with or without furnishing any explanation of his reasons, a Roman Catholic Priest, paid by the State, or a Protestant Chaplain refuses to perform the funeral rites of his Church over the body of a deceased Roman Catholic soldier, the circumstances of the case should be fully reported by the military authorities for the consideration and orders of the Government.

2. The Governor-General in Council is accordingly pleased to direct the modification, in the above sense, of the provisions of paragraphs 15 to 19, inclusive of the Resolution, 8th September 1875.

NOTES.—(1) The expression, "proper arrangements for the decent interment of the corpse" in Rules 1 and 2 means that when both the Roman Catholic and Protestant Chaplains refuse burial, in a case of suicide by a Roman Catholic soldier, whilst of unsound mind, the burial service should be read over the body by the Officer Commanding the deceased's Company.

Letter to Government of Madras, No. 347, dated the 31st October 1877.

(2) The intention of the passage, "bound to bury the deceased according to the rights and ritual of the Church of England," in Rule 2, is that the service of the Church of England should be read over the body, if the Protestant Chaplain is requested by the friends of the deceased to do so ; but the rule does not in any way re-impose on Protestant Chaplains the burden of reading the burial service over either soldiers or civilians to whom a Roman Catholic Chaplain has refused burial. There is nothing to prevent a Chaplain burying any one if he chooses to do so, provided they are not unbaptized 'even by lay baptism,' excommunicated by the major excommunication, or declared to be *felo de se*, only the Protestant Chaplain is no longer bound to do so.

Letter to Government of Madras, No. 347 dated the 31st October 1877.

(3) The expression "unbaptized even by lay baptism" in Rule 2, is equivalent to "unbaptized by either clerical or lay baptism." The meaning intended to be conveyed is that baptism, either by lay or clerical, is sufficient to prevent a person from being regarded as "unbaptized" for the purposes of the rule.

Letter to Chief Commissioner of British Burma, No. 194, dated the 2nd June 1879.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 15*th July* 1885.—Mr. G. C. Bose, M.A., Lecturer in the Ravenshaw College, Cuttack (class V), is allowed leave of absence for six months, under section 134, chapter X of the Civil Leave Code, in extension of that granted to him under the orders of the 27th February last.

Baboo Sri Krishna Chatterjea, Head Master of the Chupra Zillah School (class III), is allowed leave of absence for one year, under section 132, chapter X of the Civil Leave Code, with effect from the 15th July 1885, or such subsequent date as he may avail himself of it.

Baboo Siva Das Bhattacharjea, Head Master of the Mozufferpore Zillah School (class V), is appointed to officiate as Head Master of the Chupra Zillah School, during the absence, on leave, of Baboo Sri Krishna Chatterjea, or until further orders.

Baboo Gobinda Chandra Mitra, Head Master of the Bogra Zillah School (class IV), is appointed to officiate as Head Master of the Mozufferpore Zillah School, during the absence, on deputation, of Baboo Siva Das Bhattacharjea, or until further orders

CHARLES H. TAWNEY, *Offg. Director of Public Instruction.*

C. H. TAWNEY,
Offg. Director of Public Instruction.

Orders by the Vice-Chancellor and Syndicate of the Calcutta University.

THE following changes in the Regulations in Arts, which have been sanctioned by the Senate and approved by His Excellency the Governor-General in Council, are published for general information :—

In the marginal note appended to the Entrance certificate, the words "1st of November" have been substituted for the words "1st of July," and the words "1st of July" have been substituted for the words "1st of March" in the foot-note referring to the word "school" in the marginal note.

For the marginal note appended to the Entrance certificate of female candidates, the following note has been substituted :—

"This certificate is to be signed by the Principal or Head Master of the College or School at which the candidate has been educated continuously since 1st of November next preceding the examination; or if she has not been a pupil of any one school continuously since that date, by the Principal of an affiliated College or by a Government Inspector of Schools."

In paragraph 7 of the Regulations for the Degree of Bachelor of Arts under the head of Honour subjects in the A. Course, the words "and an original English Essay" have been inserted after the words "English language and literature."

In paragraph 5 of the Regulations for the M.A. Examination, the words "and one paper in English literature generally" have been added after the words "Anglo-Saxon Grammar."

Orders and Notifications by the Government of India, &c.

[*Reprinted from the Gazette of India.*]

The following order, issued by the Government of India in the Legislative Department, is republished for general information.

F. B. PEACOCK,
Secy. to the Govt. of Bengal.

NOTIFICATION.

Simla, the 6th July 1885.

No. 13.—The following Statute is published for general information :—

COLONIAL PRISONERS' REMOVAL ACT, 1884.

47 & 48 VICT. CHAPTER 31.

An Act to make further provision respecting the removal of Prisoners and Criminal Lunatics from Her Majesty's possessions out of the United Kingdom. [28*th July* 1884]

WHEREAS it is expedient to provide for the removal of prisoners undergoing sentence, and of criminal lunatics from one British possession to another British possession, or to the United Kingdom :—

Be it therefore enacted by the Queen's Most Excellent Majesty by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

Preliminary.

Short title.

1. This Act may be cited as the Colonial Prisoners' Removal Act, 1884.

Prisoners' Removal.

Removal of prisoners from British possessions in certain cases.

2. Where as regards a prisoner undergoing sentence of imprisonment in any British possession for any offence it appears to the removing authority hereinafter mentioned either—

(*a*) that it is likely that the life of the prisoner will be endangered or his health permanently injured by further imprisonment in such British possession ; or,

(*b*) that the prisoner belonged, at the time of committing the said offence, to the Royal Navy or to Her Majesty's regular military forces ; or

(*c*) that the offence was committed wholly or partly beyond the limits of the said British possession ; or

(*d*) that by reason of there being no prison in the said British possession in which the prisoner can properly undergo his sentence or otherwise the removal of the prisoner is expedient for his safer custody or for more efficiently carrying his sentence into effect ; or

(*e*) that the prisoner belongs to a class of persons who, under the law of the said British possession, are subject to removal under this Act ;

in any such case the removing authority may, subject nevertheless to the regulations in force under this Act, order such prisoner to be removed to any British possession or to the United Kingdom to undergo his sentence or the residue thereof.

Return of removed prisoner.

3. (*1*) Where a prisoner has been removed in pursuance of this Act, a Secretary of State or the Government of a British possession to which the prisoner has been so removed, may order the prisoner, for the purpose of undergoing the residue of his sentence, to be returned to the British possession from which he was removed.

(*2*) If a Secretary of State or the Government of a British possession to which a prisoner is removed under this Act, requires the prisoner to be returned for discharge to the British possession from which he was removed, the prisoner shall, in accordance with the regulations under this Act, be returned to the said British possession for the purpose of being there discharged at the expiration of his sentence. In any other case a prisoner when discharged at the expiration of his sentence shall be entitled to be sent free of cost to the British possession from which he was removed ;

Provided that where a prisoner at the date of his sentence belonged to the Royal Navy or to Her Majesty's regular military forces, nothing in this section shall require such prisoner to be returned to the British possession from which he was removed, or entitle him to be sent there free of cost.

Regulations as to removal.

4. (*1*) It shall be lawful for Her Majesty in Council from time to time to make, and when made, revoke and vary regulations as to the removal, return and discharge of prisoners under this Act.

(*2*) The regulations may provide for varying the conditions of a sentence of imprisonment passed in a British possession, where they differ from the conditions of a sentence of imprisonment in the part of Her Majesty's dominions to which the prisoner is removed, with a view to bringing them into conformity with the latter conditions, but the prisoner shall not by reason of such variation undergo an imprisonment of any longer duration ; and where the latter conditions appear to a Secretary of State to be more severe than the former conditions, the Secretary of State may remit a portion of the imprisonment so that the punishment undergone by the prisoner shall not in the opinion of the Secretary of State be more severe than the punishment to which the prisoner was originally sentenced, and the sentence of imprisonment shall, so long as the prisoner remains in the part of Her Majesty's dominions to which he is removed, be carried into effect as if the conditions thereof as so varied were the conditions of the original sentence.

(*3*) The regulations may also provide for the forms to be used under this Act and generally for the execution of this Act.

(*4*) All regulations made under this section shall be duly observed by all persons, and shall be laid before both Houses of Parliament as soon as may be after they are made.

Removing authority.

5. The removing authority for the purposes of this Act shall be a Secretary of State acting with the concurrence of the Government of every British possession concerned.

Evidence of act of Government of British possession or Secretary of State.

6. (*1*) The concurrence of the Government of a British possession, and any requisition by the Government of a British possession, may be given or made by the Governor in Council or such other authority as may be from time to time provided by the law of that possession, but shall be signified by writing under the hand of the Governor or of the Colonial Secretary or of any other officer appointed in this behalf by the law of that possession.

(*2*) Any writing purporting to give such concurrence or make such requisition, and to be signed by the Governor or Colonial Secretary or other officer for the time being, shall be conclusive evidence that the concurrence of or requisition by the Government of the British possession has been duly given or made according to law ; and any writing purporting to be under the hand of a Secretary of State, and to order the removal of a prisoner from a British possession, shall be conclusive evidence that such order has been duly given by the Secretary of State, and every such writing as above in this section mentioned shall be admissible in evidence in any Court in Her Majesty's dominions without further proof.

Warrant for removal of prisoner.

7. (*1*) Where the removal of a prisoner from a British possession is ordered in pursuance of this Act, a Secretary of State or the Governor of the British possession may by warrant under his hand direct the prisoner to be removed to the part of Her Majesty's dominions mentioned in the said order, and for that purpose to be delivered into the custody of the persons named or described in the warrant or some one or more of them, and to be held in custody and conveyed by sea or otherwise to the said part of Her Majesty's dominions, there to undergo his sentence, or the residue thereof, until returned in pursuance of this Act or discharged, and such warrant shall be forthwith executed according to the tenor thereof.

(*2*) Where a prisoner is to be returned to a British possession, a Secretary of State or the Governor of the possession in which he has been undergoing his sentence, shall issue a like warrant, which shall be duly executed according to the tenor thereof.

(*3*) Every warrant purporting to be issued in pursuance of this Act, and to be under the hand of a Secretary of State or Governor of a British possession, shall be received in evidence in every Court of Justice in Her Majesty's dominions without further proof, and shall be evidence of the facts therein stated, and all acts done in pursuance of such warrant shall be deemed to have been authorised by law.

Dealing with removed prisoner.

8. (*1*) Every prisoner removed in pursuance of this Act shall, until he is returned in pursuance of this Act, be dealt with in the part of Her Majesty's dominions to which he is removed, in like manner as if his sentence (with such variation, if any, of the conditions thereof as may have been duly made in pursuance of regulations under this Act) had been duly awarded in that part, and shall be subject accordingly to all laws and regulations in force in that part with the following qualifications, that his conviction, judgment, and sentence may be questioned in the part of Her Majesty's dominions from which he has been removed in the same manner as if he had not been removed, and that his sentence may be remitted and his discharge ordered in the same manner and by the same authority as if he had not been removed.

(*2*) The officer in charge of any prison, on request by any person having the custody of a prisoner under a warrant issued in pursuance of this Act, and on payment or tender of a reasonable amount for expenses, shall receive such prisoner and detain him for such reasonable time as may be requested by the said person for the purpose of the proper execution of the warrant.

Escape of prisoner from custody.

9. (*1*) If a prisoner while in custody in pursuance of this Act, or under a warrant issued in pursuance of this Act, escapes, by breach of prison or otherwise, out of custody, he may be retaken in the same manner as a person convicted of a crime against the law of the place to which he escapes may be retaken upon an escape.

(*2*) A person guilty of the offence of so escaping or of attempting so to escape, or of aiding or attempting to aid any such prisoner so to escape, may be tried in any of the following parts of Her Majesty's dominions, namely, the part to which and the part from which the prisoner is being removed or returned, and the part in which the prisoner escapes, and part in which the offender is found, and such offence shall be deemed to be an offence against the law of the part of Her Majesty's dominions in which he may be so tried, and for all purposes of and incidental to the apprehension, trial, and punishment of the person accused of such offence, and of and incidental to any proceedings and matter preliminary, incidental to or consequential thereon, and of and incidental to the jurisdiction of any Court constable or officer with reference to such offence, and to the person accused thereof, such offence shall be deemed to have been committed in the said part, and such person may be punished in accordance with the Courts (Colonial) Jurisdiction Act, 1874.

Criminal Lunatics.

Application of Act to removal of criminal lunatics.

10. (*1*) The provisions of this Act shall apply to a person in custody as a criminal lunatic in like manner, so far as consistent with the tenor thereof, as they apply to a prisoner undergoing sentence of imprisonment; and separate regulations may be made by Her Majesty in Council under this Act in relation to criminal lunatics, and (subject to those regulations) all laws and regulations in force in the part of Her Majesty's dominions in which a criminal lunatic removed or returned is for the time being in custody under a warrant issued in pursuance of this Act, shall apply to such criminal lunatic as if he had become a criminal lunatic in that part.

(*2*) Where a person, who is a criminal lunatic by reason of being unfit to be tried for an offence, is removed in pursuance of this Act, and a Secretary of State or the Government of the British possession to or from which such person was removed considers that such person has become sufficiently sane to be tried for the said offence, and requires him to be returned for trial to the British possession from which he was removed, he shall, in accordance with the regulations under this Act, be returned as a prisoner to the said British possession for the purpose of being there tried for the said offence, and shall be removed thither in custody in like manner as if he had been arrested under a warrant on a charge for the said offence.

Miscellaneous.

Cost of removal.

11. (*1*) The cost of the removal of any prisoner or criminal lunatic under this Act and of his maintenance while in confinement, and of his return, and of his being sent after discharge to any place, shall be paid in such manner as may be arranged between the Governments of the British possessions concerned and the Secretary of State, subject, as regards any cost to be paid out of moneys provided by Parliament, to the consent of the Commissioners of Her Majesty's Treasury.

(*2*) Nothing in this Act shall affect any power to recover the expenses of removing or returning any prisoner or criminal lunatic from the property of such prisoner or criminal lunatic or otherwise.

Power of legislature of British possession to pass laws for carrying Act into effect.

12. If the legislature of a British possession pass any law—

(*a*) for determining the authority by whom and the manner in which any jurisdiction, power, or concurrence under this Act is to be exercised or given; or

(*b*) for payment of the costs incurred in the removal, maintenance, return, or sending back after discharge of a prisoner or criminal lunatic; or

(*c*) for dealing in such possession with prisoners or criminal lunatics removed thereto in pursuance of this Act; or

(*d*) for making any class of prisoners subject to removal under this Act; or

(*e*) otherwise in any manner for the carrying of this Act or any part thereof into effect as regards the said possession,

it shall be lawful for Her Majesty in Council to direct that such law or any part thereof shall with or without modification or alteration be recognized and given effect to throughout Her Majesty's dominions and on the high seas as if it were part of this Act.

Power as to making and revocation of orders in Council.

13. (*1*) It shall be lawful for Her Majesty in Council from time to time to make orders for the purposes of this Act, and to revoke and vary any order so made, and every order so made shall while it is in force have the same effect as if it were enacted in this Act.

(*2*) An order in Council made for the purposes of this Act shall be laid before Parliament as soon as may be after it is made if Parliament is then in session, or, if not, as soon as may be after the commencement of the then next session of Parliament.

Application of Act to Channel Islands and Isle of Man.

14. This Act shall extend to the Channel Islands and Isle of Man as if they were part of England and the United Kingdom.

Application of Act to place under Foreign Jurisdiction Acts. See 41 & 42 Vict. c. 67.

15. It shall be lawful for Her Majesty in Council from time to time to direct that this Act shall apply, as if, subject to the conditions, exceptions, and qualifications (if any) contained in the order, any place out of Her Majesty's dominions in which Her Majesty has jurisdiction, and which is named in the order, were a British possession and part of Her Majesty's dominions, and to provide for carrying into effect such application.

Savings.

16. (*1*) Nothing in this Act shall affect the provisions of the Army Act, 1881.

(*2*) This Act shall not affect any agreement made either before or after the passing of this Act under the Colonial Prisoners' Removal Act, 1869, nor any provisions contained in the Act of the Session of the fourteenth and fifteenth years of the reign of Her present Majesty, chapter eighty-one, intituled "An Act to authorise the removal from India of insane persons charged with offences, and to give better effect to inquisitions of lunacy taken in India."

Application of Act to existing prisoners and criminal lunatics.

17. This Act shall apply to a prisoner who has been convicted, and to a criminal lunatic who has become a criminal lunatic, before the passing of this Act, in like manner as if he had been convicted and become a criminal lunatic after the commencement of this Act.

Definitions.

18. In this Act, unless the context otherwise requires, the following expressions have the following means; that is to say,

The expression "British possession" does not include any place within the United Kingdom, the Isle of Man, or the Channel Islands, but includes all other territories and places being part of Her Majesty's dominions, and all territories and places within Her Majesty's dominions which are not part of India and are under one legislature shall be deemed to be one British possession, any part of India under a Governor or Lieutenant-Governor shall be deemed to be one British possession.

The expression "India" means all territories and places within Her Majesty's dominions which are subject to the Governor-General of India in Council.

The expression "legislature," where there are local legislatures, as well as a central legislature, means the central legislature only, and in every part of India means the Governor-General in Council.

The expression "Secretary of State" means one of Her Majesty's Principal Secretaries of State.

The expression "Governor" means any person or persons administering the Government of a British possession, and includes the Governor-General of India and also the Governor and Lieutenant-Governor of any part of India.

The expression "Colonial Secretary" includes a person performing the like duties as a Colonial Secretary, whether known as Government Secretary, Chief Secretary to the Government, or by any other title.

The expression "prison" includes any place for the confinement or detention of prisoners whether convicted or unconvicted.

The expression "sentence of imprisonment" means any sentence involving confinement in a prison, whether combined or not with labour, and whether known as penal servitude, imprisonment with hard labour, rigorous imprisonment, imprisonment, or otherwise, and includes a sentence awarded by way of commutation as well as an original sentence passed by the Court.

The expression "criminal lunatic" means a person detained in cutody by reason of his having been charged with an offence, and either found to have been insane at the time of such offence, or found or certified or otherwise lawfully proved to be unfit on the ground of his insanity to be tried for the same, and includes a person convicted of an offence and afterwards certified or otherwise lawfully proved to be insane.

2	6504	Subhunkurpúr, pergunnah Hani.	2,971 15 0	Chaudhri Narsing Narain Singh, Chaudhri Gudar Singh, and Chaudhri Nunu Parshad.	1,544 0 6	23 5 1	Ditto.

Durbhunga Collectorate, the 8th July 1885. GOWHUR ALLY, Deputy Collector in charge.

NOTICE is hereby given, under section 6, Act XI of 1859, that the undermentioned estates, in the district of the 24-Pergunnahs, will be held at public and unreserved sale at the Collector's office of that district on the 27th July, corresponding with 12th Srabun, Monday, for the recovery of arrears of revenue which was due on the 28th March.

Number on the towji.	Name of estate.	Name of pergunnahs.	Name of recorded proprietor.	Sudder jumma.	REMARKS.
		CLASS I.—*Permanently-settled Estate.*			
				Rs. A. P.	
649	Kismut Surporajpur and others.	Surporajpur ...	Rajah Boroda Kant Rai and others.	4,596 12 3	Exclusive of 8 annas share of the estate in respect of which a separate account has been opened under section 10 of Act XI of 1859, only the joint share of 8 annas bearing a revenue of Rs. 2,298-6-1½ from which Rs. 630-5-5½ is due up to 28th March 1885 will be put up to sale.
1534	Taruf Bantra and others.	Pergunnah Myda ...	Bhoopendro Nath Dutto and others.	14,681 6 4	Only 2 annas 8 gundas 3 kowris share of the estate in respect of which a separate account has been opened under section 10, Act XI of 1859, bearing No. 1534-4, with Nagendro Nath Dutto, at an annual sudder jumma Rs. 2,236-9-11, and from which Rs. 1,148-15-5 is due up to kist 8th March 1885, will be put up to sale.

24-Pergunnahs Collectorate, the 27th May 1885. A. W. PAUL, Offg. Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate, situate in the district of Bhagulpore, thana Bejoy, pergunnah Chyee, will be put up to sale at the Mudehpoorah sub-divisional officer's office on Monday, the 24th August 1885, corresponding with 28th Srabun 1292 F.S.

The purchaser will be subject to the following conditions of sale—

Conditions of Sale.

1*st*.—The estate to be sold revenue free to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary rights of Government in such estate will be transferred to him.

2*nd*.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3*rd*.—If the amount of purchase money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Notice.

Oudh Forest Department.

BAHRAMGHAT DEPOT.

ON THE OUDH AND ROHILKHAND RAILWAY.

FROM this date the prices of sâl beams and scantlings supplied from this depôt will be as follows:—

BEAMS.—21 feet length, at Rs. 2-10 per cubic foot.
22 ,, ,, 2-12 ,,
23 ,, ,, 2-14 ,,
24 ,, ,, 3 ,,

Above the length given two annas per foot run will be charged. Any inches over the foot will be charged as a foot.

SCANTLINGS—From 12 to 20 feet, at Rs. 2-8 per c. ft.
Under 12 and over 7, at ,, 2-4 ,,
Under 7 feet ... at ,, 2 ,,

The above prices are for ordinary building purposes.

For *Planking*, *Sleepers*, &c., special rates will be fixed by agreement.

The Department will still take orders for buildings all over at Rs. 2-4 per cubic foot, provided the scantlings are taken in fair proportion.

Second and Third Class Timber will be sold and price fixed by agreement.

Auction Sales will be held from time to time to clear off stock.

For further particulars apply to the Officer in charge.

By order of the Conservator of Forests, N. W. P. and Oudh, Oudh Circle.

KANHYA LAL,
Sub-Assistant Conservator of Forests,
Bahramghat Division.

Bahramghat, the 1st April 1883.

Government Cinchona Febrifuge.

THIS preparation is an efficient substitute for Quinine and can be purchased by Government officers for public and charitable purposes, and by any one taking *twenty pounds* at a time, from the Superintendent, Botanical Garden, Calcutta, *for cash only*, at the following rates:—per four ounce tin, *Rs.* 4 *ans.* 8; per eight ounce tin, *Rs.* 8 *ans.* 8; per pound tin, *Rs.* 16 *ans.* 8. The general public can be supplied by the Superintendent, Botanical Garden, *for cash only*, at the undernoted rates:—per four ounce tin, *Rs.* 5 *ans.* 8; per eight ounce tin, *Rs.* 10 *ans.* 8; per pound tin, *Rs.* 20. This medicine is also sold by the principal European and Native druggists in Calcutta. Postage eight annas per 4 and 8 oz. tins, and twelve annas per pound tin, in addition to the foregoing rates.

Crystalline Cinchona Febrifuge.

A NEW and improved preparation made at the Government Factory from Red Cinchona Bark. This is a more perfect substitute for Quinine than the ordinary uncrystallized Febrifuge. It can be purchased by Government officers for public and charitable purposes, and by any one taking twenty pounds at a time, from the Superintendent, Botanic Garden, Calcutta, for cash only, at the rate of Rs. 24 per pound. The general public can be supplied by the Superintendent, Botanic Garden, for cash only, and also by the principal European and Native druggists at Rs. 32 per pound. Postage twelve annas extra.
